
A BILL FOR AN ACT

RELATING TO THE HOSPITAL SUSTAINABILITY PROGRAM.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the hospital
2 sustainability program was established in 2012 and has served a
3 critical role in strengthening the health care system in Hawaii.
4 In the nine years since its inception, the hospital
5 sustainability program has helped acute care facilities treat
6 the most vulnerable patients in the State, especially low-income
7 individuals who require hospital services. The program has been
8 carried out in a public-private partnership to ensure that
9 patients in Hawaii can access quality, affordable care.

10 The legislature further finds that, even with this program,
11 hospitals in the State face major financial challenges. These
12 challenges are due in part to the health and financial pressures
13 related to the coronavirus disease 2019 (COVID-19) pandemic.
14 Medicaid is jointly financed by the federal and state
15 governments by statutory formula; the federal government pays
16 between fifty per cent and seventy-four per cent, with
17 assistance levels determined by each state's per capita income.

1 States with the lowest per capita income receive higher federal
2 matching rates. Under federal rules, the state share must be
3 paid from public funds that are not federal funds. The
4 legislature finds that public funding to help financially
5 sustain Hawaii's hospitals may be accessed through a provider
6 fee.

7 The legislature further finds that provider fees exist in
8 forty-nine states and the District of Columbia as a means of
9 drawing down federal funds to sustain medicaid programs due to
10 rising state budget deficits, increasing health care costs, and
11 expanding medicaid enrollment. Provider fees, which are
12 collected from specific categories of health care providers that
13 agree to the fee, may be imposed on nineteen different classes
14 of health care services, including inpatient and outpatient
15 hospital and nursing facility services.

16 The legislature therefore finds that, in Hawaii, a provider
17 fee on hospitals can result in substantial increases in medicaid
18 payments without putting additional constraints on the State's
19 budget. The additional federal funds obtained via the fee
20 program authorized by the hospital sustainability program can
21 maintain access to care for medicaid recipients. This will

1 allow hospitals in the State to continue to serve uninsured or
2 underinsured patients in a timely, effective manner. This helps
3 to ensure the overall sustainability of the health care system
4 in Hawaii during the challenging time of the COVID-19 pandemic.

5 The purpose of this Act is to preserve access to health
6 care for medicaid recipients by extending the hospital
7 sustainability program.

8 SECTION 2. Section 346G-3, Hawaii Revised Statutes, is
9 amended by adding a new definition to be appropriately inserted
10 and to read as follows:

11 "Net benefit" means total payments using prevailing
12 federal medical assistance percentage rates made to private
13 hospitals, less the taxes paid under the hospital sustainability
14 program."

15 SECTION 3. Section 346G-4, Hawaii Revised Statutes, is
16 amended to read as follows:

17 "[+]§346G-4[+] **Hospital sustainability program special**
18 **fund.** (a) There is created in the state treasury the hospital
19 sustainability program special fund to be administered by the
20 department into which shall be deposited all moneys collected
21 under this chapter.

1 (b) Moneys in the hospital sustainability program special
2 fund shall consist of:

3 (1) All revenue received by the department from the
4 hospital sustainability fee;

5 (2) All federal medicaid funds received by the department
6 as a result of matching expenditures made with the
7 hospital sustainability fee;

8 (3) Any interest or penalties levied in conjunction with
9 the administration of this chapter; and

10 (4) Any designated appropriations, federal funds,
11 donations, gifts, or moneys from any other sources.

15 revenue from the hospital sustainability fee shall be
16 used for one or more of the following:

17 (A) Match federal medicaid funds, with the combined
18 total to be used to enhance capitated rates to
19 medicaid managed care health plans for the sole
20 purpose of increasing medicaid payments to
21 private hospitals;

- 1 (B) Match federal medicaid funds for Hawaii's
- 2 medicaid disproportionate share hospital
- 3 allotment as authorized by current federal law
- 4 for private hospitals;

- 12 incentive [~~pool~~] programs; or
- 13 (E) Match federal medicaid funds with the combined

9 intergovernmental transfers from the state hospitals to support
10 direct supplemental payments and increased capitation rates to
11 health plans for the benefit of the state hospitals. During any
12 period in which the hospital sustainability fee is in effect,
13 certified expenditures of state hospitals shall not be used to
14 make or support direct payments to private hospitals.

15 (e) The aggregate net benefit for private hospitals shall
16 not be less than the aggregate net benefit provided by the
17 hospital sustainability program for fiscal year 2021. If
18 factors affecting the calculation of the aggregate net benefit,
19 such as medicaid membership, differ materially from the
20 assumptions used to determine aggregate net benefit in a given
21 fiscal year, the department shall consult with the hospital

1 trade association on changes to the aggregate net benefit and
2 changes shall be agreed to in writing by both parties."

3 SECTION 4. Section 346G-5, Hawaii Revised Statutes, is
4 amended by amending subsections (c) and (d) to read as follows:

8 exceed [~~four~~] five and one-half per cent of the hospital's net

10 amended by amending subsection (b) to read as follows:
