
A BILL FOR AN ACT

RELATING TO PUBLIC LANDS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the State has a
2 fiduciary duty to manage state lands in the best interests of
3 the public by enhancing state revenues and promoting social,
4 environmental, and economic well-being of Hawaii's people. As
5 the majority landowner in East Hawaii, the State has an enormous
6 influence on the vision, economic development, and overall
7 success of the East Hawaii community.

8 The legislature further finds that, under existing laws,
9 many public land lessees face uncertain futures following
10 expiration of their leases. In 2021, twelve applications for
11 lease extensions have been submitted. However, only one such
12 extension has been finalized. Lessees are further constrained
13 by the lengthy process to achieve approval from the board of
14 land and natural resources to conduct small maintenance projects
15 or major renovations. Despite improvements made by lessees, the
16 board of land and natural resources continually issues new
17 terms, making guidelines for lease improvements ambiguous. As a

1 result, the infrastructure and facilities on public lands in
2 East Hawaii have been deteriorating in many locations.

3 Additionally, lessees also face difficulties in
4 renegotiating leases with the board of land and natural
5 resources. The lessees work tirelessly to improve and
6 revitalize the Kanoelehua industrial area for the benefit of
7 neighbors and the State alike. Since lessees are making
8 continuous improvements to the lands, negotiations should favor
9 lessees by utilizing current tax assessed values to ease
10 difficulties in the negotiation process.

11 The legislature also finds that the Banyan drive area on
12 the Waiakea peninsula in East Hawaii, Wailoa state park, Wailoa
13 estuary, and the commercial leases in the Kanoelehua industrial
14 area are currently facing this difficult economic challenge.
15 Due to the uncertainty regarding continued tenancy, despite East
16 Hawaii being the center of tourism for the island of Hawaii,
17 improvements have not been made and infrastructure has
18 deteriorated, leaving the region underutilized and in disrepair.
19 The legislature further finds that Hilo has the potential for
20 increased growth that can improve workforce and affordable
21 housing, parks and open space, public facilities, and

1 commercial, industrial, and hotel facilities, and a pilot
2 project in this area has the potential to revive public lands,
3 resulting in more tax revenue and community revitalization, and
4 be assessed to determine whether it can be replicated in other
5 areas of the State.

6 The purpose of this Act is to repeal requirements for
7 lessees to seek approval for lease extensions from the board of
8 land and natural resources and to require the department of land
9 and natural resources to utilize the current tax assessed value
10 for lease extensions.

11 SECTION 2. Section 171-192, Hawaii Revised Statutes, is
12 amended to read as follows:

13 "[+]§171-192[+] **Lease restrictions.** (a) The [~~board,~~
