DAVID Y. IGE GOVERNOR OF HAWAII

STATE OF HAWAII DEPARTMENT OF HEALTH

P. O. Box 3378 Honolulu, HI 96801-3378 doh.testimony@doh.hawaii.gov

Testimony COMMENTING on SB2278 RELATING TO HEALTH INSURANCE.

SENATOR ROSALYN H. BAKER, CHAIR SENATE COMMITTEE ON COMMERCE, CONSUMER PROTECTION, AND HEALTH

Hearing Date: February 4, 2020 Room Number: 329

- 1 Fiscal Implications: 1.0 FTE and \$100,000 general fund appropriation for salary and operating
- 2 expenses if enforcement authority is granted.
- 3 **Department Testimony:** The Department of Health (DOH) provides comments only regarding
- 4 SECTION 2 of SB2278, and defers to the Department of Commerce and Consumer Affairs for
- 5 amendments to chapters 431 and 432, Hawaii Revised Statutes.
- 6 SB2278 amends chapter 321 to compel health care providers, health care facilities, or hospitals
- 7 to disclose in writing estimates of the cost of care that are not authorized by a patient's health
- 8 plan, and which subsequently become the financial liability of the patient.
- 9 The lack of investigative and enforcement authority, including penalties, for DOH may
- 10 negatively impact compliance with this statute. If health care providers, health care facilities, or
- 11 hospitals do not fulfill the obligations of this Act, the patient does not appear to have recourse, at
- least through the Department of Health. If the Legislature authorizes regulatory and enforcement
- provisions for the department, at least 1.0 FTE is requested to manage this new responsibility.
- 14 Future expansion is likely given the volume of health care service transaction per year.
- 15 The department respectfully recommends repealing SECTION 2 in its entirety and deleting all
- references to DOH unless appropriate regulatory powers are authorized.
- 17 Thank you for the opportunity to testify.

DAVID Y. IGE GOVERNOR

JOSH GREEN

Testimony of the Department of Commerce and Consumer Affairs

Before the
Senate Committee on Commerce, Consumer Protection, and Health
Tuesday, February 4, 2020
9:30 a.m.
State Capitol, Conference Room 229

On the following measure: S.B. 2278, RELATING TO HEALTH INSURANCE

Chair Baker and Members of the Committee:

My name is Colin Hayashida, and I am the Insurance Commissioner of the Department of Commerce and Consumer Affairs' (Department) Insurance Division. The Department offers comments on this bill.

The purposes of this bill are to: (1) establish disclosure and consent requirements for nonparticipating health care providers; (2) prohibit nonparticipating health care providers from balance billing patients in specific circumstances; and (3) establish rate calculation requirements for reimbursement of nonparticipating providers.

The Department appreciates the intent of relieving consumers of the impacts of unexpected balance bills. However, the Department has concerns that the provisions regulating health care provider conduct are being improperly placed in Hawaii Revised Statutes (HRS) chapter 431, article 10A (Accident and Health or Sickness Insurance Contracts); chapter 431, article 14G (Health Insurance Rate Regulation); chapter 432, article 1 (Mutual Benefit Societies); and chapter 432D (Health Maintenance

Testimony of DCCA S.B. 2278 Page 2 of 2

Organization Act). For example, section 3 of the bill at page 9, lines 8 to 10 amends HRS chapter 431, article 10A with language that includes "the participating *provider* shall not collect or attempt to collect from the insured sums owed by the insurer" (emphasis added).

Additionally, the bill references "usual and customary rate" on page 12, lines 4 and 19 to 20; page 16, line 9; page 17, lines 3 to 4; page 20, line 18; and page 21, lines 14 to 15. The bill defines "usual and customary rate" as the insurance provider's "average contracted rate." See, e.g., page 12, lines 20 to 21. The Insurance Division does not maintain information on contract rates that would allow it to readily verify the average contracted rate.

Thank you for the opportunity to testify on this bill.

THE SENATE Committee on Commerce, Consumer Protection and Health Tuesday, February 4, 2020 9:30 a.m. Conference Room 229

To: Senator Rosalyn Baker, Chair

Re: SB 2278 Relating to Health Insurance

Dear Chair Baker, Vice-Chair Chang, and Members of the Committee,

My name is Keali'i Lopez, and I am the State Director for AARP Hawai'i. AARP is a membership organization of people age fifty and over, with nearly 145,000 members in Hawai'i. AARP advocates for issues that matter to Hawai'i families, including the high cost of long-term care; access to affordable, quality health care for all generations; and serving as a reliable information source on issues critical to people over the age of fifty.

AARP Hawai'i <u>supports SB 2278 with comments</u>. This bill establishes disclosure and consent requirements for nonparticipating health providers; prohibits nonparticipating health care providers from balance billing patients in specific circumstances.

AARP supports efforts to protect consumers against surprise bills from nonparticipating providers who provide services without the consumer's knowledge or consent in an otherwise in-networking setting. We particularly support provisions that prevent these unexpected bills when a person needs to use emergency services, and requiring insurers to notify enrollees by mail and websites of their rights and potential costs for out-of-network procedures.

To clarify and further strengthen this bill, the Committee may want to address a few additional issues:

- Provisions for enforcement
- Consumer reimbursement if a consumer pays a bill they weren't supposed to pay
- Use of out-of-network provider by the in-network facility without the knowledge or choice of the patient
- Extending the 24 hour timeframe to disclose the requirements of a nonparticipating provider in advance. (e.g. People may have taken time off from work, or traveled from neighbor islands and cannot easily change their decision if a disclosure is given only 24 hours in advance)

Thank you very much for the opportunity to support SB 2278, and to provide comments.

Testimony of Frank Richardson Vice President & Regional Counsel

Before:

Senate Committee on Commerce, Consumer Protection, and Health The Honorable Rosalyn H. Baker, Chair The Honorable Stanley Chang, Vice Chair

> February 4, 2020 9:30 a.m. Conference Room 229

Re: SB2278, RELATING TO HEALTH INSURANCE.

Chair Baker, Vice Chair Chang, and committee members, thank you for this opportunity to provide testimony on SB2278 which seeks to protect Hawai'i consumers from egregious and unexpected out-of-network bills from facilities and providers.

Kaiser Permanente Hawai'i SUPPORTS SB2278

Kaiser Permanente Hawai'i is Hawai'i's largest integrated health system that provides care and coverage for approximately 259,000 members. Each day, more than 4,500 dedicated employees and more than 600 Hawai'i Permanente Medical Group physicians and providers come to work at Kaiser Permanente Hawai'i to care for our members at our 21 medical facilities, including Moanalua Medical Center, providing high-quality care for our members and delivering on our commitment to improve the health of the 1.4 million people living in the communities we serve.

As a not-for-profit health plan, Kaiser Permanente does not answer to shareholders. Our duty is to our members — firefighters, police officers, teachers, bus drivers, shipyard workers, and all the hard-working people of Hawai'i — who depend on us for affordable, high-quality care.

SB2278 is a fair and reasonable market-based solution to address certain billing practices that can have an immensely negative financial impact on consumers when they are at their most vulnerable – including when they are receiving emergency care at out-of-network facilities and from out-of-network providers at in-network locations. Sometimes, consumers unknowingly receive care from a provider who is not in their health insurance network. In Hawaii, there is **no limit to what these out-of-network providers or facilities can charge**. As a result, the patient may be billed for the remaining charges after their insurer pays. These "surprise bills" put consumers at significant financial risk of medical debt from bills they should not owe. This burden can prolong patient suffering long after their health has been restored. SB2278 is a common-sense way to **protect consumers and remove them from the middle of billing disputes** between providers and insurance companies while ensuring out-of-network providers receive a market-based rate that covers theirs costs. We believe SB2278 will protect patients and is the best way to **address these soaring health care costs through a market-based approach.**

For too long, we've operated under a system that allows out-of-network facilities and providers to directly bill patients for remaining billed charges with virtually no restrictions. The burden of this market failure falls on the hardworking men and women of Hawai'i – not just those who are balance-billed directly – but the entire community that bears these costs systemwide.

SB2278 ensures that for emergency situations and for situations where consumers go to an innetwork hospital but see an out-of-network doctor, the payment to the out-of-network doctor or hospital reasonably covers their costs without incentivizing other providers to stay out-of-network or driving up costs to the system, including healthcare premiums. As a fully integrated system, which includes over 600 Hawai'i Permanente Medical Group physicians and providers, Kaiser Permanente understands that any benchmark rate in SB2278 needs to cover the cost of services provided.

Kaiser Permanente Hawai'i notes that the payment benchmark will only be applied to outof-network providers operating at in-network facilities and to out-of-network facilities. It does not affect providers and hospitals that are in-network, which is the norm.

The payment benchmark ensures that the costs of the services are covered, without driving up costs to the system and to health insurance premiums. We believe payments should not be based on charges that are billed by the provider ("billed charges") or any database that uses "billed charges," because there is no limit to what a facility or provider may bill. Instead, by basing the benchmark on average in-network rates paid by carriers to contracted in-network providers or an equivalent percentage of the Medicare reimbursement rate, we ensure a fair and reasonable reimbursement rate for patients, providers, health plans and the healthcare system as a whole.

Thank you for the opportunity to provide testimony on this important measure.

<u>Senate Committee on Health</u> Senator Rosalyn H. Baker, Chair Senator Stanley Chang, Vice Chair

February 4, 2019 Conference Room 229 9:30 a.m. Hawaii State Capitol

Testimony Supporting Intent with Request for Amendments Senate Bill 2278

Establishes disclosure and consent requirements for nonparticipating health care providers. Prohibits nonparticipating health care providers from balance billing patients in specific circumstances. Establishes rate calculation requirements for reimbursement of nonparticipating providers.

Linda Rosen, M.D., M.P.H. Chief Executive Officer Hawaii Health Systems Corporation

On behalf of the Hawaii Health Systems Corporation (HHSC) Corporate Board of Directors, thank you for the opportunity to present testimony **supporting the intent with a request for amendments to S.B. 2278** that establishes disclosure and consent requirements for nonparticipating health care providers, prohibits nonparticipating health care providers from balance billing patients in specific circumstances, and establishes rate calculation requirements for reimbursement of nonparticipating providers.

While HHSC understands the impact that unanticipated medical billing, or surprise medical billing can have to patients, as written, this measure removes incentives to arrive at fair contracts with providers. Therefore, HHSC joins in partnership with most the other of Hawaii's major healthcare systems to propose amendments that clarify that the responsibility for disclosure and consent requirements should be with the member's health care plan, since they would most appropriately know which providers are participating or not. An amendment towards the removal of reference to rate setting and replacing it with a requirement that the insurer negotiate with the out-of-network provider to resolve payments and directing the Insurance commissioner to establish a dispute resolution process is also requested.

Thank you for the opportunity to testify before this committee. We appreciate the Committee's continued focus on improving healthcare for our island communities.

Date: February 4, 2020

Time: 9:30 a.m.

Place: Conference Room 229

From: Hawaii Medical Association

Michael Champion, MD, President

Christopher Flanders, DO, Executive Director

Re: SB 2278 Relating to Health Insurance Position: OPPOSE

The Hawaii Medical Association feels strongly that patients should not be caught up in what, in many cases, should be contractual arrangements between parties. While this is not the larger issue it is on the mainland, Hawaii does experience rare payment disagreements between health systems, health systems and providers, and insurers and health systems or providers.

The position of the Hawaii Medical Association is that statutory setting of payment rates is an unsatisfactory method of resolving disputes. The linking of statutory rates to Medicare or "usual and customary" rates is problematic in that Medicare rates are not designed to be a benchmark for rates over large geographic areas, nor are they designed for regional insurers to tie their rates. Rather, the use of available all payor claims databases, such as Fair Health, should be used to establish existing community standards.

The Hawaii Medical Association supports the establishment a fair arbitration system in which to mediate disputes, such as the arbitration system enacted by New York, whereby each side presents their settlement figure and a decision is made between submitted figures by the Insurance Commissioner.

Thank you for allowing the Hawaii Medical Association to testify on this issue.

Senate Committee on Commerce, Consumer Protection & Health

To:

Senator Rosalyn Baker, Chair Senator Stanley Chang, Vice Chair

From: Michael Robinson

Vice President - Government Relations & Community Affairs

Re:

SB 2278 - Relating To Health Insurance

SUPPORT INTENT PROVIDING PROPOSED LANGUAGE

My name is Michael Robinson, Vice President, Government Relations and Community Affairs at Hawai'i Pacific Health (HPH). Hawai'i Pacific Health is a not-for-profit health care system comprised of its four medical centers — Kapi'olani, Pali Momi, Straub and Wilcox and over 70 locations statewide with a mission of creating a healthier Hawai'i.

We support the intent and offer suggested amendments to SB 2278 which establishes disclosure and consent requirements for nonparticipating health care providers and prohibits nonparticipating health care providers from balance billing patients in specific circumstances. The bill also stablishes rate calculation requirements for reimbursement of nonparticipating providers.

Hawai'i Pacific Health has experience working with a variety of insurers and providers and believes in maintaining the integrity of the contracting process between health providers and health insurers in determining fair and adequate reimbursement methodologies for health care services that have already been delivered to patients/insured. As a provider organization, we also assume that both healthcare insurers and healthcare providers have a <u>shared</u> responsibility to protect patients from financial burdens to ensure access to medically necessary care.

Hawai'i Pacific Health believes that for emergency services, where medical necessity eliminates the opportunity for a patient to make a choice based on a provider's network status with a health plan, the patient should not be responsible for charges where patient choice is not possible.

While we share the stated intent of this bill, we have the following concerns of the current bill as drafted:

Section 2: The disclosure and consent requirement as written places the responsibility solely upon the health-care provider to inform the patient of a provider's network status with an insurer. Placing this responsibility solely upon the healthcare provider is misplaced and will be inadequate for the patient. It would be more helpful to the patient for the insurer to be responsible to provide this notice to its subscribers as the health plan would have more timely

and helpful information for a subscriber to make a decision on where to access care, than information the health care provider would be able to provide at the point of care.

A health plan would also be able to provide to its subscriber/patient the most important information to a member: (1) whether the particular scheduled service is covered by the insured's plan; (2) how much their out of pocket would be for the service for that particular plan for that particular member. By placing this requirement on the healthcare provider — instead of the insurer — this requirement as written would create unnecessary patient anxiety and potentially appointment cancellations by having the provider bear the responsibility of the disclosure and consent form.

Section 3, Section 5, Section 6: We agree that a patient should not incur greater out-of-pocket costs for emergency services than the insured would have incurred with a participating provider of health care services. However we also believe that the insurer should be required to fulfill their obligation to their member and be required to work with the health care provider to negotiate a settlement to resolve any sums owed on behalf of their insured.

<u>Section 4</u>: The specification of a statutory defined reimbursement rate of the greater of "usual and customary" and <u>any</u> percent of Medicare will not adequately cover the entire range of medical services for billing that a patient may encounter. For example:

- (1) What would the "usual and customary rate" be for a service that an HMO does not provide either generally or "...in the general geographic region in which the services were rendered"? For example Wilcox is the only provider of trauma and neurology services in the general geographic region of Kaua'i. What would the "usual and customary rate" of that service be for an HMO that currently does not deliver that service for itself on the island of Kaua'i.
- (2) There is no applicable Medicare reimbursement methodology for most pediatric procedures and services for women of child-rearing age who are not disabled. Utilizing Medicare as a basis for reimbursement for services delivered for these populations could potentially be incalculable with the bill as written.

To address these concerns, Hawai'i Pacific Health is currently working with HAH members Queens Health System, Castle Medical Center, Hawai'i Health System Corporation on language that would achieve the following goals (see attached Proposed Amendments);

- For non-emergent services, provide a disclosure and consent requirement process that
 provides patients with the most accurate, meaningful and timely status of a provider's network
 status with a plan;
- Remove disincentives for a plan and provider to come to the table to negotiate contract terms for payment for medical services provided to a plan member;
- Incentivize health plans to make reasonable efforts to invest in developing an adequate network for its members by retaining incentives for insurers to contract for services with providers.

Finally, we support the establishment of a dispute resolution process before a disinterested 3rd party. The establishment of such a process would incentivize both plans and providers to reach

a settlement with knowledge of binding arbitration being a possible remedy. The insurance commissioner who has the ability to promulgate administrative rules is ideally situated to assume the role of arbitrator or mediator in resolving issues involving out-of-network charges and medical reimbursements.

Accordingly, we suggest the following amendments.

"432E- Dispute resolution.

- (a) When the non-participating health care provider and the managed care plan are unable to reach an agreement as to the amount to be billed for the services provided by the non-participating provider, the matter shall be submitted to the insurance commissioner for binding arbitration or mediation.
- (b) The non-participating provider and managed care plan shall agree on whether the matter shall be subject to binding arbitration or mediation within 45 days of notification by the managed care plan to the non-participating provider that the managed care plan disagrees with the amount billed for the services rendered to the enrollee.
- (c) The insurance commissioner may adopt rules to enact this section.
- (d) This section shall apply to emergency and non-emergency services provided by a non-participating provider.

Thank you for your consideration of this important matter. Proposed bill amendments attached.

24

25

HS.B. NO.

A BILL FOR AN ACT

RELATING TO HEALTH INSURANCE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that the patients with health insurance who receive treatment from an out-of-2 network provider may be subject to the practice known as "balance billing" or "surprise billing", where the provider bills the patient for the difference between what the patient's health insurance chooses to reimburse and what the provider chooses to charge. These bills 8 occur most often when patients inadvertently receive medical services from out-of-network providers, such as when a patient is undergoing surgery and is not informed that a member of the medical team is not a participating 11 provider in the patient's health insurance's provider network, or when a patient is in need of emergency 13 services and is taken to the nearest medical facility, 14 15 regardless of the facility's or its providers' network 16 status. Out-of-network providers may not have a 17 contracted rate with a health insurer for services; therefore, the prices these providers may charge may be 18 much greater than the price charged by in-network 19 providers for similar services. 20 21

The legislature further finds that balance bills or surprise bills can be an unwelcome shock to patients who may have unknowingly received health care services outside of their provider network. These unexpected medical bills are a major concern for Americans.

29

30

31 32

33

```
According to a September 2018 Kaiser Family Foundation
     poll, two-thirds of respondents said they were "very
  3 worried" or "somewhat worried" that they or a family
  4 member would receive a surprise bill. In fact, these
  5 bills are the most-cited concern related to health care
  6 costs and other household expenses. Furthermore, out-of-
 7 network bills sent to health insurers or carriers from
    physicians can be more than thirty times the average in-
    network rate for those same services.
  9
 10
          Currently, there is no comprehensive protection from
 11
    surprise bills or balance bills at the federal level and,
 12
    while there is a growing trend toward state action to
 13
    protect patients from surprise bills or balance bills,
 14
    most state laws do not provide comprehensive protections.
 15
    However, the trend is changing. At least nine states
 16
    including California, Oregon, Maryland, Connecticut,
17
    Illinois, New York, New Hampshire, New Jersey, and
    Florida have enacted comprehensive approaches to end
    balance billing and surprise bills. Similarly, New
    Mexico, Texas, Washington, and Colorado passed new
21
    comprehensive laws in 2019. Hawaii patients continue to
22
    be at risk of being caught in the middle of balance
23
   billing disputes between health insurers and providers or
24
   being hit with significant surprise bills.
25
26
27
        The purpose of this Act is to specify:
        (1) Disclosure and consent requirements for health
   care providers, health care facilities, and hospitals
   that are nonparticipating providers in a patient's health
   care plan;
```

___.B. NO.____

;	reimburse a nonparticipating provider who provides health care to a patient, unless otherwise agreed to by the nonparticipating provider and the health insurance
10	SECTION 2. Chapter 321, Hawaii Revised Statutes, is
1.1	amended by adding a new section to be appropriately
12	designated and to read as follows:
13	"§321- Disclosure and consent required. (a) A
14	health care plankealth care provider, health care
15	facility, or hospital shall disclose the following
16	information in writing to their insured patients or
17	prospective patients prior to the provision of non-
18	emergency services that are not authorized by the
19	patients' health care plan:
20 21	(1) That certain health care facility-based health care providers may be called upon to render care to a covered person during the course of treatment:
22 23 24	(2) That those health care facility-based health care providers may not have contracts with the covered person's health care plan and are therefore considered to be out-of-network providers:
25 26	(3) That the services provided will be on an out-of-network basis and the cost may be substantially higher than if the services were provided in-network;

1	(2) Collect sums in excess of the amount owed by the insured as a copayment.
2	coinsurance, or deductible under the insured's policy of accident and health or
3	sickness insurance.
4	(be) When an insured receives emergency services
5	from a provider who is not a participating provider in
6	the provider network of the insured, the insured shall
7	not incur greater out-of-pocket costs for emergency
8	services than the insured would have incurred with a
9	participating provider of health care services. No
10	nonparticipating provider, or agent, trustee, or assignee
11	thereof, may maintain any action at law against on
12	insured to collect sums in excess of the amount owed by
13	the insured as a espayment, ceinsurance, or deductible
14	under the insured's policy of accident and health or
15	siekness insurance.
16	(d) When the insured receives emergency services from
17	a provider who is not a participating provider in the
18	provider network of the insured, an insurer shall be
19	responsible to fulfill their obligation to the insured
20	and shall enter into negotiation with the provider who is
21	not a participating provider in the provider network of
22	the insured to resolve any sums owed by the insurer.
23	(ed) For purposes of this section:

*	B	,	N	Ο.	

1	"Emergency condition" means a medical or behavioral
2	condition that manifests itself by acute symptoms of
3	sufficient severity, including severe pain, such that a
4	prudent layperson, possessing an average knowledge of
5	medicine and health, could reasonably expect the absence
6	of immediate medical attention to result in:
7 8	(1) Placing the health of the person afflicted with the condition in serious jeopardy;
9	(2) Serious impairment to the person's bodily functions;
10	(3) Serious dysfunction of any bodily organ or part of the person; or
11	(4) Serious disfigurement of the person.
12	"Emergency services" means, with respect to an
13	emergency condition:
14 15	(1) A medical screening examination as required under section 1867 of the Social Security Act, title 42 United States Code section 1395dd; and
16 17 18	(2) Any further medical examination and treatment, as required under section 1867 of the Social Security Act, title 42 United States Code section 1395dd, to stabilize the patient.
19	§431:10A-B Balance billing; hold harmless; non-
20	emergency services. (a) Absent a signed consent form as
21	required under section 321- , no nonparticipating
22	health care provider, health care facility, or hospital,
23	or agent, trustee, or assignee thereof, may maintain any

THE SENATE THIRTIETH LEGISLATURE, 2020 STATE OF HAWAII S.B. NO. 2278

Report Title:

Balance Billing; Surprise Billing; Prohibitions; Health Insurance; Nonparticipating Providers

Description:

Establishes disclosure and consent requirements for nonparticipating health care providers. Prohibits nonparticipating health care providers from balance billing patients in specific circumstances. Establishes rate calculation requirements for reimbursement of nonparticipating providers.

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.

Tuesday, February 4, 2020 at 9:30 am Conference Room 229

Senate Committee on Commerce, Consumer Protection, and Health

To: Chair Rosalyn H. Baker

Vice Chair Stanley Chang

From: Paige Heckathorn Choy

Director of Government Affairs Healthcare Association of Hawaii

Re: Submitting Comments

SB 2278, Relating to Health Insurance

The Healthcare Association of Hawaii (HAH), established in 1939, serves as the leading voice of healthcare on behalf of 170 member organizations who represent almost every aspect of the health care continuum in Hawaii. Members include acute care hospitals, skilled nursing facilities, home health agencies, hospices, assisted living facilities and durable medical equipment suppliers. In addition to providing access to appropriate, affordable, high quality care to all of Hawaii's residents, our members contribute significantly to Hawaii's economy by employing over 20,000 people statewide.

Thank you for the opportunity to provide **comments** on this measure. Our members have not reached a consensus agreement on a position on this legislation. However, there is an important position that all members can agree on—that patients should be protected from gaps in coverage that result in surprise bills and that any policy solution should remove patients from payment negotiations between insurers and providers. With that as a guiding principle, the task before providers, insurers, and policy makers is how to best reach an agreement on payment for services provided out-of-network.

However, there is a responsibility on both providers and insurers to resolve this problem. Current discussions among members are focused on the benchmark rates used to pay providers, what types of appeals and mediation practices could be used in any dispute between a plan and a provider, where the responsibility of notification and disclosure should fall, and network adequacy. There is concern among providers that, as written, the burden of providing pertinent information to patients would likely fall predominantly on the hospital, facility, or individual practitioner who may not have access to the information required in this bill in a timely manner. Providers would also be interested in discussing the benchmark rates used and the potential of a mediation process.

Ultimately, HAH and its members do not want patients to bear the burden of being an intermediary between plans and providers and be caused undue stress over a surprise bill. We will continue our discussions as an organization on the major provisions and provide support, education, and research as necessary. Thank you for your consideration of our comments.

January 31, 2020

Senator Rosalyn Baker Chair, Commerce, Consumer Protection, and Health

Senator Stanley Chang Vice Chair, Commerce Consumer Protection and Health

SB2278: Relating to Health Insurance

Testimony in OPPOSITION

On behalf of our 152 emergency physician members, I am writing in opposition to SB2278. The legislation, as currently proposed, would have immediate and lasting effects on Hawaii's ability to provide quality care to those who are most vulnerable in our state.

We agree that a legislative solution to the surprise billing issue is necessary. Our proposal is based on very effective laws already in place in Connecticut and New York that ban balance billing while creating a fair and transparent system for determining out of network reimbursement for emergency care.

Here are the necessary components:

- 1. Remove patients from billing disputes by banning balance billing.
- 2. Use of a transparent, third-party database (not run by insurance companies) on which to base out of network reimbursement for emergency care. The FAIR Health Database is one such option.
- 3. Creation of a baseball-style arbitration system to resolve disputes between providers and insurers

The proposed use of the median in-network rate as determined by insurers in unacceptable. Insurers refuse to share information about their rates with providers or the public. Four out of five 'Big Insurers' in the U.S. have been sued for illegally manipulating their 'usual, customary, and reasonable' (UCR) rates. One such case (Ingenix, subsidiary of UnitedHealth Group), resulted in at least two multimillion-dollar settlements for fraudulently manipulating provider reimbursement. We suggest a transparent, third party database such as FAIR Health, that would inform the public and all health care stakeholders about charges from providers and reimbursement from insurers, and provide fair data on which

non-participating providers would be reimbursed. The FAIR Health Database in already in place and providing information across the country.

A cap on out on network charges based on Medicare rates would also harm providers and reduce access to care. Consider the negative impact on provider negotiation if out of network charges were limited to a given percentage of Medicare. Why would any insurer negotiate a rate of reimbursement greater than that cap if the out of network rate is already set? Government would effectively set the maximum rate of reimbursement for emergency providers without regard to market conditions.

Emergency physicians, on average, provide \$138,000 in uncompensated care each year; far more than any other specialty. We treat any patient who comes to the emergency department asking for help regardless of their ability to pay. Hawaii's board-certified emergency physicians are as well trained as any in the world. They can work anywhere, and Hawaii faces stiff competition for their services from 49 states and the entire Pacific Rim. Reimbursement for emergency physicians in Hawaii already ranks in the bottom five states in the country. Our emergency physician groups routinely lose potential hires to other places solely because of compensation, and our neighbor islands and critical access hospitals are most at risk.

We ask for your help in creating a fair solution to surprise billing that will improve transparency in the health care system, protect patients, and maintain our ability to recruit and retain excellent emergency physicians to care for all of Hawaii.

Aloha

William Scruggs, MD President-Elect, Hawaii College of Emergency Physicians Chief of Staff. Adventist Health Castle

February 2, 2020

The Honorable Rosalyn H. Baker, Chair The Honorable Stanley Chang, Vice Chair Senate Committee on Commerce, Consumer Protection, and Health

Re: SB 2278 – Relating to Health Insurance

Dear Chair Baker, Vice Chair Chang, and Members of the Committee:

The Hawaii Medical Service Association (HMSA) appreciates the opportunity to testify on SB 2278, which establishes disclosure and consent requirements for nonparticipating health care providers. This measure also prohibits nonparticipating health care providers from balance billing patients in specific circumstances and establishes rate calculation requirements for reimbursement.

HMSA supports this measure and the protections that it extends to patients when they unknowingly receive services from a provider outside of their network. Nationally this issue is being discussed as an important consumer protection issue. We understand the issues that this measure tries to address are complicated, and therefore we remain open to more discussions and working with all stakeholders.

Thank you for the opportunity to provide testimony on this measure. Your consideration of our comments is appreciated.

Sincerely,

Pono Chong

Vice President, Government Relations

Testimony to the Senate Committee on Commerce, Consumer Protection, and Health Tuesday, February 4, 2020; 9:30 a.m. State Capitol, Conference Room 229

RE: SENATE BILL NO.2278, RELATING TO HEALTH INSURANCE.

Chair Baker, Vice Chair Chang, and Members of the Joint Committee:

The Hawaii Primary Care Association (HPCA) is a 501(c)(3) organization established to advocate for, expand access to, and sustain high quality care through the statewide network of Community Health Centers throughout the State of Hawaii. The HPCA **SUPPORTS** Senate Bill No. 2278, RELATING TO HEALTH INSURANCE.

The bill, as received by your Committee, would:

- (1) Establish disclosure and consent requirements for health care providers, health care facilities, and hospitals that are nonparticipating providers in a patient's health care plan;
- (2) Clarify the circumstances in which a patient not be liable to a health care provider for any sums owed by an insurer, mutual benefit society, or health maintenance organization; and
- (3) Establish the rate at which a health insurance plan reimburses a nonparticipating provider who provides health care to a patient, unless otherwise agreed to by the nonparticipating provider and the health insurance plan.

By way of background, the HPCA represents Hawaii Federally-Qualified Health Centers (FQHCs). FQHCs provide desperately needed medical services at the frontlines in rural and underserved communities. Long considered champions for creating a more sustainable, integrated, and wellness-oriented system of health, FQHCs provide a more efficient, more effective and more comprehensive system of healthcare.

The HPCA agrees with the findings asserted in SECTION 1 of the bill -- that "balance billing" or "surprise billing" creates significant financial hardships for patients who inadvertently receive medical services from out-of-network providers (as has been the case in emergency situations). The unwelcomed shock of unexpected medical bills to patients who had unknowingly received out-of-network services has become a growing problem for the consuming public. As this bill promotes greater transparency and protections to patients, the HPCA fully supports these efforts.

This bill places greater responsibility on the part of the provider to inform the patient on the extent and cost of the health care services being provided to the patient. The HPCA believes this is sound public policy.

Testimony on Senate Bill No. 2278
Tuesday, February 4, 2020; 9:30 a.m.
Page 2

It should be noted that FQHCs must provide services to all patients, regardless of their ability to pay, and that we are required to work with the patient when Medicaid or insurance reimbursement do not cover the entire costs of services provided. By law, FQHCs must let patients pay on a sliding scale based on their ability to pay. Losses are ultimately subsidized through government assistance in reimbursement. While no system is perfect, this approach is just one more model that can used by lawmakers to gain a better understanding of how to pay for health care in the private market.

Lastly, we note that while the proposed amendments in this bill would apply primarily to the private market, because Medicaid is governed through a partnership between the federal and State government rather than solely through state statute, we would recommend that the Hawaii State Department of Human Services be notified of this bill to ensure that there be seamless application of this public policy for both Medicaid recipients and private insureds throughout our State.

Thank you for the opportunity to testify. Should you have any questions, please do not hesitate to contact Public Affairs and Policy Director Erik K. Abe at 536-8442, or eabe@hawaiipca.net.

Comments:

I believe this issue should be addressed nationally. Applying local control will disadvantage us in our competition with mainland groups to obtain excellent ED physicians at our rural sites.

Re: Comments S.B. 2278, Relating to Health Insurance

The Queen's Health Systems (Queen's) is a not-for-profit corporation that provides expanded health care capabilities to the people of Hawai'i and the Pacific Basin. Since the founding of the first Queen's hospital in 1859 by Queen Emma and King Kamehameha IV, it has been our mission to provide quality health care services in perpetuity for Native Hawaiians and all of the people of Hawai'i. Over the years, the organization has grown to four hospitals, 66 health care centers and labs, and more than 1,600 physicians statewide. As the preeminent health care system in Hawai'i, Queen's strives to provide superior patient care that is constantly advancing through education and research.

Queen's appreciates the opportunity to offer comments with serious concerns for S.B. 2278, which establishes disclosure and consent requirements for nonparticipating health care providers; prohibits nonparticipating health care providers from balance billing patients in specific circumstances; and establishes rate calculation requirements for reimbursement of nonparticipating providers.

Queen's is committed to protecting patients from balance bills that result from unexpected gaps in insurance coverages, inadequate networks, and medical emergencies. Unfortunately, the proposed bill does not improve upon the current system, harms providers' ability to deliver quality care, and potentially limits access by creating a disincentive for insurers to contract with out-of-network providers.

The bill ties provider reimbursement to Medicare, which does not cover the cost of care. In FY2019, Queen's absorbed over \$35.7 million in health care costs when Medicare reimbursement did not fully cover the cost of care. In total that year, Queen's absorbed over \$82.8 million in reimbursement shortfall from both Medicaid and Medicare. By benchmarking payment to Medicare, the bill jeopardizes patient access to hospital care, especially for those in rural communities. Reimbursement for non-contracted insurers should be set at a higher rate than those who are contracted, otherwise contracted insurers will have no incentive to contract or

The mission of The Queen's Health Systems is to fulfill the intent of Queen Emma and King Kamehameha IV to provide in perpetuity quality health care services to improve the well-being of Native Hawaiians and all of the people of Hawai'i.

renew contracts on services. Thus, no incentive to provide an adequate network for their insured and ultimately limits access to care.

Additionally, when a patient receives a bill from an out-of-network provider it is because the insurance company refuses to pay the claim. Insurers have a duty and obligation to their insured to satisfy and resolve claims with out-of-network providers.

To best serve the interests of our patients, Queen's, Hawaii Pacific Health, Adventist Health Castle, and Hawaii Health Systems Corporation are proposing amended language that:

- Clarifies that the health care plan is responsible for the disclosure and consent requirements since they would most appropriately know which providers are participating or not in their network.
- Takes the patient out of the middle by requiring the insurer to negotiate with the out-ofnetwork provider to resolve payment and removes references that tie provider reimbursement to Medicare.
- Directs the Insurance Commissioner to establish a dispute resolution process for nonemergent services.
- Maintains an insurers' responsibility to their insured.

We would also note that the Congress is currently considering measures to address out-ofnetwork billing and is expected to address this issue by the end of May, so the bill may not be necessary. Thank you for the opportunity to testify on this measure and your consideration of the amendments.

H.B. NO. 2504

A BILL FOR AN ACT

RELATING TO HEALTH INSURANCE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that the patients with 1 2 health insurance who receive treatment from an out-of-3 network provider may be subject to the practice known as "balance billing" or "surprise billing", where the 4 provider bills the patient for the difference between 5 what the patient's health insurance chooses to reimburse and what the provider chooses to charge. These bills occur most often when patients inadvertently receive medical services from out-of-network providers, such as when a patient is undergoing surgery and is not informed 10 that a member of the medical team is not a participating 11 12 provider in the patient's health insurance's provider 13 network, or when a patient is in need of emergency services and is taken to the nearest medical facility, 14 regardless of the facility's or its providers' network 15 16 status. Out-of-network providers may not have a 17 contracted rate with a health insurer for services; therefore, the prices these providers may charge may be 18 19 much greater than the price charged by in-network 20 providers for similar services.

21 22

23

24

2526

The legislature further finds that balance bills or surprise bills can be an unwelcome shock to patients who may have unknowingly received health care services outside of their provider network. These unexpected medical bills are a major concern for Americans.

```
According to a September 2018 Kaiser Family Foundation
1
2
   poll, two-thirds of respondents said they were "very
   worried" or "somewhat worried" that they or a family
3
4
   member would receive a surprise bill. In fact, these
   bills are the most-cited concern related to health care
5
   costs and other household expenses. Furthermore, out-of-
6
   network bills sent to health insurers or carriers from
7
   physicians can be more than thirty times the average in-
8
   network rate for those same services.
9
10
11
        Currently, there is no comprehensive protection from
12
   surprise bills or balance bills at the federal level and,
13
   while there is a growing trend toward state action to
14
   protect patients from surprise bills or balance bills,
15
   most state laws do not provide comprehensive protections.
   However, the trend is changing. At least nine states
16
17
   including California, Oregon, Maryland, Connecticut,
   Illinois, New York, New Hampshire, New Jersey, and
18
19
   Florida have enacted comprehensive approaches to end
   balance billing and surprise bills. Similarly, New
20
   Mexico, Texas, Washington, and Colorado passed new
21
22
   comprehensive laws in 2019. Hawaii patients continue to
   be at risk of being caught in the middle of balance
23
24
   billing disputes between health insurers and providers or
   being hit with significant surprise bills.
25
26
27
        The purpose of this Act is to specify:
28
29
              Disclosure and consent requirements for health
         (1)
   care providers, health care facilities, and hospitals
30
31
   that are nonparticipating providers in a patient's health
32
   care plan;
```

out-of-network providers;

.B. NO.

1	(2) The circumstances in which a patient shall not
2	be liable to a health care provider for any sums owed by
3	an insurer, mutual benefit society, or health maintenance
4	organization; and
5	(3) The rate at which a health insurance plan must
6	reimburse a nonparticipating provider who provides health
7	care to a patient, unless otherwise agreed to by the
8	nonparticipating provider and the health insurance
9	plan.
10	SECTION 2. Chapter 321, Hawaii Revised Statutes, is
11	amended by adding a new section to be appropriately
12	designated and to read as follows:
13	"§321- Disclosure and consent required. (a) A
14	health care planhealth care provider, health care
15	facility, or hospital shall disclose the following
16	information in writing to their insured patients or
17	prospective patients prior to the provision of non-
18	emergency services that are not authorized by the
19	<pre>patients' health care plan:</pre>
20 21	(1) That certain health care facility-based health care providers may be called upon to render care to a covered person during the course of treatment;
22 23	(2) That those health care facility-based health care providers may not have contracts with the covered person's health care plan and are therefore considered to be
he s	contracts with the covered persons meanth care plan and are incretore constituted to be

25 (3) That the services provided will be on an out-of-network basis and the cost may be substantially higher than if the services were provided in-network;

D	NIC	À.
.D.	INC	,

1 2 3	(4) A notification that the covered person may either agree to accept and pay the charges for the out-of-network services or rely on any other rights and remedies that may be available under state or federal law; and
4 5 6 7	(5) A statement indicating that the covered person may obtain from the covered person's health care plan a list of health care facility-based health care providers who are participating providers and the covered person may request those participating facility-based health care providers.
8	(b) If a health care provider, health care
9	facility, or hospital is not a participating provider in
10	a patient's or prospective patient's health care plan
11	network, and the patient is receiving non-emergency
12	health care services, the health care provider, health
13	care facility, or hospitalplan shall:
14	(1) At least twenty-four hours prior to the provision of non-emergency services,
15	disclose to the patient or prospective patient in writing and in compliance with
16	subsection (c), the amount or estimated amount that the health care provider, health
17	care facility, or hospital will bill the patient or prospective patient for non-emergency
18	health care services provided or anticipated to be provided to the patient or
19	prospective patient, not including unforeseen medical circumstances that may arise
20	when the health care services are provided; and
21	(2) At least twenty-four hours prior to the provision of non-emergency services,
22	obtain the written consent of the patient or prospective patient for provision of
23	services by the nonparticipating health care provider, health care facility, or hospital
24	in writing separate from the document used to obtain the consent for any other part of
25	the care or procedure; provided that the consent shall not be obtained at the time of

- admission or at any time when the patient or prospective patient is being prepared for 1 2 surgery or any other procedure. (c) Any communication from the nonparticipating 3 4 health care provider, health care facility, or hospital health care plan to the patient or prospective 5 patientinsured shall include notice in a twelve-point 6 7 bold type stating that the communication is not a bill 8 and informing the patient or prospective patient insured 9 that the insured patient or prospective patient shall not 10 pay any amount or estimated amount until the insured patient's or prospective patient's health care plan 11 12 informs the insured patient or prospective patient of any 13 applicable cost-sharing. 14 A nonparticipating health care provider, health care facility, or hospital health care plan that fails to 15 comply with this section shall not bill or collect any 16 17 amount from the insured patient or prospective patient in 18 excess of the in-network cost-sharing owed by the 19 insuredpatient or prospective patient that would be 20 billed or collected for the same services rendered by a participating health care provider, health care facility, 21 22 or hospital.
 - (e) For purposes of this section:

___.B. NO.____

1	"Health care facility" means any institution, place,
2	building, or agency, or portion thereof, licensed or
3	otherwise authorized by the State, whether organized for
4	profit or not, used, operated, or designed to provide
5	medical diagnosis, treatment, or rehabilitative or
6	preventive care to any person or persons.
7	"Health care plan" means a policy, contract, plan,
8	or agreement delivered or issued for delivery by a health
9	insurance company, mutual benefit society governed by
10	article 1 of chapter 432, health maintenance organization
11	governed by chapter 432D, or any other entity delivering
12	or issuing for delivery in the State accident and health
13	or sickness insurance as defined in section 431:1-205,
14	other than disability insurance that replaces lost
15	income.
16	"Health care provider" means an individual who is
17	licensed or otherwise authorized by the State to provide
18	health care services.
19	"Hospital" means:
20 21 22	(1) An institution with an organized medical staff, regulated under section 321-11(10), that admits patients for inpatient care, diagnosis, observation, and treatment; and

(2) A health facility under chapter 323F.

23

(1) cCollect sums owed by the insurer.; or

```
1
         "In-network cost-sharing" means the amount owed by a
2
   covered person to a health care provider, health care
3
   facility, or hospital that is a participating member of
4
   the covered person's health care plan's network."
         SECTION 3. Chapter 431, Hawaii Revised Statutes, is
5
   amended by adding two new sections to article 10A be
6
7
   appropriately designated and to read as follows:
         "S431:10A-A Balance billing; hold harmless;
8
   emergency services. (a) Every contract between an
9
   insurer and a participating provider of health care
10
11
   services shall be in writing and shall set forth that in
   the event the insurer fails to pay for health care
12
   services as set forth in the contract, the insured shall
13
   not be liable to the provider for any sums owed by the
14
15
   insurer.
       (b) If a contract with a participating provider has
16
   not been reduced to writing as required by subsection
17
18
   (a), or if a contract fails to contain the required
19
   prohibition, the participating provider shall not collect
20
   or attempt to collect from the insured sums owed by the
   insurer. No participating provider, or agent, trustee,
21
22
   or assignee thereof, may maintain any action at law
   against an insured too:
23
```

.B. NO.

```
(2) Collect sums in excess of the amount owed by the insured as a copayment,
1
    coinsurance, or deductible under the insured's policy of accident and health or
2
    sickness insurance.
3
               When an insured receives emergency services
4
         (be)
    from a provider who is not a participating provider in
5
    the provider network of the insured, the insured shall
6
7
    not incur greater out-of-pocket costs for emergency
8
    services than the insured would have incurred with a
    participating provider of health care services. No
9
    nonparticipating provider, or agent, trustee, or assignee
10
    thereof, may maintain any action at law against an
11
    insured to collect sums in excess of the amount owed by
12
    the insured as a copayment, coinsurance, or deductible
13
    under the insured's policy of accident and health or
14
    sickness insurance.
15
         (d) When the insured receives emergency services from
16
17
    a provider who is not a participating provider in the
    provider network of the insured, an insurer shall be
18
    responsible to fulfill their obligation to the insured
19
    and shall enter into negotiation with the provider who is
20
    not a participating provider in the provider network of
21
22
    the insured to resolve any sums owed by the insurer.
```

(ed) For purposes of this section:

_.B. NO.__

1	"Emergency condition" means a medical or behavioral
2	condition that manifests itself by acute symptoms of
3	sufficient severity, including severe pain, such that a
4	prudent layperson, possessing an average knowledge of
5	medicine and health, could reasonably expect the absence
6	of immediate medical attention to result in:
7 8	(1) Placing the health of the person afflicted with the condition in serious jeopardy;
9	(2) Serious impairment to the person's bodily functions;
10	(3) Serious dysfunction of any bodily organ or part of the person; or
11	(4) Serious disfigurement of the person.
12	"Emergency services" means, with respect to an
13	<pre>emergency condition:</pre>
14 15	(1) A medical screening examination as required under section 1867 of the Social Security Act, title 42 United States Code section 1395dd; and

5
    the subscriber or member, to resolve any sums owed by the
6
7
    mutual benefit society.
8
                For purposes of this section:
9
          "Emergency condition" means a medical or behavioral
10
    condition that manifests itself by acute symptoms of
    sufficient severity, including severe pain, such that a
11
12
    prudent layperson, possessing an average knowledge of
    medicine and health, could reasonably expect the absence
13
    of immediate medical attention to result in:
14
      (1) Placing the health of the person afflicted with the condition in serious
15
16
    jeopardy;
17
      (2) Serious impairment to the person's bodily functions;
      (3) Serious dysfunction of any bodily organ or part of the person; or
18
      (4) Serious disfigurement of the person.
19
          "Emergency services" means, with respect to an
20
21
    emergency condition:
      (1) A medical screening examination as required under section 1867 of the Social
22
```

Security Act, title 42 United States Code section 1395dd; and

.B. NO.

- (2) Any further medical examination and treatment, as required under section
 1867 of the Social Security Act, title 42 United States Code section 1395dd, to
 stabilize the patient.
- 4 §432:1-Balance billing; hold harmless; nonemergency services. (a) Absent a signed consent form as 5 required under section 321- Nno nonparticipating 6 7 health care provider, health care facility, or hospital, or agent, trustee, or assignee thereof, may maintain any 8 9 action at law against a subscriber or member to collect 10 sums in excess of the amount owed by the subscriber or member as a copayment, coinsurance, or deductible for 11 similar services provided by a participating provider 12 13 under the subscriber's or member's plan contract. 14 (b) When a subscriber or member receives non-emergency services from a provider who is not a participating 15 provider in the provider network of the subscriber or 16 member, the mutual benefit society shall be responsible 17 to fulfill their obligation to the subscriber or member 18 19 and shall enter into negotiation with the provider who is not a participating provider in the provider network of 20 21 the subscriber or member, to resolve any sums owed by the 22 mutual benefit society.

___.B. NO.____

1	§432:1- Out-of-network or nonparticipating
2	provider reimbursement; rate calculation. (a) AAbsent a

maintenance organization and a participating provider of
1
   health care services shall be in writing and shall set
2
    forth that in the event the health maintenance
3
    organization fails to pay for health care services as set
4
    forth in the contract, the subscriber or enrollee shall
5
6
    not be liable to the provider for any sums owed by the
7
    carrier or health maintenance organization.
         (b) If a contract with a participating provider has
8
9
    not been reduced to writing as required by subsection
10
    (a), or if a contract fails to contain the required
   prohibition, the participating provider shall not collect
11
    or attempt to collect from the subscriber or enrollee
12
    sums owed by the health maintenance organization. No
13
14
    participating provider, or agent, trustee, or assignee
    thereof, may maintain any action at law against a
15
    subscriber or enrollee to:
16
    - c(1) Collect sums owed by the health maintenance organization; or
17
   (2) Collect sums in excess of the amount owed by the subscriber or enrollee as a
18
    copayment, coinsurance, or deductible under the subscriber's or enrollee's policy,
19
    contract, plan, or agreement.
20
21

Hearing Date/Time: Wednesday, February 4, 2020, 9:30 a.m.

RE: Comments S.B. 2278, Relating to Health Insurance

Dear Chair Baker and Members of the Committee:

Adventist Health Castle appreciates the opportunity to offer comments to S.B. 2278, which seeks to establish disclosure and consent requirements for providers regarding plan information; prohibits nonparticipating health care providers from balance billing patients in certain circumstances; and seeks to institute rate calculation requirements for reimbursement for non-participating providers.

AH Castle is fully supports the intent of the bill, which is to protect patients from any gaps in payor networks and insulate them from billing disputes between a payor and provider. AH Castle strongly believes, however, that the substance of the bill fails to meet its intent.

The notice and requirement portion of the bill places the onus on providers to communicate to patients the details of their insurance plan prior to commencing non-emergent treatment, something that as providers, we are not easily as privy to as the payors themselves. This notice includes not just informing the patient whether a provider (or multiple providers as the case may be) is in-network, but arguably includes informing the patient whether the service provided is in their plan. Such information is most accurately conveyed by the payor who set up the network and designed the plan, not by the provider, and is more appropriately the responsibility of the payor with whom the patient contracted with.

The bill also seeks to establish baseline payment amounts for out-of-network providers, setting the rate at either the "usual and customary" plan rate or at Medicare rates. This leaves numerous swaths of the population vulnerable, as Medicare does not cover certain services (i.e. women and children) and some plans fail to provide coverage for particular services, leaving the bench mark of "usual and customary" obsolete. A rate baseline that is to be determined solely by the health plan, and/or a rate baseline that is set below cost, disincentivizes health plans to negotiate in good faith with providers, and patients are left paying for a network that shrinks with every contract renewal.

In an effort to meet the needs of our patients and further the intent of the bill, AH Castle, Queens Health Systems, Hawaii Pacific Health and Hawaii Health Systems Corporation, support the attached amendments that include language that:

- Clarifies that the health care plan is responsible to inform the insured the details of their plans and networks;
- Requires that the health care plan and the provider seek a resolution to any billing dispute without including the patient;

- Removes the disincentive for health care plans to negotiate in good faith with providers by removing references to Medicare rates or "usual and customary" rates;
- Directs the Insurance Commissioner to establish a dispute resolution process for non-emergent procedures;

Sincerely,

-DocuSigned by:

THE SENATE THIRTIETH LEGISLATURE, 2020 STATE OF HAWAII

H.B. NO. 250

A BILL FOR AN ACT

RELATING TO HEALTH INSURANCE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that the patients with 1 2 health insurance who receive treatment from an out-of-3 network provider may be subject to the practice known as "balance billing" or "surprise billing", where the 5 provider bills the patient for the difference between what the patient's health insurance chooses to reimburse 7 and what the provider chooses to charge. These bills occur most often when patients inadvertently receive 9 medical services from out-of-network providers, such as when a patient is undergoing surgery and is not informed 10 11 that a member of the medical team is not a participating provider in the patient's health insurance's provider network, or when a patient is in need of emergency 13 services and is taken to the nearest medical facility, regardless of the facility's or its providers' network 15 status. Out-of-network providers may not have a 16 17 contracted rate with a health insurer for services; therefore, the prices these providers may charge may be 18 19 much greater than the price charged by in-network 20 providers for similar services.

The legislature further finds that balance bills or surprise bills can be an unwelcome shock to patients who may have unknowingly received health care services outside of their provider network. These unexpected medical bills are a major concern for Americans.

According to a September 2018 Kaiser Family Foundation poll, two-thirds of respondents said they were "very worried" or "somewhat worried" that they or a family member would receive a surprise bill. In fact, these bills are the most-cited concern related to health care costs and other household expenses. Furthermore, out-of-network bills sent to health insurers or carriers from physicians can be more than thirty times the average innetwork rate for those same services.

Currently, there is no comprehensive protection from surprise bills or balance bills at the federal level and, while there is a growing trend toward state action to protect patients from surprise bills or balance bills, most state laws do not provide comprehensive protections. However, the trend is changing. At least nine states including California, Oregon, Maryland, Connecticut, Illinois, New York, New Hampshire, New Jersey, and Florida have enacted comprehensive approaches to end balance billing and surprise bills. Similarly, New Mexico, Texas, Washington, and Colorado passed new comprehensive laws in 2019. Hawaii patients continue to be at risk of being caught in the middle of balance billing disputes between health insurers and providers or being hit with significant surprise bills.

The purpose of this Act is to specify:

(1) Disclosure and consent requirements for health care providers, health care facilities, and hospitals that are nonparticipating providers in a patient's health care plan;

3

5

6

7

8 9

20

21

22

24

___.B. NO.____

- (2) The circumstances in which a patient shall not be liable to a health care provider for any sums owed by an insurer, mutual benefit society, or health maintenance organization; and
- (3) The rate at which a health insurance plan must reimburse a nonparticipating provider who provides health care to a patient, unless otherwise agreed to by the nonparticipating provider and the health insurance plan.
- 10 SECTION 2. Chapter 321, Hawaii Revised Statutes, is
- 11 amended by adding a new section to be appropriately
- 12 designated and to read as follows:
- 13 "§321- Disclosure and consent required. (a) A
- 14 health care planhealth care provider, health care
- 15 facility, or hospital shall disclose the following
- 16 information in writing to their insured patients or
- 17 prospective patients prior to the provision of non-
- 18 emergency services that are not authorized by the
- 19 patients' health care plan:
 - (1) That certain health care facility-based health care providers may be called upon to render care to a covered person during the course of treatment;
 - (2) That those health care facility-based health care providers may not have contracts with the covered person's health care plan and are therefore considered to be out-of-network providers;
- 25 (3) That the services provided will be on an out-of-network basis and the cost may be substantially higher than if the services were provided in-network;

admission or at any time when the patient or prospective patient is being prepared for
1
    surgery or any other procedure.
2
         (c) Any communication from the nonparticipating
3
    health care provider, health care facility, or
4
    hospitalhealth care plan to the patient or prospective
5
    patientinsured shall include notice in a twelve-point
6
    bold type stating that the communication is not a bill
7
8
    and informing the patient or prospective patientinsured
9
    that the insured patient or prospective patient shall not
10
    pay any amount or estimated amount until the insured
11
    patient's or prospective patient's health care plan
12
    informs the insured patient or prospective patient of any
13
    applicable cost-sharing.
14
         (d) A nonparticipating health care provider, health
15
    care facility, or hospital health care plan that fails to
16
    comply with this section shall not bill or collect any
17
    amount from the insured patient or prospective patient in
18
    excess of the in-network cost-sharing owed by the
19
    insured<del>patient or prospective patient</del> that would be
20
    billed or collected for the same services rendered by a
21
    participating health care provider, health care facility,
22
    or hospital.
23
         (e) For purposes of this section:
```

1	"Health care facility" means any institution, place,
2	building, or agency, or portion thereof, licensed or
3	otherwise authorized by the State, whether organized for
4	profit or not, used, operated, or designed to provide
5	medical diagnosis, treatment, or rehabilitative or
6	preventive care to any person or persons.
7	"Health care plan" means a policy, contract, plan,
8	or agreement delivered or issued for delivery by a health
9	insurance company, mutual benefit society governed by
10	article 1 of chapter 432, health maintenance organization
11	governed by chapter 432D, or any other entity delivering
12	or issuing for delivery in the State accident and health
13	or sickness insurance as defined in section 431:1-205,
14	other than disability insurance that replaces lost
15	income.
16	"Health care provider" means an individual who is
17	licensed or otherwise authorized by the State to provide
18	health care services.
19	"Hospital" means:
20 21 22	(1) An institution with an organized medical staff, regulated under section 321-11(10), that admits patients for inpatient care, diagnosis, observation, and treatment; and
23	(2) A health facility under chapter 323F.

(2) A health facility under chapter 323F.

```
"In-network cost-sharing" means the amount owed by a
1
    covered person to a health care provider, health care
2
3
   facility, or hospital that is a participating member of
    the covered person's health care plan's network."
4
5
         SECTION 3. Chapter 431, Hawaii Revised Statutes, is
    amended by adding two new sections to article 10A be
6
    appropriately designated and to read as follows:
7
8
         "§431:10A-A Balance billing; hold harmless;
9
   emergency services. (a) Every contract between an
10
   insurer and a participating provider of health care
    services shall be in writing and shall set forth that in
11
   the event the insurer fails to pay for health care
12
    services as set forth in the contract, the insured shall
13
14
    not be liable to the provider for any sums owed by the
15
    insurer.
16
        (b) If a contract with a participating provider has
    not been reduced to writing as required by subsection
17
   (a), or if a contract fails to contain the required
18
19
   prohibition, the participating provider shall not collect
20
   or attempt to collect from the insured sums owed by the
21
   insurer. No participating provider, or agent, trustee,
22
   or assignee thereof, may maintain any action at law
23
    against an insured too:
24
    (1) cCollect sums owed by the insurer.; or
```

Formatted: regularparagraphs, Line spacing: At least 24 pt

```
(2) Collect sums in excess of the amount owed by the insured as a copayment,
1
    coinsurance, or deductible under the insured's policy of accident and health or
2
3
    sickness insurance.
4
         (be) When an insured receives emergency services
5
    from a provider who is not a participating provider in
    the provider network of the insured, the insured shall
6
7
    not incur greater out-of-pocket costs for emergency
8
    services than the insured would have incurred with a
9
    participating provider of health care services. No
    nonparticipating provider, or agent, trustee, or assignee
10
    thereof, may maintain any action at law against an
11
    insured to collect sums in excess of the amount owed by
12
    the insured as a copayment, coinsurance, or deductible
13
14
    under the insured's policy of accident and health or
15
    sickness insurance.
16
        (d) When the insured receives emergency services from
    a provider who is not a participating provider in the
17
    provider network of the insured, an insurer shall be
18
19
    responsible to fulfill their obligation to the insured
20
    and shall enter into negotiation with the provider who is
21
    not a participating provider in the provider network of
22
    the insured to resolve any sums owed by the insurer.
23
         (ed) For purposes of this section:
```

1	"Emergency condition" means a medical or behavioral
2	condition that manifests itself by acute symptoms of
3	sufficient severity, including severe pain, such that a
4	prudent layperson, possessing an average knowledge of
5	medicine and health, could reasonably expect the absence
6	of immediate medical attention to result in:
7 8	(1) Placing the health of the person afflicted with the condition in serious jeopardy;
9	(2) Serious impairment to the person's bodily functions;
0	(3) Serious dysfunction of any bodily organ or part of the person; or
1	(4) Serious disfigurement of the person.
2	"Emergency services" means, with respect to an
3	emergency condition:
14	(1) A medical screening examination as required under section 1867 of the Social Security Act, title 42 United States Code section 1395dd; and
16 17 18	(2) Any further medical examination and treatment, as required under section 1867 of the Social Security Act, title 42 United States Code section 1395dd, to stabilize the patient.
9	§431:10A-B Balance billing; hold harmless; non-
20	<pre>emergency services. (a) Absent a signed consent form as</pre>
21	required under section 321- , no nonparticipating
22	health care provider, health care facility, or hospital,
23	or agent, trustee, or assignee thereof, may maintain any

1 action at law against an insured to collect sums in 2 excess of the amount owed by the insured as a copayment, 3 coinsurance, or deductible for similar services provided by a participating provider under the insured's policy of 4 5 accident and health or sickness insurance. (b) When the insured receives emergency services from a 6 provider who is not a participating provider in the 7 provider network of the insured, an insurer shall be 8 9 responsible to fulfill their obligation to the insured 10 and shall enter into negotiation with the provider who is 11 not a participating provider in the provider network of 12 the insured to resolve any sums owed by the insurer." 13 SECTION 4. Chapter 431, Hawaii Revised Statutes, is 14 amended by adding a new section to article 14G to be 15 appropriately designated and to read as follows: "§431:14G- Out-of-network or nonparticipating 16 provider reimbursement; rate calculation. (a) Absent a 17 18 signed consent form as required under section 321-19 any contract to the contrary, Aa managed care plan shall 20 be responsible to fulfill their obligation to the insured 21 and enter into negotiation with the non-participating 22 provider. The managed care plan and non-participating 23 provider shall come to an agreement through an independent dispute resolution process, as established by

1	required by law or by the terms and conditions of the
2	managed care plan. Nothing in this section shall be
3	construed to prohibit nonparticipating providers from
4	seeking the uncovered cost of services rendered from
5	enrollees who have consented to receive the health care
6	services provided by the nonparticipating provider in
7	accordance with section 321
8	(c) For purposes of this section "usual and
9	customary rate" shall mean the managed care plan's
10	average contracted rate."
11	SECTION 5. Chapter 432, Hawaii Revised Statutes, is
12	amended by adding three new sections to article 1 to be
13	appropriately designated and to read as follows:
14	"§432:1- Balance billing; hold harmless;
15	<pre>emergency services. (a) Every contract between a mutual</pre>
16	benefit society and a participating provider of health
17	care services shall be in writing and shall set forth
18	that in the event the mutual benefit society fails to pay
19	for health care services as set forth in the contract,
20	the subscriber or member shall not be liable to the
21	provider for any sums owed by the mutual benefit society.
22	(b) If a contract with a participating provider has
23	not been reduced to writing as required by subsection
24	(a), or if a contract fails to contain the required

```
prohibition, the participating provider shall not collect
1
    or attempt to collect from the subscriber or member sums
2
3
    owed by the mutual benefit society. No participating
    provider, or agent, trustee, or assignee thereof, may
4
    maintain any action at law against a subscriber or member
5
6
   to:
    (1) cCollect sums owed by the mutual benefit society; or.
7
8
   — (2) Collect sums in excess of the amount owed by the subscriber or member as a copayment,
9
    coinsurance, or deductible under the subscriber's or member's plan contract.
10
         (c) When a subscriber or member receives emergency
11
    services from a provider who is not a participating
    provider in the provider network of the subscriber or
12
    member, the subscriber or member shall not incur greater
13
14
    out-of-pocket costs for emergency services than the
15
    subscriber or member would have incurred with a
16
    participating provider of health care services. No
17
    nonparticipating provider, or agent, trustee, or assignee
18
    thereof, may maintain any action at law against a
    subscriber or member to collect sums in excess of the
19
20
    amount owed by the subscriber or member as a copayment,
21
    coinsurance, or deductible under the subscriber's or
22
    member's plan contract.
23
         (d) When a subscriber or member receives emergency
    services from a provider who is not a participating

1	maintenance organization and a participating provider of
2	health care services shall be in writing and shall set
3	forth that in the event the health maintenance
4	organization fails to pay for health care services as set
5	forth in the contract, the subscriber or enrollee shall
6	not be liable to the provider for any sums owed by the
7	carrier or health maintenance organization.
8	(b) If a contract with a participating provider has
9	not been reduced to writing as required by subsection
10	(a), or if a contract fails to contain the required
11	prohibition, the participating provider shall not collect
12	or attempt to collect from the subscriber or enrollee
13	sums owed by the health maintenance organization. No
14	participating provider, or agent, trustee, or assignee
15	thereof, may maintain any action at law against a
16	subscriber or enrollee to:
17	— c(1) Collect sums owed by the health maintenance organization; or
18	(2) Collect sums in excess of the amount owed by the subscriber or enrollee as a
19 20	<u>eopayment, coinsurance, or deductible under the subscriber's or enrollee's policy, contract, plan, or agreement.</u>
_,	
21	(c) When a subscriber or enrollee receives
22	emergency services from a provider who is not a
23	participating provider in the provider network of the

subscriber or enrollee, the subscriber or enrollee shall

1	<pre>not incur greater out-of-pocket costs for emergency</pre>
2	services than the subscriber or enrollee would have
3	incurred with a participating provider of health care
4	services. No nonparticipating provider, or agent,
5	trustee, or assignee thereof, may maintain any action at
6	law against a subscriber or enrollee to collect sums in
7	excess of the amount owed by the subscriber or enrollee
8	as a copayment, coinsurance, or deductible under the
9	subscriber's or enrollee's policy, contract, plan, or
10	agreement.
11	(d) When a subscriber or enrollee receives emergency
12	services from a provider who is not a participating
13	provider in the provider network of the subscriber or
14	enrollee, the carrier or health maintenance organization
15	shall be responsible to fulfill their obligation to the
16	subscriber or enrollee and shall enter into negotiation
17	with the provider who is not a participating provider in
18	the provider network of the subscriber or enrollee, to
19	resolve any sums owed by the carrier or health
20	maintenance organization.
21	(ed) For purposes of this section:
22	"Emergency condition" means a medical or behavioral
23	condition that manifests itself by acute symptoms of
24	sufficient severity, including severe pain, such that a

1	prudent layperson, possessing an average knowledge of
2	medicine and health, could reasonably expect the absence
3	of immediate medical attention to result in:
4 5	(1) Placing the health of the person afflicted with the condition in serious jeopardy:
6	(2) Serious impairment to the person's bodily functions;
7	(3) Serious dysfunction of any bodily organ or part of the person; or
8	(4) Serious disfigurement of the person.
9 10	"Emergency services" means, with respect to an emergency condition:
11 12	(1) A medical screening examination as required under section 1867 of the Social Security Act, title 42 United States Code section 1395dd; and
13 14 15	(2) Any further medical examination and treatment, as required under section 1867 of the Social Security Act, title 42 United States Code section 1395dd, to stabilize the patient.
16	§432D- Balance billing; hold harmless; non-
17	emergency services. Absent a signed consent form as
18	required under section 321- , Nno nonparticipating
19	health care provider, health care facility, or hospital,
20	or agent, trustee, or assignee thereof, may maintain any
21	action at law against a subscriber or enrollee to collect
22	sums in excess of the amount owed by the subscriber or

enrollee as a copayment, coinsurance, or deductible for

1	similar services provided by a participating provider
2	under the subscriber's or enrollee's policy, contract,
3	plan, or agreement.
4	§432D- Out-of-network or nonparticipating
5	provider reimbursement; rate calculation. (a) AAbsent a
6	signed consent form as required under section 321- or
7	any contract to the contrary, a health maintenance
8	organization shall be responsible to fulfill their
9	obligation to the subscriber or enrollee and enter into
10	negotiation with the non-participating provider. The
11	health maintenance organization and non-participating
12	provider shall come to an agreement through an
13	independent dispute resolution process, as established by
14	the insurance commissioner. If not resolution is met, the
15	health maintenance organization shall pay the non-
16	participating provider shall pay the non-participating
17	provider the amount billed by the non-participating
18	provider. The insurance commissioner shall adopt rules
19	pursuant to chapter 91 to establish an independent
20	dispute resolution process. reimburse a nonparticipating
21	provider the greater of:
22	(1) The usual and customary rate for similar services provided by a participating
23	provider under the subscriber's or enrollee's policy, contract, plan, or agreement; or

```
(2) per cent of the amount medicare reimburses on a fee-for-service basis for
1
   the same or similar services in the general geographic region in which the services
2
3
    were rendered.
4
         (b) Nothing in this section shall be construed to
5
    require a health maintenance organization to cover
    services not required by law or by the terms and
6
7
    conditions of the policy, contract, plan, or
8
    agreement. Nothing in this section shall be construed to
9
    prohibit nonparticipating providers from seeking the
10
    uncovered cost of services rendered from subscribers or
    enrollees who have consented to receive the health care
11
    services provided by the nonparticipating provider in
12
    accordance with section 321- .
13
14
      (c) For purposes of this section "usual and
15
    customary rate" shall mean the carrier or health
    maintenance organization's average contracted rate."
16
         SECTION 7. Section 431:10-109, Hawaii Revised
17
    Statutes, is amended to read as follows:
18
19
         "[+]$431:10-109[+] Disclosure of [health care
20
    coverage and benefits.] information. (a) In order to
21

THE SENATE THIRTIETH LEGISLATURE, 2020 STATE OF HAWAII S.B. NO. 2278

Report Title:

Balance Billing; Surprise Billing; Prohibitions; Health Insurance; Nonparticipating Providers

Description:

Establishes disclosure and consent requirements for nonparticipating health care providers. Prohibits nonparticipating health care providers from balance billing patients in specific circumstances. Establishes rate calculation requirements for reimbursement of nonparticipating providers.

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.

Comments on SB2278 & HB2504

The last 15 years in health care has led to radical changes in what insurers pay for. There has been the introduction of "high deductible; health plans which in some cases makes the patients responsible for the first \$5,000 to \$10,000 of annual costs. The co-pays have also risen dramatically, and patients seem shocked when they get bills because they do not understand their co-pays and deductibles. Federal law already protects patients seeking emergency care form being exposed to higher co-pays and deductibles even if they are out of network. So regardless of being a participating provider or out of network in both cases co-pays and deductibles will be the same.

Clarification of what constitute surprise billing and definition of terms

Deductible: the amount that is the patient's responsibility as defined in the insurance that has been given to the patient

Co-pay: for each and every service the amount that is the patient's responsibility

In Network vs Out of Network typically after a negotiation period between a provider and a health plan the provider agrees to provide a discount from their usual fees in return for a volume of referrals and for prompt payment. This is the benefit of the bargain when a provider contracts.

It makes practical sense to contract with dominant health plans on the island or within the state. It is not possible nor practical to contract with health plans in all 50 states as there is no substantial volume of patients coming from out of state plans.

ERISA claims: Certain insurance plans are governed by federal not state laws and these have come to be known as ERISA plans. For these plans the insurance company pays the enrollee and providers then bill the enrollee for the full amount. This is totally permissible.

UC&R Usual, Customary and Reasonable is a term that refers to the providers charges which are based upon their experience, their practice costs and the cost of living in the area they practice in. UCR in Hawaii is substantially more than in Florida or Texas so practice costs must be considered. Charges for a board-certified specialist with more training will be more than a family physician.

Health plans need to clarify clearly on patient benefits and EOB's what is the yearly deductible for their health plan and what their co-pay is as well. There is total confusion on what is a patients legal responsibility and unfortunately this confusion frequently leads to the perception that a patients bill is a surprise bill when in reality it is a legitimate bill which encompasses their deductible and their co-pay or a non-covered benefit.

Health care is analogous to a three-legged stool.

- There are PATIENTS who do not want to be in the middle of payor provider disputes but who also want access to quality care and specialists.
- There are INSURERS who are struggling to control the costs of healthcare and equally have a profit motive that the less they pay the more they make.
- There are the PROVIDERS who took an oath to advocate what is in the best interests of their patients and whom struggle with the high costs of living in the islands and who leave training burdened with massive amounts of student loans often approaching \$500,000 at the end of their training

There is a delicate ecosystem that needs to be preserved. There is general consensus that the patients need to be kept out of the middle of billing disputes but at the same time in planning a system that does so we all need to be mindful of preserving QUALITY and ACCESS.

Hawaii is suffering from a lack of physicians which has led to less ACCESS and this shortage jeopardizes QUALITY. The following 2019 article highlights this issue:

https://www.hawaiinewsnow.com/2019/09/10/hawaiis-doctor-shortage-is-taking-troubling-turn-worse/

- in 2019 there was an exodus of physicians
- Estimates indicate we need 700 more physicians in the islands
- Fully 25% of HI physicians are over the age of 60 and with retirement looming this shortage will get worse

With all of this in mind it is critical that a system be carefully designed to keep patients out of the middle but we also need to be mindful that reimbursements need to be enough to keep physicians in the islands and attract new physicians to alleviate our upcoming shortage.

The current proposed legislation needs several modifications to ensure that all goals are met, and that the system be transparent and fair to all.

Other states have already tackled this issue and we can learn by those that have crafted solutions before us:

In CA AB 72 was passed in 2016. This bill recognizes that Emergency physicians bear the burden of caring for the uninsured and provides certain practical exemptions for Emergency providers

In NY the legislature passed in 2015 a bill Insurance Section 3241c that was intended to stop surprise billing

The current proposals shift power significantly from the system as it currently exists to benefit the insurers.

1) It allows insurance companies to pay providers who are not in network to pay the average of their current contracted in network rates. This system is not known to the public nor is it transparent. A proper system would be to use a public database maintained by an independent third party and to set this to the 50=75% of the average of charges submitted within that zip code.

An example of a publicly available database is: FAIRhealth.org

2) New York's bill allows for an independent dispute resolution process. They use independent arbitrators and baseball style arbitration to resolve disputes between the insurance companies and providers.

The addition of items 1&2 above would significantly help establish a fair system between providers and insurers while keeping patients out of the middle of these disputes

Comments:

Regarding SB2278/HB2504, SB2423/HB1881

Respectfully we are requesting consideration for the following amendments

1. There needs to be a fair and equitable arbitration process.

New York State has addressed this with legislation https://www.dfs.ny.gov/consumers/health_insurance/surprise_medical_bills

https://www.brookings.edu/blog/usc-brookings-schaeffer-on-health-policy/2019/10/24/experience-with-new-yorks-arbitration-process-for-surprise-out-of-network-bills/

https://www.vox.com/health-care/2019/3/19/18233051/surprise-medical-bills-arbitration-new-york

A "baseball" form of arbitration would be fair to both providers and insurers.

1. There needs to be a fair unbiased method to value provider work product, such as www.fairhealth.org

- 2. Definitions of balanced and surprise billing needs clarity as patients frequently are not aware of their responsibilities according to their own health insurance. Especially in instances of high deductible health insurance claims.
- 3. We respectively suggest Emergency Physicians and providers deserve special consideration and dispensation for their unique EMTALA burden such as provided by exemption in CA AB 72.
- 4. Balance billing from Hawaii emergency physicians for those with Hawaii health care plans is very rare. Hawaii's Insurance Division informed us that, after removing 14 complaits related to air transport in 2015, Hawaii has averaged less than 3 balance billing complaints each year since 2009. Balance billing from emergency physicians in Hawaii is limited to patients with mainland coverage, and is only used when the patient's plans do not reimburse appropriately. Often, we have little contact and few patients with those plans and have very little opportunity to contract with the
- 5. Patients should not be in the middle of disputes between insurers and providers. However, in the absence of the above amendments and an equal playing field between insurers and providers, there will be little to jo incentive for the insurers to negotiate in a good faith manner with providers. Downward pressure on provider reimbursement will place the patient back in the middle now related to declining access to care. A Kaiser Foundation study suggests that 25% of Hawaiian practicing physicians are at a retirement age. HI has a 700+ plus physician shortage becoming more hyper Acute yearly. Access to primary and specialty care is already critically difficult. Prohibiting balance billing would harm patients by limiting access to emergency care.
- 6. Recruiting high-quality emergency physicians to Hawaii is already challenging, particularly for rural areas and neighbor islands. Emergency physicians provide, on average, \$138,000 in uncompensated care each year. Hawaii's emergency physician compensation consistently ranks among the bottom five states in the country, even before considering the high cost of living. The vast majority of Hawaii's emergency physicians are board-certified in emergency medicine. They are true specialists, and as well trained as any emergency physicians in the world. They can work anywhere, and Hawaii faces stiff competition from 49 other states and the rest of the pacific rim. Our emergency physician groups routinely lose potential hires to other states solely because of compensation. Continued downward pressure on reimbursement through devices such as SB2668 will make staffing our emergency departments with quality physicians increasingly difficult.

SB-2278

Comments:

I am writing today to oppose SB2278. As an Emergency Medicine physician working on Maui, I am deeply concerned this will negatively impact the access to, and quality of, the care provided to our patients.

The Hawaiian islands are short an estimated 700 physicians. This number will inevitably balloon given current physician demographics, with 25% of physicians over the age of 60. This bill will make it increasingly difficult to recruit and retain physicians, thereby further limiting access to timely, quality care. Isn't this a disproportionately high price to pay to address the three balanced billing complaints the state has received, on average, in each of the past ten years? In essence, this bill handicaps our ability to staff our departments only to accommodate mainland insurance companies. This is not in the best interest of our Hawaiian patients.

There is a better solution. I advocate for the removal of patients from billing disputes, the use of an independent third party database to set out of network reimbursement, and the use of an arbitration system to resolve disputes between providers and insurers.

Many thanks for your time and consideration.

My best,

Jason Aines MD
