## HOUSE RESOLUTION

REQUESTING THE LEGISLATIVE REFERENCE BUREAU TO COMPILE AND  
SYNTHESIZE RESEARCH STUDIES EXAMINING ALL POTENTIAL HEALTH  
IMPACTS OF RADIO FREQUENCY RADIATION, INCLUDING FIFTH-  
GENERATION CELLULAR NETWORKS.

1           WHEREAS, research from a 2018 National Toxicology Program  
2 study suggests that radio frequency radiation from second- and  
3 third-generation cellular networks, also known as 2G and 3G  
4 respectively, may correlate with health issues, including but  
5 not limited to heart tumors, brain tumors, and adrenal gland  
6 tumors in rats; and

7  
8           WHEREAS, while the National Toxicology Program is working  
9 to better understand the biological basis for the cancer  
10 findings in the 2018 study, it has not initiated a new study to  
11 study the effects of radio frequency radiation from fourth- and  
12 fifth-generation cellular networks, known as 4G and 5G  
13 respectively; and

14  
15           WHEREAS, in November 2020, the state of New Hampshire  
16 commissioned and presented a report compiling data related to  
17 health risks and radio frequency radiation, including but not  
18 limited to medical risks as well as public health risks  
19 associated with all radio frequency radiation, including 5G; and

20  
21           WHEREAS, a similar report in Hawaii would inform the  
22 Legislature on any public health risks associated with radio  
23 frequency radiation, and specifically with 5G networks; now,  
24 therefore,

25  
26           BE IT RESOLVED by the House of Representatives of the  
27 Thirty-first Legislature of the State of Hawaii, Regular Session  
28 of 2021, that the Legislative Reference Bureau is requested to  
29 compile and synthesize research studies examining all potential  
30 health impacts of radio frequency radiation, including 5G; and

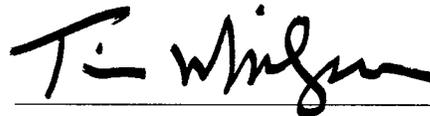

# H.R. NO. 133

1 BE IT FURTHER RESOLVED that the Legislative Reference  
2 Bureau is requested to submit its findings and recommendations,  
3 including any proposed legislation, to the Legislature no later  
4 than twenty days prior to the convening of the Regular Session  
5 of 2022; and  
6

7 BE IT FURTHER RESOLVED that the United States Department of  
8 Health and Human Services is urged to commission a new study  
9 from the National Toxicology Program on the health impacts of  
10 radio frequency radiation, including 5G; and  
11

12 BE IT FURTHER RESOLVED that certified copies of this  
13 Resolution be transmitted to the Secretary of the United States  
14 Department of Health and Human Services, Director of the  
15 National Toxicology Program, and Director of the Legislative  
16 Reference Bureau.
