
A BILL FOR AN ACT

RELATING TO PRIVACY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 PART I

2 SECTION 1. The legislature finds that House Concurrent
3 Resolution No. 225, Senate Draft 1 (2019), established the
4 twenty-first century privacy law task force, whose membership
5 consisted of individuals in government and the private sector
6 with an interest or expertise in privacy law in the digital era.
7 The resolution found that public use of the internet and related
8 technologies has significantly expanded in recent years, and
9 that a lack of meaningful government regulation has resulted in
10 personal privacy being compromised. Accordingly, the
11 legislature requested that the task force examine and make
12 recommendations regarding existing privacy laws and regulations
13 to protect the privacy interests of the people of Hawaii.

14 The legislature further finds that the task force
15 considered a spectrum of related privacy issues which have been
16 raised in Hawaii and other states in recent years. Numerous
17 states have begun to address the heightened and unique privacy

1 risks that threaten individuals in the digital era of the
2 twenty-first century. Dozens of states have already adopted
3 components of privacy law contained in this Act. California has
4 enacted a comprehensive privacy act, and states such as
5 Minnesota, New York, Virginia, and Washington are considering
6 comprehensive legislation during their current legislative
7 sessions.

8 The legislature finds that, following significant inquiry
9 and discussion, the task force made the following seven
10 recommendations.

11 First, the task force recommended that the definition of
12 "personal information" in chapter 487N, Hawaii Revised Statutes,
13 should be updated and expanded, as the current definition of
14 "personal information" is outdated and needs to be amended.
15 Individuals face too many identifying data elements that, when
16 exposed to the public in a data breach, place an individual at
17 risk of identity theft or may compromise the individual's
18 personal safety. Chapter 487N, which requires the public to be
19 notified of data breaches, is not, in its current form,
20 comprehensive enough to cover the additional identifiers.
21 Accordingly, that chapter's definition of "personal information"

1 should be updated and expanded to include various personal
2 identifiers and data elements that are found in more
3 comprehensive laws.

4 Second, the task force recommended that explicit consent be
5 required before an individual's identifying data may be used,
6 shared, or sold, and individuals should have the right to know
7 what data relates to them, the ability to opt in or out of its
8 use, and the right to delete it. An individual's identifying
9 data can be used, sold, and purchased without consent, and many
10 people do not know that they are susceptible to this risk.

11 Third, the task force recommended that explicit consent be
12 required before an individual's geolocation data may be shared
13 or sold to a third party. Numerous reports have been raised in
14 which a person's real time location is identified, allowing the
15 person to be tracked without that person's knowledge or consent
16 by third parties, who in turn share or sell the real time
17 location. This scenario creates serious privacy and safety
18 concerns.

19 Fourth, the task force recommended that explicit consent be
20 required before an individual's internet browser history and
21 content accessed may be shared or sold to a third party.

1 Fifth, the task force recommended that third party data
2 brokers buying and reselling people's information and data be
3 required to register with the State, that meaningful tools be
4 established for people to manage and control their data,
5 including an opt-in or opt-out of the sale or use of their data
6 by third parties, and that penalties be established for non-
7 compliance.

8 Sixth, the task force recommended that, in order to align
9 state law with the holding by the Supreme Court of the United
10 States in *Carpenter v. United States*, 138 S.Ct. 2206 (2018), and
11 current law enforcement practice, the Hawaii Revised Statutes
12 should be amended to:

- 13 (1) Require law enforcement to obtain a search warrant
14 before accessing a person's electronic communications
15 in non-exigent or non-consensual circumstances; and
16 (2) Authorize governmental entities to request, and
17 authorize courts to approve, the delay of notification
18 of law enforcement access to electronic communications
19 up to the deadline to provide discovery in criminal
20 cases.

- 1 (2) Driver's license number, federal or state
- 2 identification card number, or passport number;
- 3 (3) A federal individual taxpayer identification number;
- 4 (4) An individual's financial account number or credit or
- 5 debit card number;
- 6 (5) A security code, access code, personal identification
- 7 number, or password that would allow access to an
- 8 individual's account;
- 9 (6) Health insurance policy number, subscriber
- 10 identification number, or any other unique number used
- 11 by a health insurer to identify a person;
- 12 (7) Medical history, medical treatment by a health-care
- 13 professional, diagnosis of mental or physical
- 14 condition by a health care professional, or
- 15 deoxyribonucleic acid profile;
- 16 (8) Unique biometric data generated from a measurement or
- 17 analysis of human body characteristics used for
- 18 authentication purposes, such as a fingerprint, voice
- 19 print, retina or iris image, or other unique physical
- 20 or digital representation of biometric data; and

1 (9) A private key that is unique to an individual and that
2 is used to authenticate or sign an electronic record."

3 2. By amending the definition of "personal information" to
4 read:

5 "Personal information" means an [~~individual's first name or~~
6 ~~first initial and last name in combination with any one or more~~
7 ~~of the following data elements, when either the name or the data~~
8 ~~elements are not encrypted:~~

9 ~~(1) Social security number;~~

10 ~~(2) Driver's license number or Hawaii identification card~~
11 ~~number; or~~

12 ~~(3) Account number, credit or debit card number, access~~
13 ~~code, or password that would permit access to an~~
14 ~~individual's financial account.]~~

15 identifier in combination with one or more specified data
16 elements. "Personal information" does not include publicly
17 available information that is lawfully made available to the
18 general public from federal, state, or local government
19 records."

1 PART III

2 SECTION 3. The Hawaii Revised Statutes is amended by
3 adding a new chapter to title 26 to be appropriately designated
4 and to read as follows:

12 (b) A business that collects a consumer's personal
13 information, at or before the point of collection, shall inform
14 consumers as to the categories of personal information to be
15 collected and the purposes for which the categories of personal
16 information shall be used. A business shall not collect
17 additional categories of personal information or use personal
18 information collected for additional purposes without providing
19 the consumer with notice consistent with this section.

1 (c) A business shall provide the information specified in
2 subsection (a) to a consumer only upon receipt of a verifiable
3 consumer request.

9 if provided electronically, the information shall be in a
10 portable and, to the extent technically feasible, in a readily
11 useable format that allows the consumer to transmit this
12 information to another entity without hindrance. A business may

14 shall not be required to provide personal information to a
15 consumer more than twice in a twelve-month period.

18 transaction, if the information is not sold or retained by the
19 business or used to reidentify or otherwise link information
20 that is not maintained in a manner that would be considered
21 personal information.

1 § -12 Right to delete personal information. (a) A
2 consumer may request that a business delete any personal
3 information about the consumer that the business has collected
4 from the consumer.

5 (b) A business that collects personal information about
6 consumers shall disclose, pursuant to this section, the
7 consumer's right to request the deletion of the consumer's

11 deletion of their personal information.

12 (c) A business that receives a verifiable request from a
13 consumer to delete the consumer's personal information pursuant
14 to subsection (a) shall delete the consumer's personal
15 information from its records and direct any service providers to
16 delete the consumer's personal information from their records.

17 (d) A business shall not be required to comply with a
18 consumer's request to delete the consumer's personal information
19 if it is necessary for the business to maintain the consumer's
20 personal information to:

- 1 (1) Complete the transaction for which the personal
2 information was collected, provide a good or service

4 within the context of a business's ongoing business
5 relationship with the consumer, or otherwise fulfill a
6 contractual obligation between the business and the
7 consumer;
- 8 (2) Detect security incidents, protect against malicious,
9 deceptive, fraudulent, or illegal activity, or
10 prosecute those responsible for that activity;

- 17 (6) Engage in public or peer-reviewed scientific,
18 historical, or statistical research in the public
19 interest that adheres to all other applicable ethics
20 and privacy laws, when the businesses' deletion of the
21 information is likely to render impossible or

1 seriously impair the achievement of the research, if
2 the consumer has provided informed consent;

3 (7) Enable solely internal uses that are reasonably
4 aligned with the expectations of the consumer based on
5 the consumer's relationship with the business;

6 (8) Comply with a legal obligation; or

7 (9) Otherwise use the consumer's personal information,
8 internally, in a lawful manner that is compatible with
9 the context in which the consumer provided the
10 information.

11 **§ -13 Discrimination against consumers.** (a) A business
12 shall not discriminate against a consumer in response to the
13 consumer's exercise of any of the consumer's rights under this
14 part by:

15 (1) Denying goods or services to the consumer;

16 (2) Charging different prices or rates for goods or
17 services, including through the use of discounts or
18 other benefits or imposing penalties;

19 (3) Providing a different level or quality of goods or
20 services to the consumer;

1 (4) Suggesting that the consumer will receive a different
2 price or rate for goods or services or a different
3 level or quality of goods or services; or

4 (5) Any other method of discouraging the consumer's
5 patronage of the business.

6 (b) Nothing in this section prohibits a business from
7 charging a consumer a different price or rate, or from providing
8 a different level or quality of goods or services to the
9 consumer, if that difference is reasonably related to the value
10 provided to the business by the consumer's personal information.

11 (c) A business may offer financial incentives, including
12 payments to consumers as compensation, for the collection of
13 personal information, the sale of personal information, or the
14 deletion of personal information. A business may also offer a
15 different price, rate, level, or quality of goods or services to
16 the consumer if that price or difference is directly related to
17 the value provided to the business by the consumer's personal
18 information.

19 § -14 Obligations of a business. (a) When complying
20 with requirements of this part, a business shall:

- 1 (1) Make available to consumers two or more designated
2 methods for submitting requests for information
3 required to be disclosed, including, at a minimum, a
4 toll-free telephone number, and if the business
5 maintains a website, a website address; and
- 6 (2) Disclose and deliver the required information to a
7 consumer free of charge within forty-five days of
8 receiving a verifiable request from the consumer;
9 provided that a business may take steps to determine
10 whether the request is a verifiable request; provided
11 further that time taken to determine whether a request
12 is a verifiable request shall not extend the
13 business's duty to disclose and deliver the
14 information within forty-five days of receipt of the
15 consumer's request.
- 16 (b) A business's disclosure of personal information shall:
- 17 (1) At a minimum, cover the twelve-month period preceding
18 the business's receipt of the verifiable request; and
- 19 (2) Be made in writing and delivered through the
20 consumer's account with the business, if the consumer
21 maintains an account with the business, or by mail or

1 electronically at the consumer's option if the
2 consumer does not maintain an account with the
3 business, in a readily useable format that allows the
4 consumer to transmit this information from one entity
5 to another entity without hindrance.

6 (c) The time period to provide the required information
7 may be extended once by an additional forty-five days when
8 reasonably necessary if the consumer is provided notice of the
9 extension within the first forty-five-day period.

10 (d) If a business does not take action on the request of a
11 consumer, the business shall inform the consumer, without delay
12 and within the time period permitted of response by this
13 section, of the reasons for not taking action and any rights the
14 consumer may have to appeal the decision to the business.

15 (e) If requests from a consumer are manifestly unfounded
16 or excessive, in particular because of their repetitive
17 character, a business may either charge a reasonable fee, taking
18 into account the administrative costs of providing the
19 information or communication or taking the action requested, or
20 refuse to act on the request and notify the consumer of the
21 reason for refusing the request. The business shall bear the

1 burden of demonstrating that any verified consumer request is
2 manifestly unfounded or excessive.

3 (f) A business shall not require a consumer to create an
4 account with the business in order to make a verifiable request.

5 (g) The obligations imposed on businesses by this part
6 shall not restrict a business's ability to:

7 (1) Comply with federal, state, or local laws;

8 (2) Comply with a civil, criminal, or regulatory inquiry,
9 investigation, subpoena, search warrant, or summons by
10 federal, state, or local authorities;

11 (3) Cooperate with law enforcement agencies concerning
12 conduct or activity that the business, service
13 provider, or third party reasonably and in good faith
14 believes may violate federal, state, or local law;

15 (4) Exercise or defend legal claims;

16 (5) Collect, use, retain, sell, or disclose consumer
17 information that is deidentified or in the aggregate
18 consumer information; provided that with respect to
19 deidentified information, the business shall:

- 1 (A) Have implemented technical safeguards that
- 2 prohibit reidentification of the consumer to whom
- 3 the information may pertain;
- 4 (B) Have implemented business processes that
- 5 specifically prohibit reidentification of the
- 6 information;
- 7 (C) Have implemented business processes to prevent
- 8 inadvertent release of deidentified information;
- 9 and
- 10 (D) Make no attempt to reidentify the information; or
- 11 (6) Collect or sell a consumer's personal information if
- 12 the business collected that information while the
- 13 consumer was outside of the State, no part of the sale
- 14 of the consumer's personal information occurred in the
- 15 State, and no personal information collected is sold
- 16 while the consumer was in the State; provided that
- 17 this paragraph shall not be construed to authorize a
- 18 business to:
 - 19 (A) Store, regardless of whether the storage is on
 - 20 device, personal information about a consumer
 - 21 when the consumer is in the State; and

1 (B) Subsequently collect the aforementioned personal
2 information when the consumer and stored personal
3 information are outside of the State.

4 § -15 Federal law exemptions. (a) This part shall not
5 apply to protected health information that is collected by a
6 covered entity governed by the chapter 323B or governed by the
7 privacy, security, and breach notification rules issued by the
8 federal Department of Health and Human Services, title 45 Code
9 of Federal Regulations parts 160 and 164, established pursuant
10 to the Health Insurance Portability and Availability Act of 1996
11 (P.L. 104-191).

12 (b) This part shall not apply to the sale of personal
13 information to or from a consumer reporting agency if that
14 information is to be reported in, or used to generate, a
15 consumer report as defined in title 15 United States Code
