

JAN 21 2022

A BILL FOR AN ACT

RELATING TO THE CENTER FOR NURSING.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that Act 198, Session
2 Laws of Hawaii 2003 (Act 198), established the Hawaii state
3 center for nursing (HSCN) to collect and analyze data and
4 prepare and disseminate written reports and recommendations
5 regarding the current and future status and trends of the
6 nursing workforce; conduct research on best practices and
7 quality outcomes; develop a plan for implementing strategies to
8 recruit and retain nurses; and research, analyze, and report
9 data related to the retention of the nursing workforce. Act 198
10 also requires that nurses shall fund the activities of the HSCN
11 through an additional fee assessed upon the issuance and renewal
12 of each nurse license.

13 The legislature further finds that, since 2003, the HSCN
14 has created multiple statewide initiatives and programs to
15 address nursing workforce needs, prevent anticipated workforce
16 shortages, and conduct workforce research on the nursing supply
17 and education capacity for nurse education. Many of these

1 programs are notable for being the first statewide programs in
2 the nation and having broad partnerships with nursing employers
3 and schools of nursing. Specifically, the HSCN's Hawaii
4 Academic Progression in Nursing initiative led the State to
5 become the most highly educated nursing workforce in the nation
6 by 2019. The outcomes of increasing the minimum education for
7 nurses include improved patient care and safety; reduction in
8 readmission rates, lengths of stay, and deaths; and improved
9 cost savings. Additionally, the HSCN led the State in
10 developing the Hawaii Nurse Residency Program Collaborative,
11 which as of 2020, has facilitated the hiring and support of over
12 one thousand new graduate nurses in their first year of
13 employment and increased retention rates.

14 The legislature further finds that HSCN has helped increase
15 access to health care services in rural and underserved
16 communities in the State through policy reforms, program
17 development, and initiating changes in the nursing environment.
18 Through collaborative efforts led by the HSCN, the advanced
19 practice registered nurse workforce in the State has doubled,
20 making health care more accessible especially for neighbor
21 island residents.

1 The legislature further finds that the HSCN has maintained
2 continuous workforce research efforts since 2007 and improved
3 the visibility of the nursing workforce and education capacity.
4 Most recently, the HSCN produced data reports that the
5 department of health and the Hawaii emergency management agency
6 used for crisis response, vaccination planning, and other uses.
7 The HSCN continues to play a critical role in the response to
8 the coronavirus disease 2019 (COVID-19) pandemic. The HSCN also
9 participated in increasing relevant, locally-produced, and
10 accredited nursing professional development content on COVID-19
11 for nurses in all settings of care, and co-led an initiative
12 with stakeholders to identify and tactically respond to provider
13 shortages.

14 The legislature further finds that, since 2003 when the
15 center for nursing fee was established, the cost of goods and
16 services have increased in Hawaii. Additionally, the
17 legislature finds that challenges to securing adequate nursing
18 workforce supply survey responses have severely limited the
19 HSCN's ability to continue to inform policy makers, health care
20 leaders, and others on the availability and characteristics of
21 the nursing workforce in the State. Therefore, to ensure public

1 safety during episodes of critical health care demands,
2 including pandemics and natural disasters, as well as providing
3 robust nursing care and a resilient nursing workforce at all
4 times, the purpose of this Act is to:

5 (1) Require all nurses to respond to the center for
6 nursing workforce supply survey in conjunction with
7 license renewal; provided that license renewal shall
8 not be contingent upon responding to the workforce
9 supply survey and failure to respond to the workforce
10 supply survey shall not result in encumbrance of the
11 nurse's license; and

12 (2) Increase the center for nursing fee from \$40 per
13 license biennium to \$60 per license biennium.

14 SECTION 2. Section 457-9, Hawaii Revised Statutes, is
15 amended by amending subsection (a) to read as follows:

16 "(a) The license of every person licensed or granted
17 prescriptive authority shall expire on June 30 of every odd-
18 numbered year and shall be renewed biennially, except as
19 provided in this section. Biennially in each odd-numbered year,
20 the board shall make available an application for renewal of
21 license before the deadline set forth by the board to every

1 person to whom a license was issued or renewed during the
2 biennium. The applicant shall complete the application and
3 submit it to the board with a renewal fee, and shall also
4 submit, beginning with the July 1, 2019, licensing biennium, a
5 full set of electronic fingerprints for the purpose of obtaining
6 federal and state criminal history record checks in accordance
7 with section 846-2.7 directly to the Hawaii criminal justice
8 data center for processing with the Federal Bureau of
9 Investigation. The applicant shall bear the cost of the
10 fingerprint processing and the application shall not be
11 considered complete until the results of the criminal history
12 record check has been received by the board; and all required
13 documents on or before the deadline set by the board. The
14 applicant shall provide documents from proper agencies or
15 parties of any criminal conviction or any disciplinary action
16 taken or pending in this State or any other state in the United
17 States or any territory or possession under the jurisdiction of
18 the United States within the two years prior to application for
19 renewal of license. Upon receipt of the application and fee,
20 the board shall verify the accuracy of the application and issue
21 to the applicant a certificate of renewal for the biennium

1 expiring two years hence on the deadline set by the board. The
2 renewal shall render the holder thereof a legal practitioner of
3 nursing for the period stated on the renewal form. The
4 applicant shall respond to the center for nursing workforce
5 supply survey in conjunction with license renewal; provided that
6 license renewal shall not be contingent upon responding to the
7 center for nursing workforce supply survey and failure to
8 respond to the center for nursing workforce supply survey shall
9 not result in encumbrance of the applicant's license; provided
10 further that, for purposes of this subsection, "center for
11 nursing workforce supply survey" means the nursing workforce
12 supply survey conducted biennially by the center for nursing
13 that asks nurses to provide information about their
14 demographics, specialty, setting of work, and other information
15 necessary to inform the State on the status and characteristics
16 of the State's nursing workforce."

17 SECTION 3. Section 457-9.5, Hawaii Revised Statutes, is
18 amended by amending subsection (a) to read as follows:

19 "[+] (a) [+]" Upon the issuance of a new license and at each
20 license renewal period, each nurse shall pay an additional fee
21 of [~~\$40,~~] \$60, which shall be deposited in a separate account in

S.B. NO. 2274

1 the compliance resolution fund established pursuant to section
2 26-9(o)."

3 SECTION 4. Statutory material to be repealed is bracketed
4 and stricken. New statutory material is underscored.

5 SECTION 5. This Act shall take effect on July 1, 2022.

6

INTRODUCED BY: Rosely H. Baker

S.B. NO. 2274

Report Title:

Center for Nursing; Workforce Supply Survey; License Fees; Increase

Description:

Requires all nursing license applicants to respond to the center for nursing workforce supply survey in conjunction with license renewal, provided that the license renewal shall not be contingent upon responding to the workforce supply survey and failure to respond to the workforce supply survey shall not result in encumbrance of the nurse's license. Increases the center for nursing fee from \$40 to \$60 per license biennium.
