

Dan H. Hirota, PE, PLS
Senior Engineer and Surveyor

Dan Hirota's experience in civil engineering and land surveying in Hawaii spans more than 29 years. He devoted much of his professional career to the development of high-end resort residential communities along the gold coast of the Big Island of Hawaii. His responsibilities included both civil engineering design and survey tasks such as subdivision layout, road design, site grading, utility design, FEMA flood zone changes, preparation of construction drawings, preliminary and final plat maps.
