

Community Teen Program

Grant in Aid The Thirtieth Legislature

Application for Grants: FY 2023

January 19, 2022

Application Submittal Checklist

The following items are required for submittal of the grant application. Please verify and check off that the items have been included in the application packet.

1) Certificate of Good Standing (If the Applicant is an Organization)

2) Declaration Statement

3) Verify that grant shall be used for a public purpose

4) Background and Summary

⊠ 6) Budget

a) Budget request by source of funds (Link)

b) Personnel salaries and wages (Link)

c) Equipment and motor vehicles (Link)

d) Capital project details (Link)

e) Government contracts, grants, and grants in aid (Link)

7) Experience and Capability

8) Personnel: Project Organization and Staffing

THE THIRTIETH LEGISLATURE APPLICATION FOR GRANTS CHAPTER 42F. HAWAII REVISED STATUTES

Page 2 of Cover Page – Brief Description of Request

Parents And Children TogetherType of Grant Request: **Operating**

Type of Business Entity: 501(C)(3) Non Profit Corporation

Amount of State Funds Requested: \$250,000

Brief Description of Request

Parents And Children Together will use the funds for a public purpose by providing positive youth development services to youth and families living in the high-risk communities of Kuhio Park Terrace (aka KPT and the Towers at Kuhio Park) in Kalihi and Puuwai Momi housing in Aiea, with a focus on re-engaging the multiplying numbers of out of school youth since the onset of the COVID-19 pandemic.

Research has shown that dropping out of school – in addition to lower high school graduation rates – results in increased high-risk behaviors like substance & alcohol use, unplanned pregnancies, potentially more illegal activity and victimization involving youth in the area. There appears to be shrinking parental involvement due to the stressors compounded by the ongoing pandemic. These impacts have long range and far reaching consequences for the individual, youth, families, and the State. Youth's experiences, their choices, and the resources available to them as they grow and change will contribute to whether they develop into independent adults or become dependent on public assistance, incarcerated, homeless, or otherwise unable to provide for themselves and their dependents (Koball, et al. 2011).

Application for Grants

Certification I.

1. Certificate of Good Standing

One (1) copy of a certificate of good standing from the Director of Commerce and Consumer Affairs that is dated no earlier than December 1, 2021.

2. Declaration Statement

A signed Declaration Statement affirming that Parents And Children Together (PACT) is in compliance with Section 42F-103, Hawaii Revised Statutes is included.

3. Public Purpose

A signed Verification of Grant use for a Public Purpose is included.

Department of Commerce and Consumer Affairs

CERTIFICATE OF GOOD STANDING

I, the undersigned Director of Commerce and Consumer Affairs of the State of Hawaii, do hereby certify that

PARENTS AND CHILDREN TOGETHER

was incorporated under the laws of Hawaii on 08/15/1968; that it is an existing nonprofit corporation; and that, as far as the records of this Department reveal, has complied with all of the provisions of the Hawaii Nonprofit Corporations Act, regulating domestic nonprofit corporations.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Department of Commerce and Consumer Affairs, at Honolulu, Hawaii.

Dated: January 13, 2022

DECLARATION STATEMENT OF APPLICANTS FOR GRANTS PURSUANT TO CHAPTER 42F, HAWAI'I REVISED STATUTES

The undersigned authorized representative of the applicant certifies the following:

- 1) The applicant meets and will comply with all of the following standards for the award of grants pursuant to Section 42F-103, Hawai'i Revised Statutes:
 - a) Is licensed or accredited, in accordance with federal, state, or county statutes, rules, or ordinances, to conduct the activities or provide the services for which a grant is awarded;
 - b) Complies with all applicable federal and state laws prohibiting discrimination against any person on the basis of race, color, national origin, religion, creed, sex, age, sexual orientation, or disability;
 - c) Agrees not to use state funds for entertainment or lobbying activities; and
 - d) Allows the state agency to which funds for the grant were appropriated for expenditure, legislative committees and their staff, and the auditor full access to their records, reports, files, and other related documents and information for purposes of monitoring, measuring the effectiveness, and ensuring the proper expenditure of the grant.
- 2) If the applicant is an organization, the applicant meets the following requirements pursuant to Section 42F-103, Hawai'i Revised Statutes:
 - a) Is incorporated under the laws of the State; and
 - b) Has bylaws or policies that describe the manner in which the activities or services for which a grant is awarded shall be conducted or provided.
- 3) If the applicant is a non-profit organization, it meets the following requirements pursuant to Section 42F-103, Hawai'i Revised Statutes:
 - a) Is determined and designated to be a non-profit organization by the Internal Revenue Service; and
 - b) Has a governing board whose members have no material conflict of interest and serve without compensation.

Pursuant to Section 42F-103, Hawai'i Revised Statutes, for grants used for the acquisition of land, when the organization discontinues the activities or services on the land acquired for which the grant was awarded and disposes of the land in fee simple or by lease, the organization shall negotiate with the expending agency for a lump sum or installment repayment to the State of the amount of the grant used for the acquisition of the land.

Further, the undersigned authorized representative certifies that this statement is true and correct to the best of the applicant's knowledge.

Parents And Children Together (Typed Name of Individual or Organization) (Signature) (Date) Ryan Kusumoto (Typed Name) (Title)

Rev 12/2/16 5 Application for Grants

Verification of Grant use for Public Purpose

(1) Organization Name: Parents And Children Together: Community Teen Program

(2) Public purpose for the grant:

Parents And Children Together's fiscal year 2022 grant-in-aid application is intended to provide positive youth development services to youth and families living in the high-risk communities of Kuhio Park Terrace (also known as KPT and the Towers at Kuhio Park) in Kalihi and Puuwai Momi Housing in Aiea and is directly targeting children and youth whose learning gap was greatly impacted by over a year of distance learning and who have not fully returned to school even now. *Our primary goal for the next 1-2 years, simply put, will be to bridge the distance between school and home that has been exacerbated by COVID, until our youth are again actively participating in meaningful education opportunities.*

Our proposed services are in direct response to the increasing school attendance problem as youth and families elect to stay out of school in this post COVID lockdown phase. It stands to reason that the alarming trend will be followed by a lower high school graduation rate, increased high risk behaviors like substance and alcohol use, unplanned pregnancies, potentially more illegal activity and victimization involving youth in the area and what appears to be shrinking parental involvement. These impacts have long-range and farreaching consequences for the individual youth, the families, and the State. Youth's experiences, their choices, and the resources available to them as they grow and change will contribute to whether they develop into independent adults or become dependent on public assistance, incarcerated, homeless, or otherwise unable to provide for themselves and their dependents. (Koball, et al.2011)

The target populations to be served through this proposal are youth 5-18 years of age living in and around the identified low-income, public housing communities of Kuhio Park Terrace and Puuwai Momi. Public housing communities with concentrations of very low-income households and disproportionate numbers of children/youth, are among the most distressed communities on the island. Youth in public housing face many individual, social, and economic stresses and challenges including high rates of crime, substance abuse, peer & family challenges, educational failure, and isolation.

The attainment of this goal over the next critical years can mean real savings of hundreds of thousands in public aid over time and, more importantly, in productive futures for scores of local youth. Kalihi, Puuwai Momi, and public housing in general are commonly thought to have a much higher percentage of at-risk youth than our state overall. We believe these neighborhoods, more than most, warrant the focused attention.

Providing opportunities for youth and families in our target populations to build bridges and make strong connections to their schools as well as build positive peer and adult relationships, learn new skills, and participate in positive, supervised activities will prevent their participation in a multitude of risky behaviors and will, ultimately, serve the public need.

(3) Services to be supported by the grant:

PACT has a long-standing presence at both KPT and Puuwai Momi and has built trust in the community over the years. To engage youth and decrease the negative impacts, the Community Teen program will deploy an evidence-based program model—Positive Youth Development—with activities that appeal to youths' interests and build up their developing skills in decision-making, STEM literacy, social relationships, basic living skills, and expression of their creativity.

Program activities fall within five components that touch upon the positive development of the whole youth: 1) Academic Enrichment and Support (daily study hall/homework help, computer lab, technology/digital media, and intersession enrichment activities) and will focus on recruiting and engaging those youth who are not engaged in schooling and working with them to overcome barriers to attendance in school; 2) Sports, Fitness, and Recreation (daily recreational activities in the drop-in center include music, games, sports, arts and crafts, computer lab; health/fitness activities, including 30 minutes or more of daily fitness activities, nutrition/cooking, and gardening); 3) Youth Development and Skill Building (social/life skills development, social emotional learning, youth leadership, and career exploration); 4) Aina-Based Learning—aka place-based learning activities (cultural exploration, sharing, and reflection; and 5) Family, Community, and School Engagement (parent activities, parent hui, collaborative community-wide activities, and an increased presence at schools to help build a bridge back to school).

(4) Target group

The target populations to be served through this proposal are youth 5-18 years of age living in and around the identified low-income, public housing communities of Kuhio Park Terrace and Puuwai Momi. Public housing communities with concentrations of very low-income households and disproportionate numbers of children/youth, are among the most distressed communities on the island. Youth in public housing face many individual, social, and economic stresses and challenges including high rates of crime, substance abuse, peer & family challenges, educational failure, and isolation.

Additionally, many youth living in these communities are either involved in or are at risk for involvement in the Juvenile Justice system. The majority of youth who will receive services through this proposal are in one of the ethnic groups that are over-represented in the juvenile justice system in comparison to their proportion in the general juvenile population – Samoan, Hawaiian, Filipino, African American, and Outer Pacific Islanders (including Chuukese, Marshallese, and other COFA (a.k.a. Micronesian) populations).

Youth at KPT and Puuwai Momi also experience many of the risk factors identified in the youth development literature as contributing to increased potential for participation in risky behaviors, including: academic failure, low family connections, low income status/poverty, lack of parent involvement, negative peer influences, community disorganization, and diminished opportunities. And, as reported by our local schools, many of the youth in the target population have not yet fully returned to school and are more behind academically than ever before.

(5) Cost of the grant and budget.

PACT's budget for the proposed GIA is \$250,000. Personnel costs account for nearly 73% of the budget with the remaining 27% allocated for operating costs, including: rent and utilities, telecommunications, program supplies and beneficiary costs, repair and maintenance, postage, employee mileage, staff training, and other costs directly related to the operation of the program (insurance, payroll and other fees, audit, etc.)

II. Background and Summary

1. A brief description of the applicant's background;

PACT has assisted Hawaii families—guiding the journey to health and stability—since 1968. For over 50 years, through counseling and care, financial or other tangible support, and resources networking, PACT has supported families. Today, services include early education, mental and behavioral health support, domestic violence prevention, child abuse and neglect prevention, family economic development, youth and community development, and a wide variety of crisis interventions. With 20 programs serving communities throughout the state of Hawaii, PACT offers a comprehensive and interconnected array of services to strengthen individuals, children, families, and communities experiencing developmental, educational, social, behavioral health, and economic challenges.

PACT extended our programmatic expertise in 2017 to embark on strategic initiatives working with other organizations and community sectors to address complicated socioeconomic issues impacting our state's collective health and well-being such as domestic human/sex trafficking and long-term poverty.

The past two years of COVID-19 challenges have heaped ever more distress onto our low-income families. In response, PACT has developed mitigating strategies and extended activities beyond the norm into food and housing security, community health, technology access, distance learning support, and other actions designed to alleviate new difficulties and pressures. Our programs have always been community-based to reflect the cultures and faces of our clients. But in this new COVID world order with its challenges to transportation, communication and logistics, locally-placed services with culturally-informed approaches are absolutely critical for efficient service provision.

Our largest service hub is located in the Kuhio Park Terrace (KPT)/Kuhio Homes public housing community, including Early Head Start-Head Start, a Community Teen Center, and the Family and Economic Opportunity Center. All other programs are located within the communities they serve or at places conveniently located along main streets and bus lines. A number of our programs provide services at clients' homes or places in the community according to clients' preferences.

Most importantly for this proposal, PACT's Community Teen Program has long been a presence in the KPT and Puuwai Momi communities to provide alternatives for youth in a safe, structured environment that helps them avoid risky behaviors and build upon protective factors that help youth understand themselves, relate better with peers, develop their talents, and allow them to explore other communities, nature, and potential opportunities.

Being a community-based service provider allows our staff to build strong, working relationships with our clients. Regular surveys of our clients' experience with our services find they are highly satisfied with our services:

- 95% were satisfied with the services they received;
- 96% felt the services were helpful;
- 93% felt satisfied with the progress they made and skills learned by participating in the services:
- 97% felt their culture and background were respected; and
- 99% found the staff friendly and caring.

With 54 years of relationship-building and service delivery experience, PACT has earned the community's trust through initiating partnerships to address the pervasive problems associated with poverty and has nurtured community-driven solutions that have helped its residents to become self-reliant, productive, and engaged citizens.

The program staff possess a multi-cultural fluency developed through experience in working with Hawaii's diverse populations. They approach their work with families and family members as a partnership based on equality and respect. While the agency has grown to become a statewide provider, our approach still considers the unique needs and strengths of each client as an individual, as a part of the family unit, and as a member of a community with resources.

PACT is an active member of HANO, PHOCUSED, Hawai'i Appleseed Center for Law & Justice, the Domestic Violence Action Coalition, Hunger Coalition project, and is a partner agency and recipient of the United Ways on Oahu, Kauai, and Maui.

2. The goals and objectives related to the request;

We need to act swiftly to counter the devastating effect of the past two COVID years on our youth's education and prospects for fulfilling careers. National studies and local confirmation by our neighborhood schools show an enormous gap—our low-income youth simply are not returning to school. The learning deficits created by poverty then multiplied by the COVID school shut-downs were problematic but nonetheless the typical and perhaps unavoidable experience. However, this new concern of youth *disappearing altogether* from the educational system can spell career doom for public housing kids.

PACT's Community Teen Center has been open since the lockdown was lifted and will remain open. We will focus on helping youth best utilize a school experience and keeping them actively interested in finishing and furthering their education. Our goal for the next year to two years, simply put, will be to bridge the distance between school and home created by COVID, until our youth are again actively participating in meaningful education opportunities.

Goal – All youth in the Kuhio Park Terrace (KPT) and Puuwai Momi (PM) housing communities and the surrounding areas will return to formalized education and will actively participate in educational opportunities.

Objectives:

- A minimum of 300 youth will participate in afterschool programs and services at PACT and will attend activities designed to engage them in learning in school and beyond.
- PACT will conduct outreach to Kalihi and Puuwai Momi/Aiea families whose youth have not consistently returned to school and will support their efforts to return by reducing barriers and providing needed services wherever possible.
- The Community Teen Program will create new partnerships and strengthen existing ones with local schools and school personnel to support and increase family involvement at all levels in public schools.
- PACT's teen programs will develop and test strategies/activities to engage peer support for returning to school via a Bridge to Graduation teen task force.
- PACT will ensure all active families have access to adequate technology (equipment and internet) both at our Centers and at home to support full participation in public education.

The attainment of this goal over the next critical years can mean real savings of hundreds of thousands in public aid over time and, more importantly, in productive futures for scores of local youth. Kalihi, Puuwai Momi, and public housing in general are commonly thought to have a much higher percentage of at-risk youth than our state overall. We believe these neighborhoods, more than most, warrant the focused attention.

3. The public purpose and need to be served;

PACT's proposed 2022 grant-in-aid will be used for a public purpose pursuant to Section 42F-102, Hawaii Revised Statutes.

This application will provide positive youth development services to youth and families living in the high-risk communities of Kuhio Park Terrace (also known as KPT and the Towers at Kuhio Park) in Kalihi and Puuwai Momi (PM) Housing in Aiea with a focus on re-engaging the multiplying numbers of out of school youth.

Our proposal is in direct response to the increasing school attendance problem as youth and families elect to stay out of school in this post COVID lockdown phase. It stands to reason that the alarming trend will be followed by a lower high school graduation rate, increased high risk behaviors like substance and alcohol use, unplanned pregnancies, potentially more illegal activity and victimization involving youth in the area and what appears to be shrinking parental involvement. These impacts have long-range and farreaching consequences for the individual youth, the families, and the State. Youth's experiences, their choices, and the resources available to them as they grow and change will contribute to whether they develop into independent adults or become dependent on public assistance, incarcerated, homeless, or otherwise unable to provide for themselves and their dependents. (Koball, et al.2011)

PACT works closely with school administrations and teaching staff in the community to ensure we are up-to-the-minute and coordinated in our support for school initiatives.

Recently we were approached by Aiea Intermediate School to partner as we try to engage youth and families that have not returned to school. Discussions with Aiea Intermediate and our many education partners have helped us to formulate this proposal and develop our plans to bring at-risk youth from our target populations or communities back to school.

4. Describe the target population to be served;

The target populations to be served through this proposal are youth 5-18 years of age living in and around the identified low-income, public housing communities of Kuhio Park Terrace and Puuwai Momi. Public housing communities with concentrations of very low-income households and disproportionate numbers of children/youth, are among the most distressed communities on the island. Youth in public housing face many individual, social, and economic stresses and challenges including high rates of crime, substance abuse, peer & family challenges, educational failure, and isolation.

Nearly half of the 2,336 authorized residents at Kuhio Park Terrace and Kuhio Homes (1,085) are 18 years or under (184 ages 0-4; 485 ages 5-11; 206 ages 12-14; and 210 ages 15-18). Correspondingly, 901 children and youth from this community are eligible for Teen Program services. The predominant ethnic groups residing at KPT and Kuhio Homes are: Chuukese (33%), Samoan (16%), Native Hawaiians (10%), Marshallese (5%), and Asians other than Filipino (4%). (Better Tomorrows, personal communication, 11/14/19).

Puuwai Momi (PM) has 296 occupied units. Of the 1,059 authorized residents, 392 (37%) are 5-17 years old and the top 3 ethnic groups are Native Hawaiian/Pacific Islanders (74%), Asians (14%), and White (12%). Of the current Teen Program participants, 98% are Hawaiian or Pacific Islanders (Chuukese, Marshallese, Samoan). About 95% of the tenants are of extremely low-income (30-80% of the median family income).

The majority of youth who will receive services through this proposal are in one of the ethnic groups that are overrepresented in the juvenile justice system in comparison to their proportion in the general juvenile population—Samoan, Hawaiian, Filipino, African American, and Outer Pacific Islanders (including Chuukese, Marshallese, and other COFA (aka Micronesian) populations).

2021 participation data for youth by ethnicity who enrolled in the Community Teen program included:

Ethnicity	% Enrollment at KPT	% Enrollment at PM
Outer Pacific Islanders	72%	66%
Samoan	12%	7%
Hawaiian/Part Hawaiian	12%	21%
Filipino	0%	< 1%
African American	1%	< 1%
Other (Asian, Caucasian, and other Pacific Islanders)	3%	6%

Youth at KPT and Puuwai Momi also experience many of the risk factors identified in the youth development literature as contributing to increased potential for participation in risky behaviors. The most significant risk factors present for youth in these communities include:

Risk F	actors
Individual Domain	Family Domain
 Lack of opportunity Low connection to family Low academic aspirations Low commitment to school Early onset of problem behaviors 	 Large number of single parent households Low-income status/poverty Family conflict, problems, and dysfunction Lack of parental involvement
Peer Domain	Community Domain
 Early onset of problem behaviors Favorable attitudes toward antisocial behavior Association with delinquent or aggressive peers Lack of involvement in conventional activities 	 Low neighborhood attachment Community disorganization Laws/norms favorable to problem behaviors Diminished economic opportunities

5. Describe the geographic coverage.

PACT proposes to provide comprehensive youth services in two high risk low-income, public housing communities:

- Kuhio Park Terrace (aka KPT or Towers at Kuhio Park) in Kalihi and
- Puuwai Momi in Aiea.

As stated above, public housing communities, such as Kuhio Park Terrace and Puuwai Momi, which have concentrations of extremely low-income households and disproportionate numbers of children and youth, are among the most distressed communities on the island and in the nation (Hunt,2012). Other risk factors associated with youth living in public housing include exposure to familial substance abuse, family violence and conflicts, and lack of supervision.

Kuhio Park Terrace is Hawaii's largest public housing community, located in Kalihi at the foot of Kahauiki ridge, with the Fort Shafter Military Complex to its west and the Likelike Highway to its east. A total of 748 housing units comprise the two high-rise buildings and low-rise homes, which are home to 2,336 low-income working and non-working families (Choice Neighborhoods Needs Assessment, 2012). KPT and Kalihi Valley Homes were built in the 1960s.

The profile of KPT/Kuhio Homes indicates that this community is at great risk. The median family income for KPT/Kuhio Homes is \$23,095. (\$28,870 is poverty level income for a family of four, Department of Health and Human Services). Most residents (70%) at KPT/Kuhio Homes are working. Thirty-one percent of the households receive cash public assistance and 81% received SNAP benefits. Nearly 13% of the households receive SSI and 28% receive Social Security benefits. Of those families living in poverty, 79% are headed by single females. Children and youth ages 0 to 18 make up nearly half (48.7%, ACS 2016, 5-Year Estimate) of the KPT/Kuhio Homes population. Linapuni, Fern, and Kalihi-Waena Elementary Schools are the public schools that serve KPT/Kuhio Homes children. All of these schools participate in the Community Eligibility Provision (CEP) for school districts in low-income areas. CEP allows the nation's highest poverty schools to serve breakfast and lunch at no cost to all enrolled students (School Status and Improvement Reports, School Year 2020-21). Kuhio Park Terrace residents are economically isolated, and face educational, linguistic, and cultural barriers as well as numerous environmental risks.

Puuwai Momi is a State public housing community with 296 occupied housing units and a population of 1,059 low-income tenants in Aiea, Oahu. The complex is bordered by Aloha Stadium, Halawa stream, Kamehameha Highway, and the Liliuokalani-E/H-1-W. There are also a number of other low-income apartment complexes surrounding Puuwai Momi. The location is not a pedestrian community and the public schools—Aiea Elementary, Middle, and High School—are not within convenient walking distance and students are bussed to and from school. Once home from school, the children at Puuwai Momi are isolated from the larger community.

Puuwai Momi resident statistics mirror those of its census tract (75.04): 24% percent of the residents are foreign born; average household size (4.37) is larger than the county average (3.64); twice as many households are headed by single females (36.6% v. 17.47%) with more children per household; unemployment in the census tract was 6.9% (pre-COVID, ACS 2019 5-year), nearly twice as high than the entire 96701 area (3.6%);

median family income is significantly lower at PM; the number of households receiving public assistance is more than three times the county rate; and three times as many families with children under 18 live in poverty level than in 96701 or the county. Over 20% of PM households are headed by individuals over 62 years old.

Children from Puuwai Momi attend Aiea Elementary which reflects the diverse, multicultural population at PM with many students who migrated from the Outer Pacific Islands and learn English as a second language. In the 2019-20 school year, the total enrollment was 316 and the school qualifies for the Community Eligibility Provision (CEP) where all students received free lunches because of the high community poverty rate. 37% of the students had limited English proficiency (a 12% increase from 2 years prior). Reading & Math proficiency scores in grade 3 were significantly lower compared to the State average at 22% c.f. 52% (reading) & 29% c.f. 55% (math), respectively.

III. Service Summary and Outcomes

1. Describe the scope of work, tasks and responsibilities;

Comprehensive youth development services and activities are provided at both KPT and PM daily. All youth ages 5 to 18 are welcomed to participate and are roughly divided according to age groups and planned activities for the day.

We approach all youth and families from a strengths-based philosophy, so our programs are specifically developed using the principles of Positive Youth Development (PYD); designed to reduce or enhance identified risk and protective factors and provide opportunities for youth to develop the skills, attitudes, abilities, behaviors, and competencies to become active, vital members of their community and successfully transition to adulthood. PACT defines prevention with a broad brush and believes that providing youth with opportunities to develop skills, abilities, etc. will help prevent their participation in many risky behaviors—i.e., substance abuse, violence, pregnancy, etc. PACT provides a case management component for families in need, and with the focused goal we are proposing, we will increase our family engagement and case management work to include outreach, support and follow-up specifically for families who are not accessing school resources and youth finding it tough to get back into school attendance.

Program activities fall within five components that touch upon the positive development of the whole youth: 1) Academic Enrichment and Support (daily study hall/homework help, computer lab, technology/digital media, and intersession enrichment activities); 2) Sports, Fitness, and Recreation (daily recreational activities in the drop-in center include music, games, sports, arts and crafts, computer lab; health/fitness activities, including 30 minutes or more of daily fitness activities, nutrition/cooking, and gardening); 3) Youth Development and Skill Building (social/life skills development, social emotional learning, youth leadership, and career exploration); 4) Aina-Based Learning—aka place-based learning activities (cultural exploration, sharing, and reflection; and 5) Family, Community, and School Engagement (parent activities, parent hui, collaborative community-wide activities, and an increased presence at schools to help build a bridge back to school).

Academic Support: Academic Enrichment: Typically, our goals in this area have been to improve academic skills and increase school success. With this new proposal our goal still includes academic enrichment during Center hours but now also focuses on recruiting to the Centers those youth who are not engaged in schooling and then working with them to overcome barriers to attendance in school. Simultaneously, PACT will work directly with families to ensure that all children have access in the home to technology (internet access and computer equipment) needed to support them in school.

We will provide activities aimed at changing attitudes toward school and making the critical connections between school completion and success in life. Vocational exploration will be emphasized.

For those youth still engaged in school and others who wish to participate we will continue to enrich basic math & reading skills, study habits, and homework completion. This will be accomplished through daily study hall and homework help, computer lab, summer/intersession enrichment activities, healthy afterschool snacks, and incentives for participation (e.g., quarterly field trips and shaka bucks).

Sports, Fitness, Enrichment and Recreation: PACT's Teen Center aims to develop youth who are well-rounded individuals by exposing them to and encouraging them in a variety of positive activities they may not have had experience with. Targeted behaviors include increased teamwork skills, physical activity, and nutrition awareness. To accomplish this, staff organize daily SPARK/fitness activities, league sports (i.e., late night basketball, flag football), and daily drop-in center (with computer lab, arts/crafts, cooking and nutrition groups, music and dance, etc.). These types of activities have usually been "attractors" for youth to enter our programs and may now be particularly desirable for youth who do not have traditional sports outlets through a school. In addition to our routine incorporation of these experiences into the curriculum, we expect to do significant outreach through these activities to non-schooled youth.

Youth Development and Skill Building: Participation at the Teen Center will help youth develop the necessary skills and abilities to be successful in life. Targeted behaviors for these modules are: improved communication skills, social/life skills, decision-making, and adult and peer relationships. A few of the activities include:

- Youth Leadership: Staff look for leadership skills and abilities in youth who may not be considered your typical leaders and provide opportunities for leadership development in youth who probably have not had much opportunity to develop those skills. For example, participants have the opportunity to contribute to the Kalihi Connection community development group as youth representatives.
- Social and Life Skills/Social Emotional Learning: These skills are addressed in both formal and informal ways. Formally, staff run groups that focus on these skills and implement prevention curricula that focus on specific skills or behaviors in small group settings at the center. An example of this is "Why Try." Why Try lessons teach important life skills like keeping laws and rules, building support systems, resisting peer pressure, and developing resiliency. Informally, staff work with youth to develop these skills in the course of their participation in daily activities, utilizing "teachable moments" that occur naturally during program activities.
- Career Awareness and Development: The Centers utilize career awareness curricula. workshops and guest speakers to highlight different career paths so that young people can explore different career possibilities. Helping youth visualize a future story for

themselves that includes a viable career and stable economic future can provide compelling information for youth avoiding school. Activities will be designed so that youth can develop a sense of their future along with a sense of hope and purpose.

Aina-Based Activities: With goals of helping youth will feel more connected to their cultures and communities; improving relationships with positive adults, family, and community; and increased community/cultural awareness and civic responsibility, this component includes activities such community service projects in their communities and at cultural sites along the Halawa or Kalihi ahupuaa to learn their moolelo (stories), and enrichment activities (dance, music, etc.). A new project for 2022 will be to collaborate with Trees for Honolulu, University of Hawai'i systems, and the DOE to implement an EPA-funded grant to address heat islands in the Makalapa community. Youth from the housing projects will become student scientists to measure and develop site-specific maps of current conditions of extreme heat in their community and identify solutions to those problems through experiential learning opportunities. Middle and high school age youth will also have the opportunity to help develop and publish a guide for other underserved communities with similar issues to follow.

Family, Community, and School Engagement: PACT understands the significance of the family unit and its impact on the lives of participating youth. The Teen Center will catalyze the shift in culture in our communities to build strong and effective partnerships with families and community members to help children thrive. We will strive to increase parent involvement Teen Program and community activities and improve relationships with their children. Activities will include a parent hui, program community activities (such as movie nights, family game nights, and quarterly Hoike showcases). Additionally, Teen staff will partner with other PACT staff and programs (i.e., Family and Economic Opportunity Center (FEOC), Early Head Start/Head Start) to build on existing activities and increase the engagement of parents and families of Teen Program members. These include the FEOC food pantry, community pop-up events, etc. Additionally, the Family/Community Coordinator will also begin to provide case management services for select families or individuals with multiple needs and challenges, including the assessment of their strengths, challenges, and needs and ongoing support to mitigate barriers and encourage progress towards goals.

PACT staff have had preliminary discussions with schools (Aiea Intermediate, Dole Middle, and Fern Elementary) to identify key activities, which include:

- PACT will provide a staff presence on campuses to leverage existing relationships between staff and students to encourage increased attendance.
 - o PACT staff will be a bridge between community, families, the Teen Program, and schools, and offer a network of support to help children feel a sense of "belonging" at school.

- PACT staff will work with at-risk students providing supplemental in-school or after school activities on campus (i.e., vaping prevention or the Why Try social emotional learning curricula, cultural/aina-based activities, etc.)
- PACT will assist schools with developing and implementing transition-to-middle school activities to help incoming middle school students' (especially those from atrisk communities and families) transition into new "rhythm" at middle/intermediate school.
- Staff will be a more consistent "bridge" with parents to build positive relationships with their child's school. This can be accomplished by being present at school activities (open house, teacher conferences, etc.) and providing case management services for families with particular struggles with school performance.
- We will provide a consistent presence in planning and implementing school activities—coffee hours, open houses, and individual parent/family meetings. A Teen Program staff member will sit on all key schools' School Community Council.
- PACT will work with the schools to identify academic skills that can be reasonably worked on in our after-school program—e.g., increasing fluency in multiplication facts which is an important skill that many/most of our kids are lacking—but which is something that will make a big difference for students in school.
- We will increase the number of academic-focused groups and activities we run in our after-school programs so kids can learn academic skills in a fun way and not feel like they are back in school. These will include STEM and reading/literacy activities.

2. Provide a projected annual timeline for accomplishing the results or outcomes of the service;

3. Describe its quality assurance and evaluation plans for the request. Specify how the applicant plans to monitor, evaluate, and improve their results; and

Parents And Children Together (PACT) is dedicated to providing quality services for the community at large and for those children, adults, and families who participate in our programs. PACT maintains quality assurance and evaluation through the Performance & Quality Improvement (PQI) Plan. THE PQI Plan is built upon PACT's vision, mission, and values and is designed to ensure that targeted goals and outcomes are achieved with the highest possible quality of services, in compliance with Council on Accreditation standards of care, and are consistent with funders' contract requirements. Our approach

emphasizes that "quality is everyone's responsibility" starting with the Board of Directors to the Executive Leadership Team to the Program Directors and then to all employees, contracted service providers, and volunteers. PACT's Performance & Quality Improvement Plan provides the framework, guidance and basis for all quality activities. The Plan guides our work performance and quality improvement processes throughout the agency. The Plan is based on COA standards, funder requirements, and the Plan-Do-Check-Act framework.

PACT evaluates its performance in a multifaceted approach and uses this information as the genesis for the improvement cycle of Plan-Do-Check-Act (PDCA). Our Quality Activities include:

- 1) External review and accreditation from the Council on Accreditation (COA);
- 2) Contract Management Policies and Procedures;
- 3) Program PQI Activities;
- 4) Quarterly Case Record Review;
- 5) Quarterly Analysis of Client Outputs and Outcomes;
- 6) At minimum, Annual Client Satisfaction surveys; and
- 7) Continuous Program Review and Improvement.

The Teen Program's specific evaluation plan is based on PACT's quality processes and procedures and the goals and measures proposed in this document. The program evaluation includes a combination of process or outputs evaluation (is the program being implemented as planned?), outcomes evaluation (is the program working and is the participants' behavior changing as anticipated?), and formative evaluation (answers the questions: What's working? What's not? What changes need to be made?).

Program staff will gather relevant data continuously to ensure contract compliance and adherence to Quality procedures. Data will be provided to the State as contracted and/or requested, and the Teen Center will submit quarterly data (e.g. youth attendance, reports on events and activities, family contacts, and case reviews) for Quality reports to the agency's Director of Quality, who analyzes the data, reports trends and makes recommendations regarding immediate issues to the agency's POI Committee. The Committee is comprised of the PACT leadership and management staff. For this RFP, PACT will track and measure all required outputs and outcomes that will add significant impact for the program.

When areas for improvement or challenges are identified, the Program Director and the staff meet to discuss the issues, identify the root cause, and develop an improvement plan to change processes and address identified weaknesses. If less than satisfactory performance is identified, program leadership can introduce interventions to improve performance, obtain additional input from staff, and create a plan of action to monitor the effectiveness of the interventions, thus continuing the Plan-Do-Check-Act cycle throughout the life of the program. Additionally, Issues and areas needing Executive Leadership Team support or intervention are raised by the PQI Committee and tracked by the Director of Quality.

PACT has been accredited continuously since 2000 by the Council on Accreditation (COA) and most recently participated in the review and evaluation process that culminated with a site visit in January 2021. PACT achieved accreditation until October 31, 2024. Of significance, there were no areas of improvement identified and accreditation was expedited. To meet COA standards, all programs and the agency administration were evaluated with separate standards specific to the area. PACT's PQI system was evaluated against the PQI standards, and was recognized for being comprehensive, data driven, involving staff at all levels, and maximizing lessons learned by sharing effective practices across programs, promoting excellence across the organization and program service delivery:

"This organization's PQI system reflects effective management practices and program goals. It is clear that staff have a voice in the quality improvements and can contribute. The board is active in the process and assuring that PQI is well thought out. It appears that a solid practice of PQI is woven throughout the organization.

The practice of quality improvement is understood and practiced at all levels of the organization. Staff at the direct service level have embraced and participated regularly in quality improvement exercises and have experienced positive changes in services as a result. The data is used to guide best practices, the mission, and the future of the direction of the organization at all levels, incorporating all program types. Cross-pollination of program experiences is often used to have a "lessons learned" experience, assuring that those lessons in quality are shared throughout."

4. List the measure(s) of effectiveness that will be reported to the State agency through which grant funds are appropriated (the expending agency). The measure(s) will provide a standard and objective way for the State to assess the program's achievement or accomplishment. Please note that if the level of appropriation differs from the amount included in this application that the measure(s) of effectiveness will need to be updated and transmitted to the expending agency.

Program achievement and impact will be measured both quantitatively and qualitatively to ensure families and youth are participating and benefiting from services.

Quantitative measures (participation information) will include:

- 1) A minimum of 150 youth will participate in GIA activities each quarter (duplicated count). (PACT's attendance system, KidTrax enables us to track participants.)
- 2) A minimum of 60 families will participate in Teen Program activities in their respective communities.

Further measures will document our work with neighborhood schools as a critical component of success with this proposal:

- 3) A minimum of 4 strong school partnerships will be developed and implemented during the school year. Activities may include: establishing a Memorandum of Agreement with each school and a referral system to refer students, providing a space where PACT can conduct outreach and other services on campus.
- 4) A minimum of 10 community partnerships will be implemented during the contract to enhance program services at our sites. These will include partnerships that have been de-railed during the pandemic and/or starting new partnerships. Activities may include: Late Night Basketball League, Hawaii Literacy Book Mobile, Chaminade University – I Am A Scientist program, the DOE Yes Bus Summer Outreach, We Are Oceania cultural programs, etc.

A more qualitative measure will give us an understanding of impact:

5) 90% of youth and family participants will be report increased connections to their schools or improved school attendance.

Financial IV.

Budget

1. Budget and Budget Forms

The attached budget forms detail the cost of the grant-in-aid request, including:

- a. Budget Request by Source of Funds
- b. Personnel, Salaries and Wages
- c. Equipment and Motor Vehicles
- d. Capital Project Details
- e. Government Contracts, Grants, and/or Grants in Aid
- 2. The applicant shall provide its anticipated quarterly funding requests for the fiscal year 2023.

Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total Grant
\$62,500	\$62,500	\$62,500	\$62,500	\$250,000

3. The applicant shall provide a listing of all other sources of funding that they are seeking for fiscal year 2023.

Approximate Amount to be Requested	Funder
\$250,000	State of Hawaii – GIA – PENDING
\$198,687	City and County of Honolulu, Department of Community Services (for Puuwai Momi Site) – PENDING
\$15,000	Trees for Honolulu through Environmental Protection Agency – PENDING
\$70,000	Office of Youth Services (for Kuhio Park Terrace Site) – SECURED
\$70,000	Office of Youth Services (for Puuwai Momi Site) – SECURED
\$100,000	Department of Human Services TANF SECURED

4. The applicant shall provide a listing of all state and federal tax credits it has been granted within the prior three years. Additionally, the applicant shall provide a listing of all state and federal tax credits they have applied for or anticipate applying for pertaining to any capital project, if applicable.

Not Applicable

5. The applicant shall provide a listing of all federal, state, and county government contracts, grants, and grants in aid it has been granted within the prior three years and will be receiving for fiscal year 2023 for program funding.

A list of required information is included in the Attachments on the provided form: "Government Contracts, Grants, and/or Grants in Aid."

6. The applicant shall provide the balance of its unrestricted current assets as of December 31, 2021.

\$10,359,907.

V. **Experience and Capability**

1. Necessary Skills and Experience

PACT has been serving Hawaii's families since 1968, working with families to build on strengths and overcome barriers to health and well-being. Our Oahu, Maui, and Lanai teams partnering with DHS have provided services for nearly 20 years specifically to achieve CWS, OYS and Neighborhood Place goals to ensure child and family well-being within the guiding principles and supportive services provided by DHS. Related and relevant service contracts for the last three (3) years include the following:

PACT is a leader in neighborhood-based services and forging community partnerships to address the needs of residents. The Teen Center at KPT has been open for more than 30 years and PM for 16 years now. The Family Economic and Opportunity Center (originally known as the Family Center) has served Kalihi families for over four decades and partners with the Teen Center to provide outreach to area families.

Probably best known for prevention and intervention in the realms of Child Abuse and Neglect and Domestic Violence, PACT is likewise recognized for advocacy and a comprehensive continuum of inter-connected services in such areas as:

- Parenting skills education;
- Early childhood education and support to families and children at risk;
- Behavioral health services for families and youth:
- Workforce development;
- Drug and substance abuse prevention in youth;
- Youth sex trafficking;
- Child sex abuse treatment; and
- Community building.

Over the years, PACT has developed extensive organizational knowledge about the dynamics and challenges that long-term poverty has on families and their neighborhoods. With over 50 years of relationship-building and service delivery experience, PACT has earned the community's trust through initiating partnerships to address the pervasive problems associated with poverty and has nurtured community driven solutions that have helped communities thrive. PACT understands the numerous types of stressors and barriers that people encounter when chronically unemployed or underemployed, and the staff possesses a multi-cultural "fluency" developed through experience in working with Hawaii 's culturally diverse population. The organization has been consistent in its efforts to ensure the composition of its staff reflect the ethnic diversity of its client populations.

PACT possesses the necessary skills and capability to produce results for the marginalized youth we are seeing. The Teen Center team has proven responsiveness to Kalihi and Aiea families, excellent relationships with local schools and the ability to "flex" with the demands of COVID. Via the proposed funding to employ required staff and provide Teen Center services, PACT can synergize stakeholders to meet our critical goal.

2. Facilities

PACT has locations on Kauai, Oahu, Molokai, Lanai, Maui, and Hawaii islands. Administrative offices are located at 1485 Linapuni Street, Suite 105, Honolulu, in the heart of Kalihi, Oahu. Service locations meet all the requirements of the American Disabilities Act (ADA) regarding consumer and employee access as well as OSHA requirements for safety. Every effort is made to maintain services that are centrally located in each community where target populations are served. PACT has a Facilities Manager to ensure that all sites provide maximum accessibility, safety and support for service delivery. The Quality Director oversees a Safety Program that includes facilities compliance with all safety regulations (such as OSHA), including fire drills and monthly facilities inspections.

The Community Teen Program at KPT moved to its current site at the KPT Resource Center in the summer of 2003. This site is located adjacent to a full-sized gym, and has space configured for study hall, games and activities, and sports. It has a computer center and access to a field and a covered outdoor pavilion (fale). There are also available private spaces where teenagers can meet with staff individually or in small groups to discuss sensitive topics and attend educational sessions related to pregnancy prevention and other relevant counseling topics.

In the fall of 2013, PACT opened a second site in KPT specifically for middle and high school youth. We have found that older youth do not always want to participate with younger kids in the same space or in the same types of activities. When a space on the bottom floor of B Building became available at a minimal cost, PACT decided to open services specifically for the older population. There is space for a computer lab and a large recreation area that can accommodate a wide variety of activities. This space is also an accessible facility.

Youth services at our Puuwai Momi Site are provided in the Makalapa Community Center located adjacent to the housing complex. The Honolulu Community Action Program (HCAP) permits PACT to use the large hall during after school hours Tuesday through Saturday and has provided space to locate our office in one section of the hall. This facility is not fully ADA compliant but was grandfathered in by the State. Staff can assist clients with entering the building by assisting them over the curb on the upper level or by helping them up the sidewalk from the lower level, but once they are in the building, the Teen Program space and the upstairs bathrooms are accessible. Outdoor recreational activities are scheduled at the adjacent Makalapa Community Park and require authorization from the City and County Department of Parks and Recreation. Additionally, PACT's Family and Economic Opportunity Center (FEOC) and Administrative Offices will be available for services through this grant. The facilities are

located in the same building at KPT and can provide meeting spaces as needed. The FEOC also partners with the Teen Center for other family services such as: food pantry, referrals for legal, medical, housing, family violence, parenting education, employment and so on.

VI. Personnel: Project Organization and Staffing

1. Proposed Staffing, Staff Qualifications, Supervision and Training

Staff who currently work in the Teen Program will continue with the program. They comprise a cohesive team, some of whom work exclusively at PM or KPT and some who will share time between locations. Staff are fully trained on and embrace the evidencebased Positive Youth Development (PYD) model and its principles in all aspects of their work. Several of our staff have grown up in public housing and truly understand the difficulties that the youth face. (One of our most successful Youth Development Specialists in years past obtained a bachelor's degree in biology in part due to the support and presence of the teen center while he was growing up. He is now employed working with autistic youth at a Hawaii social services agency. A Youth Specialist who grew up at Puuwai Momi became one of the first in her family to graduate from high school and has gone on to earn a bachelor's degree in social work and continues to give back to her community.) Because of our staffs' long-time presence and positive interactions in this community, the youth can identify and utilize the Community Teen Program as a place where warm, caring, non-judgmental adults can help them on their daily journey through adolescence. Staff believe that all youth are valuable and can reach their full potential if given the opportunity to develop the attitudes, skills and abilities they need to successfully move through adolescence into adulthood.

The following table outlines the proposed staffing pattern for both sites combined. The staffing pattern is configured to provide comprehensive youth services and meet the goals of this proposal by leveraging funding sources. This funding request will be braided in with other funding sources to create a robust program. Positions and responsibilities (sites combined) for the program include the following:

Positions and Primary Responsibilities

Program Director (.1 FTE) – Overall planning, implementation and oversight of the Centers and youth development programs; defining program vision and direction; program and contract performance and reporting; community outreach and relationship building; quality improvement activities; budget development and oversight and general program administration.

Family/Community Coordinator (.5 FTE) – Development, coordination and implementation of family and community outreach and engagement activities; case management and coordination for selected families/individuals.

Site Supervisors (.7 FTE) – Supervision of staff and coordination of activities and services for KPT and PM sites; oversight of data collection; establishment of partnerships at the site and with schools and agencies in the locale; direct service provision.

Youth Development Specialists (1.08 FTE) – Development, adaptation and implementation of youth activities; enrichment programs; and other exploration projects; facilitation of groups; data collection and submission; documentation; youth counseling as called upon.

Youth Specialist (.5 FTE) – Implementation of daily youth activities; supervision of youth; data collection and reporting

Youth Interns (.75 FTE) – Assisting professional staff with youth activities. (These positions are designated as development opportunities for Teen Center participants from their respective communities.)

Current staff will provide continuity for several of the positions. New staff will be hired and trained to fill vacancies. The qualifications and incumbent(s) for each position follow:

Position	Minimum Qualifications	Incumbent(s)
Program Director	 Bachelor's required; Master's degree preferred 2 years' experience with program planning & oversight, budget management Acceptable background checks 	Cheryl Johnson: Bachelor's-Psychology 30 years as PACT Teen Programs Director 10 years teaching experience (HIDOE)
Family Community Coordinator	 Associate's degree in relevant field plus 2 years' experience in social services, health or education, OR Bachelor's degree plus 1 year experience Case coordination/management experience Acceptable background checks 	Jordan Ragasa: Bachelor's–East Asian Studies 5 years' experience in social services including 2 in PACT Teen Center 2 years' experience with case coordination
Site Supervisors	 High School diploma; bachelor's preferred 5 years' relevant experience with youth/families 1 year supervisory experience Acceptable background checks 	To be hired
Youth Development Specialists	 Associate's degree plus 1 year of relevant experience OR High School diploma plus 2 years' relevant experience Acceptable background checks 	Lauralee Baoy: Bachelor's-Psychology Jeans at PACT Teen Center ES Ludwig: Associate's-Education Years' experience with youth and families Jeans' experience at PACT Teen Center Juewels Ioka: High School diploma Il years' experience with children and families in social services Kaydee Greene:

Youth Specialists	 High School diploma or equivalent 1 year of relevant experience, preferred Acceptable background checks 	 Bachelor's-Communications 3 years' experience teaching ESL 1 year of experience at PACT Teen Center Jayleen Pharmin: Associate's-Human Services 10 years' experience at PACT Teen Center To be hired
Youth	Full-time student	To be hired
Interns	Current or recent participant in	
	PACT Teen Program	
	Meets Child Labor Law requirements	
	Acceptable background checks	

Supervision and Training

PACT is committed to ongoing, regular, responsive supervision that assures service quality and staff effectiveness. The Program Director and Site Supervisors provide monthly formal supervision as well as day-to-day oversight. The Program Director is responsible for all administrative aspects of employment at PACT and contract deliverables progress. The Program Director will supervise the Site Supervisors and the Family/Community Coordinator. The Site Supervisors will supervise the Youth Development Specialists, the Youth Specialists and the Youth Interns. (The Site Supervisor will also provide direct services.) While regular supervision sessions are scheduled at least monthly, PACT maintains an open-door policy allowing access to supervisors as well as staff whenever needed.

Administrative supervision will include the following topics:

- Acknowledgments for work/professional accomplishments;
- Review of families/youth served;
- Problem solving and suggestions for service provision, including solution-focused approaches and community resources;
- Individual skill building;
- Staff development/Quality Assurance; and
- Discussion of self-care and wellness.

PACT has established organization-wide training for all staff members within the first year of employment (in addition to programmatic training). Soon after hire, staff members attend an eight-hour orientation session that covers a variety of topics including the following:

- PACT History and Culture;
- Code of Ethics:
- Safety;
- Policies and Procedures:
- Quality Assurance;
- Confidentiality, Data Security, and HIPAA;
- PACT's Employee Handbook and Standards of Behavior; and
- Employee Benefits.

The purpose of this orientation is to provide new staff with an understanding of PACT's history, culture, values, beliefs, ethics, and mission as well as specific program procedures. Throughout the process, examples are discussed, and it is emphasized that they are expected to do their work in accordance with these guidelines and to embrace the spirit of the Code in all aspects of their work. At the orientation, staff members are provided with the opportunity to learn about other PACT programs as well. Participants leave this orientation with a comprehensive new hire packet that includes the agency's organizational chart, roster of Board of Directors, a Fact Sheet of all PACT programs, HR, Safety, and other informational materials.

Further, all PACT Teen Center staff must complete specific training to meet standards in their first year, including: De-escalation and Crisis Intervention, Child Abuse & Neglect Mandatory Reporter, and Suicide Prevention Training (Question, Persuade, and Refer). They are encouraged to complete the Basics of Child Development, and Risk & Protective Factors. These courses, along with literally hundreds of other relevant courses, are immediately available to all staff via the Relias Learning online training system that tracks and documents course plan requirements and training progress for each PACT employee. Supervisors have full access to review staff completions and level of comprehension for each topic.

The PACT Teen Program also provides program-specific trainings that are geared towards promoting understanding of clients, familiarity with community resources, and best practice including Positive Youth Development, Why Try, Tobacco Cessation, Pregnancy Prevention and other relevant topics.

2. Organization Chart

The following program organization chart depicts the structure of The PACT Teen Program and lines of authority and supervision, including the positions required to implement this proposal. The FTEs to be charged to the RFP are shown for each position. An organization-wide chart is attached for reference showing the lines of authority for each program in PACT.

3. Compensation

Current annual salaries of the top three PACT executives are as follows. All Board of Directors serve as unpaid volunteers.

•	President and Chief Executive Officer	\$214,788
•	Chief Administrative Officer	\$140,760
•	Chief Fund Development Officer	\$140,760

VII. Other

1. Litigation

PACT was notified in August 2021 of a complaint filed with the First Circuit Court regarding a former employee.

2. Licensure or Accreditation

PACT is fully accredited by the Council on Accreditation for Families and Children.

3. Private Educational Institutions

This grant will not be used to support or benefit sectarian or non-sectarian private educational institutions.

4. Future Sustainability Plan

PACT understands the limited nature of government funding. Should PACT be awarded a grant-in-aid for this initiative for fiscal year 2023, but not thereafter, PACT will seek continued support for the program from local and national foundations and county and federal sources. PACT has had a long-term presence in both the Kuhio Park Terrace and Puuwai Momi housing communities identified in this proposal and is committed to remaining there to provide youth development services. To do this, PACT will document, monitor, and analyze its implementation of services during fiscal year 2023 and identify programmatic areas for improvement and areas that seem to be successful. PACT will use the baseline data to improve on the program design of the initiative, use the data to include in grant applications and proposals to prospective funders, and to develop an educational piece to present to prospective service provider partners, businesses, and policy champions.
