
A BILL FOR AN ACT

RELATING TO TELEHEALTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the coronavirus
2 disease 2019 (COVID-19) pandemic has placed severe restrictions
3 on in-person gatherings and meetings. The emergency
4 proclamation issued by the governor on December 16, 2020,
5 suspended the application of certain laws that excluded the use
6 of standard telephone contacts from the definition of
7 "telehealth" to enable doctors and patients to minimize
8 in-person meetings while ensuring access to medical care.

9 The use of standard telephone contacts for telehealth
10 benefits in underserved and low-income communities where
11 cellular data plans and broadband services needed for video
12 calls, traditionally the hallmark of telehealth services, are
13 not feasible options for many residents. Moreover, standard
14 telephone contacts have been used by medical professionals for
15 decades to provide necessary access to primary care where a
16 patient is home-bound or otherwise unable to access face-to-face
17 care. The legislature further finds that allowing standard

1 telephone contact for the purpose of telehealth is endorsed by
2 the Hawaii primary care association.

3 The purpose of this Act is to allow for the use of standard
4 telephone contact for telehealth purposes.

5 SECTION 2. Section 346-59.1, Hawaii Revised Statutes, is
6 amended by amending subsection (g) to read as follows:

7 "(g) For the purposes of this section:

8 "Distant site" means the location of the health care
9 provider delivering services through telehealth at the time the
10 services are provided.

11 "Health care provider" means a provider of services, as
12 defined in title 42 United States Code section 1395x(u), a
13 provider of medical and other health services, as defined in
14 title 42 United States Code section 1395x(s), other
15 practitioners licensed by the State and working within their
16 scope of practice, and any other person or organization who
17 furnishes, bills, or is paid for health care in the normal
18 course of business, including but not limited to primary care
19 providers, mental health providers, oral health providers,
20 physicians and osteopathic physicians licensed under chapter

8 health clinic, federally qualified health center, a patient's
9 home, and other non-medical environments such as school-based
10 health centers, university-based health centers, or the work
11 location of a patient.

12 "Telehealth" means the use of telecommunications services,
13 as defined in section 269-1, to encompass four modalities:
14 store and forward technologies, remote monitoring, live
15 consultation, and mobile health; and which shall include but not
16 be limited to real-time video conferencing-based communication,
17 secure interactive and non-interactive web-based communication,
18 and secure asynchronous information exchange, to transmit
19 patient medical information, including diagnostic-quality
20 digital images and laboratory results for medical interpretation
21 and diagnosis, for the purpose of delivering enhanced health

1 care services and information while a patient is at an
2 originating site and the health care provider is at a distant
3 site. [~~Standard telephone contacts, facsimile~~] Facsimile
4 transmissions[7] or e-mail text, in combination or by itself,
5 does not constitute a telehealth service for the purposes of
6 this section."
