This grant will be utilized for a public purpose pursuant to Section 42F-102, Hawaii Revised Statutes.

II. Background and Summary

This section shall clearly and concisely summarize and highlight the contents of the request in such a way as to provide the State Legislature with a broad understanding of the request. Please include the following:

1. A brief description of the applicant's background;

The Hawai'i Good Food Alliance is a diverse hui of people who share in the production, aggregation and distribution of food to re-build thriving community food systems. We join together—with a sense of urgency—to raise community voice and support one another in the belief that each and every person in Hawai'i can share in healthy, locally produced food.

Hawai'i GOOD FOOD Alliance

Communities uniting to grow, eat, and share

The group started in 2016, convening food systems leaders across all Hawai'i counties, and currently includes members from:

Hawai'i Good Food Alliance

- ❖ *Malama Kauai*
- ❖ *Ko'ua Kallhi Valley Comprehensive Community Services*
- ❖ *Waianae Comp, MA'O Farms, Kahumana Farms*
- ❖ *Sustainable Molokai*
- ❖ *Maui Food Bank*
- ❖ *Hawaii Island - The Food Basket, The Kohala Center, Blue Zones, Bodacious Ladies*

The Alliance includes farmers, emergency food relief, health clinics, and other food systems nonprofits across all counties. In 2019, Alliance organizations reached 110,744 consumers to supply local, good food and inspired 85,532 volunteer hours. Those efforts are supporting 366 local farms and getting local food to 327 local institutions and retail outlets. The Alliance's approach is to restore the ability of communities to produce, distribute, and consume their own food that connects people to land and each other.

In this grant opportunity, The Hawai'i Good Food Alliance is being fiscally sponsored by The Food Basket.

2. The goals and objectives related to the request;

The goal of this request is to center, and reconnect, culture into Hawaii's local food movement and grow the local food economy. As part of that overall goal, we are pursuing two objectives:

- Convene 13 food systems leaders from across the state in 4 quarterly meetings; and

- Produce a series of 4 short videos, social media posts, and other local food marketing communications as part of a campaign to eat local, eat healthy, and reconnect to your culture.

3. The public purpose and need to be served;

We know local food production and eating local has economic value--creating jobs, and building a more resilient agricultural economy. The State recognizes a thriving local agriculture economy as critical, yet there is more work to do to make this vision a reality.

People want to grow more of their own food, and they want to eat more local food. Yet, a lot of the local food movement components (e.g., growing, sharing, and enjoying food) are disconnected--from each other, and from the diverse cultures of Hawaii. The Alliance is solving for a set of problems facing the local food movement:

Problem	Public Purpose
Organizations in the local food movement are not connected with each other	Increase collaboration and efficient uses of resources
People don't connect culture and local eating	Healthy eating and social cohesion improve health
Not enough farmers are not able to earn a living wage	Creating a thriving local agricultural economy

HGFA will expand the ability for people to grow food, and will promote the benefits of local, healthy eating. BUT, there is growing evidence that culture, and how it connects us to each other and to our land is what will drive healthier people and a stronger economy (see figure below). When we are connected, we are seeing reduced health risks, improved graduation rates, and a stronger local agriculture economy.

4. Describe the target population to be served; and

Every Alliance member serves Native Hawaiians, Kupuna, youth ages 16-24, and people from low income communities across all counties.

5. Describe the geographic coverage.

Statewide implementation in every county.

III. Service Summary and Outcomes

The Service Summary shall include a detailed discussion of the applicant’s approach to the request. The applicant shall clearly and concisely specify the results, outcomes, and measures of effectiveness from this request. The applicant shall:

1. Describe the scope of work, tasks and responsibilities;

Objective/Task	Milestones	Responsibility

Communicate the health benefits of eating foods that are locally grown and culturally based.	4 video shorts posted to the Alliance YouTube channel, website, and social media; Social media posts reaching >500 people; and other communication as part of a strategy	All alliance members participating; Tina Tamai coordinating

2. Provide a projected annual timeline for accomplishing the results or outcomes of the service;

Q1 (July 1-Sept 30): Convening 1 complete; Communications strategy developed

Q2 (Oct 1-Dec 31): Convening 2 complete; Videos 1 and 2 complete and pushed out; 2020 Membership Survey

Q3 (Jan 1-Mar 30): Convening 3 complete: Videos 3 and 4 complete and pushed out

Q4 (Apr 1-Jun 30): Convening 4 complete: Financial sustainability plan to continue the Alliance’s activities for FY 2021-2022 and beyond

3. Describe its quality assurance and evaluation plans for the request. Specify how the applicant plans to monitor, evaluate, and improve their results; and

The Alliance implements an annual membership survey with the University of Hawaii Cooperative Extension. We will conduct that survey again in late 2020 and 2021 to monitor collective impact of the Alliance on factors such as:

- Food production capacity (e.g., cultivated land using sustainable production);
- Communication and community engagement reach; and
- Organization sustainability (e.g., paid FTE, volunteer hours, earned income).

The Alliance will also use some of the time spent on evaluation to explore ways to better monitor, quantify, and communicate the collective impact in the food system relative to health, economic, and environmental outcomes.

4. List the measure(s) of effectiveness that will be reported to the State agency through which grant funds are appropriated (the expending agency). The measure(s) will provide a standard and objective way for the State to assess the program's achievement or accomplishment. Please note that if the level of appropriation differs from the amount included in this application that the measure(s) of effectiveness will need to be updated and transmitted to the expending agency.

We will report on the following measures of effectiveness (baseline year of 2019) for combined impacts of HGFA membership:

- Number of local farms benefiting from HGFA activities (e.g. distribution, TA; baseline = 366)
- Number of food consumers benefiting from HGFA activities (baseline = 110,744)
- Total revenue of Alliance farm and food organizations, and % of revenue from earned business income (baseline=\$6M total revenue; \$1M earned business income).
