# CERTIFICATE OF GOOD STANDING

I, the undersigned Director of Commerce and Consumer Affairs of the State of Hawaii, do hereby certify that

HAWAII FARM BUREAU FEDERATION

was incorporated under the laws of Hawaii on 12/20/1950 ; that it is an existing nonprofit corporation; and that, as far as the records of this Department reveal, has complied with all of the provisions of the Hawaii Nonprofit Corporations Act, regulating domestic nonprofit corporations.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Department of Commerce and Consumer Affairs, at Honolulu, Hawaii.

Dated: January 13, 2022

Catan P. Qual: Colon

Director of Commerce and Consumer Affairs

#### DECLARATION STATEMENT OF APPLICANTS FOR GRANTS PURSUANT TO CHAPTER 42F, HAWAI'I REVISED STATUTES

The undersigned authorized representative of the applicant certifies the following:

- 1) The applicant meets and will comply with all of the following standards for the award of grants pursuant to Section 42F-103, Hawai'i Revised Statutes:
  - a) Is licensed or accredited, in accordance with federal, state, or county statutes, rules, or ordinances, to conduct the activities or provide the services for which a grant is awarded;
  - b) Complies with all applicable federal and state laws prohibiting discrimination against any person on the basis of race, color, national origin, religion, creed, sex, age, sexual orientation, or disability;
  - c) Agrees not to use state funds for entertainment or lobbying activities; and
  - d) Allows the state agency to which funds for the grant were appropriated for expenditure, legislative committees and their staff, and the auditor full access to their records, reports, files, and other related documents and information for purposes of monitoring, measuring the effectiveness, and ensuring the proper expenditure of the grant.
- 2) If the applicant is an organization, the applicant meets the following requirements pursuant to Section 42F-103, Hawai'i Revised Statutes:
  - a) Is incorporated under the laws of the State; and
  - b) Has bylaws or policies that describe the manner in which the activities or services for which a grant is awarded shall be conducted or provided.
- 3) If the applicant is a non-profit organization, it meets the following requirements pursuant to Section 42F-103, Hawai'i Revised Statutes:
  - a) Is determined and designated to be a non-profit organization by the Internal Revenue Service; and
  - b) Has a governing board whose members have no material conflict of interest and serve without compensation.

Pursuant to Section 42F-103, Hawai'i Revised Statutes, for grants used for the acquisition of land, when the organization discontinues the activities or services on the land acquired for which the grant was awarded and disposes of the land in fee simple or by lease, the organization shall negotiate with the expending agency for a lump sum or installment repayment to the State of the amount of the grant used for the acquisition of the land.

Further, the undersigned authorized representative certifies that this statement is true and correct to the best of the applicant's knowledge.

# **Application for Grants**

If any item is not applicable to the request, the applicant should enter "not applicable".

## I. Certification – Please attach immediately after cover page

#### 1. Certificate of Good Standing (If the Applicant is an Organization)

If the applicant is an organization, the applicant shall submit one (1) copy of a certificate of good standing from the Director of Commerce and Consumer Affairs that is dated no earlier than December 1, 2021.

#### 2. Declaration Statement

The applicant shall submit a declaration statement affirming its compliance with <u>Section</u> <u>42F-103</u>, <u>Hawaii Revised Statutes</u>.

#### 3. Public Purpose

The applicant shall specify whether the grant will be used for a public purpose pursuant to <u>Section 42F-102</u>, <u>Hawaii Revised Statutes</u>.

### II. Background and Summary

#### 1. Applicant's Background.

The Hawaii Farm Bureau (HFB) is a non-profit organization of farming families united for the purpose of analyzing problems and formulating action to ensure the future of agriculture thereby promoting the well-being of farming and the State's economy. In 1948 a small group of farmers on the Windward side of Oahu organized HFB to represent the voice of agriculture in Hawaii. Today, HFB has grown into a statewide organization consisting of over 1,900 members in eleven affiliates located throughout the state.

HFB is the largest agriculture advocacy organization in the State of Hawaii. Our members produce crops year in and year out - some growers are new, some over generations. Among these local crops are vegetables, nuts, coffee, tea, orchard crops, fruit, meat, dairy, livestock, flowers, fish, sugar, seeds, herbs, spices and nursery crops. They produce crops both organically and conventionally, some using aquaculture, hydroponics and aquaponics, some including safe and judicious use of approved chemicals. They are comprised of small, medium and relatively large-scale farms.

HFB's ranks include volunteers, staff, and contractors with a depth of knowledge of virtually all issues affecting agriculture. Our organization features a 'grassroots' structure comprised of 11 county chapters located across the state. HFB is uniquely positioned to advocate for and facilitate communicate between farmers, ranchers, and

the public, and to build and maintain communication infrastructure and develop content to further the common goals of a broad spectrum of farmers and ranchers, and by extension there chosen farms methods, the crops they produce and the citizens of Hawaii.

HFB has extensive grant administration experience. The 2003, 2004, 2005, 2006, and 2007 Legislature appropriated grants to the Hawaii Farm Bureau for the promotion of Hawaii's agricultural industry through agricultural research and market development projects. The 2015 and 2016 Legislature appropriated grants to assist Hawaii's farmers to comply with the Food Safety Modernization Act. The 2019 Legislature appropriated a CIP grant for construction for the repair and restoration of the Hawaii Farm Bureau building and perimeter wall. In addition, HFB has received grants from the USDA, State of Hawaii, County of Maui, County of Kauai, County of Hawaii and the City and County of Honolulu.

#### 2. Goals and Objectives.

What was dominated by sugarcane and pineapple, Hawaii's agricultural industry has undergone great change. Although Hawaii, has transitioned to a more diversified agricultural approach, much of the food consumed in Hawaii is still produced elsewhere. There is growing concern about the state's high dependency upon outside sources. Hawaii is located approximately 2,500 miles from the continental United States. As the most geographically isolated state in the country, Hawaii imports approximately ninetytwo percent of its food. While interest in local food production is growing, Hawaii farmers face keen competition from imports abroad. Today, the vast majority of the food consumed in the Islands is supplied by the U.S. Mainland, Hawaii's chief source of competition.

Currently, Hawaii has an inventory of fresh produce that would supply consumers for no more than ten days. Ninety percent of the beef, sixty-seven percent of the fresh vegetables, sixty-five percent of the fresh fruits, and eighty percent of all milk purchased in the State are imported.

This project will address invasive species that have become one of the most challenging problems impacting Hawaii. Many invasive species are damaging Hawaii's environment and the state's economy. Agriculture is one of the major casualties when invasive species are introduced. Every year, numerous new pests are introduced into the State, such as the coqui frog, coffee berry borer, axis deer, macadamia felted coccid, little fire ant, coconut rhinoceros beetle, small hive beetle, and the varroa mite.

Funding is requested to assist Hawaii farmers and ranchers with ungulate and other invasive species proof fencing from destroying and damaging crops and livestock pasture lands.

#### 3. Public Purpose and Need to be served.

Across the State, various invasive species are creating havoc in agriculture as well as the ecosystems in which they exist. Maui County's axis deer population is a good example of nature getting out of control with populations exploding due to abundant forage following rainfall events. They continue to destroy crops and pasture lands by devouring any living vegetation as they continue to spread.

Feral pigs damage crops by consuming them or by their rooting and trampling of crops. They will eat almost any crop. Feral pigs damage pasture grasses, killing desired plant species and often encouraging the growth of undesired weed species. They can also devastate orchards by consuming fruit, citrus, and nuts and their rooting can severely damage, or even kill saplings, shrubs, and vines directly or by facilitating the spread of soil-based fungal diseases. Feral pigs can also break irrigation lines, rip or tear nets, drying racks, and other agricultural structures and equipment.

These feral ungulate populations can pose a danger, especially as populations grow and their health is put into jeopardy due to inadequate food. Diseases that they normally tolerate will become serious debilitating illnesses that could put our domestic livestock industry in jeopardy. Such fears are not unreasonable, as incidences such as the bovine tuberculosis spread from feral pigs have been documented in Molokai.

Hawaii's farmers and ranchers look to providing Hawaii with an increased level of selfsufficiency, but will not be able to do so if their products are consumed by feral animals. Axis Deer, feral pigs, and other invasive species can cause major damage to property, agriculture (crops and livestock), Hawaii's native species and ecosystems, and Hawaii's cultural and historic resources. They can also threaten the health of people, wildlife, pets, and other domestic animals. As Hawaii's feral ungulate populations continue to expand, these damages, costs, and risks will only keep rising.

#### 4. Target Population.

The direct target population for this request are farmers and ranchers in Hawaii that have been impacted by ungulate and other invasive species.

The indirect target population is the citizens of the State of Hawaii. When farms struggle with loss or damage to their operations, food costs will rise and locally produced supplies will dwindle. The cost in terms of impacts to the economy, higher unemployment, less availability of highly nutritional locally produced food, a changing landscape and a reduction in food security are real, but difficult to quantify.

#### 5. Geographic Coverage.

The geographic coverage will encompass farms and ranches located on all of the major Hawaiian Islands.

## III. Service Summary and Outcomes

#### 1. Scope of Work, Tasks, and Responsibilities.

The Hawaii Farm Bureau (HFB) requests \$1,000,000 to provide ungulate proof fencing for farmers and ranchers to protect their crop and livestock operations. HFB will issue a Request for Proposals (RFP) and administer and distribute the funds to farmers and ranchers upon acceptance of written proposals detailing need for assistance. Proposals will be evaluated based on validity and likely impact upon the ability of the farmers or ranchers to contribute to Hawaii's agricultural economy.

HFB staff will perform the necessary administrative and support functions, assisted by contractors and volunteers from each of the 11 Farm Bureau County chapters located across the state. We expect that the requested funding for approximately 20-25 farms or ranches, HFB's administrative costs, and costs of reporting of results through publications, the University of Hawaii, Hawaii's Department of Agriculture and the Legislature.

#### 2. Projected Timeline

The following anticipated timeline assumes that the funding will become available on July 1, 2022:

July 2022	Receive funds; prepare and distribute requests for proposals to Hawaii farms and ranches.
August 2022 – October 2022	Receive and review proposals.
November 2022 – October 2023	Approved projects are carried out. Progress reports from farmers and ranchers are received.
November 2023	Final reports are received.

#### 3. Quality Assurance and Evaluation Plans.

Project proposals will be reviewed by an HFB Grant Selection Committee comprised of individual farmers and commodity group representatives to ensure that approved projects are valid and likely to produce results of practical value to Hawaii's agricultural producers. Producers whose proposals are approved will be required to submit reports detailing the progress of their projects. Projects will be evaluated on a continuous basis, suggestions will be made for improvement, and any projects that appear unlikely to produce practical results may be terminated.

HFB will generate quarterly reports for the HFB Grant Selection Committee to ensure accurate and timely completion the projects.

#### 4. Measures of Effectiveness.

Recommendations will be developed and ideally implemented for other farmers and ranchers. The goal and measure of success for this project is saving farms from failure and hardship due to damage and destruction to crops and pasture lands. Reports to the Hawaii Department of Agriculture and Legislature will be made with production data before and after the installation of fencing.

HFB will keep records of all project participants and beneficiaries, contacts at all meetings, farm visits and include them in the final report. It will report with some precision the number of farms that are benefited by this project.

## IV. Financial

#### **1. Budget**. See attached

#### 2. Anticipated Quarterly Funding Requests (Fiscal Year 2023).

Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total Grant
\$1,000,000	\$0	\$0	\$0	\$1,000,000

#### 3. Other Sources of Funding. None

#### 4. State and Federal Tax Credits. None

# 5. Government Contracts and Grants it has been and will be receiving for program funding. None

#### 6. Unrestricted Current Assets. \$818,303.92

#### V. Experience and Capability

#### 1. Necessary Skills and Experience

HFB's membership includes nearly 1,800 member families in 11 geographical County chapters on all main Hawaiian Islands. These are referred to as Farm Bureau Counties. They include:

- East Oahu County Farm Bureau
- Hamakua County Farm Bureau
- Hilo County Farm Bureau
- Ka'u County Farm Bureau
- Kauai County Farm Bureau
- Kohala County Farm Bureau

- Kona County Farm Bureau
- Maui County Farm Bureau
- Molokai County Farm Bureau
- South Oahu County Farm Bureau
- West Oahu County Farm Bureau

HFB serves Hawaii's agricultural community, including not only farmers and ranchers but also academic and industrial researchers. HFB also has extensive contacts among the industries, academic institutions, government agencies and commodity groups that serve and/or regulate agriculture in Hawaii.

HFB has extensive grant administration experience and has managed a number of similar successful projects in the past. The 2003, 2004, 2005, 2006, and 2007 Legislatures appropriated grants to the Hawaii Farm Bureau for the promotion of Hawaii's agricultural industry through agricultural research and market development projects. The 2015 and 2016 Legislature appropriated a grant to assist Hawaii's farmers to comply with the Food Safety Modernization Act. The 2019 Legislature appropriated a CIP grant for construction for the repair and restoration of the Hawaii Farm Bureau building and perimeter wall. In addition, HFB has received grants from the USDA, State of Hawaii, County of Hawaii, County of Maui, County of Kauai and the City and County of Honolulu.

#### 2. Facilities

The funding for fencing requested in this proposal will be carried out by various farms and ranches located throughout the State. Facilities will be evaluated as part of the proposal evaluation process, at which time the suitability of the proposed facilities will be evaluated.

## VI. Personnel: Project Organization and Staffing

# 1. Proposed Staffing, Staff Qualifications, Supervision and Training

Staffing will consist of an Executive Director, an Administrative Assistant and a Project Coordinator. An HFB Grant Selection Committee will develop RFP asking for proposals from producers to be performed consistent with the goals of the project. A committee will evaluate and score the proposals for funding. Contracts will then be issued. The Project Coordinator will issue the RFP, oversee the project, compile the results and reporting, and organize communications, with assistance from the administrative assistant. The Executive Director will oversee the entire project with specific milestones to ensure the timely completion of the project. The Executive Director and the Administrative Assistant are already hired and are capable. The Project Coordinator must be familiar with Hawaii farms and ranches, organization and communications. This person must demonstrate proficiency in each of these areas to the satisfaction of the committee.

# 3. Organization Chart

#### 4. Compensation

Executive Director: \$90,000 Farmers' Market General Manager: \$61,800 Community Relations Manager: \$36,000

# VII. Other

- 1. Litigation. None
- 2. Licensure or Accreditation. None
- 3. Private Educational Institutions. None
- 4. Future Sustainability Plan.
  - (a) The proposed project will result in information that will be available to other farmer and ranchers impacted by ungulates. The requested funding will unfortunately not be sufficient to provide fencing to every farm or ranch impacted by ungulates; however, this funding will make a significant impact on the farmers and ranchers that are selected.
  - (b) If funding from the State is not available, funding will be sought from Federal sources such as the USDA and/or private institutions. Competitive Federal grants are available; however, many in the agricultural industry nationwide will be seeking this limited funding source.
