

HOUSE COMMITTEE ON FINANCE

DEPARTMENT OF LAND AND NATURAL RESOURCES

Suzanne D. Case, Chairperson

EXECUTIVE BUDGET REQUEST FOR FISCAL BIENNIUM 2017-2019

January 11, 2017

A. Mission Statement

The Department of Land and Natural Resources' (DLNR) mission is to enhance, protect, conserve and manage Hawaii's unique and limited natural, cultural and historic resources held in public trust for current and future generations of the people of Hawai'i *nei*, and its visitors, in partnership with others from the public and private sectors.

DLNR works in partnership with federal, county, and other state agencies, as well as community groups, non-profit organizations and private landowners, to carry out its mission.

DLNR consists of 10 Divisions that are responsible for managing or overseeing:

- **Public Trust *Kuleana*:**
 - Stewardship of 1.3 million acres of Hawaii's public lands, the vast majority of which are in the conservation district
 - Oversight of 3 million acres of state ocean waters
 - Regulating 750 miles of coastline (the fourth largest in the country)
- **Forests:** Stewardship of Hawai'i's forests, watersheds and native ecosystems; invasive species control; endangered species protection; public fishing, hunting, and trails (DOFAW)
- **Marine:** Management of Hawai'i's fisheries and coral reefs (DAR)
- **Freshwater:** Oversight of all Hawai'i's fresh water resources in more than 376 streams and all ground water aquifers (CWRM)
- **Historic/Cultural:** Preservation of Hawai'i's historic and cultural sites and resources (SHPD)
- **Parks:** Hawai'i's 50 state parks on over 30,000 acres on five islands (SP)
- **Boat Harbors/Ocean Recreation:** Hawai'i's 21 small boat harbors, 54 boat launch ramps, 13 offshore mooring areas and dozens of ocean recreation management areas (DOBOR)
- **Conservation Regulation:** Regulating 3 million acres of public and private land in the Conservation District and public coastlines and beaches (OCCL)
- **Conveyance Records:** Recording, maintaining and preserving all land title related documents in the state (BOC)
- **Engineering:** Regulation of dams and reservoirs; rockfall mitigation on public lands (ENG)
- **Public Lands:** Leasing and permitting of state commercial, agricultural, forest products and public use lands not under the jurisdiction of other agencies (LAND)
- **Enforcement:** Enforcement of state natural resource rules and regulations on land and water (DOCARE)

- **Administratively attached programs:** Support for programs administratively attached to DLNR:
 - Kahoolawe Island Reserve Commission
 - Aha Moku Advisory Council

The Department seeks to implement Governor Ige's *Sustainable Hawai'i Initiative* in the context of broader Aloha+ Challenge initiatives to conserve and manage Hawaii's valued natural resources. The Sustainable Hawai'i Initiative commits us to:

- **Protecting 30% (253,000 acres) of Hawai'i's highest priority watershed forests by 2030** (lead agency DLNR)
Today, we are halfway to our goal, with 15% of our priority watersheds protected through fencing projects done in collaboration with our community-based Watershed Partnerships. To reach 30%, continued funding is needed annually to control damaging invasive species and diseases, plant trees, prevent wildfires, and educate the community about the importance of our forests.
- **Effectively manage 30% of our nearshore ocean waters by 2030** (lead agency DLNR)
Hawai'i's near-shore reef fish have declined dramatically in the past century, and our corals and fisheries are significantly threatened by ocean warming, sediment and pollution, and unsustainable fishing practices. Effective management of 30% of our nearshore ocean waters will require statewide planning and monitoring, prioritization and implementation of updated management strategies and regulations, collaboration with communities and stakeholders, and focused marine enforcement.
- **Implement Hawai'i's Interagency Biosecurity Plan by 2027** (lead agencies DoA and DLNR)
Through a quarantine on 'ōhi'a products, we have been able to prevent the spread of Rapid 'Ōhi'a Death across the state, and are working to monitor and contain the disease on Hawai'i Island. We've made progress controlling little fire ants, coconut rhinoceros beetle, and outbreaks of diseases like dengue fever. However, invasive species still have devastating impacts on our economy, environment, and way of life.
- **Double local food production by 2020** (Lead agency DoA)
- **Achieve 100% renewable energy in electricity by 2045** (Lead agency DBEDT)

B. Discuss how current state-wide conditions have affected DLNR Division operations and ability to meet goals. Identify and discuss notable measures, expected outcomes, and recent results.

IUCN World Conservation Congress, September 2016:

The State of Hawai‘i, through DLNR as lead agency, hosted in September the 2016 International Union for Conservation of Nature’s World Conservation Congress in Honolulu. It was a huge success – in the words of IUCN, “*the most successful Congress in IUCN’s history.*” Key highlights include:

- Over 10,000 participants from 192 countries, the largest ever
- The Hawai‘i-Pacific Pavilion hosted nearly 50 events on conservation and culture
- Three weeks of daily media coverage on conservation issues in Hawai‘i
- A thousand Hawai‘i students from 40 schools attended
- A peaceful Congress with situation-free collaborative enforcement
- Under budget

Rapid ‘Ōhi‘a Death

The Rapid ‘Ōhi‘a Death fungal pathogens and mechanisms for spreading have been identified and better understood. 2016 Rapid ‘Ōhi‘a Death response included multi-stakeholder planning, research, monitoring, containment, and outreach. A three-year Strategic Response Plan was completed and vetted at the November 2016 Rapid ‘Ōhi‘a Death Summit and monthly ROD Working Group meetings. Aerial surveys are monitoring the continued spread of Rapid ‘Ōhi‘a Death on Hawai‘i Island, and early detection and rapid response teams are piloting containment trials on infected trees in forested areas.

Coral Bleaching

A second year of severe coral bleaching worldwide due to warmer ocean temperatures severely impacted Hawai‘i’s reefs, particularly in the southeastern portion of the islands, resulting in up to 90% mortality in some areas. DLNR conducted a survey of global coral bleaching experts and hosted a workshop to identify best strategies for coral bleaching recovery by improving reef resiliency, such as recovering depleted herbivore reef fish through updated regulation, reducing land-based sources of sediment and nutrients, and focused marine enforcement efforts.

Continuing Stressors

Social media promotion of closed and often unsafe areas, homelessness in state parks and other public lands, resident and tourism population increases, floods, global climate change and other stressors continue to increase pressure on Hawai‘i’s iconic natural and cultural resources and resulting management challenges.

Reports by Program ID:

LAND (LNR 101)

The Land Division administers the Special Land and Development Fund (SLDF). In the fiscal year ending June 30, 2016, the Land Division generated about \$12.3 million in revenues for the SLDF, and expended about \$6.6 million, with encumbrances of another \$3.3 million dollars. The Land Division transferred another \$4.2 million dollars to divisions and programs within the Department. The Land Division also generated about \$4.8 million in **Public Land Trust revenues** of which \$2.1 million was paid to OHA, and \$2.7 deposited into the public land trust account.

In the fiscal year ending on June 30, 2016, the Land Division issued **40 dispositions** involving permits, leases, easements and set asides to other federal, state and county agencies. The Land Division also assisted in the closing of the historic Turtle Bay acquisition.

In FY16, the Land Division with other DLNR divisions conducted a review and overhaul of the revocable permit system through the **Revocable Permit Task Force**. As a result, a number of revocable permits are transitioning to long-term disposition via public auction lease, appraised values have been updated, and reasons for continuing disposition via RP for greater than one year have been clarified via publicly accessible review.

Legacy Land Conservation Program (LLCP) LNR 101

In FY16, the **Legacy Land Conservation** Program, supported by the Land Conservation Fund, completed the multi-step vetting, public comment, and Board of Land and Natural Resources approval processes to award funding to four land acquisition projects that are expected to protect 7,500 acres of land having significant natural and cultural resource value to Hawai'i. The LLCP also provided for payment of debt service on the Turtle Bay reimbursable general obligation bonds. In FY17, the LLCP received five applications for acquisition projects, totaling 5,235 more acres of land, along with an application for further payment of debt service on the Turtle Bay reimbursable general obligation bonds.

Recently completed Legacy Land Conservation transactions at Kuamo'o (North Kona, Hawai'i), Kaiholena South (North Kohala, Hawai'i), Turtle Bay Mauka (Ko'olaupia, O'ahu), Kalauao ('Ewa, O'ahu), and Kahuku (Ka'u, Hawai'i) resulted in the protection of 4,314 acres for public purposes that include the preservation of: watershed protection; coastal areas, beaches, and ocean access; habitat protection; cultural and historical sites; recreational areas; natural areas; agricultural production; and open spaces and scenic resources. About fifteen additional Legacy Land Conservation Program transactions are expected to close by the end of FY19, along with ongoing payment of debt service on the Turtle Bay reimbursable general obligation bonds.

Office of Conservation and Coastal Lands (OCCL) LNR101

The mission and goal of the Office of Conservation and Coastal Lands is to protect and conserve **conservation district lands and beaches** within the State of Hawai'i for the benefit of present and future generations, pursuant to Article XI, Section 1, of the Hawai'i State Constitution. These lands encompass our State's terrestrial and marine environments, with special emphasis on coastal areas and beaches. The regulatory functions of OCCL commonly intersect with federal regulatory efforts involving State submerged land and County authorities, where conservation district lands and special management areas intersect. In fact, OCCL should be viewed a planning department with

functions and responsibilities similar to the County Planning Departments, but with a much larger geographic scope. The Office of Conservation and Coastal Lands is administratively attached to the Office of the Chairperson.

OCCL oversees and regulates uses on private and public lands in the conservation district:

- Enforce land use laws in the State land use conservation district - 2 million acres of public and private conservation lands
- Oversee 750 miles of general coastline - 43rd in land area - 4th longest general coasts
- Regulate beach and marine lands out to the seaward extent of the State's jurisdiction.
- Facilitate and manage beach restoration projects in Hawai'i
- Coordinate the State Interagency Climate Adaptation Committee (ICAC) and the State Sea Level Rise Vulnerability and Adaptation Report

OCCL is successful in effectively carrying out its functions because it is continually evaluating and streamlining the way it operates. One example of this is the Loko I'a Project in which OCCL developed a process with the Army Corps of Engineers and other federal and state agencies to streamline the permitting process for the restoration and repair of **Hawaiian fishponds**. In 2015, the State Legislature passed legislation to streamline the permit process for the revitalization of Hawaiian fishponds. In 2016, OCCL completed and launched the Permit Application Guidebook to help cultural practitioners, landowners and community groups navigate a new streamlined application process for Hawaiian fishpond revitalization.

Another critical effort by OCCL is the implementation of the **Hawai'i Climate Adaptation Initiative Act** (Act 83, 2014). The purpose of Act 83 is to address the effects of climate change to protect the State's economy, health, environment, and way of life. Act 83 addresses climate change adaptation by establishing an Interagency Climate Adaptation Committee (ICAC) under DLNR to develop a **Sea Level Rise Vulnerability and Adaptation Report** (SLR Report) that addresses sea level rise impacts statewide. DLNR and the Hawai'i Office of Planning (OP) share responsibility for coordinating the ICAC, which will be administratively located within DLNR. The project is proceeding on schedule. A consultant has been contracted and the ICAC has met on two occasions. OCCL is hosting a second Sea Level Rise Vulnerability and Adaptation Workshop in January 2017 to improve public outreach and public participation in Hawai'i climate initiatives.

OCCL is engaged in major **beach management and restoration** efforts Statewide. Under a prior appropriation, an environmental impact statement (EIS) has been initiated to restore sand at Ka'anapali Beach. OCCL completed a draft environmental assessment (DEA) to replace the Royal Hawaiian Groin at Waikiki Beach, and Transient Accommodation Tax funds were appropriated to initiate a major project to conduct beach improvements at Waikiki Beach. Under a prior appropriation, OCCL is developing a Feasibility Study and an Environmental Impact Statement for beach improvements at Waikiki.

Bureau of Conveyances (BOC) LNR111

The Bureau of Conveyances maintains the **permanent public record of all land transactions** in Hawai'i in the Regular Recording System and in the Land Court.

The BOC's daily operations, revenues and expenses are directly impacted by the volume of recordings and conveyances which is largely dependent upon real estate market conditions and the overall health of the Hawai'i and national economy.

BOC has recorded an annual average of 325,000 documents in the past three fiscal years, a decrease of approximately 22,000 documents from the previous three fiscal years. This can be attributed to the changes in real estate market activities and the timing of recent condominium project completions. BOC's activity is projected to maintain the same pace in FY2018, based upon the first five months' activity, though recent higher interest rates may reduce the number of land sale and financing transactions.

Revenues from document recording fees, certified copies and miscellaneous user fees totaled \$4.045M in FY2016. These revenues did not cover operating expenses. For FY2017, the Bureau of Conveyances is anticipating a sufficient increase in revenues that will cover operating expenses based upon current activity projections coupled with the proposed recording fee increase requested in our updated Administrative Rule package proposed to become effective in the first quarter of 2017.

Division of Forestry and Wildlife (DOFAW) LNR 172, LNR 402, LNR 407, LNR 804

DOFAW directly manages one million acres - a quarter of all the land in Hawai'i - designated as Forest Reserves, Wildlife Sanctuaries, Natural Area Reserves, Public Hunting Areas, Na Ala Hele Program Trails, and habitat for the greatest concentration of endangered species in the United States. Collaborative partnerships assist in managing another one million acres of federal and private forests that protect Hawaii's priceless natural and cultural resources for current and future generations.

Fundamental to maintaining DOFAW's core mandate is to ensure continuation of **base budget support** at current levels. In the 2015 session, the legislature directed a significant shift in funding sources for DOFAW from special funds to general funds in the form of Act 84 which provided two years of bridge general funding. DLNR seeks to establish that funding in the base budget to maintain both personnel and operations at current and recent levels.

DOFAW's top priority is water, and recent support by the Legislature has enabled the Division to increase the effective protection of our water source. In the last five years, an additional 5% of Hawaii's priority watershed forests have been protected through fencing projects done in collaboration with Watershed Partnerships. The Governor's Sustainable Hawai'i Initiative pledges to protect 30% of watershed forests by 2030. Today, we are halfway to our goal, with 15% of our priority watersheds protected. To reach 30%, continued annual funding is needed to control damaging invasive species and diseases, plant trees, prevent wildfires, and educate the community about the importance of our forests. These forests recharge freshwater supplies, reduce flooding, protect our coral reefs from erosion, and are home to culturally significant plants and animals found nowhere else. 66% of the forest lands in Hawai'i are privately owned, so the State and Private Forestry Program works to enroll landowners in programs that provide expertise to private landowners to assure that forest lands remain in forest.

Rapid 'Ōhi'a Death has emerged as a core threat to Hawai'i's forests. Rapid 'Ōhi'a Death fungus (*Ceratocystis*) has been identified as the pathogen spreading on Hawai'i Island and killing 'ōhi'a trees. *Ceratocystis* detection, response and control are vitally important to protecting the foundation of the Hawaiian native forest. Funding to date has been highly cost effective in identifying the

disease vector, its biology and means of spread, and possible control strategies, but continued effort is needed as the pathogen continues its spread to new areas of Hawai'i Island. The Rapid 'Ōhi'a Death Strategic Response Plan identifies actions and resources needed to accomplish this.

Another top Division priority is to manage wildland fire impacts to natural resources. Large wildland fire events are not part of natural Hawaiian landscapes, and fire's impact effects public health and safety through the wildland/urban interface; damages native ecosystems, laying the ground work for invasive species invasions; and damages watershed function, replacing forests that absorb water with grasslands that allow the water to run off. Recent investments in wildland fire infrastructure and fire suppression funding has allowed the division to be more effective in their fire-fighting efforts, and established infrastructure and capacity to manage large emergency management incidents such as floods and hurricanes.

Managing climate change impacts is a major focus, with anticipated impacts to all our work from watershed forests, extreme wildland fire behavior, invasive species invasions, and endangered species management. Planning is underway to develop contingencies for climate change adaptation scenarios including sea-level rise, longer drought periods with extreme rainfall events, and ecosystem health impacts. Support for adaptive management is needed to prevent endangered species impacts such as non-native mosquito control to eliminate endangered forest bird disease vectors. The Plant Extinction Program has successfully kept native plant species from going extinct under its watch, but reductions in Federal funding in the coming fiscal year may eliminate a majority of the program's funding. This important work needs support by the state and the Division of Forestry and Wildlife or we will again see plant species going extinct every year.

Forest and ecosystem health is a major challenge, exacerbated by climate change. Invasive species ecosystem threats such as the Rapid 'Ōhi'a Death fungus (*Ceratocystis*), miconia, coqui frogs, little fire ants, coconut rhinoceros beetle, and a host of aggressive potential invaders such as the brown tree snake and biting sand flies that can have devastating effects on our ecosystems, lifestyle and economy loom large. Recent investments in the Hawai'i Invasive Species Committee (HISC) has been a major contributor to the Division's ability to detect, contain and control new species introductions, but addition funds are needed to support the demand for invasive species projects.

The Hawai'i Biosecurity Plan provides a roadmap for minimizing the chances of introduction and spread of invasive species, and money invested in these programs is a fraction of the potential economic impact of not taking proactive measures.

Sustainable use of natural resources benefits all of Hawaii's people. Healthy forests = healthy people, and DOFAW's programs maintain over 800 miles of trails and roads that provide access for recreation, public hunting, education and resource management. The Division manages teacher training programs, gets students in the field for education and research projects, supports youth internships that provide pathways for green jobs, and provides numerous volunteer opportunities. The Governor's Sustainable Hawai'i Initiative includes goals of doubling food production and reaching 100% renewable energy production, both of which can be provided in part through forest management. An increase in urban and community forestry can provide agro-forestry opportunities to improve urban watershed function, beautify blighted areas, and produce food for local people. Forests can provide energy by producing biomass for energy production, and reduce energy needs

by reducing the urban heat-island effect and cooling schools through passive cooling via shade trees.

DOFAW is also working to align our resource management programs with values consistent with **native Hawaiian values** for the natural environment. Collaborations with Hawaiian practitioners provide natural resource, cultural and historical benefits, and reconnect Hawaiian people with their land.

Division of Aquatic Resources (DAR) LNR153, LNR401, LNR805

DAR has gathered dozens of marine conservation experts together in workshops analyzing the extensive coral bleaching in the past two years, and initiated comprehensive planning to identify strategies for coral bleaching recovery, fisheries restoration and effective management of Hawai'i's marine resources.

Although the State's fiscal climate continues to improve, DAR's commercial fisheries activities were impacted by a lawsuit that lowered all commercial marine license fees to \$50, thereby effectively reducing those annual revenues by 50%. DAR is in the process of increasing the license fee initially to \$100 and hopes this new fee level will be in effect by next fiscal year to limit any adverse impact to its commercial fisheries program. The economic recovery and temporary funding such as trust fund settlements has also made it possible to restore Division staff numbers to nearly pre-recession levels. However, operations continue to be impacted by an approximately half million dollar general fund cut in 2009.

Commission on Water Resource Management (CWRM) LNR404

CWRM works to protect and manage the State's public trust water resources for the benefit of present and future generations. The current level of resources has enabled the CWRM to meet the following performance measures:

- Improve water use reporting compliance statewide: 10% increase since 2008.
- Acquisition of better information for resource decision-making: updated the 1976 Rainfall **Atlas** of Hawai'i; completed the first statewide analysis of **evapotranspiration**; compiled a State **water conservation** plan; updated **recharge estimates** for O'ahu and Maui; resurveyed statewide **water reuse** and identified opportunities for and barriers to greater reuse.
- Increase education and community participation in water forums: conducted training on measuring diverted surface water flows for large irrigation systems; conducted training on water system auditing for public water systems; held statewide workshops to listen to community concerns and ideas regarding water resources and management.
- Consolidated databases and designed an integrated resource information system for ground water, surface water, regulation, and planning.

There is much more work to be done. Future activities and expected outcomes include resolving pending petitions and water disputes in East Maui, Na Wai 'Ehā (West Maui), Waimea (Kaua'i), Kualapu'u (Moloka'i), and Keauhou (West Hawai'i); completing the **estimation of low flow characteristics for ungaged streams statewide** (StreamStats) for core data for **instream flow standards and water allocation** decisions statewide; updating the Commission's Water Resource Protection Plan and other components of the Hawai'i Water Plan; examining the **water-energy** nexus in Hawai'i to further water conservation and increase renewable energy; updating the Hawai'i

Drought Plan; analyzing the current **hydrologic monitoring** network for gaps and redundancies; and drilling new **deep monitor wells** in aquifers threatened by existing or planned future withdrawals.

Division of Conservation and Resources Enforcement (DOCARE) LNR 405

DOCARE has primary responsibility for the **enforcement of laws created to manage, protect and conserve Hawaii's unique and limited, natural, cultural and historic resources**. DOCARE is responsible for patrolling and monitoring 1.2 million acres of state owned lands, or nearly one quarter of the state, including over 1 million acres accessible for hunting; 3 million acres of marine waters; 2 million acres of conservation lands; and 23,000 acres of inland surface waters. Throughout the State, DOCARE officers are required to serve a resident population of approximately 1.4 million and approximately 8 million visitors that utilize Hawaii's natural resources on a regular basis.

DOCARE seeks to implement enforcement measures to achieve effective management of marine areas statewide. **Marine enforcement units** such as the community fisheries enforcement units can achieve significant increases in fisheries law compliance and community and stakeholder engagement.

General funds were provided in the past for **core expenses** such as fuel costs, utilities, overtime and equipment purchases to support the Division's wide ranging mission and response to contingencies such as natural disasters and extended law enforcement operations. These were eliminated during the recent economic slowdown and have not been reinstated, challenging the equipping and operations of officers.

DOCARE's **additional law enforcement responsibilities** dealing with issues such as the Thirty Millimeter Telescope (TMT) at Mauna Kea, as well as with its role as a State Law Enforcement Agency responsible for providing public safety at major events such as the IUCN World Conservation Congress, have taxed the Division's available resources.

Current economic and fiscal conditions have required DOCARE to increase its reliance on **federal funding** from the NOAA Joint Enforcement Agreement (JEA) and Recreational Boating Safety (RBS) funding through the Division of Boating and Ocean Recreation, to fund overtime and essential equipment purchases. However, the NOAA JEA funds are restricted to support federal aquatic resource enforcement concerns such as endangered species, bottom fishing, long line fishing and the Hawai'i Humpback Whale National Marine Sanctuary only. Likewise, the Recreational Boating Safety Grant funding is restrictive to support enforcement activities relevant to boating safety; thus, both sources of funds cannot be used to supplant the shortage of our general funds.

Division of Boating and Ocean Recreation (DOBOR) LNR801

DOBOR is responsible for maintaining Hawai'i's small boat harbors and boat ramps and other ocean use facilities. DOBOR seeks to provide safe and enjoyable opportunities and facilities for ocean-based outdoor activities such as boating of all types, salt water fishing, surfing, sailboarding and diving, and ocean swimming, for visitors and residents alike.

DOBOR's operating budget derives from user fees. DOBOR relies on Capital Improvement Project (CIP) funding to keep pace with public health and safety and use needs from its extensive inventory

of **aging harbor facilities**. The current construction boom has caused the price of labor and materials to increase. This has raised the cost of repair and maintenance and capital improvement projects.

State Historic Preservation Division (SHPD) LNR 802

In FY16, expansion in the local construction sector continued but at a slower rate. As a result, fee revenue decreased from \$75,683.59 in FY15 compared to \$73,827 in FY16 due to a reduction in the number of project submittals and permits submitted to SHPD review and comment. Transportation and development projects in the public and private sectors rely on **timely processing of historical preservation reviews**. Several positions such as archaeologists have been difficult to hire due to limited supply and market competition, slowing reviews. Impacts to historical and cultural resources have increased from threats such as social media drawing inappropriate access to sensitive sites, and sea level rise threatening coastal cultural resources.

Division of State Parks (DSP) LNR 806

Due to changes in tenants and income production, DSP's income remained stable rather than increasing as initially anticipated in FY2016. A natural event such as the September 2016 flood and associated damage at Iao Valley State Monument on Maui immediately eliminated an average of \$350,000 in annual revenue generated by out of state visitor and commercial bus parking fees due to an extended closure of the State Monument. However, additional revenue generation statewide is anticipated following filling of property management positions.

The proliferation of homeless in state parks has increased DSP's costs for impacts to comfort stations and rubbish and waste disposal actions.

The continued robust tourism in Hawai'i regularly places increased burdens on popular DSP facilities and infrastructure statewide, and makes it more challenging for DSP to sustain a statewide quality level of service and maintenance at high visitation parks. Significant impacts to park sites are resulting from higher visitor numbers, and in some locations by illegal public use and commercial interests. Social media, both commercial and non-commercial, is leading to an increased use of both authorized and unauthorized locations. State Parks targets increased on-site staff and enforcement as a future solution.

DSP funds the additional 60% fringe benefit cost of the salary for its Special funded positions, and this has reduced discretionary operating funds that have been generated by our revenue enhancement efforts over the past six years.

Kaho'olawe Island Reserve Commission (KIRC) LNR 906

The previous biennium statewide budget constraints required that KIRC make significant budget cuts to continue their existence. This included a reduction in personnel and a cutback in operational time on Kaho'olawe. The passage of Act 84, SLH2015 allowed KIRC to continue for the biennium with significant achievements on reduced staff and funding.

Aha Moku Advisory Committee (AMAC) LNR 906

Aha Moku continues to mature as a program to advise DLNR on issues related to land and natural and cultural management through local indigenous knowledge and input. Lack of core funding for program coordination limits the program's long-term stability.

C. Federal Grants: Identify programs that have lost or are at risk of losing federal grants and provide the following:

- **Federal Award Title:**
- **CFDA Number:**
- **Discuss impact to the public and your planned response, including efforts to supplant any federal fund reductions for the current year (FY16) and upcoming year (FY17) with other funds.**

Legacy Land Conservation Program (LLCP)

Federal competitive grants for land acquisition can provide up to 75 percent of the cost of a LLCP acquisition project, including advance funding for appraisal and other real property due diligence. Federal Award programs utilized include:

- Coastal Wetlands Planning, Protection and Restoration, CFDA 15.614
- Section 6 Cooperative Endangered Species Fund, CFDA 15.615 (Recovery Land Acquisition and Habitat Conservation Plan Land Acquisition)
- National Wetlands Conservation, CFDA 15.623

Potential reductions in federal funding would make the federal grant programs more competitive, and could result in fewer federal awards and less federal funding for acquiring protected areas in Hawai'i. LLCP applications that utilize federal grants for matching funds could become less competitive due to weaker financial leverage. Given the limited funding and heavy competition for LLCP awards, it would be extremely challenging to supplant federal funds with increased funding from other sources that already provide substantial non-federal cost shares, including State CIP, State Land Conservation Fund, and funds arising from partnerships with private landowners, counties, and local land trusts.

Division of Aquatic Resources (DAR)

DAR is concerned about the future status of various federal funded grant projects involving the monitoring and managing of the State's coral reefs, endangered species work, and other activities which may be impacted by the federal administration change reducing federal funds that help support nearly 70% of our staff. DAR is considering increasing user fees and seeking private partnership funding for core DAR priorities under DAR direction to help offset these potential federal reductions.

Division of Forestry and Wildlife (DOFAW)

DOFAW has received multiple federal awards from the U.S. Forest Service and U.S. Fish and Wildlife Service that have significantly declined in amount in the last 5 years.

- Federal Award: Section 6 Cooperative Endangered Species Fund
- CDFA: 15.615
- Impacts: The Section 6 money comes from an annual appropriation from Congress. These include both traditional funds, which are split amongst regions and state nominally based on the

number of endangered species that they have, and competitive funds, which come through three different grant programs: Recovery Land Acquisition, HCP Planning, and HCP Land Acquisition. This fund has roughly halved since FY10 (\$90 million to approximately \$45-55 million annual appropriation).

Section 6 funds go toward the Kaua'i Forest Bird Recovery Project, Alalā Reintroduction Project, the captive breeding centers at Olinda and Volcano, Snail Extinction Prevention Program, Hawai'i Invertebrate Program, Rare Plant Facilities, and the Plant Extinction Prevention Program. There is limited capacity for the State to replace these lost discretionary funds without requesting more general funding from the Legislature. We are already contributing our limited general funds to the basic operations of these projects to match the Section 6 funding. The result of these reduced funds will be reduced capacity to manage rare plants, invertebrates, and the critically endangered forest birds on Kaua'i, as we will likely have to scale back or end the egg harvesting project. And since we cannot release the current captive bird population of any of our species without a release program, the maintenance of the operation of the Maui and Keauhou Bird Conservation Centers must take precedence.

Additionally, the U.S. Fish and Wildlife Service funds from the Pacific Islands Fish and Wildlife Office (not associated with a specific Federal Award number) are the most in danger of being lost in the next fiscal year. These funds are the main supporter of the Plant Extinction Prevention Program, the Snail Extinction Prevention Program, as well as sent directly to the San Diego Zoo for the captive bird facility.

In addition, the Forest Services' Forest Health funds have been reduced due to "fire borrowing" to pay for the increasing cost of wildland fires on the mainland. DOFAW expects these reductions to also continue into the near future.

State Historic Preservation Division (SHPD)

- Federal Award Title: Historic Preservation Fund Grants-In-Aid
- CFDA Number: 15.904
- Discuss impact to the public and your planned response, including efforts to supplant any federal fund reductions for the current year (FY16) and upcoming year (FY17) with other funds.

SHPD takes full responsibility for its activities and is working hard to demonstrate its capacity to carry out the federally-mandated functions of a State Historic Preservation Office under the National Park Service (NPS), Corrective Action Plan II (CAP II). It has worked at meeting its obligations under the National Historic Preservation Act (NHPA) in order to avoid the loss of grant funds and the removal of Hawaii's approved program status that would negatively impact the economy of the State. As a result, SHPD continues to work on fulfilling the last element of the NPS Corrective Action Plans II, by seeking the funding to support the next phase of the development and installation of a new Integrated Information Management System (IIMS) from the 2017 legislature. The completion and installation of the new IIMS will allow NPS to release the Division from the "high risk" status and supplant any federal fund reductions in FY17, FY18 and FY19.

D. Explain the process used to develop DLNR's budget and prioritize request for budget changes.

DLNR prioritizes projects and programs based on public safety, compliance, and public trust resource protection. Implementation of the *Sustainable Hawai'i Initiative* is the core focus for DLNR's forest, marine and invasive species work, as well as DLNR support for local food production and renewable energy.

Under that framework, each DLNR division undergoes its own budget review and prioritization in accordance with statutory mandates that guide its vision, mission, goals and objectives to manage resources for the benefit of the public and to protect the resources and the public. Implementation plans are also established which outline short-term benchmarks and deliverables towards long-term targets.

These results are combined into an overall DLNR budget review and prioritization. The programs consider the major initiatives in progress and planned for upcoming budget cycles and prepare requests for operational and capital funding to support the initiation and/or sustenance of those initiatives and core programs.

Requests are prioritized by considering the scope of potential impacts in serving the citizens of the State of Hawai'i and what potential risks and delays may result in not receiving funds by certain time periods and what alternatives are available.

For revenue generating divisions, management teams review expected revenues and needs to establish a sustainable base budget for operations. They assess needs for special fund ceiling requests. Priorities are established to meet minimum standards of operation, including salaries and the fringe benefit assessment, IT system and hardware maintenance and replacement, and preservation of records expenses.

E. Identify and discuss significant adjustments contained in the budget request submitted to the Legislature. Explain and quantify how significant request for additional funds are expected to affect outcomes.

All DLNR divisions utilizing special funds and federal funds with ceilings request **ceiling increases** to cover the cost of raising the **fringe benefit assessment rate** to 60%.

LAND (LNR 101)

Land Division requests an additional (new) **Land Agent IV** (civil service, SR 22) position for the **Maui** District Land Office.

Land Division also requests an increase in the **Special Land and Development Fund ceiling by \$500,000** to address increased costs for **property management, land maintenance and appraisal services**.

Legacy Land Conservation Program (LLCP) LNR 101

For FY18, the Department requests a **one-time increase of \$2,228,250 to the LLCP spending ceiling** imposed on the Land Conservation Fund. This one-time increase is needed to restore a

blanket encumbrance for FY15 expenditures that lapsed in FY16 during a period of multiple staff vacancies. Restoration of this funding will allow the completion of transactions approved for FY15 and FY17 applicants that would routinely be completed under normal LLCP allotments.

For FY18 and FY19, the Department requests an **additional increase of \$1.7 million to the LLCP spending ceiling** imposed on the Land Conservation Fund to reinstitute historic levels of funding available for new land acquisition projects and bring an additional \$3.5 million of non-State match. Act 84, SLH 2015 capped the annual transfer of conveyance tax revenues to the Land Conservation Fund at \$6.8 million, or 10% of the revenues, whichever is less. Revenues reached over \$6.7 million in FY16 and are on track to exceed \$6.8 million in FY17, while applications for FY17 LLCP funding totaled \$8.1 million.

Office of Conservation and Coastal Lands (OCCL)

OCCL requests funding for the **Ka'anapali Beach Dune and Beach Enhancement** Project: The OCCL in partnership with the Ka'anapali Operations Association (KOA) is planning to restore and enhance the beach at Ka'anapali Maui to reduce or mitigate damage from erosion, and to increase the available recreational beach. Beach restoration involves restoring the beach by returning 35 feet of beach width along 3,200 feet of shoreline fronting the Marriott and Hyatt resorts, which would require dredging approximately 75,000 cubic yards of sand. The project involves the use of General Funds, Beach Restoration Special Funds, Trust Funds, and Private Funds. The total request from all funding sources is \$9.3 million.

Bureau of Conveyances (BOC) LNR111

BOC requests **\$500,000 in FY18 and FY19** to continue efforts with the **digitization, preservation and access to public land records**, to improve and preserve the physical records and facility as a business/cultural resource and to implement plans that streamline the Land Court certification workflow. This will increase accessibility to these records and increase efficiencies by automating public access. The conversion, enhancement and automation of the digital images of BOC recorded documents will also allow for the delivery of its services for a fee to anyone who has web access. The net outcome of this funding to our general public, business and government customers will be the timely protection, preservation and accessibility of all land records that are vital to commerce and the economy of Hawai'i.

Division of Forestry and Wildlife (DOFAW) LNR 172, 402, 407 & 804

DOFAW requests **base budget funding for watershed and natural management** work approved and funded under **Act 84**, SLH 2015.

The Division is mandated to provide for watershed and natural resource protection via the authority of Chapter 183, 195, 195F and 195D HRS respectively. This authority contains provisions for funding, staffing, and reporting annually. Progress is gauged by standards of performance that are designed to ensure that the vision, mission, and goals of the watersheds and natural resources are protected and managed.

As a result of actions taken by the 2015 Legislature by way of Act 84, Session Laws of Hawai'i (SLH) 2015, to repeal the distribution of the Conveyance Tax revenues to the Natural Area Reserve Fund and the Forest Stewardship Fund, recurring expenditures, including personal services and project contract work previously paid from these special funds, were instead appropriated general

funds for Fiscal Biennium 2016-2017. In the Committee Report for House Bill 500, Conference Draft 1 (now Act 119, SLH 2015), the Committee on Conference requested that the Administration propose in the 2016 supplemental budget the inclusion of the general funds appropriated in Act 84. Upon receipt of the budget requests, the Committee on Conference affirmed that the Legislature then recommence funding the affected recurring expenditures as well as other funded items in Act 84 in the supplemental appropriations act and subsequent general and supplemental appropriation acts. In adherence to the above, DOFAW seeks to have the general fund appropriations as listed below from Act 84 made part of DLNR's base budget:

LNR 172 – Forest Reserve Management & Development - \$2,832,996
LNR 402 – Native Resources and Fire Protection Program - \$3,405,749
LNR 402 – Native Resources and Fire Protection Program - \$4,000,000
(Hawai'i Invasive Species Council)
LNR 407 - Natural Area Reserves and Management - \$7,556,128

DOFAW also requests **funding for the following priorities:**

- **Rapid 'Ōhi'a Death (\$1,000,000 LNR402; \$1,500,000 LNR407)**
Rapid 'Ōhi'a Death (ROD), caused by a fungus, is killing large areas of 'ōhi'a forest on Hawai'i Island. The Division is attempting to contain the disease, slow its spread and conduct early detection surveys statewide. The requested LNR 402 funds will support operations related to containing the pathogen, educating the public, surveying for the disease in new areas, and being prepared to respond when ROD is detected on other islands. The requested LNR 407 funds will support ROD response in Division lands that represent the most intact native ecosystems and species. These areas also protect watershed forests that increase Hawaii's freshwater supplies.
- **Hawai'i Invasive Species Committee Increase (\$500,000)**
Invasive species are an interagency crisis that requires unique, interagency collaborations. The HISC has received roughly \$10M in interagency project requests each year for FY16, FY17, and FY18. These are unique projects that fill gaps between existing agency mandates and programs. **Increasing operating funds to the HISC by \$500,000** will help address the critical backlog of interagency projects needed for effective invasive species mitigation. These funds will support projects including **Rapid 'Ōhi'a Death, little fire ant eradication, coconut rhinoceros beetle response, miconia control, albizia control, and many others.** Without additional funding, current invasive species problems will worsen, increasing future control costs as well as economic damages to agriculture, tourism, human health, and natural resources.
- **Watershed Forests (\$500,000)**
This request implements the State's goal to protect 30% of **priority watershed forests by 2030, including response to Rapid 'Ōhi'a Death.** DLNR's innovative watershed partnership program will distribute funds through competitive grants open to public and private land managers. Hawai'i's 10 watershed partnerships form a statewide framework for landscape-scale protection, with voluntary alliances to protect over 2.2 million acres of forests that deliver Hawai'i's fresh water supply.

- **Restoration Projects for Forestry Resources Management and Development (\$300,000)**
The requested funds are necessary to implement priority forest ecosystem management projects, recover key forest ecosystems, protect endangered species, develop sustainable forest products programs, and enhance ecosystem services within the forest reserves such as water replenishment, soil protection, carbon sequestration, flood hazard mitigation and improved air quality, as well as work with private and government partners to implement forest management programs. These forest restoration projects help to meet the State's sustainability goals including natural resources management, community self-sufficiency, and green jobs.
- **Mosquito Eradication (\$250,000)**
Mosquitos are carrying and infecting Hawai'i's forest birds and seabirds with devastating diseases such as avian malaria, avian pox virus and potentially the west Nile virus. The result has been disastrous, driving many endangered forest bird populations to the point of extinction. Climate change is allowing the mosquitos to expand into the upper elevations of Hawai'i's forests, the last refuge for many of these forest birds. These funds will allow the initiation of a mosquito eradication program targeting the specific vectors of these diseases. These funds would begin to control one of the most threatening invasive species while simultaneously contributing to endangered species recovery, protecting these rare birds, which are vitally needed for a healthy native ecosystem.

DOFAW requests the conversion of a **Program Specialist V position, a Forester V position, two Wildlife Biologist IV positions and a Wildlife Biologist II Position**. These long-standing positions should be made permanent because their duties are necessary for long-term maintenance and protection of natural areas, watersheds, and threatened and endangered species. These positions are critical for the Division and conversions will reduce employee turnover by increasing the position's stability.

DOFAW requests federal fund **expenditure ceiling adjustments** in addition to fringe benefits due to anticipated increase/decrease in recurring and competitive/non-recurring grants.

Division of Aquatic Resources (DAR) LNR153, LNR401, LNR805

DAR requests **base budget funding for the three Ocean Resource Management Plan (ORMP) positions** approved and funded under Act 84, SLH 2015: Planner IV - responsible for planning of our marine managed areas; Program Specialist IV - coordinate responses to marine debris, aquatic invasive species and ballast water/hull fouling; and Program Specialist V - in-house legal expert supporting administrative enforcement actions for resource damage, rule-making, and compliance with State/Federal mandates. These positions support implementation of ecosystem and restoration actions identified in the Hawai'i ORMP.

Commission on Water Resource Management (CWRM) LNR404

CWRM also requests to establish **federal fund expenditure ceiling (\$250,000/\$150,000)** in order to expend Environmental Protection Agency (EPA) funds received by the Department of Health (DOH) that would be set aside to the Commission: Act 169, Session Laws of Hawai'i 2016, mandates implementation of a standardized water audit program to help understand how much water is lost from a distribution system through detailed analysis of data, which can be used to make

informed decisions to reduce real or apparent losses. Federal EPA funds received by DOH and set aside to the Commission would be used to cover the costs to implement this program.

Division of Conservation and Resources Enforcement (DOCARE) LNR405

DOCARE requests **conversion of 12 Community Fisheries Enforcement Unit positions from temporary to permanent positions**. The use of focused law enforcement resources are an important component of effective marine management. Conversion of the twelve temporary Community Fisheries Enforcement Unit positions from temporary to permanent status will enable DOCARE to attract qualified candidates.

Division on Boating and Ocean Recreation (DOBOR) LNR801

DOBOR requests **lump sum CIP funding** for harbor facility improvements statewide. There is a significant backlog of harbor improvement needs that DOBOR can advance on to the extent of funding provided.

State Historic Preservation Division (SHPD) LNR802

SHPD requests **\$500,000** in funding to supplement the next phase in the development and installation of an **Integrated Information Management System (IIMS)** which is intended to connect various silo'd datasets into a centralized environment allowing users to efficiently identify information, and to ensure transparency to better inform clients on the status of their projects. The completion and installation of **the new IIMS will allow National Park Service to release SHPD from the "high risk" status** and supplant any federal fund reductions in FY17, FY18 and FY19.

SHPD also requests funds for personnel services to cover an increase in **payroll expenditures of \$19,739** for the **Special Fund** and **\$19,571** for the **Federal Fund** in FY18 and FY19, respectively. This will enable SHPD to maintain a level of compensation for professional program staff that is competitive with the median salaries offered by federal agencies and the private sector. Without this funding the Division faces the on-going challenge of being able to keep its well-seasoned and highly skilled professional program staffers.

State Parks (DSP) LNR806

State Parks requests **seven park positions**, increasing the LNR 806 general fund salary cost by \$403,968. They are as follows: two for Kaua'i (Park Interpretive Coordinator and Park Interpretive Technician for Nā Pali); two for O'ahu (Park Interpretive Technician and General Laborer I for Ka'ena); one position for Maui (General Laborer I for Wai'ānapanapa); one for Hawai'i (Office Assistant for Kona) and one position for Administration (Account Clerk).

Administration LNR906

DLNR requests general funds to **partially fund eight existing positions** (.125) (accounting, information technology and personnel) and **fully fund one position** (accounting) that are currently funded through **Act 84**, SLH 2015 which is expiring in FY17.

DLNR also requests a **Special Fund ceiling increase** in the amount of **\$230,875** to cover the new **fringe benefit assessment rate** of 60% and to support the position of Special Projects and Cultural Resources Manager. A **Federal Fund ceiling adjustment** is also requested to accommodate the **transfer** of federally funded positions.

Kaho‘olawe Island Reserve Commission (KIRC) LNR906

KIRC requests **\$1,065,147 (FY18) and \$1,097,047 (FY19)** in general funds for **stable management of KIRC**. Since the initial federal investment into the Kaho‘olawe Trust Fund ran out in FY2015, KIRC has been dependent on State funds to continue its mandated restoration and management of the Kaho‘olawe Island Reserve. Without these additional funds, it will be necessary for KIRC to terminate the majority of its staff and shut down operations on Kaho‘olawe.

Aha Moku Advisory Committee (AMAC) LNR906

Aha Moku requests funding in the amount of **\$53,117** per year to fund the Executive Director position for Aha Moku Advisory Committee at half-time (.50) and operating expenses, to fulfill the mandates of the Legislature as stated in Act 288, Session Laws 2015.

Engineering (ENG) LNR141, LNR 906

Engineering requests an increase of **\$124,000 per year** (LNR 906) (MOF A) in CIP Staff Costs to fund **position reclassifications** contained in the approved ENG reorganization and non-project specific CIP Staff expenses.

Engineering requests **\$3,000,000 per year** for **Rockfall and Flood Mitigation**, Statewide (LNR 141) (MOF C) to address potentially hazardous flooding or rockfall hazards/conditions on DLNR lands or where conditions on certain state-owned lands may impact homes or property on adjacent parcels.

Engineering requests **\$5,000,000** for **Ala Wai Canal Dredging**, O‘ahu (LNR 141) (MOF C) to supplement previously appropriated funds to address additional volume of dredged material and additional handling/disposal costs for dredged material unsuitable for ocean disposal.

DLNR requests **\$46 million in FY18 and \$29 million in FY19** for its **capital improvement projects budget**.

Please refer to **Table 17**, for a detailed description of all CIP project requests.

**Department of Land and Natural Resources
Functions**

Table 1

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
Land	To ensure the effective and efficient use of public lands in ways that will fulfill the public land trust obligations and promote the sustained social, environmental and economical well-being of Hawaii's people, including planning for the use of and developing State lands, leasing lands for agricultural, commercial, industrial renewable energy, and resort purposes; issuing revocable permits and easements, taking inventory of and managing public lands, and ensuring the availability of lands for public purposes.	Land Division is tasked with the disposition of State lands through fee sale, lease, permit, grant-of-easement, license, executive order or other types of dispositions, and acquisition of private lands and lands owned by other government entities that are required by the State agencies through negotiation, condemnation or land exchange. Lease administration, including conducting site inspections, processing lessee requests for consents to mortgages or assignments, and the ongoing enforcement of lease terms and conditions to ensure rent, insurance, performance bond and other lease requirements are met in a full and timely manner. Property management of unencumbered State lands includes responding to complaints by the public, conducting land maintenance activities (e.g. clearing stream mouths, cutting trees, towing abandoned vehicles), and cleaning illegal dumps.	LNR 101	Chapter 171, et seq., HRS
		Proactive planning and development initiatives ensure more effective and efficient use of public lands to fulfill our trust obligations and promotes economic activity in Hawaii. Maintains an inventory of State-owned public lands that are under the management jurisdiction of the BLNR as defined in HRS 171-2, and the Division also serves as a repository of land documents dating back to the "Great Mahele" of 1848. Provides abstracting services and land management advice to other State agencies. Responsible for processing shoreline certifications for properties bordering the ocean.	LNR 101	Chapter 171, et seq., HRS

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
Land (OCCL)	To conserve, protect, and preserve important natural resources of the state through appropriate management and to promote their long-term sustainability and the public health, safety and welfare through regulation and enforcement of land use laws under Chapter 183C, Hawaii Revised Statutes; and protect and restore sandy beaches around the state through improving planning and early identification of coastal hazards, as well as through beach restoration and avoidance of coastal hazards.	The Office of Conservation & Coastal Lands processes: Conservation District Use Permits (CDUP), prosecution of land use violations, resolution of shoreline encroachments, enactment of beach restoration projects (i.e. Waikiki Beach Improvements/Kaanapali Beach and Dune Enhancement), administration of contested cases involving Conservation District Use Permit's and shoreline certifications. OCCL provides information to landowners, decision makers and the general public regarding Conservation District matters. OCCL provides direction and guidance on a wide variety of coastal issues. This includes response to coastal erosion, coastal development setbacks, and beach nourishment. OCCL is in charge of the Hawaii Climate Adaptation Initiative and is developing the State Sea Level Rise Vulnerability and Adaptation Report.	LNR 101	183C & 190D, HRS
Bureau of Conveyances	Recording and indexing documents in Regular Recording System and in Land Court Recording System, and providing public access to documents.	Recordation of all legal documents and maps affecting land title in Hawaii. Issuance of Land Court Certificated of Title. Certification of copies of matters of record. Allowing subscription and access to bulk records through online services.	LNR 111	Chapters 501 & 502, HRS.
Engineering	1. Engineering services to other divisions and agencies	Administer contracts for planning, design or construct of departmental projects; provide engineering services provided to other agencies or DLNR divisions.	LNR 141	--
	2. Rockfall and/or flood mitigation	Retain consultants or contractors to assess conditions and/or implement projects to address rockfall hazards and/or flood damage located on or due to DLNR lands.	LNR 141	--
	3. Dam safety program	Perform dam inspections; review and/or issue dam permits; develop or implement dam safety projects; prepare dam-related reports or maps; provide dam-related technical assistance; enter dam-related cooperative agreements.	LNR 810	Chap. 179D, HRS
	4. Geothermal and other mineral resources management/regulation	Review and/or issue geothermal permits; monitor geothermal development activities.	LNR 141	Chapters 182, 196D, HRS

**Department of Land and Natural Resources
Functions**

Table 1

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
	5. Flood control program, including administration of National Flood Insurance Program	Review flood control and prevention plans; implement flood control projects; coordinate flood-related cooperative agreements; provide flood-related technical assistance; perform flood control research, studies or investigations.	LNR 810	Chap. 179, HRS
	6. Develop water and land resources to support State projects	Implement and/or coordinate projects to develop ground or surface water sources in support of State projects.	LNR 141	Chapter 174, HRS
	7. Soil and Water Conservation District (SWCD) Program	Provide administrative support to SWCD program.	LNR 141	Chapter 180, HRS
Forestry & Wildlife	1. Protect and manage forested watersheds, forest reserves, natural area reserves, plant and wildlife sanctuaries.	Manage and protect state forest reserves, natural area reserves, plant and wildlife sanctuaries and public hunting and recreation areas across the state.	LNR 172, 402, 407, 804	HRS 183, 183D, 195, 195D, 198D
		Support watershed partnerships and natural area partnerships across the state.	LNR 407	HRS 195
		Prevent and suppress wildland fire on public and private lands with important resources.	LNR 402	HRS 185
		Control damaging feral animals, predators, weeds, and diseases on important lands under Division jurisdiction.	LNR 172, 402, 407, 804	HRS 183, 183D, 194, 195, 195D
		Administer State Land Legacy and federal land acquisition programs.	LNR 172, 402, 407	HRS 173A, 195, 195D
	2. Protect and manage native ecosystems, threatened/endangered species, native plants and animals, and prevent the establishment of invasive species in state.	Support Hawaii Invasive Species Council and county invasive species committees.	LNR 402, 172	HRS 194
		Implement management and recovery projects for Threatened and Endangered (T&E) native species.	LNR 402	HRS 183D, 195, 195D
		Process T&E habitat conservation plans, safe harbor agreements, and research permits.	LNR 402, 407	HRS 183D, 195, 195D
	3. Provide outdoor recreation for hiking, hunting, camping, riding and off-road vehicle use.	Maintain and develop hiking trails, Off Highway Vehicle (OHV) tracks, and camping and recreation sites.	LNR 804	HRS 198D

**Department of Land and Natural Resources
Functions**

Table 1

Commission on Water Resource Management	Protect ground and surface water resources to obtain maximum reasonable beneficial use while ensuring adequate provision for water rights, existing uses, and objectives declared to be in the public interest.	<ol style="list-style-type: none"> 1. Collect and analyze hydrologic data and assess water resource availability and use. 2. Designate water management areas and regulate water use where water resources may be threatened. 3. Establish instream flow standards on a stream-by stream basis whenever necessary to protect the public interest in waters of the State. 4. Administer a statewide permitting system for well construction, pump installation, stream channel alteration, and stream diversion works. 5. Administer water use permitting system in designated water management areas. 6. Develop, implement, and update comprehensive short- and long-range plans to protect, conserve and manage water resources. 7. Investigate and arbitrate water-related complaints/disputes. 	LNR 404	Chapter 174C, HRS
DOCARE	<ol style="list-style-type: none"> 1. The enforcement of laws and rules relating to state parks, historic sites, forests and forest reserves, aquatic life and its sanctuaries, public fishing areas, boating, ocean recreation and coastal programs, wildlife and its sanctuaries, game management areas, public hunting areas, and natural area reserves, consistent with and in support of the provisions of Title 12, Chapters 6D, 6E, and 6K, Chapter 134, Chapter 200, and provisions of Title 37, Hawaii Penal Code, Hawaii Revised Statutes. 2. Engage in educational activities for the dissemination of information relating to sustainability, waterborne activities and safety, and resource conservation laws, rules and practices through the school system, community organizations and the information media. 3. Furnish in-service training for division personnel to maintain and/or increase the level of proficiency needed for effective implementation of program objectives. 	Investigate complaints, gather evidence, conduct investigations, conduct field observations and inspections, and provide education to the public for the effective enforcement of state laws and rules protecting natural, cultural and historic resources on public lands, state parks, forest reserves, forests, aquatic life and wildlife areas, Kaho'olawe Island Reserve, and any other lands and waters within the State. Enforce the rules in the areas of boating safety, conservation, and search and rescue relative to the control and management of boating facilities owned or controlled by the State, ocean waters, and navigable streams and any activities thereon or therein, beaches encumbered with easements in favor of the public, and the rules regulating vessels and their use in State waters. Exercise all of the powers and authority of a police officer including the apprehension of violators when violations are detected and when the investigation warrants, effectuate arrests or issue citations for violations of Title 12, Chapter 6D, 6E, or 6K or any rule adopted thereunder.	LNR 405	Title 12, Subtitle 7, Chapter 199, HRS

**Department of Land and Natural Resources
Functions**

Table 1

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
	4. Administer the Hunter Education Program to educate and instruct the public on outdoor safety and resource conservation as mandated by Chapter 183D-28, Hawaii Revised Statutes.	Provide instruction to the public in hunter safety, principles of conservation and sportsmanship. Issue hunter education certificates or letters of exemption. Plan and develop public outdoor and indoor target ranges for the program.	LNR 405	Title 12, Chapter 183D, HRS
	5. Coordinate activities with other State, County and Federal law enforcement agencies to suppress cultivation and minimize the availability of marijuana through crop destruction.	Plan and implement missions to eradicate marijuana on state-owned lands and forest areas.	LNR 405	Title 12, Subtitle 7, Chapter 199, HRS
Division of Boating and Recreation	1. Managing and administrating the ocean-based recreation and coastal areas programs of the state.	Establish, maintain, and revise Hawaii Administrative Rules (HAR). HAR governs the use of state harbors, ramps, and ocean recreation areas. Active oversight and responsibility of managing state small harbors, ramps and ocean recreation areas. Maintains, repairs, and replaces aids to navigation as well as ensuring access to small boat harbors and ramps to the boating and non-boating public. The division is also responsible for managing the use of all near shore waters. This includes regulating the use of ocean waters for surfers, stand-up paddleboarders, kayakers and other users of the nearshore waters. Issues marine activity permits for organized uses of the nearshore waters for regattas, surf contests, etc.	LNR 801	Chapter 200
	2. Planning, developing, operating, administering, and maintaining small boat harbors, launching ramps, and other boating facilities and associated aids to navigation throughout the state.	Operate, maintain, and repair 16 small boat harbors and 52 small boat ramps statewide. Also maintain, repair and replace navigational aids and aids to navigation statewide. Responsible for dredging harbor and ramp entrance channels.		Chapter 200
	3. Developing and administering ocean recreation management plans.	Work with community to develop appropriate uses for state ocean waters.		Chapter 200

**Department of Land and Natural Resources
Functions**

Table 1

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
	4. Regulating the recreational and commercial use of boating facilities. Issues long term leases, concession contracts, revocable permits, etc. for the use of fast lands within a state small boat harbor.	The division issues commercial use permits for the use of state small boat harbor facilities and state waters in accordance with HAR. The property management section is responsible for developing the fast lands in the state small boat harbor in order to increase revenue that will be used to support the program.		Chapter 200
	5. Administering and operating a vessel registration system for the state.	Registers all new and existing vessels in the state. This includes vessel sales and transfers.		Chapter 200
	6. Conducting public education in boating safety.	Promotes safe boating activities state wide through educational activities at boat shows, schools and other public, marine gatherings. This includes coordinating activities with USCG Reserve and USCG Auxiliary.		Chapter 200
	7. Administering a marine casualty and investigation program.	Tracks marine accidents statewide as well as coordinates investigations of marine accidents. Accident reports are tracked and submitted to the United States Coast Guard (USCG).		Chapter 200
	8. Regulating boat regattas and other ocean water events .	The division issues marine event permits for regattas as well as for surf contests.	LNR 801	Chapter 200
	9. Removing nonnatural obstructions and public safety hazards from the shoreline, navigable streams, harbors, channels, and coastal areas of the state.	Removes grounded vessels, submerged vehicles, whale carcasses, and other marine debris from beaches and near shore waters.		Chapter 200
Historic Preservation	1. Review of State and Federal projects	Review reports, photos, inventories, meet with project proponents, enter into agreements with other agencies regarding the treatment of historic or cultural properties.	LNR802	6E-8, 6E-10, 6E-42 National Historic Preservation Act as amended (NHPA)
	2. Inventory and Survey	Inventory and catalogue significant cultural and historic sites.		6E-3, NHPA, NPS Grant Manual
	3. Burial Protection	Staff the island burial councils (5), make determinations on inadvertent finds, review genealogies and make recommendations to the burial councils, review burial treatment plans and make recommendations to the burial councils. Attend meetings with descendants and project proponents.		6E-3, 6E-43, 6E-43.5, 6E-43.6

**Department of Land and Natural Resources
Functions**

Table 1

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
	4. National Register	Staff the Historic Hawaii Review Board (HHRB), review nominations for completeness, present nominations to the HHRB, forward appropriate nominations to the National Register, maintain files on register sites.		6E-3, 6E5.5, NPS Grant Manual
	5. Certified Local Governments (CLGs)	Work with the counties to ensure historic preservation programs on all islands. Provide grants to Hawaii, Maui and Kauai in alternate years, as they are the 3 counties with CLGs.		6E-3, NHPA, NPS Grant Manual
	6. Planning	Develop the statewide Historic Preservation Plan and update every 5 years.		6E-3, NHPA, NPS Grant Manual
	7. Education and Outreach	Develop programs to educate the public about historic preservation and its importance to the state.		6E-3, NHPA
State Parks	1. Maintain natural and cultural parks, facilities, & resources for current and future generations.	Repair, maintain and improve the quality of park facilities, improve management and education efforts for the public in reducing impact to sensitive resources and historic sites; carry out capital improvements projects to create, restore and enhance park infrastructure.	LNR 806	Section 184
	2. Provide safe public access to state parks contain both sensitive natural resources and historic sites.	Provide lifeguard services at parks on Oahu, Maui, Kauai, and Hawaii; determine and implement park improvements and install and maintain increasing number of both warning and interpretive signage for public health, safety, and education.	LNR 806	Section 184
	3. Increase opportunities for the enjoyment and appreciation of state parks and historic sites.	Evaluate and assess the value of park resources by determining new methods to generate income in order to augment the operating budget and add value to the park experience statewide. Operate camping, lodging, picnic & recreational facilities; issue park use permits; develop interpretive programs; administer Land & Water Conservation Funds, State Comprehensive Outdoor Recreation Plan, grants, and provide public information. Continue to develop public/private partnerships for management and income generation.		
Division of Aquatic Resources	1. Preserve/enhance marine, estuarine, freshwater native and other resident aquatic species and their habits.	Create and amend administrative rules to protect aquatic species and their habitats, also conduct surveys, monitoring, inventory of important fishery stocks and habitats.	LNR 401	187A-2; 190-1,2,3,4.5

**Department of Land and Natural Resources
Functions**

Table 1

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
	2. Promote sustainable resource use and ensure the viability of Hawaii's commercial and recreational fisheries.	Process and analyze commercial fish catch reports, contact fishermen for late reports, issue delinquency letters, and record number of freshwater fishing licenses purchased.	153/805	187A-2(1)
	3. Detect, map and eradicate invasive alien species and prevent entry into state waters.	Use "supersucker" devices to remove alien algae species, plant sea urchins on reefs choked with alien algae to biologically remove unwanted algae species.	LNR 401	187A-31,32
	4. Formulate in-stream flow standards to preserve Hawaii's stream biota.	Conduct annual stream surveys and analyze survey data to model habitat requirements for native stream biota.	LNR 401	195D-3(a)
	5. Promote public understanding of the importance of Hawaii's aquatic resources.	Encourage conservation and ethical use of the aquatic resources through education and outreach activities.	LNR 401	187A-9
	6. Issue commercial marine (fishing) licenses, freshwater gamefish licenses, duplicate licenses, dealer permits.	Provide for various fishing opportunities in coastal waters and public fishing areas statewide, log permit and license information.	153/805	189-2(6), 189-3
	7. Review applications for permits to take aquatic life for science, education, and propagation purposes.	Process permit applications in a timely manner provide applications are complete with all necessary information and request would assure no adverse impact on aquatic resources and their habitat.	LNR 401	187A-6, 6.5
	8. Manage public fishing areas, fish aggregating devices, marine life conservation districts, shoreline fishery management areas, artificial reefs, and refuges.	Conduct creel surveys at public fishing areas, replace and conduct research on fish aggregating devices, monitor fish populations at marine life conservation districts, fishery management areas, artificial reefs and other refuges.	153/805	187A-2(3), 187A-21, 188-22.6-22.9, 188-53
	9. Provide conservation and safety education.	Coordinate/assist with response to shark attacks and provide hazardous marine warnings.	LNR 401	187A-9

**Department of Land and Natural Resources
Proposed Budget Additions**

Prog ID	Sub-Org	Addition Type	Prog ID Priority	Dept-Wide Priority	Description of Addition	Justification	FY18				FY19		
							MOF	Pos (P)	Pos (T)	\$\$\$	Pos (P)	Pos (T)	\$\$\$
LNR 402	DA	AR	1	1	Add operating funds per provisions from Act 84, SLH 2015: Program's operating budget (\$3,405,749); Native resources and fire protection program such as fire, natural disaster and emergency equipment (\$1,500,000)	As a result of actions taken by the 2015 Legislature by way of Act 84, Session Laws of Hawaii (SLH) 2015, to repeal the distribution of the Conveyance Tax revenues to the Natural Area Reserve Fund and the Forest Stewardship Fund, recurring expenditures, including personal services previously paid from these special funds, were instead appropriated general funds for Fiscal Biennium 2015-2017. In the Committee Report for House Bill 500, Conference Draft 1 (now Act 119, SLH 2015), the Committee on Conference requested that the Administration propose in the 2016 supplemental budget the inclusion of the general funds appropriated in Act 84. Upon receipt of the budget requests, the Committee on Conference affirmed that the Legislature then re-commence funding the affected recurring expenditures as well as other funded items in Act 84 in the supplemental appropriations act and subsequent general and supplemental appropriation acts. In adherence to the above, the Department of Land and Natural Resources hereby seeks to have the general fund appropriations from Act 84 made part of the Department's base budget.	A			3,405,749			3,405,749
LNR 172	DA	AR	4	2	Add funds for the positions and other operating expenditures per provisions from Act 84, SLH 2015	Prior to FY2015, LNR 172 was supported by transfer from the Natural Area Reserve Special Fund to the Forest Stewardship Special Fund, which received a portion of the conveyance tax. Act 084, SLH 2015 eliminated the transfers of conveyance tax to the Forest Stewardship Special Fund. The Act provided \$2,832,996 in general funds as a replacement for the conveyance tax revenue in each year of the biennium. This funding, however, expires after FY2017. Providing these temporarily authorized general funds to the base budget for LNR172 would allow DLNR to continue serving the public and avoid elimination of key programs and positions that rely on this core governmental program. The DLNR understands the intention of Act 084 was not to eliminate or reduce funding for LNR172's programs but to shift the base funding source away from the conveyance tax special funds. This budget request would implement the intentions of the Legislature.	A			2,832,996			2,832,996

LNR 407	NA	AR	1	3	Add funds for positions and other operating expenditures per provisions from Act 84, SLH 2015	Act 84 converts funding from Conveyance tax to G funds. Position conversion is needed to fund existing positions. Prior to FY2015, LNR 407 was primarily supported by the Natural Area Reserve Special Fund, which received a portion of the conveyance tax. Act 84, SLH 2015 eliminated the ceiling of the Special Fund and removed the conveyance tax as a funding source. The Act provided \$7,556,128 as a trade-off for each year of the biennium. However, this funding expires after FY 17. Adding general funds would establish the base budget for this program and prevent the elimination of the positions and programs that rely on this core governmental program. DLNR understands the intention of Act 84 was not to eliminate LNR 407's programs but to shift the funding source from special to general funds. This budget request would implement that goal.	A			7,556,128			7,556,128
LNR 906	AA	AR	1	4	Add funds for 8 budgeted positions at 0.125 FTE and 1 budgeted position at 1.00 FTE (\$93,591) and other operating expenses (\$8,124), per provisions from Act 84, SLH 2015	Fund the 8 budgeted positions at 0.125 FTE and 1 budgeted position at 1.00 FTE (\$93,591) and other operating expenses (\$8,124), per provisions from Act 84, SLH 2015.	A			101,715			101,715
LNR 402	DA	AR	2	5	Add funds for Hawaii Invasive Council (HISC) per provisions from Act 84, SLH 2015	Hawaii Invasive Species Council funding for support program and interagency projects. The HISC base budget in G-042 is \$750,000, with \$5M provided by temporary appropriation in FY15, and \$4M provided by temporary appropriation in each year of the FY16-17 biennium, per SB1299. This request converts the temporary appropriation to base budget, as the projects supported by the HISC (island-based Invasive Species Committees, Hawaii Ant Lab, interagency biocontrol research, research on minimal effective pesticide/herbicide use) are critical, on-going needs. This action will facilitate implementation of the Hawaii Interagency Biosecurity Plan.	A			4,000,000			4,000,000

**Department of Land and Natural Resources
Proposed Budget Additions**

Prog ID	Sub-Org	Addition Type	Prog ID Priority	Dept-Wide Priority	Description of Addition	Justification	MOF	FY18			FY19		
								Pos (P)	Pos (T)	\$\$\$	Pos (P)	Pos (T)	\$\$\$
LNR 401	CA	AR	1	6	Add funds for 3 Ocean Resource Management Plan (ORMP) positions: Program Specialist V, Planner IV, Program Specialist IV; per provisions from Act 84, SLH 2015, \$152,520; additional funds to cover annual salary of ORMP positions, \$15,888.	These three positions were originally approved by the 2015 legislature to support the implementation of ecosystem and restoration actions identified in the Hawaii ORMP.	A		3.00	152,520		3.00	152,520
LNR 402	DA	AR	3	7	Add funds for Rapid Ohia Death Response	Rapid Ohia Death, caused by an introduced fungus, is killing large areas of ohia forest on Hawaii island. DOFAW is attempting to contain the disease, slow its spread, and conduct early detection surveys statewide. The requested funds will support operations related to containing the pathogen, educating the public about how they can help prevent the spread, surveying for the disease in new areas, and being prepared to respond when a detection is made in a new area.	A			1,000,000			1,000,000
LNR 407	NA	AR	2	8	Add funds for Rapid Ohia Response on the Natural Area Reserves	Rapid Ohia Death, caused by an introduced fungus, threatens to destroy Ohia lehua, the foundation of the Hawaiian forest. The best defense against introduced pathogens in any landscape are healthy ecosystems. This request implements the State's goal to protect Hawaii's native ecosystems, as well as protect priority watershed forests, by increasing resiliency through reduction of disturbances within the forests. The State's Natural Area Reserves contain representative examples of the most intact native ecosystems and landscapes. These protect watershed forests, increasing Hawaii's freshwater supplies. Proactive management to minimize ecosystem disturbance will result in healthy and resilient forests and landscapes which are best able to defend against, and recover from, forest health pests such as the Rapid Ohia Death fungus.	A			1,500,000			1,500,000

							MOF	Pos (P)	Pos (T)	\$\$\$	Pos (P)	Pos (T)	\$\$\$
LNR 407	NA	AR	3	9	Add funds for Watershed Forests	This request implements the State's goal to protect 30% of priority watershed forests by 2030. DLNR's innovative watershed partnership program will distribute funds through competitive grants open to public and private land managers. Hawaii's 10 watershed partnerships form a statewide framework for landscape-scale protection, with voluntary alliances to protect over 2.2 million acres of forests that deliver Hawaii's fresh water supply. In the last five years, capital improvement project investments have fenced over 37,000 acres of priority watershed forests. Additional operational funding is needed to maintain those fences, remove hooved animals and invasive plants within those areas, plant trees, and monitor ecosystem health.	A			500,000			500,000
LNR 405	HA	AR	2	10	Request to convert Community Fisheries Enforcement Units, 12 positions, from temporary to permanent positions and add funds to cover half-year salaries (\$268,620).	Conversion will expand recruitment efforts and attract additional candidates. Additionally will play a important role in Governor's 30X30 plan	A	12.00	(12.00)	268,620	12.00	(12.00)	268,620
LNR 402	DA	AR	4	11	Add funds to increase operating funds for Hawaii Invasive Species Council	Hawaii Invasive Species Council funding for support program and interagency projects. The HISC base budget in G-042 is \$750,000, with \$5M provided by temporary appropriation in FY15, and \$4M provided by temporary appropriation in each year of the FY16-17 biennium, per SB1299. This request converts the temporary \$4M appropriation to base budget and increases funding by an additional \$500,000 to help match the actual need of invasive species projects (HISC received over \$8M in project requests in FY17). The projects supported by the HISC (island-based Invasive Species Committees, Hawaii Ant Lab, interagency biocontrol research, research on minimal effective pesticide/herbicide use) are critical, on-going needs. This action will facilitate implementation of the Hawaii Interagency Biosecurity Plan.	A			500,000			500,000

							MOF	Pos (P)	Pos (T)	\$\$\$	Pos (P)	Pos (T)	\$\$\$
LNR 402	DA	AR	5	12	Add funds for Mosquito Eradication	Mosquitos are killing Hawaii's native birds with diseases such as avian malaria, avian pox virus and potentially others such as the West Nile virus, for which the native birds have not evolved defenses. The results have been disastrous, driving many forest bird populations to the point of extinction. Rising temperatures are allowing mosquitos to expand into the upper elevations of Hawaii's forests, the last refuge for many of these forest birds. These funds will allow the initiation of a non-native mosquito eradication program, targeting species-specific disease transmitters having the greatest effect on native birds. These funds would begin to control one of the most destructive invasive species while simultaneously contributing to endangered species recovery, protecting Hawaiian forest birds as part of healthy native ecosystems.	A			250,000			250,000
LNR 101	EA	NR	1	13	Request ceiling increase for Land Conservation Fund , to replace the FY 15 Blanket Encumbrance that lapsed FY 16.	The requested increase would restore a blanket encumbrance for FY15 expenditures that lapsed in FY16 during a prolonged period of multiple staff vacancies. Because we must spend FY17 funds to pay for FY15 projects, restoration of the lapsed FY15 funding would allow the completion of transactions approved for FY17 applicants (which would routinely be completed under normal LLCP allotments). Without the requested increase, the funding available for these applicants is limited to about \$734,000 instead of the usual \$3 million.	B			2,228,250

Proposed Budget Additions**

Prog ID	Sub-Org	Addition Type	Prog ID Priority	Dept-Wide Priority	Description of Addition	Justification	FY18				FY19		
							MOF	Pos (P)	Pos (T)	\$\$\$	Pos (P)	Pos (T)	\$\$\$
LNR 101	EA	AR	1	14	Request ceiling increase for Land Conservation Fund	The requested increase would reinstitute historic levels of funding available for land acquisition projects. Since FY16, the funding available for land acquisition grants has been \$1.5 million below historic levels due to the impact of Act 121, SLH 2015, by which the grant program provides \$1.5 million annually for payment of debt service on the Turtle Bay reimbursable general obligation bonds. Act 84, SLH 2015 capped the annual transfer of conveyance tax revenues to the Land Conservation Fund at \$6.8 million, or 10 percent of the revenues, whichever is less. Revenues reached over \$6.7 million in FY16 and are on track to exceed \$6.8 million in FY17, while applications for FY17 grant funding totaled \$8.1 million. Increasing the FY18 spending ceiling by \$1.7 million would allow the Legacy Land Conservation Program to support new land acquisition projects plus recurring debt service at the level where the Legislature has set its annual revenue cap. With a proposed ceiling increase of \$1.7 million, the Legacy Land Conservation Program anticipates bringing in an additional \$3.4 million of non-State funding for land conservation, based on historical match rates for the program. This ceiling increase would expand program funding capacity by 33%, greatly increasing the resource protection and public benefits that the Legacy Land Conservation Program provides. Without the requested increase, the state funding available for new grant applicants in FY18 will be about \$3 million, versus \$4.7 million with the requested increase.	B			1,700,000			1,700,000
LNR 802	HP	NR	1	15	Additional funds to complete the next phase of developing and installing a new integrated Information Management System which is a NPS CAP requirement, and for the digitization of SHPD reports, records, and files.	Without the funding for the IIMS the Division may face the loss of the Historic Preservation Fund grant program in the amount of \$574,946 and result in the prolonged delay of all federally funded projects and grants that require review by SHPD under the Section 106 of the National Historic Preservation Act of 1966 as amended.	A			500,000			-
LNR 101	EA	AR	2	16	Request new civil service Land Agent IV position for Maui District Land Office	The position is an integral part of the Department's resource management plan and is essential to successfully carrying out the Department's efforts to improve and manage the State's natural and cultural resources, encompassing 130,000 acres of land use responsibilities within Maui District. The Maui District Land office staff count has not changed since 1959 despite the significant growth in population and increase in tourism.	B	1.00		47,558	1.00		95,116

FY17 Restrictions**

Table 7

<u>Prog ID</u>	<u>Sub-Org</u>	<u>MOF</u>	<u>Budgeted by Dept</u>	<u>Restriction</u>	<u>Difference Between Budgeted & Restricted</u>	<u>Percent Difference</u>	<u>Impact</u>
LNR 405	HA	A	7,897,016	337,736	7,559,280	95.72%	May cause delays in filling vacancies, providing necessary equipment, limiting operations, and restrict maintenance
LNR 407	NA	A	922,716	39,462	883,254	95.72%	The restriction will reduce maintenance of capital improvement project investments and long-term projects focusing on fresh water, reduce greenhouse gas emissions, reduce flooding, erosion, wildfires and threatened and endangered species.
LNR 801	CH	A	594,256	25,415	568,841	95.72%	No significant impact.
LNR 802	HP	A	1,620,986	69,326	1,551,660	95.72%	The \$69,326 restriction of funds would negatively impact the Division's capacity and ability to fulfill its HRS, 6E, mandate as SHPD is forced to delay payments to vendors and contracts for up to two months because of the strain caused by the restriction on its bare bones general fund budget.
LNR 804	DA	A	1,461,155	62,490	1,398,665	95.72%	The restriction would mean up to 50% cut on operating expenditures. Operating cuts would impact the required state match on most federal funded projects such as the Recreational Trails Program and the Game Management Grant, and limit departments ability to implement much needed trail improvement projects, maintain public safety and sanitation and expand recreational opportunities. The restriction may also exacerbate the payroll short-fall, limiting the LNR's ability to cover the 4th quarter of the Fiscal Year.
LNR 805	CB	A	835,539	35,734	799,805	95.72%	May need to request use of vacancy savings during the 4th quarter to supplement payroll and the Maui office relocation.
LNR 806	FA	A	5,313,044	227,226	5,085,818	95.72%	State Parks will have to reserve the equivalent of the restricted funds from the non-payroll allotment to cover our payroll expenses.
LNR 906	AA	A	2,667,766	94,801	2,572,965	96.45%	There may not be enough funds to cover the salaries in the 4th quarter.
TOTAL			34,566,698	1,459,040	33,107,658	95.78%

<u>Program ID</u>	<u>Sub-Org Code</u>	<u>Name</u>	<u>Objective</u>
LNR 101	EA	Public Lands Management / Land Management Division	<p>The Land Division is responsible for overseeing approximately 1.3 million acres of public lands. The large majority of these lands comprise known as ceded in that they were ceded to the United States by the Republic and returned upon admission as a state. Much of these lands have been set aside to other governmental agencies for such purposes as schools, parks, forest reserves and State or County office buildings. The land division also leases out a portion of these land to private parties for such purposes as agriculture, pasture, commercial, industrial, resort and renewable energy projects. The Office of Conservation and Coastal Lands (OCCL) is under LNR 101. The OCCL processes: Conservation District Use Permits (CDUP), prosecution of land use violations, resolution of shoreline encroachments, enactment of beach restoration projects (i.e. Waikiki Beach Improvements/Kaanapali Beach and Dune Enhancement), administration of contested cases involving Conservation District Use Permit's and shoreline certifications. OCCL provides information to landowners, decision makers and the general public regarding Conservation District matters. OCCL provides direction and guidance on a wide variety of coastal issues. This includes response to coastal erosion, coastal development setbacks, and beach nourishment. OCCL is in charge of the Hawaii Climate Adaptation Initiative (OP is Co-Chair) and is developing the State Sea Level Rise Vulnerability and Adaptation Report.</p>
LNR 111	BA	Conveyances and Recording / Conveyances Division	<p>To serve the public by providing for an accurate, timely, and permanent system of recording, maintaining, and preserving and providing access to these land title and related documents and maps.</p>

**Department of Land and Natural Resources
Program ID Sub-Organizations**

<u>Program ID</u>	<u>Sub-Org Code</u>	<u>Name</u>	<u>Objective</u>
LNR 141	GA	Water an Land Development / Dowald-Water and Land Development	Promote economic development and enhance public welfare by developing water supplies and state lands, with priority given to state-sponsored projects. Investigate and develop traditional and alternative water sources to augment and conserve existing supplies while meeting the increasing demands of state-sponsored projects. Provide engineering services to other divisions of the Department and other state agencies to execute Capital Improvements Program (CIP) and/or operating, maintenance and repair projects. Effectively manage geothermal resources and its development to protect the health and safety, and to ensure continued viability of the resource for the future.
LNR 153	CB	Fisheries Management / Aquatic Resources Division	To support and assist in the wise use of Hawaii’s fishery resources and other aquatic life for Hawaii’s people and its visitors by providing opportunities in managed freshwater and marine areas for fishing, diving, photography, or nature study, by providing opportunities and facilities for skill development, and by the implementation of effective resource management, appropriate regulatory frameworks, outreach, collaboration and the wise use of and the long-term sustainability of Hawaii’s fishery resources through research, outreach, collaboration, and management. Coordinate with other resource management agencies in the management of fishery resources for the people of Hawaii. Enhance or improve existing resources through stock enhancement and culture research and development, thereby providing increased opportunities for fishing and seafood markets.
LNR 172	DA	Forestry Resource Management & Development / Forestry Division	To strengthen the State's economic opportunities through forest resource management to improve and assist in the sustainable production of forest products and services from forest reserves and other public and private lands. To promote resource restoration and conservation through outreach and education.
LNR 401	CA	Ecosystem Protection and Restoration / Aquatic Resources Division	To preserve and enhance native and indigenous fish and other aquatic species and their habitats for Hawaii’s people and its visitors through active protection, public information and education, and other effective management measures.

**Department of Land and Natural Resources
Program ID Sub-Organizations**

<u>Program ID</u>	<u>Sub-Org Code</u>	<u>Name</u>	<u>Objective</u>
LNR 402	DA	Natural Resources and Fire Protection Program / Wildlife Section	Manage habitats to protect, maintain, and enhance the biological integrity of native ecosystems. Reduce the impacts of wildfires on native ecosystems and watersheds. Reduce the impacts of invasive species on native resources. Protect, maintain, and enhance native species populations, and recover threatened and endangered species.
LNR 402	DB	Natural Resources and Fire Protection Program / Wildlife Section	Promote outreach and foster partnerships to improve public understanding, responsibility, and participation. Conduct monitoring and evaluation to guide the development of recovery and management plans, and ensure cost effective adaptive management of implementation actions and tasks.
LNR 404	GC	Water Resources / CWRM - Water Code	To set overall water conservation, quality and use policies, define reasonable and beneficial uses, protect ground and surface water resources, watersheds and natural stream environments, establish criteria for water use priorities while assuring appurtenant rights and existing correlative and riparian uses and establish procedures for protecting and managing Hawaii's water resources.
LNR 405	HA	Conservation and Resources Enforcement / Enforcement	To effectively uphold the laws that serve to protect, conserve and manage Hawaii's unique and limited natural, cultural and historic resources held in public trust for current and future generations of visitors and the people of Hawaii nei.
LNR 405	HB	Conservation and Resources Enforcement / Enforcement	To effectively uphold the laws that serve to protect, conserve and manage Hawaii's unique and limited natural, cultural and historic resources held in public trust for current and future generations of visitors and the people of Hawaii nei.
LNR 407	NA	Natural Area Reserves and Watershed Management / Native Ecosystem Section	To protect, restore, and enhance Hawaii's natural areas, forested watersheds, native ecosystems, unique native plant and animal species, cultural and geological features for their inherent cultural, scientific, educational and economic values for the enrichment of present and future generations
LNR 801	CH	Ocean-Based Recreation / Administration	Managing and administrating the ocean-based recreation and coastal areas programs of the state.

**Department of Land and Natural Resources
Program ID Sub-Organizations**

<u>Program ID</u>	<u>Sub-Org Code</u>	<u>Name</u>	<u>Objective</u>
LNR 802	HP	Historic Preservation / Historical Preservation	To develop and maintain a comprehensive program of historic preservation to promote the use and conservation of historic properties for the education, inspiration, pleasure and enrichment of the citizens of Hawai'i.
LNR 804	DA	Forestry and Outdoor Recreation / Forest Recreation Section	To provide managed opportunities and facilities for the public to engage in multi-use outdoor recreation activities (hiking, biking, equestrian riding, off-highway vehicle use, hunting, and camping), while also providing access for resource management. To maintain and enhance a public hunting program to provide a source of food and outdoor recreation for the public and as a means to control introduced game animals in watershed areas. To inventory, document ownership, and restore specific historic trails and non-vehicular old government roads for public use where it is feasible and culturally appropriate.
LNR 805	CB	District Resource Management / Aquatic Resources Division	Enriches the lives of people of all ages of the respective counties within the State of Hawaii by providing aquatic resource management at an appropriate level. Takes into account the differences between each County in Hawaii and consults with the appropriate moku on resource management.
LNR 806	FA	Parks Administration and Operations / State Parks Division	Maintain natural and cultural parks, facilities, and resources for current and future generations. Provide safe public access to state parks containing both sensitive natural resources and historic sites.
LNR 806	FI	Parks Administration and Operations / Park Interpretation	Educate the public in accessing sensitive resources and historic sites by developing interpretive programs, and providing public information.
LNR 810	GD	Prevention of Natural Resources / Dowald-Flood Control and Dam Safety	Protect people, property, and natural resources from natural hazards through planning, management, mitigative efforts, and regulatory programs.
LNR 906	AA	LNR - Natural and Physical Environment / Departmental Administration - LNR	To enhance program effectiveness and efficiency by formulating policies, directing and coordinating operations and personnel, and providing other administrative and support services.
