What is Rugby4Good?

Rugby4Good

The **R4G** education course and curriculum highlights explicitly the integration of rugby values and associated behaviors through Play Rugby USA's unique "value in action" framework. The effective delivery of value in action through sports based youth development programs is what provides the solution to **reducing** the risk factors for our youth.

Tomorrow, in Southern California, the San Mateo Police Athletic League's (PAL's) rugby program will be handed the 2008-2009 Distinguished Program Award by the state Department of Corrections and Rehabilitation. The occasion is the State Juvenile Officers' Association Conference. All of the police and community people involved in thinking up and running the two-year-old rugby program must be beaming.

This isn't a typical PAL program (PAL sponsors activities ranging from ballet to volleyball, with the objective to not only give kids from 5 to 18 years old something to do, but also to build relationships between cops and their communities).

Instead, the rugby program was designed specifically to help Polynesian, or Pacific Islander, youth of high school age avoid the downward spiral of becoming gang members. And of those Polynesians, the predominant group in San Mateo is Tongans.
