# A BILL FOR AN ACT

RELATING TO AMBULANCE SERVICES.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that the Makalei fire  
2 station was established in 2013 to serve the fast-growing  
3 population in north Kona on Hawai'i island. The steep increase  
4 in population has corresponded with a steady increase in calls  
5 for emergency medical services, which existing first responders  
6 have been able to respond to in eight to thirty minutes,  
7 depending on availability.

8           The legislature further finds that for residents of  
9 Makalei, the closest primary care services and facilities are  
10 thirty miles away. In addition to economic and transportation  
11 challenges, emergency medical services have become the main  
12 delivery method and access to health care for residents in  
13 rural, isolated communities. Due to the lack of resources, it  
14 is a common practice for paramedics to respond to ten or more  
15 calls for emergency medical transportation during a twenty-four-  
16 hour shift. A timely response to a 911 call is critical to

1 reduce death and disability among residents and visitors on  
2 Hawai'i island.

3       The legislature further finds that in recent years,  
4 legislative efforts such as Senate Bill No. 877 (2020) have  
5 requested funding to establish a life support ambulance in  
6 Makalei. However, past efforts have stalled due to concerns  
7 over an insufficient appropriation request and lack of staffing.  
8 The legislature finds that more information is necessary to  
9 determine the need and approximate cost to purchase one advanced  
10 life support ambulance to be based in Makalei, as well as  
11 related personnel costs for state-certified emergency medical  
12 services personnel.

13       Accordingly, the purpose of this Act is to require the  
14 department of health and county of Hawai'i to conduct a  
15 feasibility study for the implementation of an ambulance service  
16 for the town of Makalei, county of Hawai'i.

17       SECTION 2. The department of health and the county of  
18 Hawaii shall conduct a feasibility study for the implementation  
19 of an ambulance service for the town of Makalei in the county of  
20 Hawaii. The feasibility shall include a recommendation to most  
21 efficiently provide ambulance service for the town of Makalei.

# S.B. NO. 2915

1           The feasibility study shall be submitted to the governor  
2 and legislature no later than twenty days prior to the convening  
3 of the regular session of 2023.

4           SECTION 3. This Act shall take effect upon its approval.

5

INTRODUCED BY: \_\_\_\_\_

# S.B. NO. 2915

**Report Title:**

Ambulance Services; Hawaii County; Department of Health;  
Feasibility Study

**Description:**

Requires the department of health and county of Hawaii to  
conduct a feasibility study for the implementation of an  
ambulance service for the town of Makalei in Hawaii County.
