## A BILL FOR AN ACT

RELATING TO HEARING AIDS.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that approximately three  
2 to four out of every one thousand children born in Hawaii are  
3 identified as having permanent hearing loss. According to the  
4 National Institutes of Health, about one-third of Americans  
5 between the ages of sixty-five and seventy-five and around  
6 one-half of those older than seventy-five have some degree of  
7 hearing loss.

8           According to the Lions Club, the cost for one digital  
9 hearing aid can be around \$3,000 or higher. Some people with a  
10 permanent conductive hearing loss, for whom conventional hearing  
11 aids are not appropriate, may benefit from amplification through  
12 bone conduction hearing aids, which can also cost over \$3,000.  
13 Furthermore, about fifty per cent of childhood hearing loss is  
14 due to genetic causes, meaning that more than one member in a  
15 family may need to wear hearing aids, thereby multiplying the  
16 financial hardship caused by the cost of purchasing hearing  
17 aids.

# H.B. NO. 839

1           Currently, most health insurance plans in Hawaii cover the  
2 purchase of hearing aids, but the amount of coverage may be low,  
3 leaving the patient with a large copayment. As a result, it is  
4 not unusual for people with hearing loss to choose to delay  
5 purchase or forgo the purchase of hearing aids because they are  
6 unable to pay for them. A 2005 study by the Better Hearing  
7 Institute estimated that untreated hearing loss resulted in a  
8 loss of income per household of up to \$12,000 per year.  
9 Hawaii's medicaid managed care plans cover hearing aid  
10 evaluation, selection, purchase, and fitting every three years,  
11 and subsequent hearing aid checks, hearing testing, ear molds,  
12 repairs, and batteries. However, federal medicare insurance  
13 plans for the elderly do not cover hearing aid purchases and  
14 related services, and only cover hearing testing.

15           According to the American Speech-Language-Hearing  
16 Association, twenty states currently mandate insurance coverage  
17 for hearing aids. In states that specify the frequency of  
18 replacing hearing aids, the range is every two to five years,  
19 with thirteen states requiring replacement every three years.  
20 Fifteen states have parameters on the amount of coverage that

# H.B. NO. 839

1 the insurance companies must provide, ranging from \$1,400 to  
2 \$4,000 per ear or hearing aid.

3 The legislature further finds that the auditor published  
4 report No. 14-10 (2014), a sunrise study on the advisability of  
5 mandating insurance coverage for hearing aids, as proposed in  
6 S.B. No. 309, S.D. 1, regular session of 2013 (S.B. No. 309).  
7 The auditor found that most insurance plans in Hawaii already  
8 covered or planned to cover the cost of hearing aids by 2015 and  
9 that although the coverage levels at that time might require a  
10 large co-payment, those insurance plans would have complied with  
11 S.B. No. 309, had it been enacted. The legislature notes that  
12 the auditor's report expressed concerns that S.B. No. 309, had  
13 no limits on coverage, such as minimum or maximum costs covered  
14 by insurers or frequency of placement. This Act addresses these  
15 concerns and includes a minimum coverage benefit of \$1,500 per  
16 hearing aid for each hearing-impaired ear every thirty-six  
17 months. A second impact assessment report is therefore  
18 unnecessary.

19 The purpose of this Act is to require health insurance  
20 coverage in the State for hearing aids for all types of hearing

1 loss and specify the minimum amount of coverage and frequency  
2 for replacement of hearing aids under the coverage.

3 SECTION 2. Chapter 431, Hawaii Revised Statutes, is  
4 amended by adding a new section to article 10A to be  
5 appropriately designated and to read as follows:

6 "§431:10A- Coverage for hearing aids. (a) Each policy  
7 of individual and group accident and health or sickness
