
A BILL FOR AN ACT

RELATING TO FOOD SAFETY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the popularity of
2 Hawaii-made sea salt products is on the rise. Sea salt products
3 colored with Hawaiian charcoal, volcanic clay, and other natural
4 ingredients help to promote the State's brand.

5 The legislature further finds that addressing the federal
6 Food and Drug Administration's industry guidance regarding the
7 use of color additives in sea salt products should be a state
8 priority. This guidance indicates that sea salt manufacturers
9 that intend to use color additives not currently approved for
10 food use should first obtain approval through the federal Food
11 and Drug Administration's color additive petition process.

12 The purpose of this Act is to ensure the continued
13 viability of the State's sea salt manufacturing industry by
14 appropriating funds to provide education and support to local
15 businesses regarding the federal Food and Drug Administration's
16 industry guidance on colored sea salt.

H.B. NO. 2307

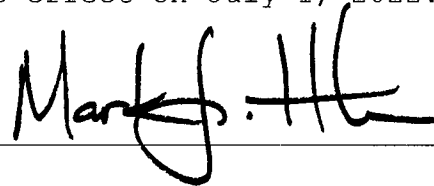

1 SECTION 2. There is appropriated out of the general
2 revenues of the State of Hawaii the sum of \$ or so
3 much thereof as may be necessary for fiscal year 2022-2023 to
4 provide education and support to businesses in the State
5 regarding the federal Food and Drug Administration's industry
6 guidance on colored sea salt.

7 The sum appropriated shall be expended by the department of
8 agriculture for the purposes of this Act.

9 SECTION 3. This Act shall take effect on July 1, 2022.

10

INTRODUCED BY:

JAN 25 2022

H.B. NO. 2307

Report Title:

Food Safety; Sea Salt Products; Color Additives; Department of Agriculture; FDA; Appropriation

Description:

Appropriates funds to the department of agriculture to provide education and support to local businesses regarding the federal Food and Drug Administration's industry guidance on colored sea salt.
