A BILL FOR AN ACT

RELATING TO HEALTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 PART I

2 SECTION 1. The legislature finds that pharmacies are vital
3 to the healthcare system because of their convenient points of
4 access in the community. Pharmacists are trusted health care
5 professionals who have established relationships with their
6 patients, medical providers, and hospitals.

7 The legislature further finds that pharmacists in the State
8 are legally permitted to order and perform drug therapy related
9 tests. One interpretation of this provision is that these
10 assessment procedures include tests waived in accordance with
11 the Clinical Laboratory Improvement Amendments of 1988, which
12 are routine tests that are exempted from regulation under the
13 federal laboratory requirements under the Clinical Laboratory
14 Improvement Amendments of 1988. Clinical Laboratory Improvement
15 Amendments waived tests are simple tests that are non-technical
16 and have a low risk for erroneous results. Most Clinical
17 Laboratory Improvement Amendments waived tests are approved by

1 the Federal Drug Administration for home use; employ simple
2 methodologies that are so accurate as to render the likelihood
3 of erroneous results negligible; use unprocessed specimens,
4 including blood or oral fluids; and pose very little reasonable
5 risk of harm to the patient if performed incorrectly. Some
6 examples of Clinical Laboratory Improvement Amendments waived
7 tests include blood glucose monitoring tests, cholesterol
8 monitoring tests, and, recently, coronavirus disease 2019
9 (COVID-19) tests.

10 Notwithstanding the existing authority for pharmacists to
11 perform assessment procedures, under current department of
12 health regulations, pharmacies that perform Clinical Laboratory
13 Improvement Amendments waived tests are required to partner with
14 a clinical laboratory director to sign-off on the application to
15 perform the tests. This requirement places Hawaii in a minority
16 of states that still require a laboratory director to sign off
17 on Clinical Laboratory Improvement Amendments waiver
18 applications. Most states instead allow the
19 pharmacist-in-charge of a pharmacy to sign applications for the
20 purpose of authorizing Clinical Laboratory Improvement
21 Amendments waived testing.

1 "Clinical laboratory director" means a person who is
2 responsible for the administrative, technical, and scientific
3 operation of a clinical laboratory, including the supervision of
4 procedures for testing and the reporting of the test results.

5 "Laboratory director" includes the following:

6 (1) A physician licensed to practice medicine or
7 osteopathy under chapter 453; and

8 (2) For clinical laboratory tests or examinations
9 classified as waived:

10 (A) A duly licensed clinical laboratory scientist;
11 and

12 (B) A pharmacist-in-charge of a pharmacy serving as
13 the director of a laboratory that only performs
14 tests waived pursuant to the Clinical Laboratory
15 Improvement Amendments of 1988 (42 U.S.C. §263a)
16 or that performs the collection of a specimen
17 that is processed by a clinical laboratory."

18 SECTION 3. Section 461-1, Hawaii Revised Statutes, is
19 amended by amending the definition of "practice of pharmacy" to
20 read as follows:

21 "Practice of pharmacy" means:

- 1 (1) The interpretation and evaluation of prescription
2 orders; the compounding, dispensing, and labeling of
3 drugs and devices (except labeling by a manufacturer,
4 packer, or distributor of nonprescription drugs and
5 commercially legend drugs and devices); the
6 participation in drug selection and drug utilization
7 reviews; the proper and safe storage of drugs and
8 devices and the maintenance of proper records
9 therefor; the responsibility for advising when
10 necessary or where regulated, of therapeutic values,
11 content, hazards, and use of drugs and devices; and
12 the interpretation and evaluation of prescription
13 orders to adjust the supply dispensed for purposes of
14 medication synchronization pursuant to
15 section 431:10A-606, 432:1-621, or 432D-30;
- 16 (2) [~~Performing~~] The performing of the following
17 procedures or functions as part of the care provided
18 by, and in concurrence with, a "health care facility"
19 and "health care service" as defined in
20 section 323D-2, or a "pharmacy" or a licensed
21 physician or a licensed advanced practice registered

1 nurse with prescriptive authority, or a "managed care
2 plan" as defined in section 432E-1, in accordance with
3 policies, procedures, or protocols developed
4 collaboratively by health professionals, including
5 physicians and surgeons, pharmacists, and registered
6 nurses, and for which a pharmacist has received
7 appropriate training required by these policies,
8 procedures, or protocols:

9 (A) Ordering or performing routine drug therapy
10 related patient assessment procedures;

11 (B) Ordering or performing drug therapy and
12 diagnostic related laboratory and Clinical
13 Laboratory Improvement Amendments of 1988 (42
14 U.S.C. §263a) waived tests[+], including
15 performing any United States Food and Drug
16 Administration-approved or United States Food and
17 Drug Administration-authorized test that is:

18 (i) Classified as waived pursuant to the
19 Clinical Laboratory Improvement Amendments
20 by a pharmacist having appropriate training
21 that includes programs approved by the

1 Accreditation Council for Pharmacy Education
2 (ACPE), curriculum-based programs from an
3 ACPE-accredited college of pharmacy, state
4 or local health department programs, or
5 programs recognized by the board of
6 pharmacy, and any regulations adopted
7 thereunder by the United States Health Care
8 Financing Administration; and
9 (ii) Used to detect or screen for SARS-CoV-2 or
10 other respiratory illness, condition, or
11 disease; mononucleosis; a sexually
12 transmitted infection; strep throat; anemia;
13 cardiovascular health issues;
14 conjunctivitis; a urinary tract infection;
15 liver or kidney function issues, liver or
16 kidney infection; thyroid function issues; a
17 substance use disorder; diabetes,
18 provided that no test shall require the use of
19 specimens collected by vaginal swab,
20 venipuncture, or the collection of seminal fluid;

- 1 (C) Initiating emergency contraception oral drug
2 therapy in accordance with a written
3 collaborative agreement approved by the board,
4 between a licensed physician or advanced practice
5 registered nurse with prescriptive authority and
6 a pharmacist who has received appropriate
7 training that includes programs approved by the
8 [~~Accreditation Council for Pharmacy Education~~
9 ~~+~~ACPE~~+~~], curriculum-based programs from an
10 ACPE-accredited college of pharmacy, state or
11 local health department programs, or programs
12 recognized by the board of pharmacy;
- 13 (D) Administering drugs orally, topically, by
14 intranasal delivery, or by injection, pursuant to
15 the order of the patient's licensed physician or
16 advanced practice registered nurse with
17 prescriptive authority, by a pharmacist having
18 appropriate training that includes programs
19 approved by the ACPE, curriculum-based programs
20 from an ACPE-accredited college of pharmacy,

1 state or local health department programs, or
2 programs recognized by the board of pharmacy;

3 (E) Administering:

4 (i) Immunizations orally, by injection, or by
5 intranasal delivery, to persons eighteen
6 years of age or older by a pharmacist having
7 appropriate training that includes programs
8 approved by the ACPE, curriculum-based
9 programs from an ACPE-accredited college of
10 pharmacy, state or local health department
11 programs, or programs recognized by the
12 board of pharmacy;

13 (ii) Vaccines to persons between fourteen and
14 seventeen years of age pursuant to
15 section 461-11.4; and

16 (iii) Human papillomavirus, Tdap (tetanus,
17 diphtheria, pertussis), meningococcal, and
18 influenza vaccines to persons between eleven
19 and seventeen years of age pursuant to
20 section 461-11.4;

1 (F) As authorized by the written instructions of a
2 licensed physician or advanced practice
3 registered nurse with prescriptive authority,
4 initiating or adjusting the drug regimen of a
5 patient pursuant to an order or authorization
6 made by the patient's licensed physician or
7 advanced practice registered nurse with
8 prescriptive authority and related to the
9 condition for which the patient has been seen by
10 the licensed physician or advanced practice
11 registered nurse with prescriptive authority;
12 provided that the pharmacist shall issue written
13 notification to the patient's licensed physician
14 or advanced practice registered nurse with
15 prescriptive authority or enter the appropriate
16 information in an electronic patient record
17 system shared by the licensed physician or
18 advanced practice registered nurse with
19 prescriptive authority, within twenty-four hours;

1 (G) Transmitting a valid prescription to another
2 pharmacist for the purpose of filling or
3 dispensing;

4 (H) Providing consultation, information, or education
5 to patients and health care professionals based
6 on the pharmacist's training and for which no
7 other licensure is required; or

8 (I) Prescribing and dispensing an opioid antagonist
9 pursuant to section 461-11.8;

10 (3) The offering or performing of those acts, services,
11 operations, or transactions necessary in the conduct,
12 operation, management, and control of pharmacy; and

13 (4) Prescribing and dispensing contraceptive supplies
14 pursuant to section 461-11.6."

15 SECTION 4. This Act does not affect rights and duties that
16 matured, penalties that were incurred, and proceedings that were
17 begun before its effective date.

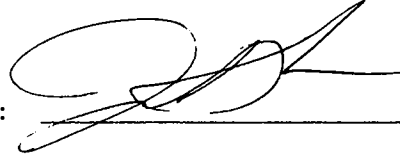

18 SECTION 5. Statutory material to be repealed is bracketed
19 and stricken. New statutory material is underscored.

1 SECTION 6. This Act shall take effect upon its approval.

2

INTRODUCED BY:

S.B. NO. 2592

Report Title:

Clinical Laboratory Directors; Pharmacies; Pharmacists; Clinical Laboratory Improvement Amendments Waived Tests

Description:

Defines "clinical laboratory director" to include certain physicians, licensed clinical laboratory scientists, and pharmacists-in-charge of pharmacies. Amends the definition of "practice of pharmacy" to include the ordering and performing of certain Clinical Laboratory Improvement Amendments waived tests.

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.
