Verily Life Sciences, project baseline

Site Medical Lead

March 2020 - June 2020 (4 months)

San Francisco Bay Area

I am honored to have been an integral part of Project Baselines efforts to erect pop-up testing sites throughout California. We started with an empty convention center in San Mateo, and a team of Verily volunteers. With a skeleton crew of medical professionals, we now have 150+ drive through testing sites in California and beyond. Developed and co-developed many SOPs, and personally oversaw the successful testing of 15k +/- drive through patients in the first three months.

Genome Medical, Inc.

Physician Consultant

June 2017 - June 2020 (3 years 1 month)

San Francisco, California

Genetic testing and counseling services provided nationally. Genome medical seeks to create an environment where consumer testing and interpretation is streamlined, accurate, and an integral piece to primary care medicine.

Local Greens

Chief Science Officer

January 2013 - August 2016 (3 years 8 months)

California, Bay Area

Worked directly with the CEO and COO in all aspects of this innovative agricultural start up including; public health requirements, state and federal farming guidelines, organic certifications, soil chemistry, clean room environments, lighting and electrical, software, distribution modeling, customer relations, employee management and employee health.

Local Greens Organic produce can be found at most Whole Foods and select Bay Area Markets.

Care Practice

Urgent Care Physician

February 2015 - December 2015 (11 months)

508 14th St, San Francisco, CA 94103

Urgent care outpatient medicine. One of the more unique fee for service practices in the bay area. General primary care with an emphasis on Medication Assisted Treatment for Opioid Dependence.

Re-Docs

Chief Medical Officer

August 2013 - February 2015 (1 year 7 months)

Berkeley, California

As a start up lead, I worked with CA state policy makers, physicians, insurance carriers, attorneys and software developers to conceptualize and implement an updated model for medical record collection, verification, and dissemination. Ultimate goals were to reduce costs for the state of CA Workers' Compensation system. Re-Docs is still in operation.
