

DAVID Y. IGE
GOVERNOR OF HAWAII

**STATE OF HAWAII
DEPARTMENT OF LAND AND NATURAL RESOURCES**

POST OFFICE BOX 621
HONOLULU, HAWAII 96809

**Testimony of
SUZANNE D. CASE
Chairperson**

**Before the House Committee on
ENERGY & ENVIRONMENTAL PROTECTION**

**Monday, June 22, 2020
9:30 AM
State Capitol, Conference Room 325**

**In consideration of
SENATE BILL 2781
RELATING TO LITTER CONTROL**

Senate Bill 2781 proposes to prohibit the intentional release of balloons inflated with a gas that is lighter than air. **The Department of Land and Natural Resources (“Department”) supports this bill and provides the following comments.**

The Department recognizes the deleterious impacts that marine debris, including balloons, has on wildlife and their habitats, leading to an alarming natural resource concern throughout the state. Marine debris harms land and ocean-based habitat through smothering and abrasion and impacts a variety of wildlife through ingestion and entanglement.

A study conducted by the University of Tasmania (research conducted outside of Hawaii) found that 1 in 3 birds out of a sample of 1,733 sea birds, representing 51 different species, had ingested plastic marine debris. Balloons, as soft plastics, posed the highest risk for the sea birds since they can cause fatal obstruction. Sea turtles, as well, were susceptible to mortality from soft plastics, due to experiencing a blockage through the gastrointestinal tract lasting anywhere between 4 to 6 months. Gut-content studies from Australia have indicated that turtles may selectively ingest balloons and other soft plastics due to their similar appearances to a species of jellyfish consumed by all species of turtles.

The negative impact of ingestion is compounded by the fact that plastics of all sizes absorb and release Persistent Organic Pollutants, toxic chemicals which adversely affect the health and longevity of marine organisms.

Although a large amount of marine plastic debris arrives from the ocean, it is all of our responsibility to reduce the amount of plastic debris entering and re-entering our ocean and beaches. Senate Bill 2781 would help reduce the balloon waste load entering Hawaii's waters and shorelines and contribute to the improved health of our wildlife and their habitats.

Thank you for the opportunity to comment on this measure.

Comments:

Lighter than air balloons often blow into the ocean, where they cause a horrible death for many types of marine life that think they are food and have their digestive tracks blocked. We associate balloons with celebration and joy, but we should not celebrate by killing marine life! The plastic in balloons never disappears, but breaks into smaller pieces that damage reefs and marine life. Please pass this bill. Mahalo!

RE: **TESTIMONY IN VERY STRONG SUPPORT OF SB2781**
Relating to litter control. Prohibits the intentional release of balloons.
Committee meeting on Monday June 22, 2020 at 9:30AM

Aloha Chair Lowen, Vice-Chair Wildberger, and Committee Members,

I am writing on behalf of Beach Environmental Awareness Campaign Hawai'i (B.E.A.C.H.) in very strong support of SB2781. Thank you for hearing this important bill.

When people release balloons they create one of the most harmful types of litter. Balloons are often mistaken for food by marine animals - for example sea turtles eat jellyfish and albatrosses eat squid which balloons in the water resemble (please see attached photos). The ingestion of balloons by marine life causes blockages leading to starvation and death. It is a slow, painful death for a sea turtle, floating on the surface of the ocean for 60 days as it starves. Animals can also be harmed by the plastic ribbon attached to balloons which is an entanglement hazard as well as deadly when ingested.

No doubt those who have released balloons would be appalled to find out that their action had led to the suffering and death of wildlife and had they known beforehand, they would have chosen to find another way to celebrate or commemorate an event such as lighting candles, paddling out or planting a tree. B.E.A.C.H. has found that balloon litter on beaches increases in particular around graduation time in May and June indicating that the balloon litter is originating locally. A B.E.A.C.H. member saw a group of people celebrating graduation come out of a restaurant and release balloons into the air. Hawai'i needs a law to stop this from happening.

States and cities that have passed laws related to banning balloon releases include California, Connecticut, Florida, Tennessee, Virginia, San Francisco and Baltimore. *The balloon industry supports banning the release of balloons* (please see attached statement by the Balloon Council) as they don't want balloons banned outright.

Hawai'i is a state surrounded by the ocean and so it important to take action to prevent one of the most lethal types of litter from becoming marine debris and harming marine life. SB2781 will achieve the goal of preventing balloons from killing Hawai'i's sea birds and animals.

Thank you for this opportunity to provide written testimony in very strong support of SB2781. Please pass this bill as is.

Mahalo,

Victoria Anderson,
President, B.E.A.C.H.

Worth the Weight: The Balloon Council says balloons should not be released.

After years of thoughtful consideration, monitoring national and international trends and getting feedback from our diverse audience of balloon related businesses and balloon friends, TBC has decided to revise our stance on balloon releases.

"In the past TBC didn't advocate for or against balloon releases, we advised people on the best practices to minimize environmental impact such as only using latex and not adding strings," said TBC Chairman Dan Flynn. "Over the years, as the social and political climates have changed, our position has also evolved. This change in stance fully recognizes the need for everyone to be as 'green' as we possibly can be to protect our planet."

The revised Balloon Release stance reads:

Worth the Weight: The Balloon Council says balloons should not be released. Americans love balloons, but for many reasons no longer support balloon releases. Balloon makers have worked hard to share and inspire the use of Smart Balloon Practices to keep balloons available for every occasion.

We stand with communities by encouraging that balloons be weighted, not released outdoors, and disposed of properly when broken or deflated. Whether it's a single balloon or hundreds, let's keep them from flying away.

Don't let go: Inflate. Weight. Enjoy.

TBC's goal for the past thirty years has been to support the success of the balloon industry and to ensure the continued use and enjoyment of balloons now and in the future.

TBC will continue to monitor industry trends and work closely with balloon related businesses and the communities where they reside to actively review and revise balloon release language and oppose bans on the sales and use of balloons.

We strongly encourage all balloon-related businesses to help us educate the public and the media about the importance of using Smart Balloon Practices.

Please visit our website www.Balloonsliftup.com or contact us at (800) 233-8887, if you would like more information about the "Meet Faraday: Smart Balloon Practices" campaign.

Re: SB2781 Relating to Litter Control

Hearing: Monday 22nd June, 2020 at 9:30am, room 325

Aloha Chair Lowen, Vice-Chair Wildberger and Committee Members,

My name is Lia Posatiere and I am an undergraduate student studying Environmental Studies at the University of San Francisco. I am writing in strong support of SB2781 banning balloon releases.

I was born and raised in Kailua, Oahu and live here when I am home for break. If you enjoy Hawaii's beauty, then it doesn't take much effort to see the effects of plastic on marine/coastal environments. I can no longer walk the beach I grew up at without seeing millions of plastic pieces strewn across the sand. With that being said, there is far more debris than we see while we are perusing. Marine life is being entangled, starved, and their habitats are being destroyed by the plastic humans discard into the ocean. We urgently need to do something if we want to preserve marine habitats for future generations.

It is becoming increasingly popular to release balloons in an act of celebration. According to <https://balloonsblow.org/>, balloon debris found on beaches has tripled in the past ten years. This also means that marine life has been consuming balloons on accident far more. Balloons in the ocean look incredibly similar to jellyfish, which is the main food source of several marine animals. Take turtles for example. When they see something floating like a jellyfish, they are going to eat it. When that thing happens to be a balloon, it blocks their digestive tract and they can starve to death. Why wouldn't we want to prevent that? If we want to celebrate something or someone, why don't we plant a tree? Or give a lei? Or have a paddle-out? There are many options that don't involve intentionally littering.

Please pass this bill as is. Thank you for this opportunity to provide written testimony in strong support of SB2781.

Mahalo nui loa,

Lia Posatiere

Re: SB2781 Relating to Litter Control
Hearing: Monday 22nd June, 2020 at 9:30am, room 325

Aloha Chair Lowen, Vice-Chair Wildberger and Committee Members,

My name is Taylor Swoish, I am an undergraduate student currently attending St.Mary's College of California studying environmental studies and minoring in both environmental science and history. I was born and raised in Kailua and currently live here when my school is on break.

I am writing in strong support of SB2781 banning balloon releases!

I believe that this is super important and we need to ban balloon releases. Ever since I was a keiki I've spent all of my time at the beach. Seeing honu's to this day is still one of the most exciting things to me. Since we are an island, when balloons are released they end up in the ocean. I mostly find them with only the knot at the bottom and later found out that is because marine life are mistaking these balloons for food. This can cause many of our beautiful marine creatures especially our Honus to die due to starvation or entanglement. The fact is we are hurting these amazing creatures and other marine life and you have the ability to change that. We must protect our oceans not only for ourselves, but for the many generations to come.

Please pass this bill as is. Thank you for this opportunity to provide written testimony in strong support of SB2781.

Mahalo,
Taylor Swoish

Comments:

I am writing in strong support of SB2781 which would prohibit the intentional release of balloons inflated with a gas that is lighter than air.

Balloons are flying trash. They end up as pollution wherever they land. They are a threat to marine and land animals because they are colorful and are mistaken for their food. The plastic ribbons are also an entanglement hazard for animals. I've done many beach clean-ups and find dead balloons on the beach.

In addition, metallic balloons can cause a short circuit that can knock out power to thousands of residents. According to Hawaiian Electric Companies, in 2016 there were 25 power outages on Oahu affecting 37,221 customers, 3 power outages in Maui County affecting 3,977 customers and 2 on Hawaii Island affecting 963 power outages. "Graduation Balloons Present Power Outage Concern", May 16, 2017, (bigislandwatch.com)

There are other alternatives to balloons to celebrate such as blowing bubbles, writing in chalk, giving flowers or lei, having a nice meal, planting a tree or a flower/ butterfly garden.

Please pass SB2781 to end the harmful practice of releasing balloons in the environment. Thank you for your consideration of my testimony.

Aloha, Dean Otsuki

To: Chair Gabbard & AEN Committee Members

From: Suzie Wallace

Re: SB2781 Relating to Litter Control

Committee: Agriculture & Environment

Aloha Chair Gabbard and Members of the Committee on Agriculture and the Environment,

My name is Suzie Wallace and I am a resident of Puowaina (Punchbowl), Honolulu. I am also a marine science teacher at Radford High School. I am writing in strong support of SB2781 banning balloon releases.

I have personally seen littered bits of balloons at Ala Moana Beach Park and have witnessed many graduations over the past decade where balloons were released. It is well documented within the scientific community the impact that plastics, including balloons, has on marine animals especially juvenile sea turtles that mistake plastics for jellyfish, which is their main food source. Unlike humans, turtles cannot regurgitate ingested plastics and can die from starvation when they eat plastics mistaking it for food. Given the impact that releasing balloons can have on our local sea turtle population and the fact that there are many other ways to celebrate occasions other than releasing balloons, it seems to me fair to enact a law that protects our marine animals for our future generations.

Personally, my most difficult task as an educator is having to explain to students how the judicial process works. Many children just absolutely love sea turtles but what they don't understand is why our judicial system is unjust and why they would need to submit testimony to have laws that protect their beloved sea turtles in the first place. Many students simply assume that our laws would not allow pollutants to be made in the first place if they were to have harmful impacts on wildlife. However, they are typically not pleased to learn that they must first thoroughly research a topic then use their words to sway politicians to enact laws that aim to conserve animals that were once plentiful in previous generations in order for these laws to be made.

I implore you to also research this topic thoroughly as well and not dismiss the advice of these experts. It is what my students expect that you have done to show your due diligence before making your decision today.

Please pass this bill as is. Thank you for your careful consideration and the opportunity to provide written testimony in strong support of SB2781.

Mahalo,

Suzie Wallace

FROM: Suzanne Frazer

RE: **TESTIMONY IN VERY STRONG SUPPORT OF SB2781**
Relating to litter control. Prohibits the intentional release of balloons.
Committee meeting on Monday 22nd June, 2020 at 9:30AM

Dear Chair Lowen, Vice-Chair Wildberger and Committee Members,

I live in Hawaii Kai and volunteer with B.E.A.C.H. an organization that works throughout Hawai`i to bring awareness and solutions to marine debris. I am writing testimony as an individual in very strong support of SB2781 which will ban intentional balloon releases throughout Hawai`i. Thank you for hearing this bill.

Releasing balloons is littering. This type of litter is one of the most harmful there is to marine life. Because balloons are soft, they are unable to be moved through the digestive tract of an animal that eats it. Balloons are one of the items of debris most likely to be eaten by sea turtles and sea birds because they undergo a process called "brittle fracture" in the air where they burst creating strands that resemble the tentacles of jellyfish and squid - "...the brittle fracturing of balloons creates tentacle-like structures typical of Scyphomedusae which all species of sea turtles have been documented to eat. This may be the cause for the high ingestion selectivity seen in both pelagic and neritic turtles ("To Eat or Not to Eat? Debris Selectivity by Marine Turtles" Schuyler et al, Plos One, July 2012).

In a 2019 study of seabirds, balloons were found to be the number one item of debris most likely to kill a seabird - "...the ingestion of a balloon or balloon fragment is 32 times more likely to result in death than ingestion of a hard plastic fragment" ("A quantitative analysis linking seabird mortality and marine debris ingestion" Roman, et al. Sci Rep 9, 3202, 2019). They also found that all of the balloons in dead seabirds had been ingested by species that eat squid because these birds are selecting balloons when foraging for food due to the resemblance to squid.

When balloons or fragments of balloons or the balloon string are ingested they cause blockages of the gastro-intestinal tract that then leads to starvation and death. Most balloons found on beaches and in dead animals are made of latex which has had chemicals, plasticizers and artificial dyes added to it (source: Balloons-Blow.org). Balloons can be made of mylar, foil or latex. The string attached to the balloons is made of either polypropylene or polyester (plastic). It can give the appearance of tentacles. The string is also an entanglement hazard causing injury or death to marine life.

It is unnecessary to release balloons into the air for celebration or commemoration of events. There are many other non-lethal ways to celebrate such as planting a tree, giving a lei or lighting a candle. I have collected more balloons on beaches in May and June than any other time of the year which indicates that the litter comes from graduation events locally. Recently on the TV news, a mass balloon release was shown that took place on O`ahu. It was sad to see that footage of what looked like thousands of yellow and black balloons released into the air knowing they will later burst and fall into the ocean killing more marine life. A law in Hawai`i is needed to stop this from happening.

Hawai`i is a state surrounded by water and therefore it is imperative that action is taken to prevent one of the

most dangerous types of litter from getting into the ocean and becoming marine debris. SB2781 will achieve the goal of preventing balloon litter and saving marine life and sea birds.

Thank you for this opportunity to provide written testimony in very strong support of SB2781. Please pass this bill as is. Mahalo!

Sincerely,

A handwritten signature in blue ink, appearing to read 'Suzanne Frazer', written in a cursive style.

Suzanne Frazer.

SB 2781

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases. These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.
