A BILL FOR AN ACT

RELATING TO STATE PROCUREMENT OF WIFI AND INTERNET SERVICES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

- 1 SECTION 1. The legislature finds that the Internet is full
- 2 of pornographic content. A simple web search leads to a
- 3 plethora of results to both free and paid pornographic websites.
- 4 While non-violent pornography exists, it is not the norm.
- 5 Pornography often involves women or children being coerced or
- 6 treated brutally during sexual intercourse. Both psychological
- 7 and sociological theories suggest that violence is the result of
- 8 learned behavior, and frequent viewing of materials depicting
- 9 sexual violence against women or children could in fact lead
- 10 some to believe this behavior is acceptable, thereby
- 11 perpetuating the violence.
- 12 The legislature also finds that the Children's Internet
- 13 Protection Act requires all public schools and libraries that
- 14 provide internet access and receive federal funds to use
- 15 filters, which restrict access to pornographic content.
- 16 However, technological advances now allow people to access the
- 17 Internet via wireless networking technology, such as wifi, on

S.B. NO. S.D. 2

- 1 their personal portable devices. Consequently, state facilities
- 2 that provide free wireless networking technology are also
- 3 providing unfettered access to pornography at taxpayers'
- 4 expense.
- 5 The legislature further finds that the State has a
- 6 legitimate interest in protecting children and preserving its
- 7 family-friendly tourist reputation by ensuring children are not
- 8 exposed to others nearby who are watching pornography in a state
- 9 public office or other public facility. The State also has an
- 10 interest in ensuring that state resources are not being utilized
- 11 to obtain pornography. By requiring that all state offices and
- 12 public facilities have internet computer and wireless access
- 13 filters, the State is not interfering with free speech. The
- 14 State is simply ensuring that when the State is a customer and
- 15 purchasing internet access or providing state resources for
- 16 internet access, that it is not providing access to pornography.
- 17 The purpose of this Act is to require that all state
- 18 offices and public facilities have internet computer and
- 19 wireless access filters to restrict access to pornography sites.

- 1 SECTION 2. Chapter 27, Hawaii Revised Statutes, is amended
- 2 by adding a new section to part VII to be appropriately
- 3 designated and to read as follows:
- 4 "§27- Internet filters. (a) All state offices and
- 5 public facilities, except those of the department of the
- 6 attorney general and where exceptions are consistent with the
- 7 state office's or public facility's written internet policy,
- 8 shall have internet computer and wireless access filters that
- 9 restrict access to sites that provide pornographic images,
- 10 depictions, or materials; provided that this section shall not
- 11 apply to state-owned living quarters, including public housing
- 12 and dormitories; provided further that the department of the
- 13 attorney general may approve an exemption from this section for
- 14 good cause shown.
- 15 (b) All state agencies, except the department of the
- 16 attorney general, shall add provisions to its state procurement
- 17 contracts to require vendors and suppliers of
- 18 telecommunications, internet, broadband, and data communication
- 19 services to provide filters that restrict access to sites that
- 20 provide pornographic images, depictions, or materials.

- 1 (c) For purposes of this section, "pornographic" shall
- 2 have the same meaning as in section 712-1210."
- 3 SECTION 3. New statutory material is underscored.
- 4 SECTION 4. This Act shall take effect on January 1, 2050.

Report Title:

Internet; State Facilities; Pornography; Filters

Description:

Requires all state and state funded facilities, with certain exceptions, to have internet computer and wireless access filters to restrict access to pornography sites. Exempts stateowned housing and dormitories. Effective 1/1/2050. (HD1)
