# A BILL FOR AN ACT

RELATING TO DESIGNATED ECONOMIC DEVELOPMENT DISTRICT.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that being a United  
2 States Economic Development Administration-designated economic  
3 development district provides an opportunity to work  
4 comprehensively to achieve locally developed goals that leverage  
5 and build upon interrelated community assets, such as workforce,  
6 infrastructure, and housing. An economic development district  
7 develops a long-term established relationship with the United  
8 States Department of Commerce, Economic Development  
9 Administration that includes annual federal funding to support  
10 the development and implementation of the Hawaii comprehensive  
11 economic development strategy. An investment of federal funds  
12 by the United States Economic Development Administration is much  
13 more likely, on a per capita basis, to be located in an economic  
14 development district area than in an area that is not covered by  
15 an economic development district.

16           The legislature further finds that regional eligibility to  
17 be designated as an economic development district by the United

1 States Economic Development Administration requires the region  
2 to have a United States Economic Development  
3 Administration-approved comprehensive economic development  
4 strategy that contains a specific program for intra-district  
5 cooperation, self-help, and public investment; is approved by  
6 the affected state and the United States Economic Development  
7 Administration Assistant Secretary; obtains commitments from a  
8 majority of counties within the proposed district; and forms a  
9 district organization that meets the economic development  
10 district requirements. A district organization may be organized  
11 as a public organization established under state-enabling  
12 legislation for the creation of a multi-jurisdictional area-wide  
13 planning organization.

14 To ensure that Hawaii is eligible for the substantial  
15 benefits of a United States Economic Development  
16 Administration-designated economic development district, the  
17 purpose of this Act is to:

- 18 (1) Establish the Hawaii economic development district  
19 planning organization and governing board that meet  
20 the requirements of the United States Economic  
21 Development Administration, as provided in title 13

1 Code of Federal Regulations section 304.2, by being  
2 broadly representative of the principal economic  
3 interests of the region, including the private sector,  
4 public officials, community leaders, representatives  
5 of workforce development boards, institutions of  
6 higher learning, minority and labor groups, and

1       (e) The Hawaii economic development district planning
