A BILL FOR AN ACT

RELATING TO THE COMPOSITION OF THE STATE COUNCIL ON MENTAL
HEALTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that native Hawaiians
2 experience distinct health disparities that pervade their day-
3 to-day well-being and hinder their overall health.

4 Data on native Hawaiian mental health evince the pressing
5 need for state intervention and confirm that culturally-based
6 programs are four times more successful in addressing those
7 needs. For example, youth suicide attempt and death rates in
8 Hawaii are highest among native Hawaiians, profoundly impacting
9 their families and communities. Alarminglly, native Hawaiian
10 youth and emerging adults are 2.3 times more likely to die by
11 suicide compared to Caucasian youth in Hawaii. Furthermore,
12 native Hawaiian youth are twice as likely to have made a suicide
13 attempt in the last year compared to their Caucasian peers.

14 These mental health disparities, tragically, start in the
15 early years of life. Native Hawaiian keiki are over-represented
16 as victims of abuse and neglect. By high school, female native

1 Hawaiian students experience feelings of sadness or hopelessness
2 to a greater degree than their peers. Native Hawaiian youth
3 also maintain some of the highest rates of drug use in the
4 State. Not surprisingly, these mental health disparities
5 persist for native Hawaiians through adulthood and as senior
6 citizens.

7 Unfortunately, native Hawaiians tend to underutilize
8 existing mental health services, seek therapy only after their
9 illness has becomes severe, or leave treatment prematurely.
10 Cultural incongruence with western mental health approaches may
11 be a driving factor in native Hawaiians' underutilization of
12 mental health services. Experts explain that clients are more
13 likely to seek out and use mental health services when their
14 values and beliefs are congruent with the interventions
15 provided.

16 In 2014, the legislature codified a commitment to address
17 health disparities throughout the State. Specifically, section
18 226-20(b)(7), Hawaii Revised Statutes, directs decision-makers
19 to "[p]rioritize programs, services, interventions, and ,
20 activities that address identified social determinants of health
21 to improve native Hawaiian health and well-being[.]"

1 Additionally, the legislature recognized that eliminating health
2 disparities and achieving health equity across demographics is a
3 national priority, as unequal health outcomes and disparate
4 well-being are pervasive even when people have health insurance
5 and medical care.

6 The legislature finds that the state council on mental
7 health is responsible for advising, reviewing, and evaluating
8 the allocation and adequacy of mental health resources and
9 services in the State. Accordingly, requiring the council to
10 include members having knowledge of or work experience involving
11 native Hawaiian concepts of well-being, culturally-grounded
12 mental health methodologies, or traditional healing or health
13 practices will help to systemically advance culturally
14 responsive policies and programs that may be critical to
15 addressing the dire mental health needs of Hawaii's native
16 Hawaiian and Pacific islander communities.

17 Accordingly, consistent with the commitment embodied in Act
18 155, Session Laws of Hawaii 2014, the legislature finds that it
19 is now in the best interests of the State to provide appropriate
20 native Hawaiian cultural representation on the state council on
21 mental health.

1 The purpose of this Act is to require at least three
2 members of the state council on mental health to be individuals
3 having demonstrated knowledge of or work experience involving
4 native Hawaiian concepts of well-being, culturally-grounded
5 mental health methodologies, or traditional healing or health
6 practices.

7 SECTION 2. Section 334-10, Hawaii Revised Statutes, is
8 amended to read as follows:

9 "**§334-10 State council on mental health.** (a) There is
10 established, within the department of health for administrative
11 purposes, a state council on mental health. The council shall

6 two or more service areas. The council shall review and comment
7 on the statewide comprehensive integrated service plan and shall

10 with mental illnesses or emotional problems, and individuals
11 with combined mental illness substance abuse disorders.

12 [~~d~~] (e) If the department's action is not in conformance
13 with the council's advice, the department shall provide a

9 SECTION 3. Statutory material to be repealed is bracketed
10 and stricken. New statutory material is underscored.
