JAN 17 2020

#### A BILL FOR AN ACT

RELATING TO ELECTRONIC SMOKING PRODUCTS.

#### BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that electronic smoking
 devices, also known as e-cigarettes, are battery-operated
 products designed to deliver nicotine, flavor, and other
 chemicals to the user by turning chemicals, including highly
 addictive nicotine, into an aerosol that is inhaled by the user.
 The legislature is concerned with the health and safety of
 e-cigarette products.

8 The legislature further finds that electronic smoking 9 devices are known to contain volatile organic compounds that, at 10 certain levels, can cause eye, nose and throat irritation, 11 headaches and nausea, and can damage the liver, kidneys and the 12 nervous system. The liquids used in e-smoking devices are 13 largely unregulated and contain harmful chemicals. Some 14 flavorings are more toxic than others. Studies have shown that 15 some flavors contain different levels of diacetyl, a chemical that has been linked to a serious lung disease called 16 17 bronchiolitis obliterans. Formaldehyde is another chemical

#### S.B. NO. 2227

associated with e-liquids. It is a cancer-causing substance
 that forms if e-liquid overheats or not enough liquid reaches
 the heating element.

4 In 2019, the U.S. Department of Health and Human Services 5 declared that e-cigarette users are falling ill to a new illness 6 named E-Cigarette and Vaping Associated Lung Injury (EVALI) and 7 notes that sixteen percent of patients hospitalized were younger 8 than eighteen years of age. While research is still being 9 conducted on the causes of the illnesses, this unregulated 10 product is a threat to the health and safety of youth. Cases of 11 EVALI have been reported in Hawaii. As of November 2019, the 12 Hawaii department of health's disease outbreak control division 13 confirmed four cases of severe respiratory illness associated 14 with e-cigarettes. Each county has reported one case of EVALI.

15 The legislature also finds that the use of these e-smoking 16 devices has been increasing exponentially, and that e-cigarette 17 use is especially popular among youth in Hawaii. While young 18 people's use of e-cigarettes has risen nationally, use in Hawaii 19 by young people is even higher. According to the latest data 20 from the Hawaii department of health Youth Risk Behavior Study, 21 forty-two per cent of the State's high school students and

#### S.B. NO. 2227

1 twenty-seven percent of its middle school students have tried or 2 use e-cigarettes. By county, the state high school rates of 3 e-cigarette use are thirty-nine percent for Oahu, forty-five per 4 cent for Kauai, fifty-one per cent for Maui, and fifty per cent 5 for Hawaii.

6 The legislature additionally finds that the e-smoking 7 device industry, including the production of e-liquids, is 8 growing rapidly. On December 18, 2018, the United States 9 Surgeon General made the unprecedented move of classifying the 10 danger of youth usage of e-smoking devices as an epidemic. 11 Since the Surgeon General first issued a warning in 2016 about 12 the dangers of these products, data has shown a historic rise in 13 use by youth and young adults. According to the 2016 report, 14 e-cigarette use among the nation's youth and young adults has 15 become a major public health concern. The Surgeon General's 16 report noted that e-cigarette use has increased considerably in 17 recent years. Usage increased an astounding nine hundred per 18 cent among high school students from 2011 to 2015 alone.

19 In a 2018 study conducted by the National Institute on Drug 20 Abuse, teens' use of e-smoking devices increased from 27.8 per 21 cent to 37.3 per cent in a twelve-month period. The increase

1 translates to 1.3 million more teens using e-smoking devices in
2 a single year. E-cigarette use among youth and young adults is
3 also strongly associated with the use of other tobacco products,
4 including combustible tobacco products. Toxicologists have also
5 warned that e-liquids pose significant risks to public health,
6 particularly to children.

7 According to the Surgeon General's report, if the contents 8 of refill cartridges or bottles are consumed, ingestion of 9 e-liquids containing nicotine can cause acute toxicity and 10 possibly death. The Surgeon General's report also found that 11 there are numerous policies and practices that can be 12 implemented at the state and local levels to address e-smoking 13 device use among youth and young adults, including preventing 14 access to e cigarettes by youth, significant increases in tax 15 and price of e-cigarettes, retail licensure, and regulation of 16 e-cigarette marketing.

17 The legislature additionally finds that the rapid growth of 18 the e-smoking device industry, including retail businesses 19 selling e-smoking devices or e-liquids, necessitates further 20 regulation to protect consumers, such as creating policy parity 21 between the sale of e-cigarettes and the sale of traditional

#### S.B. NO. 2227

cigarettes through tobacco taxation and by requiring retailers 1 of e-cigarettes and e-liquids to obtain a retail tobacco permit. 2 3 The legislature notes that the federal Food and Drug 4 Administration recently finalized a rule that expands its regulatory authority to all tobacco products, including 5 e-smoking devices, cigars, and hookah and pipe tobacco; yet 6 federal delays are expected for at least five more years. 7 The 8 legislature also notes that there is currently no state tobacco 9 tax attached to the sale of e-liquid, even though e-smoking 10 devices are now regulated as tobacco products. Furthermore, 11 tobacco products, other than e-cigarettes, are currently taxed 12 at a lower rate than cigarettes, even though their use carries 13 similar health risks. Research has shown that increasing 14 cigarette prices, such as through cigarette sales taxes, tends to reduce the rate of smoking by adult and youth smokers. 15 The 16 legislature finds that minors are three times more sensitive to 17 price increases than are adults.

18 The legislature is also concerned that there are currently 19 no state resources allocated to assist the department of health 20 and the department of education in combatting the youth vaping 21 epidemic and in treating youth for nicotine addiction.

#### S.B. NO. 2227

Cessation treatment options, such as nicotine replacement
 therapy, are currently designed for adults. Because youth are
 not vaping to quit cigarettes, and because there is no safe
 level of nicotine for youth, there are no approved treatment
 quidelines to help youth break their addiction.

6 Finally, the legislature concludes that there needs to be a 7 sales tax on e-cigarettes. Taxing the sale of these products, 8 as the state does the sale of other tobacco, is fair and 9 equitable. Imposing a sales tax on e-cigarettes will also 10 encourage users of e-cigarettes to quit, sustain cessation, 11 prevent youth initiation, and reduce consumption among those who 12 continue to use them.

13 The purpose of this Act is to:

14 (1) Include e-smoking devices within the definition of
15 "tobacco products", as used in the cigarette tax and
16 tobacco tax law, thereby:

- 17 (A) Subjecting e-smoking devices to the excise tax on18 tobacco products;
- 19 (B) Requiring retailers of e-smoking devices to
  20 obtain a retail tobacco permit to sell, possess,

| 1  |           |        | keep, acquire, distribute, or transport e-smoking |

| 18 | SECT      | ION 2  | . Section 245-1, Hawaii Revised Statutes, is      |
| 19 | amended a | s fol  | lows:   |
| 20 | 1.        | By ad  | ding three new definitions to be appropriately    |
| 21 | inserted  | and to | o read:   |

| 1  | ""E-liquid" means any liquid or like substance, which may        |
|----|--|
| 2  | or may not contain nicotine, that is designed or intended to be  |
| 3  | used in an e-smoking device, whether or not packaged in a        |
|    |  |
| 4  | cartridge or other container. E-liquid shall not include         |
| 5  | prescription drugs; medical cannabis or manufactured cannabis    |
| 6  | products under chapter 329D; or medical devices used to          |
| 7  | aerosolize, inhale, or ingest prescription drugs, including      |
| 8  | manufactured cannabis products manufactured or distributed in    |
| 9  | accordance with section 329D-10(a).                              |
| 10 | "E-smoking device" means any electronic product, or part         |
| 11 | thereof, that can be used by a person to simulate smoking in the |
| 12 | delivery of nicotine or any other substance, intended for human  |
| 13 | consumption, through inhalation of vapor or aerosol from the     |
| 14 | product. E-smoking device includes but is not limited to an      |
| 15 | electronic cigarette, electronic cigar, electronic cigarillo,    |
| 16 | electronic pipe, electronic hookah, vape pen or related product, |
| 17 | and any cartridge or other component part of the device or       |
| 18 | product.   |
| 19 | "Smoke" or "smoking" means inhaling, exhaling, burning,          |
| 20 | carrying, or possessing any lighted or heated tobacco product,   |
| 21 | or similar substance intended for human consumption, including   |

# S.B. NO. 2227

| 1  | the use of an e-smoking device that creates an aerosol or vapor,            |
|----|---|
| 2  | in any manner or in any form."  |
| 3  | 2. By amending the definition of "tobacco products" to                      |
| 4  | read:   |
| 5  | "Tobacco products" means in any form, other than cigarettes                 |
| 6  | or little cigars[ <del>, that is prepared or intended for consumption</del> |
| 7  | or for personal use by humans, including large eigars and any               |
| 8  | substitutes thereof other than cigarettes that bear the                     |
| 9  | semblance thereof, snuff, chewing or smokeless tobacco, and                 |
| 10 | smoking or pipe tobacco.]; including, but not limited to large              |
| 11 | cigars and any substitutes thereof other than cigarettes that               |
| 12 | bear the semblance thereof, pipe tobacco, chewing or smokeless              |
| 13 | tobacco, snuff, snus, e-liquid, e-smoking devices containing                |
| 14 | e-liquid, component parts containing e-liquid, and related                  |
| 15 | products."  |
| 16 | SECTION 3. Section 245-2, Hawaii Revised Statutes, is                       |
| 17 | amended by amending subsection (b) to read as follows:                      |
| 18 | "(b) The license shall be issued by the department upon                     |
| 19 | application therefor, in such form and manner as shall be                   |
| 20 | required by rule of the department, and the payment of a fee of             |

### S.B. NO. 2227

1  $[\frac{2.50}{2.50}]$  \$250, and shall be renewable annually on July 1 for the 2 twelve months ending the succeeding June 30." 3 SECTION 4. Section 245-2.5, Hawaii Revised Statutes, is 4 amended by amending subsection (c) to read as follows: 5 "(c) The retail tobacco permit shall be issued by the 6 department upon application by the retailer in the form and 7 manner prescribed by the department, and the payment of a fee of 8 [<del>\$20.</del>] \$50. Permits shall be valid for one year, from 9 December 1 to November 30, and renewable annually. Whenever a 10 retail tobacco permit is defaced, destroyed, or lost, or the permittee relocates the permittee's business, the department may 11 12 issue a duplicate retail tobacco permit to the permittee for a 13 fee of \$5 per copy." 14 SECTION 5. Section 245-15, Hawaii Revised Statutes, is 15 amended to read as follows: 16 "§245-15 Disposition of revenues. All moneys collected

17 pursuant to this chapter shall be paid into the state treasury 18 as state realizations to be kept and accounted for as provided 19 by law; provided that, of the moneys collected under the tax 20 imposed pursuant to:

#### Report Title:

Electronic Smoking Products; Tobacco Products; E-liquid; License Fee; Retail Permit Fee; Health Education, Nicotine Cessation, and Prevention Programs

#### Description:

Requires that e-liquid and e-smoking devices be included within the definition of "tobacco products", as used in the cigarette tax and tobacco tax law. Increases the license fee for persons engaged as a wholesaler or dealer of cigarettes and tobacco products. Increases the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products. Allocates a portion of funds collected on excise taxes on tobacco products to fund health education, prevention, and nicotine cessation programs for youth, regarding the risks and dangers of the use of e-smoking devices. Repeals certain provisions of the Hawaii Revised Statutes relating to e-smoking devices.

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.
