# A BILL FOR AN ACT

---

RELATING TO CAPITAL IMPROVEMENT PROJECTS FOR THE STATE ARCHIVES.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that the original state  
2 archives building, known as the Kanaina Building, was built in  
3 1905 on the Iolani Palace grounds within the Hawaii capital  
4 historic district to house the public archives of Hawaii. After  
5 many years of collecting and acquiring into the public archives  
6 the most important records and artifacts of the governments of  
7 Hawaii from the Hawaiian kingdom through statehood, the state  
8 archives eventually outgrew the Kanaina Building and in 1952, a  
9 new building adjacent to the Kanaina Building was constructed as  
10 the new home of the state archives and named after Kekauluohi.

11           The legislature further finds that there exists a need to  
12 promote citizen engagement in the documentary and tangible  
13 artifact heritage of the government, provide greater education  
14 of the history of Hawaii's governments and its people, and  
15 assist the people of Hawaii in connecting with their personal  
16 history as well as the history of Hawaii, in order to better

1 fulfill the role of the state archives as the keeper of the  
2 public memory.

3       There also exists a need to have dedicated exhibition space  
4 to highlight the many historic records and artifacts preserved  
5 in the public archives that document the vibrant and diverse  
6 history of Hawaii, its public institutions, and its people.

7       An additional challenge is presented when aging,  
8 underrepresented, and marginalized segments of the community  
9 seek to donate important historical documents and artifacts to  
10 the state archives, but a lack of storage space in the current  
11 state archives building requires the state archivist to be very  
12 selective in accepting donations.

13       The legislature further finds that the Hawaii capital  
14 historic district has been the center of Hawaii's government for  
15 more than one hundred fifty years, now consists of twenty  
16 buildings and structures, and was added to the National Registry  
17 of Historic Places on December 1, 1978. The buildings and  
18 structures within the Hawaii capital historic district have  
19 distinct architectural styles, ranging from nineteenth century  
20 adaptations of New England homes to the Italianate renaissance  
21 revival and Neoclassic edifices of the Hawaiian monarchy. The

1 current state archives building does not fit architecturally  
2 with the other buildings of the Hawaii capital historic district  
3 and is outdated in function with electrical and elevator  
4 problems requiring expensive repair, along with a lack of stable  
5 backup power, which puts the secure storage of the records at  
6 risk.

7 The purpose of this Act is to provide funding for the  
8 development of a master plan to address the current and future  
9 facilities needs of the state archives.

10 SECTION 2. The director of finance is authorized to issue  
11 general obligation bonds in the sum of \$500,000 or so much  
12 thereof as may be necessary and the same sum or so much thereof  
13 as may be necessary is appropriated for fiscal year 2020-2021  
14 for the purpose of financing capital improvement projects as  
15 follows:

16 State Archives, Oahu

17 Plans for the development of a  
18 state archives master plan to
