SENATE CONCURRENT RESOLUTION

REQUESTING THE PUBLIC UTILITIES COMMISSION, IN COLLABORATION WITH THE DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS' DIVISION OF CONSUMER ADVOCACY, TO CONVENE A WORKING GROUP TO CREATE A HAWAII LOW INCOME HOME ENERGY ASSISTANCE PROGRAM TO ASSIST LOW-INCOME HOUSEHOLDS WITH PAYING FOR THEIR HOME ENERGY.

1 WHEREAS, the Department of Business, Economic Development,
2 and Tourism states in its July 2021 report, "Electricity Burdens
3 on Hawaii Households", that household electricity burden, the
4 percentage of household income spent on electricity bills, is
5 one of the key elements contributing to a household's energy
6 insecurity, especially for low-income households; and
7

8 WHEREAS, Hawaii's electricity rates are one of the highest
9 in the nation, at close to three times the national average, and
10 vary based on availability of renewable resources, power plants,
11 fuel costs, and pricing regulations; and
12

13 WHEREAS, the 2020 report commissioned by the Aloha United
14 Way, "ALICE in Hawaii: A Financial Hardship Study", states that
15 forty-two percent of households in the State live below the
16 ALICE (asset limited, income constrained, employed) threshold,
17 meaning that almost half of all families in Hawaii are
18 struggling to make ends meet, even though they are employed; and
19

20 WHEREAS, nine percent of these ALICE families are living in
21 poverty, and this trend has progressively worsened in recent
22 years due to the coronavirus disease 2019 (COVID-19) pandemic;
23 and
24

25 WHEREAS, national survey results show that households below
26 the ALICE threshold fared significantly worse than households
27 above the ALICE threshold during the COVID-19 pandemic, despite

1 the added protective measures of eviction moratoria and food
2 assistance programs; and

3
4 WHEREAS, the electric utility companies in the State
5 reported that for the month of December 2021, six thousand two
6 hundred twenty-five customers became eligible for service
7 disconnection due to nonpayment of bills; and

8
9 WHEREAS, the electric utility companies also reported that
10 they entered into two thousand nine hundred seventy-four payment
11 plan agreements with customers to allow those customers to pay
12 off their unpaid bills over an extended period of time; and

13
14 WHEREAS, in response to the devastating impacts of the
15 COVID-19 pandemic, the American Rescue Plan of 2021 authorized
16 the United States Department of the Treasury's Emergency Rental
17 Assistance Program to help households that are unable to pay
18 rent or utilities; and

19
20 WHEREAS, in Hawaii, these federal funds are being
21 distributed by each county through the Rental and Utility
22 Assistance Programs and are scheduled to end by September 30,
23 2025; and

24
25 WHEREAS, once the federal funding from the Emergency Rental
26 Assistance Program ends, it is anticipated that low-income
27 households will still require utility payment assistance to
28 prevent service terminations; and

29
30 WHEREAS, the Low Income Home Energy Assistance Program
31 (LIHEAP) is a federally-funded, state-administered energy
32 program that has been in existence since 1981; and

33
34 WHEREAS, the purpose of LIHEAP is to assist low-income
35 households, particularly those with the lowest incomes, that pay
36 a high proportion of household income for home energy; and

37
38 WHEREAS, LIHEAP prevents low-income families from having to
39 choose between paying for their electric utility bills or
40 purchasing necessary medication and food; and

1 WHEREAS, the federal Administration for Children and
2 Families' Office of Community Services notes that being
3 qualified for LIHEAP does not guarantee that a person in need
4 will receive help because LIHEAP assistance disbursements depend
5 on the amount of LIHEAP funds available for the year; once funds
6 run out for the year, further benefits cannot be distributed
7 until more funds are made available by Congress; and
8

9 WHEREAS, according to Spotlight on Poverty and Opportunity,
10 fewer than nine thousand Hawaii households, or about two
11 percent, participated in LIHEAP in 2020; now, therefore,
12

13 BE IT RESOLVED by the Senate of the Thirty-first
14 Legislature of the State of Hawaii, Regular Session of 2022, the
15 House of Representatives concurring, that the Public Utilities
16 Commission, in collaboration with the Department of Commerce and
17 Consumer Affairs' Division of Consumer Advocacy, is requested to
18 convene a working group to create a Hawaii Low Income Home
19 Energy Assistance Program to assist low-income households with
20 paying for their home energy; and
21

22 BE IT FURTHER RESOLVED that the working group consist of
23 the following:
24

- 25 (1) One representative from the Public Utilities
26 Commission;
- 27
- 28 (2) One representative from the Department of Commerce and
29 Consumer Affairs' Division of Consumer Advocacy;
30
- 31 (3) One representative from the Department of Human
32 Services;
33
- 34 (4) One representative from the Hawaii State Energy
35 Office;
36
- 37 (5) One representative from each electric utility
38 operating in the State;
39
- 40 (6) The Chairperson of the House of Representatives
41 Standing Committee on Energy and Environmental
42 Protection;

(7) The Chairperson of the Senate Standing Committee on Energy, Economic Development, and Tourism; and

(8) One representative from Hawaii Energy; and

BE IT FURTHER RESOLVED that the working group is requested to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature and Governor no later than twenty days prior to the convening of the Regular Session of 2023; and

BE IT FURTHER RESOLVED that certified copies of this Concurrent Resolution be transmitted to the Director of Human Services, Director of Commerce and Consumer Affairs, Consumer Advocate, Chairperson of the Public Utilities Commission, Chief Energy Officer of the Hawaii State Energy Office, President and Chief Executive Officer of the Hawaiian Electric Company, Chairperson of the Kaua'i Island Utility Cooperative Board of Directors, and Executive Director of Hawaii Energy.
