

STATE OF HAWAII  
DEPARTMENT OF EDUCATION  
P.O. BOX 2360  
HONOLULU, HAWAII 96804

OFFICE OF THE SUPERINTENDENT

August 28, 2020

The Honorable Donovan M. Dela Cruz  
and Members of the Senate Special Committee COVID-19  
State Capitol  
Honolulu, Hawaii 96813

Dear Senator Dela Cruz and Members of the Senate Special Committee COVID-19:

This letter is in response to the Senate Special Committee COVID-19 (Committee) request pursuant to our August 19, 2020 discussion about Personal Protective Equipment (PPE), and triggers and procedures for the closure of schools.

The Committee asked that the Department compile the following described information (*italicized*).

***The Committee asks that you provide data on the projected DOE PPE needs through the end of the school year. Please deliver a breakout of these projections by complex area and school, as well as the metrics used for these projections.***

I am pleased to share that the Department's Office of Facilities and Operations is finalizing development of an interactive tool for scalable inventory and supplies for Personal Protective Equipment (PPE) and cleaning supplies. Beta testing of this tool is targeted for September 4-11, 2020 with a projected soft opening on Monday, September 14, 2020. Once officially launched, PPE and cleaning supply inventory levels for every DOE school (including charters) will be accessible to the public via the [hawaiipublicschools.org](http://hawaiipublicschools.org) website.

This inventory management system model is designed to incorporate the daily usage rates of 17 different PPE and cleaning inventory supply items across 16 different functional staff categories, as described:

- PPE and cleaning inventory supply items: Reusable Cloth Mask, Reusable Clear Mask, Disposable Surgical Mask, Disposable 3 Ply Mask, Disposable 3 Ply Mask (Child Size), Gloves (Non-latex), Isolation Gowns, Reusable Face Shield, Hand Sanitizer, Non-Contact Infrared Thermometer, Disposable Booties (Shoe Coverings), Bleach, Disinfectant Spray, Disinfectant Wipes, Mop Head, Spray Bottle, and Cloth Hand Towel.
- Functional staff categories: Health Related Positions (includes School Health Aides), Special Education Teachers, Special Education Educational Assistants (EA), Teachers Working with Deaf or Hearing Impaired Students, General Education Teachers, Alternative Learning Program Teachers, Non-Special Education EAs, School Support Teachers, School Food Service Workers, Custodians, Dormitory Staff, School Administrators, Front Office Staff, School Security Attendant, Other School Staff, and State Office Staff.

For every PPE and cleaning supply item, this inventory management system model includes:

- Daily usage rate calculations (also referred to as the “burn rate”) which are used to determine base inventory levels, reorder points and reorder quantities for each individual school, district office and state office. Weekly inventory reporting by schools is tracked by OFO and serves as indicators for reorders. OFO will utilize the weekly inventory reporting by schools to adjust daily usage calculations, as necessary.
- 60-day calculations per site can be adjusted to encompass the entire school year, if needed. The 60-day calculations represent a three-month supply; 20 operational work days per month multiplied by three months equals 60 days.
- Reorders through the Hawaii Emergency Management Agency (HI-EMA) based on a 60-day calculation with outside vendors to be used for any items not available through HI-EMA.

For specified usage metrics, kindly refer to Attachment A – Baseline metrics utilized for PPE and cleaning inventory supply item projections by Daily Usage (“burn rate”) per functional staff categories. Please note that this table only includes 12 staff categories as 4 additional categories are being added as the model is being finalized. Likewise, the table only includes 12 PPE and cleaning supply items as 5 additional items are being added as the model is being finalized.

OFO will continue to closely work with HI-EMA on supply orders. The Department is committed to ensuring that PPE needs for public and charter schools, complex areas and state offices are filled and maintained at the highest standard achievable based on real-time assessments of current and future PPE needs for individuals or groups of higher risk of exposure.

***Additionally, the Committee requests that you provide an accounting of all PPE supplied to each school to date, as well as an outline of your plans for the collection, storage, and distribution of PPE to schools moving forward.***

An accounting of all PPE ordered, shipped, and distributed through HI-EMA for each school to date is provided in:

- Attachment B – PPE Distribution by School; and
- Attachment C – PPE Gowns and Gloves for Special Education and School Health Aides
  - NOTE: This order was placed through HI-EMA on August 13, 2020 with an estimated delivery date to school no later than August 28, 2020 for all gowns and half of the gloves, with the remaining half of the glove order to follow from HI-EMA as soon as possible.

As to the outline of our plans for the collection, storage and distribution of PPEs to schools moving forward, HI-EMA confirmed its commitment and ability to drop ship items directly to schools. This change to direct delivery has greatly reduced the need for centralized warehousing and inventory management and has greatly improved the Department’s PPE ordering efficiencies, resulting in significant reductions in delivery delays.

OFO will continue to coordinate the Department’s centralized ordering system while PPE distribution, inventory needs reporting, and storage requirements are addressed by individual schools and offices. OFO is assessing storage availability at the complex and state level to accommodate emergency PPE and cleaning supplies. Emergency supply quantities will be based on adjusted burn rates calculated as actual usage information is available after the start of school.

***Finally, as you highlighted your current discussions with the Department of Health pertaining to the development of triggers and procedures for the closures of schools in the event of a rise in infection, the Committee asks that you provide these triggers and procedures.***

To date, the Hawaii State Department of Health has convened and facilitated two meetings to collect information and input pertinent to the triggers and procedures for the closure of schools in the event of a rise in infection. A number of Department and charter school stakeholders including myself and Deputy Superintendent Phyllis Unebasami, and representatives from various role groups (complex area superintendents, principals, teachers, other staff members, private schools, day care, prekindergarten) have actively participated in these critical and time sensitive discussions held on Wednesday, August 19, 2020 and Monday, August 24, 2020.

Governor David Ige has designated the Department of Health as the lead agency for this critical report. The Department of Health's point person is Dr. Sarah Park, state epidemiologist.

As the COVID-19 pandemic situation evolves, the Hawaii State Department of Education (Department) will adjust its plans to ensure that a safe learning and working environment is provided for students, teachers, and staff. On August 27, 2020, the Department announced it will continue the Learn from Home phase of distance learning for most students statewide through the first quarter, which ends Oct. 2. We will work closely with state, county and health officials to assess if and when students can safely return to in-person blended learning models.

On behalf of our students, employees and public school system, mahalo for your commitment and dedicated support during this pandemic. I also would like to take this opportunity to thank Brigadier General Kenneth Hara and his team for their expeditious response in addressing our PPE supply needs.

Should you have any questions, please do not hesitate to contact Randall M. Tanaka, Assistant Superintendent of the Office of Facilities and Operations, at 784-5000.

Sincerely,

Dr. Christina M. Kishimoto  
Superintendent
