A BILL FOR AN ACT

RELATING TO AGRICULTURAL ENTERPRISES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1	SECTION 1. The Hawaii Revised Statutes is amended by
2	adding a new chapter to be appropriately designated and to read
3	as follows:
4	"CHAPTER
5	AGRICULTURAL ENTERPRISES
6	§ -1 Purpose. Article XI, section 3, of the state
7	constitution establishes in part that the "State shall conserve
8	and protect agricultural lands, promote diversified agriculture,
9	increase agricultural self-sufficiency and assure the
10	availability of agriculturally suitable lands."
11	The legislature finds that smaller scale farming
12	operations, particularly those associated with diversified
13	agriculture, usually do not have ready access to nor the
14	resources to pay for their own modern processing, packing,
15	storage, and distribution enterprises to expand or maximize
16	productivity of their agricultural operations. Due to global
17	competition and the recent implementation of national food

- 1 safety standards, the department of agriculture has found it
- 2 needs to support the growth of diversified agriculture by
- 3 encouraging agricultural enterprises on the department of
- 4 agriculture's state lands through activities including planning,
- 5 designing, constructing, operating, and managing agricultural
- 6 enterprises to ensure the economic viability of agricultural
- 7 operations, as well as allowing lessees to do the
- 8 same. Therefore, the legislature finds that it is in the
- 9 State's best interests to promote and support diversified
- 10 agriculture and increase agricultural self-sufficiency by
- 11 establishing an agricultural enterprise program within the
- 12 department of agriculture, for purposes and in a manner
- 13 consistent with article XI, section 3, of the state
- 14 constitution.
- The purpose of this chapter is to establish
- 16 the agricultural enterprise program within the department of
- 17 agriculture to allow the department or a lessee to plan, design,
- 18 construct, operate, manage, maintain, repair, demolish, and
- 19 remove facilities on any lands over which the department has
- 20 jurisdiction, to support and promote agriculture, and to accept
- 21 the transfer of any lands that will support an agricultural

- 1 purpose from the department of land and natural resources and to
- 2 operate or manage those resources.
- 3 § -2 Definitions. As used in this chapter, unless the

HB 940

JUSTIFICATION SHEET

DEPARTMENT:

Agriculture

TITLE:

A BILL FOR AN ACT RELATING TO AGRICULTURAL

ENTERPRISES.

PURPOSE:

Establish an agricultural enterprise program on all lands managed by the Department ("HDOA lands") that allows ancillary and other activities related to and supportive of agriculture, without the restrictive conditions under the existing Agriculture Park (Ag Park) and Non-agricultural Park (Non-Ag Park) programs that only focus on growing organisms. The proposed program recognizes that the business of agriculture is equally as important as the production of crops and organisms. Create three (3) new positions within the Agricultural Resource Management Division to provide sufficient staffing to support the establishment and integration of this program within the Department.

MEANS:

Add a new chapter to the Hawaii Revised Statutes and amend section 141-1, Hawaii Revised Statutes.

JUSTIFICATION:

The Department's mission statement is to expand Hawaii's agricultural industry to (1) benefit the well-being of our island society through economic diversification; (2) protect its resources for agricultural production; and (3) gain greater selfsufficiency through food and renewable energy production. Under existing statutory authority, while the production of crops and organisms on HDOA are expressly promoted and allowed, it appears to be silent on the allowance of ancillary and other activities that are supportive of and important to the economic viability and success of agriculture. Establishing this program, expressly clarifying that ancillary and other related activities supporting agriculture are encouraged, and providing

sufficient staffing to implement this wholistic approach will ensure the Department can fulfill its statewide goals and objectives.

Impact on the public: Provides greater support for efficient and effective processing, storage, transport, and marketing of agricultural products to support the business of agriculture and support for research, education, and promotion of agriculture.

Impact on the department and other agencies: Allows the Department greater flexibility in using HDOA lands for all purposes that promote agricultural diversification, production, and self-sufficiency by supporting all facets of the business of agriculture. Provides the Department with more tools and assets to assist DOE farm to table programs for schools and restaurants. contribute to the Department of Business, Economic Development & Tourism's sustainability goals for renewable energy, incorporate culturally sensitive agricultural programs and practices to support the Department of Hawaiian Home Lands, Office of Hawaiian Affairs and other native Hawaiian organizations, and adopt innovative technologies and processes to ensure the long-term success of agriculture.
