# A BILL FOR AN ACT

RELATING TO CONSUMER PROTECTION.

#### BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the theft of 2 personal items may significantly impact a person financially as 3 well as in other ways, such as the loss of work data or school notes on a laptop or the loss of memories on a cellular phone. 4 5 Bicycle thefts further impact the State's sustainability goals of reducing carbon emissions and utilizing low carbon 6 7 transportation as residents are inhibited in investing in and 8 using bicycles for transportation. Reducing resale 9 opportunities for these items is one way to decrease the 10 motivation to steal them.

11 The legislature further finds that while bicycles are
12 required to be registered with the county and the failure to do
13 so subjects the owner to fines, these requirements have been
14 insufficient to stop the theft and subsequent resale of
15 bicycles. The legislature believes that the creation of a
16 publicly available database of stolen bicycle serial and emblem

numbers would help deter the theft of bicycles and the resale of
 stolen bicycles.

3 The legislature notes that stolen items are occasionally 4 resold through pawnshops, businesses that purchase secondhand 5 items, and online sales platforms. Businesses with a physical 6 presence and monetary transactions in the State must be licensed 7 to operate and are required to submit records of transaction to 8 county police departments. However, records of these 9 transactions are currently being submitted in hard copy. This 10 manual inputting of data by the county police departments 11 creates an unnecessary lag and is an impediment to quickly 12 comparing and identifying potentially stolen items against 13 itemized lists from recent burglaries and thefts.

14 The legislature also finds that allowing pawnbrokers and 15 secondhand dealers to submit electronic records will enable 16 county police departments to process these records in a more 17 efficient manner and decrease the time frame for record 18 retention. Authorizing electronic submittal for records of 19 transaction would also allow articles to be properly 20 categorized, listed, itemized, and accounted in real time. An 21 electronic submission system that contains detailed descriptions

1 or pictures of all markings, inscriptions, serial numbers of 2 bicycles, and serial numbers of electronics would allow 3 detectives to quickly identify stolen items and could be shared 4 to other law enforcement agencies in the State. 5 The purpose of this Act is to: 6 (1) Prohibit, in counties with a population of five 7 hundred thousand or more, the sale of a bicycle that 8 is reported as stolen and listed on a publicly 9 available online stolen item database; 10 (2) Require the police department in counties with a 11 population of five hundred thousand or more to 12 establish the publicly available online stolen bicycle 13 database; and 14 (3) Update the recordkeeping and retention requirements 15 for businesses that purchase previously owned 16 articles. 17 SECTION 2. Chapter 293, Hawaii Revised Statutes, is 18 amended by adding a new section to be appropriately designated and to read as follows: 19 20 "§293- Prohibition of sale; stolen. (a) In any county 21 with a population of five hundred thousand or more, no person
