

MAR 12 2021

SENATE CONCURRENT RESOLUTION

REQUESTING A JOINT STUDY FOR THE IMPACTS OF COVID-19 ON THE
THIRD SENATORIAL DISTRICT.

1 WHEREAS, the coronavirus disease 2019 (COVID-19) is an
2 infectious disease caused by a newly discovered coronavirus,
3 SARS-CoV-2, that has resulted in a world-wide pandemic,
4 infecting almost three million people across the globe resulting
5 in over 300,000 fatalities within the United States and has put
6 an overwhelming strain on medical and government resources; and
7

8 WHEREAS, to protect Hawai'i's citizens from the present
9 threat to human life, Governor Ige and all four county mayors in
10 Hawai'i imposed a state of emergency and issued rules and orders
11 restricting daily activities of residents and businesses. The
12 Governor subsequently issued sixteen proclamations mandating
13 statewide safety measures in an effort to curb the spread of the
14 disease; and
15

16 WHEREAS, changes in the way that health care is delivered
17 during the COVID-19 pandemic have been implemented to reduce
18 medical staff exposure to ill persons, preserve personal
19 protective equipment, and minimize the impact of patient surges
20 on facilities, including adjusting the way healthcare systems
21 triage, evaluate, and care for patients by using methods that do
22 not rely on in-person services. Additionally, telehealth
23 services provide necessary care to patients while minimizing the
24 transmission of the SARS-CoV-2 virus; and
25

26 WHEREAS, a broad body of research links social isolation
27 measures utilized to contain COVID-19 to poor mental health, and
28 individuals sheltering in place reported negative mental effects
29 resulting from worry or stress related to COVID-19; and
30

31 WHEREAS, additionally, research demonstrates that job loss
32 caused by the COVID-19 pandemic is associated with increased
33 depression, anxiety, distress, and low self-esteem and may lead

1 to higher rates of substance use disorder and suicide. Poor
2 mental health due to burnout among front-line workers and
3 increased anxiety or mental illness among those with poor
4 physical health has also been noted; and
5

6 WHEREAS, as of December 22, 2020, Hawai'i Island had 1,836
7 confirmed cases of persons affected with COVID-19, resulting in
8 forty-four deaths; and
9

10 WHEREAS, due to the COVID-19 pandemic, many small
11 businesses in the State, including businesses subject to
12 mandatory capacity restrictions, small, minority-owned
13 businesses, and businesses reliant on tourism have suffered
14 severe declines in revenue; and
15

16 WHEREAS, the closure of small businesses in the State has a
17 devastating effect on employees of those businesses, further
18 strains the State's unemployment insurance program, and has
19 other ripple effects throughout the State; and
20

21 WHEREAS, in 2020, Hawai'i County reported 51,948 weekly
22 unemployment claims compared to 9,711 claims in 2019, a 435 per
23 cent increase in claims; and
24

25 WHEREAS, in the second quarter of 2020, eleven thousand six
26 hundred Hawai'i County residents lost their jobs as a result of
27 the economic recession; and
28

29 WHEREAS, many residents have been unable to pay for their
30 household expenses as a result of income disruption from
31 COVID-19, including food, rent or mortgage, transportation
32 costs, broadband access, medical expenses, or student loans; and
33

34 WHEREAS, Governor Ige issued and extended a moratorium to
35 forestall any eviction from a residential dwelling for failure
36 to pay rent or lease or other related charge if a resident fails
37 to pay all or any portion of the rent or lease, maintenance
38 fees, utility charges taxes or other fees required by the rental
39 agreement or lease until at least December 31, 2020; and
40

41 WHEREAS, because many individuals who are homeless are
42 older adults or have underlying medical conditions, they may be

1 at increased risk for severe illness than the general population
2 and may require access to essential services including
3 childcare, education services, employment assistance, outpatient
4 health services, mental health services, substance abuse
5 treatment services, and transportation; and
6

7 WHEREAS, those who experienced food and housing insecurity
8 as a result of the pandemic reported a significant prevalence of
9 rape, physical violence, or stalking by an intimate partner
10 compared to those who did not experience food and housing
11 insecurity; and
12

13 WHEREAS, domestic violence survivors are especially
14 vulnerable to homelessness due to the dynamics of power and
15 control present in a domestic violence situation, economic
16 instability resulting from the abuse, the effects of trauma, and
17 the need for safety and confidentiality, as well as housing.
18 While sheltering in place slows the spread of COVID-19, it
19 increases rates of domestic violence and sexual assault,
20 especially since victims of domestic violence shelter in place
21 with the person who is harming them; and
22

23 WHEREAS, police departments within the State, including the
24 Hawai'i County Police Department have expanded their citation
25 issuance in lieu of arrest policies or are limiting arrests
26 within already established statutory limits in an effort to
27 reduce person-to-person contact between an individual and law
28 enforcement and the likelihood of COVID-19 being brought into
29 correctional facilities; and
30

31 WHEREAS, the Judiciary has responded to COVID-19 by
32 postponing matters if necessary, moving proceedings to a remote
33 format when feasible, restricting entrance into courthouses,
34 granting extensions for court deadlines, and adjusting in-person
35 operations in each circuit based on public health circumstances
36 to protect court users and Judiciary personnel; and
37

38 WHEREAS, Hawai'i Community Correctional Center is currently
39 operating at one hundred eighty-five per cent of capacity and
40 present efforts to safeguard against COVID-19 outbreaks within
41 correctional facilities are inadequate to allow the inmate
42 population to comply with social distancing standards; and

1
2 WHEREAS, a COVID-19 outbreak at Hawai'i correctional
3 facilities would have the potential of placing the inmates at
4 risk of death or serious illness, and endangering the lives and
5 well-being of staff and service providers who work within at
6 these facilities, their families, and members of the community
7 at large; and

8
9 WHEREAS, the COVID-19 pandemic has exacerbated
10 well-documented gaps that put low-income students at a
11 disadvantage relative to their wealthier peers in areas,
12 including access to devices and broadband, food and nutrition,
13 housing, health insurance and care, and financial relief
14 measures; and

15
16 WHEREAS, the Legislature finds that research regarding
17 online learning and teaching shows that they are effective only
18 if students have consistent access to the internet and computers
19 and if teachers have received targeted training and supports for
20 online instruction; and

21
22 WHEREAS, the Legislature finds that in quarter one of the
23 2020-2021 school year, students in the Third Senatorial District
24 have higher rates of "well-below" marks in English and
25 Mathematics than the state average for elementary school
26 quarterly grades; higher rates of "well-below" marks in English,
27 mathematics, science, and social students for both middle and
28 high school quarterly grades than the state average; higher
29 rates of being at risk of chronic absenteeism than the state
30 average; and higher rates of being behind grade level
31 expectations for both elementary and middle school students than
32 the state average; and

33
34 WHEREAS, the Legislature recognizes that the Third
35 Senatorial District remains particularly vulnerable to the
36 impacts of COVID-19 with a higher than average rate of the
37 population that may face underlying conditions that may
38 exacerbate severity or probability of contracting the disease.
39 Additionally, rural healthcare infrastructure is limited,
40 including emergency medical services, service of large
41 geographical resources, and limited use of telemedicine due to

absent or unreliable broadband and internet connections; now,
therefore,

BE IT RESOLVED by the Senate of the Thirty-first
Legislature of the State of Hawaii, Regular Session of 2021, the
House of Representatives concurring, that the Department of
Business, Economic Development, and Tourism in collaboration
with the Judiciary, Department of Education, Department of
Health, Department of Human Services, and the Office of the
Mayor of Hawai'i County is urged to conduct a needs and gaps
analysis that identifies the effects of the COVID-19 pandemic on
programs in the State that provide services to residents of the
Third Senatorial District relating to the economy, health care
capacity, education, and public safety; and

BE IT FURTHER RESOLVED that the analysis is requested to
identify programs in the Third Senatorial District that provide
medical, economic, educational, and other social services to
residents including:

- (1) The amount of funding the program receives each year
and funding sources for the program;
- (2) The number of persons the program serves each year,
disaggregated by race and gender;
- (3) Limitations on the length of the provision of services
for the programs;
- (4) If applicable, reasons for the unavailability for the
data; and
- (5) Recommendations for improving the services available
to residents of the Third Senatorial District,
including any proposed legislation; and

BE IT FURTHER RESOLVED that the Department of Business,
Economic Development and Tourism is requested to submit a report
of its findings and recommendations, including any proposed
legislation, to the Legislature no later than twenty days prior
to the convening of the Regular Session of 2022; and

1 BE IT FURTHER RESOLVED that certified copies of this
2 Concurrent Resolution be transmitted to the Governor, Lieutenant
3 Governor, Chief Justice of the Judiciary, Director of the
4 Department of Business, Economic Development and Tourism,
5 Chairperson of the Board of Education, Superintendent of the
6 Department of Education, Director of the Department of Health,
7 Director of the Department of Human Services, and Office of the
8 Mayor of Hawai'i Island.
