
A BILL FOR AN ACT

RELATING TO MANAGEMENT OF STATE FUNDS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the need to support
2 agriculture in Hawaii has become critical following the recent
3 natural disasters that have adversely affected farms and other
4 agricultural enterprises.

5 The legislature further finds that one method to support
6 agriculture is through the linked investment concept. Linked
7 investments began in Iowa in 1986 as a loan program to support
8 horticultural and alternative crops. It has successfully helped
9 to diversify Iowa's agricultural-based economy and been expanded
10 to assist women- and minority-owned small businesses. It has
11 also helped to increase employment opportunities for rural
12 communities facing a business closure, traditional livestock
13 producers, and businesses that add value through the processing
14 of agricultural commodities.

15 Under a linked investment program for agriculture, a person
16 or enterprise proposing to engage in an agricultural enterprise
17 applies to a lending institution, which will evaluate the

1 proposal to qualify the borrower. The lending institution,
 2 after evaluating the proposal and determining that the proposed
 3 business is a sound viable proposal, will certify the applicant
 4 as an eligible borrower under the linked investment program.
 5 The institution will then prepare a linked investment loan
 6 package and submit it to the director of finance. If the
 7 director accepts the loan package, the director places a
 8 certificate of deposit for the loan amount with the lending
 9 institution.

10 The purpose of this Act is to establish linked investments
 11 to provide loans for agriculture and authorize the director of
 12 finance to commit no more than \$5,000,000 of certain moneys
 13 available in the state treasury for the creation of linked
 14 investments through agreements with eligible lending
 15 institutions.

16 SECTION 2. Chapter 36, Hawaii Revised Statutes, is amended
 17 by adding a new section to part II to be appropriately
 18 designated and to read as follows:

19 "§36- Linked investments. (a) An eligible lending
 20 institution shall accept and review applications for loans,
 21 determine applicants that are eligible borrowers, and prepare

1 linked investment loan packages in a form and manner prescribed
2 by the director of finance.

3 (b) A loan package shall verify the amount of the loan
4 requested, the purpose of the loan, and the eligible lending
5 institution's certification that the applicant is an eligible
6 borrower.

7 (c) The director of finance may consider the availability
8 of state funds and accept or reject a linked investment loan
9 package.

10 (d) Upon acceptance of a linked investment loan package,
11 the director of finance, pursuant to section 36-21, shall place
12 a certificate of deposit for the loan amount with an eligible
13 lending institution; provided that the eligible lending
14 institution agrees to lend not more than ninety per cent of the
15 value of the certificate of deposit to an eligible borrower at a
16 rate not more than the prime rate or per cent a year,
17 whichever is less; provided further that the certificate of
18 deposit shall:

19 (1) Earn a rate of interest of not less than the current
20 market rate;

21 (2) Not be subject to a penalty for early withdrawal;

1 (3) Have a maturity of one year for the initial period
2 with an option for renewal with the approval of the
3 director of finance for five additional one-year
4 periods; and

5 (4) Not be considered security for a linked investment
6 loan.

7 (e) The director of finance shall invest in linked
8 investments no more than \$5,000,000 of moneys available in the
9 state treasury for deposit under section 38-2.

10 (f) Each loan made through a linked investment shall not
11 exceed \$ _____ and shall not be used for the purchase of
