13

14 WHEREAS, Hawaii has one of the worst homeless rates in the

23 WHEREAS, the average mortgage in Hawaii currently is over
24 \$600,000 which is nearly impossible to support every month at

26

BE IT FURTHER RESOLVED that the Department of Hawaiian Home Lands is requested to consider the following potential solutions:

- (1) Awarding a flexible ninety-nine-year lease, which could be used to live in a tent or other temporary structure in an off-grid village, and with terms that may change as the lessee's financial situation changes;
- (2) Duplicating the Puuhonua O Waianae, Kings Landing, or Bumpy Kanahale model on every island, where very low income beneficiaries can live village-style and off the grid;
- (3) Allowing beneficiaries who receive vacant lots from the waitlist, to live in temporary structures off the grid until their financial situation improves; and
- (4) If a beneficiary has been on the waitlist for five years or more, then buys a home outside of the homestead, the Department of Hawaiian Home Lands should pay their land tax; and

BE IT FURTHER RESOLVED that certified copies of this Concurrent Resolution be transmitted to the Chairperson of the Department of Hawaiian Home Lands and the Chairperson of the Office of Hawaiian Affairs.
