

Dan V. Giovanni

Work Experience

- **DVGiovanni (2015 to present).** Independent contractor offering consulting services to the electric power industry.
- **Hawaiian Electric Company, Inc. (2006 to 2015).** In 2006, Dan transferred to Hawaiian Electric as the **Manager, Generation Department**, where he was responsible for the operation and maintenance of Hawaiian Electric's power generation facilities on O'ahu. In 2010, he was promoted to **Vice President, Energy and Delivery**, and was responsible for engineering, construction, maintenance, and operation of the electric grid on O'ahu. In 2013, he was promoted to **Senior Vice President, Operations**. In this capacity he was responsible for the physical and operational integrity of the electric transmission and distribution systems, power generation at four generating stations, system operation, fuel procurement, energy resource acquisition, and engineering and planning activities on O'ahu. He oversaw approximately \$600M/year in engineering and maintenance projects, and managed a staff of 1400 union and non-union personnel.
- **Hawai'i Electric Light Company, Inc. (2001 to 2006).** Dan was the **Manager of the Production Department** where he was responsible for operation and maintenance of generating facilities, and system operation on Hawai'i island. He also had lead responsibility for negotiation and administration of power purchase agreements.
- **Electric Power Technologies, Inc. (1981-2001).** Dan founded Electric Power Technologies, Inc. (EPT), in 1981 and was the **President and Principal Consultant** for 20 years. In this capacity he provided consulting services on operational, environmental, and performance issues throughout the electric power industries in the North America and Europe. A primary business focus of EPT was air emissions control from oil-fired steam-electric generating units.
- **Electric Power Research Institute, EPRI (1977-1981).** Dan was the **Program Manager** at EPRI, and was responsible for research programs on advanced thermal power plant design and environmental control technologies for fossil fuel power plants.
- **Kaiser Aluminum and Chemical Company (1975-1977).** Dan was the Head of the Thermal Section at the Kaiser Aluminum Research Center.

- **KVB, Inc. (1971-1975).** Dan was a field consultant for environmental control projects at electric utilities in New York and California.

Education

- Bachelors of Science Mechanical Engineering, University of California, Berkeley
- Masters of Science Mechanical Engineering, University of California, Berkeley
