Report of the Task Force on North Road Management  
January 24, 2022

Submitted to the Honolulu City Council and the Hawaii State Legislature

The Director of the Department of Transportation Services (DTS) was designated to lead the task force on the management of North Road. Two meetings were held; the first being on October 28, 2021 and the second on December 6, 2021. A list of participants at each meeting is provided in the meeting minutes (Attachments A and B).

The first meeting involved an introduction of participants and gathering of information and concerns from community representatives. It was determined that the main area of concern was along the portion of North Road under the ownership of the Ewa Beach Golf Course (Attachment C). The main concerns included:

- Safety of residents walking/biking along the roadway (lack of sidewalks).
- Lack of street lighting.
- Illegal dumping of household appliances, abandoned vehicles, and various parts.

It was noted by Representative McDermott that the golf course would like to transfer the ownership of the private portion of North Road to the City or State, as long as they could maintain their easement for their use. DTS Director Morton and the Department of Facility Maintenance Director Roger Babcock advised that the City would not accept ownership unless the roadway was brought up to City standards. This policy applies to the other 800 miles of private roads which exist island-wide.

At the second meeting held on December 6, 2021, DTS presented proposed traffic improvements along North Road in the area of the school complex which includes Pohakea Elementary School and James Campbell High School. The proposed improvements included the installation of three raised crosswalks (also known as "speed tables") at Kulana Place, fronting Ewa Beach Public Library, and at Kilaha Place (Attachment D). In the interim, the DTS has issued a work order to maintain various signs in the area, including school warning signs along North Road. Councilmember Tulba has included funds for "North Road Improvements" in the FY22 Capital Improvements Program (CIP) budget, which could be used to fund the proposed improvements.

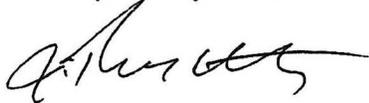

Report of the Task Force on North Road Management  
January 24, 2022

The task force developed the following recommendations:

- Request that the City's Administration release the CIP funds for the proposed traffic improvements along North Road which includes the installation of three raised crosswalks.
- Install "No Dumping" signage along the golf course portion of the roadway (to be done by golf course). Task force members to work together to obtain community support and assistance with future cleanups along the golf course portion of roadway.
- Request that the Honolulu Police Department and the Navy monitor the City and Navy portions of North Road for speeding.

The DTS wishes to thank legislative and community leaders, as well as Councilmember Tulba for their participation and insight which have resulted in our recommendations and interim measures to mitigate safety concerns along North Road. Should you have any questions, please contact me at 768-8303 or email [roger.morton@honolulu.gov](mailto:roger.morton@honolulu.gov).

Respectfully submitted on behalf of the Task Force,

**Not present at the meeting due to schedule conflict or connection issues:**

Liane Otake – Ewa Beach Golf Course

Capt. Anthony Pecoraro - U.S. Naval Commander, Joint Base Pearl Harbor-Hickam

**Top 3 concerns:**

1. Safety of residents walking, biking along the roadway. Would like to have a sidewalk installed.
2. Lack of lighting along the stretch of roadway near the Ewa Beach Golf Course makes that area hazardous to drive or walk.
3. Illegal dumping of household appliances abandoned vehicles and their various parts i.e., engine blocks.

These concerns were mentioned by Kathy Mara, Christine Carpio agreed with the items these are the most important issues. HPD asked if there was signage in the area, to help them enforce current laws for dumping. The area in question with the most issues is under the ownership of the Ewa Beach Golf Course. That stretch is out of HDOT and City jurisdiction.

Rep. McDermott mentioned that the Golf Course would like to transfer ownership of the road over to the State or City as long as they can maintain their easement under the road for their use (golf carts). Director Morton and Director Babcock advised that the City will not accept ownership until the road is brought up to City standards. The City can do small maintenance items to the road such as patching of pot holes, but cannot install sidewalks, lighting or signage.

We need to have the Ewa Beach Golf Course and Navy participate in the meetings to make some headway on these issues.

Director Morton will send a letter to both parties and ask them to meet with DTS before the next meeting.

**Suggested improvements along Ewa Beach Golf Course roadway:**

Install sidewalk

Install lighting

Install signage regarding dumping

**Next Steps:**

Councilmember Tulba asked for a cost estimate to install sidewalks, lighting, etc.

Director Morton suggest to have the next meeting on December 6, 2021.
