In consideration of SENATE BILL 2757 RELATING TO HISTORIC PRESERVATION

Senate Bill 2757 proposes to appropriate funds to initiate the development of a comprehensive statewide inventory of historic properties and burial sites. The Department of Land and Natural Resources (Department) strongly supports this measure.

Senate Bill 2757 would appropriate \$2.1 million to the Department to undertake the surveys necessary to develop a comprehensive statewide survey of historic properties and burial sites. As far as the Department is aware, development of a comprehensive inventory has never been funded.

The Department believes that the implementation of a comprehensive survey is essential to meeting the goals set in the establishment of the State Historic Preservation Division (SHPD) in Section 6E-3, Hawaii Revised Statutes (HRS). SHPD does maintain an inventory, but it relies almost entirely on the supporting data provided by agencies and project sponsors submitted as part of the project review processes established by Sections 6E-8, 6E-10, 6E-42, HRS, and under federal law. As a result, SHPD's inventory has limited geographic coverage and, even in 'high' development areas, is incomplete. In the absence of better inventory data, it is impossible for SHPD to assess the condition of Hawaii's historic resources. A comprehensive inventory would provide information essential to managing and protecting the state's heritage resources.

In addition, a comprehensive inventory would greatly facilitate project development and permit review by allowing project planners, designers, and consultants to take the presence of historic properties and burial sites into account in siting their projects and in design from the earliest stages of project planning rather than after major planning and design decisions have been as often happens now. It would facilitate permit review as information on historic properties and burials would be available to permitting agencies allowing them to make better decisions about

The inventory would also assist SHPD in making better decisions on those projects it does receive for review, and expedite the review process as SHPD will have more of the essential data for its review already at hand.

The Department also notes that while Senate Bill 2757 appropriates a significant level of funding, it is not sufficient to complete inventory of the entire state. The Department believes that this funding represents the first phase of the multi-year effort necessary to complete the statewide survey. SHPD will have to contract nearly all of the work necessary to carry out the inventory effort. Consequently, the Department believes that funding at a higher level in an effort to shorten the length of time it would take to complete an inventory would not be effective as a higher level of funding would be very difficult for SHPD to administer given existing staffing and resources. It would also almost certainly exceed present the capacity of consulting firms in Hawaii to carry out the work.

Thank you for the opportunity to comment on this measure.

WRITTEN ONLY TESTIMONY BY CRAIG K. HIRAI DIRECTOR, DEPARTMENT OF BUDGET AND FINANCE TO THE SENATE COMMITTEE ON WATER AND LAND ON SENATE BILL NO. 2757

February 2, 2022 1:00 p.m. Room 229 and Videoconference

RELATING TO HISTORIC PRESERVATION

The Department of Budget and Finance (B&F) offers comments on this bill.

Senate Bill No. 2757 provides funds for the development of a comprehensive

inventory of historic properties and burial sites in the State of Hawai'i and appropriates

\$2,100,000 in general funds in FY 23 to be expended by the Department of Land and

Natural Resources for this purpose.

B&F notes that the federal Coronavirus Response and Relief Supplemental

Appropriations Act requires that states receiving Elementary and Secondary School

Emergency Relief (ESSER) II funds and Governor's Emergency Education Relief II

funds must maintain state support for:

- Elementary and secondary education in FY 22 at least at the proportional level of the state's support for elementary and secondary education relative to the state's overall spending, averaged over FYs 17, 18 and 19; and
- Higher education in FY 22 at least at the proportional level of the state's support for higher education relative to the state's overall spending, averaged over FYs 17, 18 and 19.

Further, the federal American Rescue Plan (ARP) Act requires that states receiving ARP ESSER funds must maintain state support for:

- Elementary and secondary education in FY 22 and FY 23 at least at the proportional level of the state's support for elementary and secondary education relative to the state's overall spending, averaged over FYs 17, 18 and 19; and
- Higher education in FY 22 and FY 23 at least at the proportional level of the state's support for higher education relative to the state's overall spending, averaged over FYs 17, 18 and 19.

The U.S. Department of Education has issued rules governing how these maintenance of effort (MOE) requirements are to be administered. B&F will be working with the money committees of the Legislature to ensure that the State of Hawai'i complies with these ESSER MOE requirements.

Thank you for your consideration of our comments.

- HEARING: February 2, 2022, 1:00PM, Conference Room 229 & Videoconference
- SUBJECT: Testimony regarding SB 2757, Relating to Historic Preservation

I am Mara Mulrooney, President of the Society for Hawaiian Archaeology (SHA). We have over 150 members including professional archaeologists and advocates of historic preservation. On behalf of SHA, we support SB 2757.

The intent of SB 2757 is to provide adequate funding and resources that will enable the staff of the Department of Land and Natural Resources (DLNR) State Historic Preservation Division (SHPD) to conduct comprehensive inventories of Hawai'i's irreplaceable historic properties and burial sites. The SHPD relies on the documentation submitted in support of reviews for projects and knowledge gained from individuals and the public. These invaluable resources contribute new information to the division's existing data.

SHPD experiences difficulties when collecting data as portions of historic buildings and burial sites are located in undeveloped or restricted areas around the State. SHPD's current database does not provide accurate accounts or comprehensive information due to such restrictions. These difficulties hinder the division's responsibilities to provide key information on a site's location. In many instances, SHPD does not acquire such information until a permit application is addressed.

Therefore, SB 2757 appropriates the adequate funding to SHPD to develop a comprehensive and complete inventory of Hawai'i's historic properties and burial sites. SB 2757 ensures better protection of vulnerable historic properties, and to provide more accountability and transparency in historic preservation compliance, as managed by SHPD.

Should SB 2757 pass out of this committee, we request to be consulted as a stakeholder in future deliberations on an amended bill. Should you have any questions, please feel free to contact me at the above email.

Mahalo for the opportunity to comment.
