
A BILL FOR AN ACT

RELATING TO THE NURSING FACILITY SUSTAINABILITY PROGRAM.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the nursing facility
2 sustainability program was established in 2012 and has served a
3 critical role in strengthening the long-term care system in
4 Hawaii. In the nine years since its inception, the nursing
5 facility sustainability program has helped long-term care
6 facilities treat the most vulnerable patients in the State,
7 especially low-income individuals who require these services.
8 The program has been carried out via a public-private
9 partnership to ensure that patients in Hawaii can access
10 quality, affordable care.

11 The legislature further finds that, even with this program,
12 nursing facilities in the State face major challenges. These
13 challenges are due in part to the health and financial pressures
14 related to the coronavirus disease 2019 (COVID-19) pandemic.
15 Medicaid is jointly financed by the federal and state
16 governments by statutory formula; the federal government pays
17 between fifty per cent and seventy-four per cent, with

1 assistance levels determined by each state's per capita income.
2 States with the lowest per capita income receive higher federal
3 matching rates. Under federal rules, the state share must be
4 public funds that are not federal funds. The legislature notes
5 that public funding to help sustain Hawaii's nursing facilities
6 financially may be accessed through a provider fee.

7 The legislature also finds that forty-nine states and the
8 District of Columbia use provider fees to draw down federal
9 funds to sustain their medicaid programs. The fees have been
10 employed due to rising state budget deficits, increasing health
11 care costs, and expanding medicaid enrollment. Provider fees,
12 which are collected from specific categories of health care
13 providers, may be imposed on different classes of health care
14 services, including inpatient and outpatient hospital and
15 nursing facility services.

16 The legislature therefore finds that, in Hawaii, a provider
17 fee on nursing facilities can result in a substantial increase
18 in medicaid payments, without putting additional constraints on
19 the State's budget. The additional federal funds obtained via
20 the fee program authorized by the nursing facility
21 sustainability program can maintain access to care for medicaid

1 recipients, which will allow nursing facilities in the State to
 2 continue to serve under-insured or uninsured patients in a
 3 timely, effective matter and help ensure the overall
 4 sustainability of the health care system in the State during the
 5 challenging time of the COVID-19 pandemic.

6 The purpose of this Act is to preserve access to health
 7 care for medicaid recipients by extending the nursing facility
 8 sustainability program.

9 SECTION 2. Section 346F-4, Hawaii Revised Statutes, is
 10 amended by amending subsection (c) to read as follows:

11 "(c) Revenue from the nursing facility sustainability fee
