A BILL FOR AN ACT

RELATING TO THE ECONOMY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that, in light of the
2 State's ongoing recovery from the coronavirus disease 2019
3 pandemic, the State must improve its economic coordination and
4 focus its efforts to meet specific state goals in the areas of
5 economic disaster mitigation, economic diversification, import
6 substitution, and community development.

7 Accordingly, this Act is intended to help meet this need by
8 establishing a policy matrix that will ensure economic success
9 and meet the State's strategic economic diversification goals.
10 The legislature finds that the implementation of this matrix
11 will not require a significant additional investment in overhead
12 resources but will require funds for specific programs that are
13 identified collaboratively by the legislature and the department
14 of business, economic development, and tourism. The
15 implementation will also require the establishment of specific
16 goals and reports to the legislature that assess the
17 effectiveness of the projects in meeting those goals.

1 The legislature finds that through this Act, the department
2 of business, economic development, and tourism will serve as a
3 facilitative catalyst for the State, the counties, businesses,
4 investors, labor organizations, and communities and will help to
5 align the State with the emerging knowledge-based,
6 zero-emission, and digital global economy while putting Hawaii
7 on the path toward economic prosperity. Finally, the
8 legislature finds that this Act will serve as a model for the
9 creation and implementation of future public policy frameworks
10 for the State.
