## HOUSE CONCURRENT RESOLUTION

REQUESTING THE HAWAII STATE CENTER FOR NURSING TO CONVENE A  
WORKING GROUP TO STUDY THE POTENTIAL IMPACTS TO THE STATE  
OF JOINING THE MULTI-STATE NURSE LICENSURE COMPACT.

1           WHEREAS, according to the federal Bureau of Labor  
2           Statistics' *Employment Projections 2021-2031*, the registered  
3           nurse workforce is expected to grow from 3,130,600 registered  
4           nurses in 2021 to 3,326,000 registered nurses in 2031, which is  
5           an increase of 195,400 registered nurses or 6.2 percent; and  
6

7           WHEREAS, the federal Bureau of Labor Statistics also  
8           projects the average annual number of openings for registered  
9           nurses from 2021 through 2031, after factoring in retirements  
10          and workforce exits, to be 203,200 openings per year; and  
11

12          WHEREAS, according to the Hawaii State Center for Nursing,  
13          there are 15,072 licensed registered nurses who live and  
14          practice in the State; and  
15

16          WHEREAS, according to the Healthcare Association of  
17          Hawaii's *2022 Healthcare Workforce Initiative Report*, there were  
18          approximately 1,000 unfilled registered nurse positions in the  
19          State; and  
20

21          WHEREAS, during and following the emergence of the COVID-19  
22          pandemic, hospitals, nursing facilities, and other health care  
23          practices faced nursing shortages, which continue to exist; and  
24

25          WHEREAS, shortages in the local nursing workforce require  
26          health care facilities to recruit traveling nurses, which can be  
27          costlier than hiring a local workforce; and  
28

29          WHEREAS, the State and health care systems have invested  
30          and continue to invest in growing the local nursing and health

1 care professional workforce through expanded educational  
2 opportunities, incentives, and other investments; and

3  
4 WHEREAS, as of January 2023, there were 39 states that are  
5 members of the multi-state Nurse Licensure Compact; and

6  
7 WHEREAS, the Nurse Licensure Compact would enable nurses to  
8 practice in person or provide telenursing services to patients  
9 located across the country without having to obtain additional  
10 licenses; and

11  
12 WHEREAS, the Nurse Licensure Compact would allow a nurse to  
13 work across state borders and provide vital services in the  
14 event of disaster; and

15  
16 WHEREAS, the Nurse Licensure Compact would also allow  
17 military spouse nurses to seamlessly continue working without  
18 having to obtain new licenses each time they relocate, thus  
19 expanding the nursing workforce; and

20  
21 WHEREAS, according to the Hawaii State Center for Nursing,  
22 16 percent of registered nurses plan to retire in the next five  
23 years; now, therefore,
