
A BILL FOR AN ACT

RELATING TO FARM TO SCHOOL PROCUREMENT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that building farm to
2 school connections can improve student access to healthy, local
3 foods, provide numerous public health benefits, and contribute
4 to the local agricultural industry. The National Farm to School
5 Network reports that increasing local food procurement in
6 schools provides economic benefits to school districts by
7 increasing student and teacher meal participation and decreasing
8 school meal program costs.

9 The legislature also finds that local food procurement
10 provides economic benefits to local food systems by providing a
11 long-term revenue stream for farmers and other food producers,
12 promoting market diversification, and increasing income and
13 economic growth opportunities for individual farmers. The 2008
14 Farm Bill directed the Secretary of Agriculture to encourage
15 schools to purchase unprocessed locally grown and locally raised
16 products "to the maximum extent practicable and appropriate."
17 The Secretary was also instructed to allow child nutrition

1 program operators to use a "geographic preference" when
2 procuring unprocessed locally grown and locally raised
3 agricultural products.

4 The purpose of this Act is to require the department of
5 education to adopt rules for the procurement of goods and
6 services related to the administration of food programs at
7 public schools that incorporate a geographic preference for
8 unprocessed locally grown and locally raised agricultural
9 products. This Act will thereby facilitate the increase of
10 locally grown and locally raised food products from Hawaii
11 farmers, ranchers, and food producers and allow school complexes
12 to regionalize their menus.

13 SECTION 2. Chapter 302A, Hawaii Revised Statutes, is
14 amended by adding a new section to be appropriately designated
15 and to read as follows:

16 **"§302A- Food program; procurement; geographic**
17 **preference; exemption.** (a) The department shall adopt rules
18 pursuant to chapter 91 for the procurement of goods and services
19 related to the administration of food programs at public schools
20 that incorporate a geographic preference for unprocessed locally
21 grown and locally raised agricultural products.

1 (b) The rules shall be in accordance with federal guidance
2 on geographic preference pursuant to the final rule published on
3 April 22, 2011, 76 Federal Register 22603, et seq.

4 (c) The rules shall also incorporate requirements for:

5 (1) Maintaining internal policies and procedures for the
6 timely and efficient procurement of goods and
7 services, including post-award contract management and
8 oversight procedures, that are consistent with the
9 goals of public accountability and public procurement
10 practices;

11 (2) Posting the following information on the department's
12 website:

13 (A) Procurement policies;

14 (B) All solicitations, including any bid openings and
15 additional solicitation documents; and

16 (C) All contracts awarded by the department for goods
17 and services related to the administration of
18 food programs at public schools that incorporate
19 a geographic preference for unprocessed locally
20 grown and locally raised agricultural products,

1 including contracts involving realizations and
2 in-kind benefits;
3 (3) Prohibiting contracts involving cost plus percentage
4 of cost pricing calculations;
5 (4) Considering quality, delivery, best value,
6 sustainability, nutritional value, and past
7 performance when determining the most advantageous
8 proposal;
9 (5) Prohibiting artificial division or parceling that
10 would avoid competitive bidding or competitive
11 proposals; and
12 (6) Implementing a dispute resolution process for
13 procurement award and post-award contract actions.
14 (d) All contracts made for the procurement of goods and
15 services pursuant to rules adopted under this section shall
16 include a period of performance.
17 (e) Nothing in this section shall be construed to permit
18 the awarding of contracts based on geographic preference to
19 supersede the competitive bidding process."

20 SECTION 3. New statutory material is underscored.

21 SECTION 4. This Act shall take effect on July 1, 2050.

H.B. NO. 702 H.D. 1

Report Title:

Public School Food Programs; Farm to School; Department of Education; Geographic Preference; Locally Grown Food

Description:

Requires the department of education to establish rules for the procurement of goods and services related to the administration of food programs at public schools that incorporate a geographic preference for unprocessed locally grown and locally raised food products. Effective 7/1/2050. (HD1)
