Testimony of the Department of Commerce and Consumer Affairs

Before the House Committee on Finance Wednesday, March 1, 2023 10:00 a.m. Conference Room 308

On the following measure: H.B. 933, H.D. 1, RELATING TO TELECOMMUNICATIONS ACCESS FOR INDIVIDUALS WITH PRINT DISABILITIES

Chair Yamashita and Members of the Committee:

My name is Dean Nishina, and I am the Acting Executive Director for the Department of Commerce and Consumer Affairs' (Department) Division of Consumer Advocacy. The Department offers comments on this bill.

The purpose of this bill is to require the Public Utilities Commission (Commission) to use Universal Service Fund moneys to provide free telecommunications access to certain information for individuals with print disabilities.

The Department supports the provision of affordable utility services, including basic telecommunications services for all customers, regardless of their socioeconomic status or location. The Department appreciates the intent of this bill to assist individuals with print disabilities to have access to time-sensitive information such as state and local government information and public notices, emergency alerts, job opportunities, daily

Testimony of DCCA H.B. 933, H.D. 1 Page 2 of 3

newspapers, and other content, but respectfully offers that the proposed use of "Universal Service Fund moneys" as the funding source for such services, may be misplaced.

For context, the Federal Universal Service Fund (USF) was established to ensure that basic telecommunications services would be available to all, including low-income households and customers who may live in rural, high-cost areas. Over time, the USF has evolved but remains focused on ubiquitous affordable access to telecommunications services. When the regulation of telecommunications companies was evolving at the Federal level, Hawaii was undergoing through a similar modification of regulation, which involved consideration of the need for a separate State USF to address the possibility that the Federal USF may be inadequate to address the provision of affordable telecommunications services in certain high-cost areas in Hawaii. Thus, Hawaii stakeholders pursued actions that would allow the Commission to establish a State Universal Service (USF) program through Hawaii Revised Statutes (HRS) § 269-41 and the creation of a universal service special fund outside of the state treasury and require all telecommunications carriers to contribute to the fund under HRS § 269-42. However, as no state telecommunications carrier identified the need for additional monies beyond the Federal USF, the State USF was not stood up. Thus, a State USF program and its associated special fund currently does not exist to fund the services contemplated in the bill.

The Department is concerned with the proposed use of the fund for purposes not normally associated with the provision of utility services. The Department continues to research whether there are any similar programs that are established elsewhere in the nation that are funded by utility customers. It should be noted that the Commission's authority to assess all telecommunication carriers a contribution (i.e., a charge) to fund a State USF program will ultimately be passed-on to ratepayers of telecommunications service as another line-item charge/surcharge on each customer's bills. This additional charge on consumers will likely exacerbate concerns with affordability of basic telecommunications services. Due to various changes in the industry, each year the customer base for traditional land-line home telecommunication services, for example, is noticeably shrinking, with more and more customers abandoning their service, leaving a Testimony of DCCA H.B. 933, H.D. 1 Page 3 of 3

smaller base of customers to fund the services envisioned in this bill. Adding another fee/charge on customers' bill may result in a more rapid pace of customers transitioning to other services, further harming consumers that continue to utilize traditional home telephone services.

In addition, imposing a new charge on consumers of telecommunications services for the services contemplated in this bill can be a "social tax" imposed on a segment of society as opposed to the overall public in general. The Department offers that utility rates are regressive in nature where the rates can often represent a significant portion of customers' bills, such as elderly customers on fixed incomes and low-income households and, thus, respectfully requests that utility rates not be used as a form of taxation due to the adverse impacts on utility customers.

Thus, while the Department supports the intent of the measure, it respectfully requests that the proposed objectives of the measure be funded by a source other than utility customers through the State USF or regular utility rates.

Thank you for the opportunity to testify on this bill.

HB-933-HD-1

Submitted on: 2/27/2023 2:51:16 PM Testimony for FIN on 3/1/2023 10:00:00 AM

Submitted By	Organization	Testifier Position	Testify
Stan Young	Hawaii State committee of Blind Vendors	Support	Written Testimony Only

Comments:

Not only will this bill help the current population of print disabled people, this will also help the ever growing population of the elderly who will become print disabled. Remember, as we grow more into the information age, it becomes more imperative that the print disabled population not be shut out.

CATHY BETTS DIRECTOR KA LUNA HO'OKELE

JOSEPH CAMPOS II DEPUTY DIRECTOR KA HOPE LUNA HO'OKELE

STATE OF HAWAII KA MOKU'ĀINA O HAWAI'I DEPARTMENT OF HUMAN SERVICES KA 'OIHANA MĀLAMA LAWELAWE KANAKA Office of the Director P. O. Box 339 Honolulu, Hawaii 96809-0339

February 27, 2023

TO: The Honorable Representative Kyle T. Yamashita, Chair House Committee on Finance

FROM: Cathy Betts, Director

SUBJECT: <u>HB 933 HD1</u> – RELATING TO TELECOMMUNICATIONS ACCESS FOR INDIVIDUALS WITH PRINT DISABILITIES

Hearing:March 1, 2023, 10:00 a.m.Conference Room 308 & Via Videoconference, State Capitol

DEPARTMENT'S POSITION: The Department of Human Services (DHS) appreciates the

intent of this bill, provides comments, and defers to the Department of Commerce and Consumer Affairs and the Public Utilities Commission.

PURPOSE: The bill's purpose is to require the public utilities commission to use

universal service fund moneys to provide free telecommunications access to certain

information for individuals with print disabilities. Effective 7/1/3000. (HD1)

The HD1 amended the measure by:

- (1) Providing explicit authorization for the Public Utilities Commission to use the Universal Service Fund to provide access for individuals with print disabilities, subject to a limit yet to be determined;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

The Department of Human Services, Division of Vocational Rehabilitation (DVR),

administers state-wide vocational rehabilitation services programs for persons with physical

and mental disabilities, including the blind and deaf communities. These VR services include independent living rehabilitation services for persons with severe disabilities, general services for persons who are blind and visually impaired, and the disability determination of claims for Social Security Disability Insurance and Supplemental Security Income benefits issued by the Social Security Administration.

DVR recognizes the importance of providing timely and essential information to all community members, including those with print disabilities, in an accessible format. DVR appreciates that HD 1 includes language providing explicit authorization for the Public Utilities Commission to use the State of Hawaii's Universal Service Program and Fund (USF) to provide access for individuals with print disabilities. However, it is unclear whether the USF is currently funded.

DVR looks forward to the day that it will be implemented.

Thank you for the opportunity to provide comments in support of this measure.

TESTIMONY OF LEODOLOFF R. ASUNCION, JR. CHAIR, PUBLIC UTILITIES COMMISSION STATE OF HAWAII

TO THE HOUSE COMMITTEE ON FINANCE

March 1, 2023 10:00 a.m.

Chair Yamashita, Vice Chair Kitagawa, and Members of the Committee:

MEASURE: H.B. No. 933. HD1

TITLE: RELATING TO TELECOMMUNICATIONS ACCESS FOR INDIVIDUALS WITH PRINT DISABILITIES.

DESCRIPTION: Requires the public utilities commission to use universal service fund moneys to provide free telecommunications access to certain information for individuals with print disabilities. Effective 7/1/3000. (HD1)

POSITION:

The Public Utilities Commission ("Commission") offers the following comments for consideration.

COMMENTS:

The Commission appreciates the intent of this measure to help support individuals with print disabilities through provision of free telecommunications access of certain information.

The Commission observes that the State of Hawaii's ("State") Universal Service Program and Fund ("USF"), while established in HRS §§ 269-41 and 269-42, and administrative rules promulgated as HAR chapter 6-81 has never been active due lack of authorization to start a State USF program, and further notes there are no funds in the State USF. The Commission appreciates the House Committee on Higher Education & Technology's amendments that provide the Commission explicit authority to draw from the State USF. It should be noted that in addition to the lack of authorization to start the USF program and the lack of funds in the State USF, the USF program does not have a budget H.B. No. 933, HD1 Page 2

authorization to expend funds beyond the Commission's currently contemplated budget ceiling. The Commission also notes that the federal USF is administered by the FCC for the purposes of assisting persons who have blindness and deafness.

Should this measure pass, the Commission will be required to undertake a proceeding to investigate the amounts to collect from telecommunication carriers before an order can be issued setting the amounts to be collected from telecommunication carriers.

Further, if the Legislature wishes to pass this measure, the Commission respectfully suggests it be provided a budget authorization to expend funds via an increase to its budget ceiling.

The Commission is willing to work with the Committee and stakeholders to further develop this new section in meeting the Legislature's intent.

Thank you for the opportunity to testify on this measure.

DISABILITY AND COMMUNICATION ACCESS BOARD

1010 Richards Street, Room 118 • Honolulu, Hawaii 96813 Ph. (808) 586-8121 (V) • TTY (808) 586-8162 • Fax (808) 586-8129

March 1, 2023

TESTIMONY TO THE HOUSE COMMITTEE ON FINANCE

House Bill 933 HD1 – Relating to Telecommunications Access for Individuals with Print Disabilities

The Disability and Communication Access Board (DCAB) supports the intent of House Bill 933 HD1 – Relating to Telecommunications Access for Individuals with Print Disabilities. This bill would require the Public Utilities Commission to use Universal Service Fund moneys to provide free telecommunications access to certain information for individuals with print disabilities.

The Americans with Disabilities Act (ADA) requires effective communication with people who have disabilities, including print disabilities. The goal is to ensure that communication with people with disabilities is equally effective as communication with people without disabilities. This bill would make time-sensitive information, including but not limited to, state and local government information, public notices, emergency alerts, job opportunities, and the daily newspaper, more accessible to individuals with print disabilities.

Thank you for the opportunity to provide testimony.

Respectfully submitted,

KIRBY L. SHAW Executive Director

Written Statement of Jeannine Souki Sr. Manager – Government & Regulatory Affairs

HOUSE COMMITTEE ON FINANCE

March 1, 2023, 2:00 PM State Capitol, Conference Room 308, Videoconference

COMMENTS FOR: H.B. 933, HD1 – RELATING TO TELECOMMUNICATIONS ACCESS FOR INDIVIDUALS WITH PRINT DISABILITIES

To: Representative Kyle T. Yamashita, Chair Representative Lisa Kitagawa, Vice Chair Members of the Committee on Finance

Re: Testimony providing comments for HB 933, HD1

Aloha Honorable Chair, Vice-Chair, and Committee Members:

Thank you for this opportunity to submit testimony for House Bill 933, HD1, to require the Public Utilities Commission ("PUC") to use the State Universal Service Fund ("State USF") to provide free telecommunication access to information for individuals with print disabilities.

While Hawaiian Telcom appreciates the intent of this bill, we are concerned about the increased costs to stand up the State USF program to provide services for individuals with print disabilities and that ultimately the telecommunication bills for our customers will be increased. This will make landline telecommunications services less affordable for current customers and especially burden low-income consumers. The number of consumers subscribing to landline phone service continues to decline each year, and adding another fee or charge to existing bills will likely accelerate consumers to switch to alternate services.

The primary purpose of a State USF program should continue to be the provision of affordable and reasonable rates for basic residential telecommunications services. Hawaiian Telcom is not aware of any other jurisdiction that uses its State USF program to provide free telecommunication access to information for individuals with print disabilities.

We respectfully request if the Committee decides to support this legislation that an alternate source of funds be allocated for the purposes of this legislation rather than through the State USF program.

Testimony of James Gashel Submitted for National Federation of the Blind of Hawaii Committee on Finance (FIN) Hawaii State House of Representatives Thirty-second Legislature, regular session of 2023 March 1, 2023, 10:00 AM, hearing on HB933 H.D.1

Good morning chair, vice chair, and members. I am James Gashel, representing the National Federation of the Blind (NFB) of Hawaii, proudly supporting HB933 H.D.1 on behalf of people with print disabilities of all ages throughout our state. Mahalo to representative Lamosao for sponsoring this bill with support of the Deaf and Blind Task Force. Thank you for scheduling this hearing.

HB933 H.D.1 is all about making information more accessible to anyone with a print disability. Blindness, visual impairment, and learning disabilities, including dyslexia are among the most prevalent forms of print disability. Lack of timely access to information can be a real, day in and day out problem for several thousand residents of our state who can't see or use standard print as their primary form of communication, leaving them at an information deficit even to read the daily newspaper or what's on sale at the store. Disabilities, like vision loss, often go with aging and can happen to anyone.

To address this situation, HB933 H.D.1 would authorize the Public Utilities Commission (PUC) to use telecommunications universal service funds to provide a free telephone service for persons with print disabilities that offers state and local government information (including public notices) and other information (including current daily newspapers, magazines, emergency alerts, job opportunities, and other timely content) using accessible formats.

Accessible formats provide information in an alternative manner or form that gives persons with print disabilities access to information equivalent to access for a person without a disability. These formats include converting printed information into audio, Braille, or both.

At the HET hearing, the PUC expressed willingness to work with the legislature and stakeholders to develop the program called for in HB933. Going further, the PUC said they need authorization from the legislature. Therefore, the H.D.1 version of this bill includes the PUC's suggested language.

Technology needed to obtain and convert information and distribute accessible formats is available and widely used in the U. S. Texas, Georgia, and ten other states on the mainland use their state universal service program funds to support the type of information services called for in HB933. If enacted, as proposed, the PUC would have a rule making proceeding which would better define the service and costs.

By way of full disclosure, NFB of Hawaii presently fulfills a contract with the Department of Human Services (DHS), resulting in some of the services described in HB933. This has been a

very successful program in Hawaii for several years. However, providing information services for persons with print disabilities is also a legitimate responsibility of the PUC through its Universal Service Program, analogous to support for telecommunications services for people who are deaf.

We appreciate the start-up support provided by DHS, but believe the PUC, more than DHS, should have long-range responsibility to support a continuing service. Mahalo for considering HB933 H.D.1. Members of the NFB of Hawaii strongly support this bill and hope you will do so too.

Comments:

Testimony of Tabatha Mitchell

Submitted for National Organization of Parents of Blind Children - Hawaii representative

Hawaii State House of Representatives

Thirty-second Legislature, regular session of 2023

Aloha members of the committee. I am Tabatha Mitchell, representing the National Organization of Parents of Blind Children where I proudly volunteer & serve the blind keiki & their parents throughout all of the Hawaiian Islands. We ask for your support for HB933 H.D.1. and thank you for holding this hearing.

My daughter is a Braille reader. She is a high school Jr now. When she was 3 she was identified as blind after being diagnosed with a very rare genetic disorder that resulted from a genetic mutation. She was totally disinterested in TV, which is how we entertain even the youngest of our keiki. She could not play board games. She could not do puzzles. She could not see baby board books. She could not flip through Highlights & look at the pictures and get interested in reading. She could not go to the public library to check out books because they don't carry Braille & tactile picture books and picture books as you know them have zero excitement for a blind child.

She could not do a whole lot of things - because she could not see. Our society, in general, was not built for blind people; let alone blind keiki.

But what our blind daughter COULD do was call Newsline. We found a landline phone that had big Braille buttons. She learned the keypad & learned to dial numbers on the phone because they were in her language - Braille. Not only was this how we introduced our daughter to Braille in her natural home environment, but this is how she accessed information about the world. She discovered that she could check the weather - on her own. She became the weather lady for our family of 7.

She became accustomed to Braille. It was part of her every day. Our family became accustomed to Braille - it was her language. This activity defused the concept that Braille was going to be SO hard to learn. Not just for her, but for our whole family and for all that came into our home and witnessed our little Eme dialing up the news & the weather on her Braille landline phone.

In addition, Newsline enabled her to be included in daily conversations. And to be included in our society and our culture of being informed. I often attribute her robust vocabulary and her current status as an honor student with her early exposure to Newsline - which she dialed up independently on her phone.

Fast forward ten years. I am currently working with a family of a very young blind child on the Big Island and they have the same struggles that we did. I was just talking with them about Newsline and how it works. I'm excited to share that it now contains fantastic content curated specifically for young kids - including Highlights & National Geographic for Kids. It is a tremendous resource for our blind keiki throughout the islands. A source for homework, a source for inclusion, and a source that will grow with them into adulthood & retirement!

Another blind student that I work with on Oahu is now being homeschooled because of lack of support in the public school system. Because of lack of training, he does not have strong technology skills & cannot efficiently use a phone or computer with a screenreader. I was just teaching his parents about Newsline and how he could use it to study current events and obtain many educational resources as they try to get on their feet and learn to homeschool.

Unfortunately, the number of parents forced to homeschool their blind keiki due to frustration with lack of support has grown over the years, and Newsline is a critical resource for them. I urge you to support HB933 H.D.1. It is a tremendous value to our blind keiki throughout Hawaii, and a resource for the blind that many depend upon daily.

Comments:

Hello committee chair, vice chair and members, I wish to state my full support for hb933 h.d.1 as ammended by the PUC. I support the testimony offered on behalf of the National Federation of the Blind. I myself am blind and access material made available every day. I am retired and consume as much newspaper content every morning as I can. There are various ways to access this content either as text-to-speech or Braille.

Email: cylonone@aol.com

Testimony of Donald Sakamoto Member, National Federation of the Blind of Hawaii Committee on Finance (FIN) Hawaii State House of Representatives Thirty-second Legislature, regular session of 2023 March 1, 2023, 10:00 AM, on hearing House Bill 933 HD1

Good morning chair, vice chair, and members. I am Donald Sakamoto, a member of the National Federation of the Blind (NFB) of Hawaii, strongly supporting HB933 H.D.1 for those individuals who are experiencing with print disabilities of all ages in our state. In fact, this particular bill would require the Public Utilities Commission (PUC) to use Universal Service Fund moneys to provide free telecommunications access to certain information for individuals with print disabilities or such as me and others who are blind or visually impaired.

In July 29, 1990 some 32 years ago The Americans with Disabilities Act (ADA) was passed by both the U. S. congress and Senate and signed into law by the President during that time in which it requires effective communication with people who have disabilities, including print disabilities, blind and visually impaired. The goal is to ensure that communication with people with disabilities is equally effective as communication with those people without disabilities. This bill would make time-sensitive information, including but not limited to, state and local government information, public notices, job opportunities, and daily newspapers, more accessible to individuals with print disabilities such as the blind or visually impaired.

My group and I appreciate the Public Utilities Commission's help with authorizing language now in HB933 H.D.1, and the Commission's willingness to work with the legislature and stakeholders to further develop this new section. Now is the time to prepare to have this bill proceed on to have better access for those individuals who are experiencing print disabilities, etc. Famous "by failing to prepare, you are preparing to fail" by Benjamin Franklin.

Mahalo for considering HB933 H.D.1, and I kindly urge you all to support this important bill.

Brandon Young

2/27/2023

Committee on Finance (FIN) Hawaii State House of Representatives Thirty-second Legislature, regular session of 2023 March 1, 2023, 10:00 AM, hearing on HB933 H.D.1

Dear Chair and other committee members,

My name is Brandon Young and I am a member of the National Federation of the Blind of Hawaii Honolulu Chapter. I am writing in support of HB 933 HD1. This bill is very important to the lives of the blind and visually impaired of Hawaii. I am in favor of this bill and would wish that you pass it along.

This measure is important to the blind and visually impaired community because it would provide funding from the Public Utilities Commission (PUC) to provide a services that is very important to the blind and visually impaired of Hawaii. This telephonic services allows the blind and visually impaired to access the newspaper from Hawaii and all around the world. It also allows them to access to job listing and store coupons. This services allows the blind and visually impaired of Hawaii to live independently. I want to thank you and your committee for taking the time to schedule our bill for this hearing. I wish that you pass it along because it will really help our community. Thank you for your time and have a wonderful day. Testimony of Virgil Stinnett Committee on Finance (FIN) Hawaii State House of Representatives Thirty-second Legislature, regular session of 2023 March 1, 2023, 10:00 AM, hearing on HB933 H.D.1

Good morning chair, vice chair, and members. I am Virgil Stinnett, President of the National Federation of the Blind of Hawai'i and a local businessman. I proudly support HB933 H.D.1 on behalf of people with print disabilities of all ages throughout our state. Thank you for considering this important bill and for scheduling this hearing.

Critical to my participation locally and nationally, I am able to use the Newsline telephonic service which gives me access to important business journals, breaking news, otherwise not available to me in traditional formats. Local events, political information, engage equally with my business peers, community service, and so much more, including receipt of critical emergency and weather alerts otherwise not always accessible or available to me and others who are blind and print disabled.

HB933 H.D.1 is all about making information more accessible to anyone with a print disability. Blindness, visual impairment, and learning disabilities, including dyslexia are among the most prevalent forms of print disability.

I stand in strong support of testimony submitted by The National Federation of the Blind of Hawai'i.

Mahalo for your support and consideration of passing this bill, a vital step to ensure the continuation of accessible Newsline telephonic services in Hawai'i.

Testimony of Hoku Burrows Committee on Finance (FIN) Hawaii State House of Representatives Thirty-second Legislature, regular session of 2023 March 1, 2023, 10:00 AM, hearing on HB933 H.D.1

Good morning chair, vice chair, and members. I amHoku Burrows, a member of the National Federation of the Blind of Hawaii, in full support of HB933 H.D.1.

As a local blind kapuna, using the telephonic service to gain and access information is critical to my staying on top of local and national announcements, emergency alerts, news that keeps me involved in my world that otherwise I would be isolated from. I stand in very strong support of the testimony submitted by the National Federation of the Blind of Hawai'i.

Please take our testimony and cry for access seriously as you decide to vote yes to this important bill. Mahalo nui loa!

Testimony of Katie Keim Committee on Finance (FIN) Hawaii State House of Representatives Thirty-second Legislature, regular session of 2023 March 1, 2023, 10:00 AM, hearing on HB933 H.D.1

Good morning chair, vice chair, and members. My name is Katie Keim, a member and leader in the National Federation of the Blind of Hawai'i and a local blind professional. I fully support HB933 H.D.1.

As a blind professional woman residing in Honolulu, I use the Newsline telephonic service as my access to local events, information that otherwise requires reading print or digital inaccessible material. Through a variety of digital devices that are accessible to me, I am able to stay abreast of political, community and other important information that allows me to fully participate in my community and my colleagues.

HB933 H.D.1 is all about making information more accessible to anyone with a print disability. Blindness, visual impairment, and learning disabilities, including dyslexia are among the most prevalent forms of print disability.

I stand in strong support of testimony submitted by The National Federation of the Blind of Hawai'i.

Mahalo for your support and serious consideration of a yes vote to pass this important bill this session.

Testimony of Emerie Mitchell-Butler

Committee on Finance (FIN)

Hawaii State House of Representatives

Thirty-second Legislature, regular session of 2023

March 1, 2023, 10:00 AM, hearing on HB933 H.D.1

Good morning chair, vice chair, and members. My name is Emerie Mitchell-Butler. As a blind person living in Hawaii, I strongly support HB933.

Information is everywhere, and some of it is vital for us to know. However, this information, such as the newspaper, job listings, and public service announcements, often come in the form of print. However, many Hawaii residents have a print disability and therefore can't benefit from this information. I, as a blind person, also cannot read print. I would benefit from this vital information in an alternative format I can consume.

Please support this bill so everyone has equal access to information. Everyone needs to know what is happening and what opportunities are available in their community.

Thank you for the opportunity to testify.

Emerie Mitchell-Butler
