# A BILL FOR AN ACT

---

RELATING TO THE DEPARTMENT OF THE ATTORNEY GENERAL.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1       SECTION 1. The legislature finds that in rural areas, such  
2 as Molokai, a remote island with a population of about seven  
3 thousand people, many state departments do not have full time  
4 employees dedicated to enforcement activities available.  
5 Therefore, when a complaint is made, the state departments do  
6 not have staff physically present to address the situation;  
7 instead, many times a state department has to rely on still  
8 photos and videos that may not capture the full extent of the  
9 situation or be sufficient to support the issuance of a  
10 citation. State departments must then make a determination  
11 whether to send a staff member into the field after the fact to  
12 conduct an investigation, which can take weeks to schedule  
13 depending upon flight schedules or staff availability. The  
14 delay obviously hampers the ability of any government inspector  
15 to witness the violation and issue an enforceable citation.  
16 These limitations lead to delays in stopping environmentally

1 hazardous activities, that impact the health and safety of the  
2 residents of Molokai.

3       The legislature further finds that a multi-departmental  
4 investigative hotline may give residents a way to report  
5 concerns and violations to someone in a remote location who is  
6 familiar with the local landmarks and regions, as not all  
7 locations in rural areas such as Molokai have physical addresses  
8 or cross-streets to identify exact locations. The assignment of  
9 a trained investigator to rural areas who can communicate  
10 directly with state departments and utilize the resources of the  
11 office of the attorney general may address these situations in a  
12 timely manner and save state departments the unpredictable costs  
13 of travel and other related expenses.

14       The purpose of the Act is to establish and fund:

- 15       (1) An environmental investigative hotline pilot project  
16           through the department of the attorney general,  
17           investigations division, that shall implement and  
18           manage an investigative hotline for Molokai residents  
19           to report environmental concerns on Molokai; and  
20       (2) One full time investigator on the island of Molokai to  
21           investigate environmental concerns.

1           SECTION 2. There is established the environmental  
2     investigative hotline pilot project. The department of the  
3     attorney general, investigations division, shall implement and  
4     manage the pilot project for Molokai residents to report  
5     environmental violations and concerns on Molokai.

6           SECTION 3. The department of the attorney general,  
7     investigations division, shall submit a report of its findings  
8     and recommendations relating to the environmental investigative  
9     hotline pilot project, including any proposed legislation, to  
10    the legislature no later than twenty days prior to the convening  
11    of the regular session of 2023.

12          SECTION 4. There is appropriated out of the general  
13    revenues of the State of Hawaii the sum of \$                or so  
14    much thereof as may be necessary for fiscal year 2022-2023 for  
15    the implementation and management of the environmental  
16    investigative hotline pilot project.

17          The sum appropriated shall be expended by the department of  
18    the attorney general, investigations division, for the purposes  
19    of this Act.

20          SECTION 5. There is appropriated out of the general  
21    revenues of the State of Hawaii the sum of \$                or so

1 much thereof as may be necessary for fiscal year 2022-2023 for  
2 one full time equivalent (1.0 FTE) investigator position on  
3 Molokai to investigate potential environmental concerns reported  
4 through the environmental investigative hotline pilot project.

5 The sum appropriated shall be expended by the department of  
6 the attorney general, investigations division, for the purposes  
7 of this Act.

8 SECTION 6. This Act shall take effect on July 1, 2022.

9  
INTRODUCED BY:

Lynn D. Crite

# S.B. NO. 2618

**Report Title:**

Investigative; Hotline; Molokai; Environment; Pilot Project; Appropriation

**Description:**

Establish and funds an environmental investigative hotline pilot project through the Department of the Attorney General, Investigations Division, that will implement and manage an investigative hotline for Molokai residents to report environmental concerns on Molokai and have one full time investigator on the island of Molokai to investigate environmental concerns.
