
A BILL FOR AN ACT

RELATING TO SPECIAL MANAGEMENT AREAS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that targeted amendments
2 to the definition of "development" as it relates to special
3 management areas will promote, not undercut, the environmental
4 controls and quality that special management area regulations
5 are intended to protect. Under existing law, the broad
6 definition of "development" coupled with rising labor and
7 materials costs can trigger a mandatory special management area
8 use permit review for improvements, facilities, and incidental
9 structures that may not warrant such intense scrutiny and the
10 associated costs and delays that go along with it.

11 The legislature further finds that exclusions from the
12 special management area definition of "development" are
13 desirable for activities such as the following:

14 (1) Installation, maintenance, repair, and replacement of
15 public pedestrian and bicycle facilities to reduce
16 reliance on vehicles;

1 (2) Trash removal, invasive vegetation removal or control,
2 and fencing for invasive species control or
3 preservation of native habitats to improve the quality
4 of the environment;

5 (3) Installation, maintenance, repair, and replacement of
6 lighting, fixtures, and equipment to comply with
7 standards at public facilities, including health and
8 safety standards, to protect native seabird
9 populations and reduce light pollution; and

10 (4) Installation, maintenance, repair, and replacement of
11 security measures for existing public facilities.

12 The purpose of this Act is to expand exclusions to the
13 definition of "development" in chapter 205A, Hawaii Revised
14 Statutes, to reduce the need for special management area permits
15 for certain activities.

16 SECTION 2. Section 205A-22, Hawaii Revised Statutes, is
17 amended by amending the definition of "development" to read as
18 follows:
