
A BILL FOR AN ACT

RELATING TO RURAL DISTRICTS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that given the shortage
2 of housing in Hawaii, the counties should be permitted to
3 increase density in state-designated rural districts. Under
4 current state law, only one dwelling unit is permitted on one-
5 half acre -- 21,780 square feet -- of land in a rural district.
6 The legislature further finds that giving counties the option of
7 adopting ordinances to allow dwellings on each quarter-acre will
8 increase housing opportunities where appropriate.

9 Accordingly, the purpose of this Act is to allow the
10 counties to determine the appropriateness of allowing dwellings
11 on each quarter-acre, rather than half-acre, of lands in rural
12 districts; provided that the ordinances are consistent with the
13 county general plan and community development plan.

14 SECTION 2. Section 205-2, Hawaii Revised Statutes, is
15 amended as follows:

16 1. By amending subsection (a) to read:

1 "(a) There shall be four major land use districts in which
2 all lands in the State shall be placed: urban, rural,
3 agricultural, and conservation. The land use commission shall
4 group contiguous land areas suitable for inclusion in one of
5 these four major districts. The commission shall set standards
6 for determining the boundaries of each district, provided that:

7 (1) In the establishment of boundaries of urban districts,
8 those lands that are now in urban use and a sufficient
9 reserve area for foreseeable urban growth shall be
10 included;

11 (2) In the establishment of boundaries for rural
12 districts, areas of land composed primarily of small
13 farms mixed with very low density residential lots,
14 which may be shown by a minimum density of not more
15 than one house per [~~one-half~~] one-quarter acre and a
16 minimum lot size of not less than one-half acre shall
17 be included, except as herein provided;

18 (3) In the establishment of the boundaries of agricultural
19 districts, the greatest possible protection shall be

1 given to those lands with a high capacity for
2 intensive cultivation; and
3 (4) In the establishment of the boundaries of conservation
4 districts, the "forest and water reserve zones"
5 provided in Act 234, section 2, Session Laws of Hawaii
6 1957, are renamed "conservation districts" and,
7 effective as of July 11, 1961, the boundaries of the
8 forest and water reserve zones theretofore established
9 pursuant to Act 234, section 2, Session Laws of Hawaii
10 1957, shall constitute the boundaries of the
11 conservation districts; provided that thereafter the
12 power to determine the boundaries of the conservation
13 districts shall be in the commission.
14 In establishing the boundaries of the districts in each county,
15 the commission shall give consideration to the master plan or
16 general plan of the county."

17 2. By amending subsection (c) to read:

18 "(c) Rural districts shall include activities or uses as
19 characterized by low density residential lots of not more than
20 one dwelling house per [~~one-half~~] one-quarter acre, except as

1 provided by county ordinance pursuant to section 46-4(c) [7] and
2 provided that each dwelling house shall be consistent with the
3 county general plan and community development plans, in areas
4 where "city-like" concentration of people, structures, streets,
5 and urban level of services are absent, and where small farms
6 are intermixed with low density residential lots except that
7 within a subdivision, as defined in section 484-1, the
8 commission for good cause may allow one lot of less than
9 one-half acre, but not less than [~~eighteen thousand five hundred~~
10 ~~square feet,~~] one-quarter acre, or an equivalent residential
11 density, within a rural subdivision and permit the construction
12 of one dwelling on [~~such~~] the lot; provided that all other
13 dwellings in the subdivision shall have a minimum lot size of
14 one-half acre or 21,780 square feet. [~~Such~~] The petition for
15 variance may be processed under the special permit procedure.
16 These districts may include contiguous areas [~~which~~] that are
17 not suited to low density residential lots or small farms by
18 reason of topography, soils, and other related characteristics.
19 Rural districts shall also include golf courses, golf driving
20 ranges, and golf-related facilities.

1 In addition to the uses listed in this subsection, rural
2 districts shall include geothermal resources exploration and
3 geothermal resources development, as defined under section
4 182-1, and construction and operation of wireless communication
5 antenna, as defined under section 205-4.5(a)(18), as permissible
6 uses."

7 SECTION 3. Section 205-5, Hawaii Revised Statutes, is
8 amended by amending subsection (c) to read as follows:

9 "(c) Unless authorized by special permit issued pursuant
10 to this chapter, only the following uses shall be permitted
11 within rural districts:

- 12 (1) Low density residential uses;
- 13 (2) Agricultural uses;
- 14 (3) Golf courses, golf driving ranges, and golf-related
15 facilities;
- 16 (4) Public, quasi-public, and public utility facilities;
17 and
- 18 (5) Geothermal resources exploration and geothermal
19 resources development, as defined under section 182-1.

H.B. NO. 1751

1 In addition, the minimum lot size for any low density
2 residential use shall be one-half acre and there shall be but
3 one dwelling house per [~~one-half~~] one-quarter acre[~~7~~]; provided
4 that each dwelling house shall be consistent with the county
5 general plan and community development plan, except as provided
6 for in section 205-2."

7 SECTION 4. Statutory material to be repealed is bracketed
8 and stricken. New statutory material is underscored.

9 SECTION 5. This Act shall take effect upon its approval.
