THE SENATE THIRTY-SECOND LEGISLATURE, 2023 STATE OF HAWAII **S.B. NO.** ⁸⁶⁵ S.D. 1

A BILL FOR AN ACT

RELATING TO HOUSING.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the cost and 2 availability of housing in the State are significant challenges facing Hawaii residents. Although Hawaii has the tenth highest 3 4 median wage nationally, living expenses are two-thirds higher 5 than the rest of the nation, with the cost of housing being a 6 major contributing factor. According to the Honolulu Board of 7 Realtors, by March 2022, the median price for a single-family 8 home on Oahu had risen to \$1,150,000, while the median price for 9 condominiums on Oahu had risen to \$515,000. With a simple 10 mortgage calculator and using conservative assumptions on 11 interest rates and down payment amounts, a household would need 12 to earn over \$200,000 annually to afford to buy a median-priced 13 home on Oahu in 2022, making homeownership out of reach for many 14 of Hawaii's residents, especially first-time buyers.

15 Because of the many barriers hindering the production of 16 new housing, such as geographic limitations, lack of major 17 infrastructure, construction costs, and government regulation,

Page 2

1 the State and housing developers have not been able to produce 2 enough housing for Hawaii residents. According to a 2019 report 3 from the department of business, economic development, and tourism, the projected long-run average estimate of total demand 4 5 for housing in Hawaii is 72,310 for the 2020 to 2030 period. 6 The legislature has responded through the passage of various 7 legislation. During the regular session of 2020, the legislature passed a bill enacted as Act 42, Session Laws of 8 9 Hawaii 2020, that, among other things, increases the Hula Mae 10 multifamily revenue bond authorization to address Hawaii's 11 affordable rental housing crisis. During the regular session of 12 2021, the legislature passed a bill enacted as Act 227, Session 13 Laws of Hawaii 2021, to establish an affordable homeownership 14 revolving fund to provide loans to nonprofit community 15 development financial institutions and nonprofit housing 16 development organizations for the development of affordable 17 homeownership housing projects. During the regular session of 2022, the legislature passed a bill enacted as Act 236, Session 18 19 Laws of Hawaii 2022, that, in part, provides funds to address 20 Hawaii's affordable rental housing crisis.

1 Despite these efforts, the amount of new construction of 2 housing, especially for low- to middle-income families, 3 continues to be inadequate as the supply of housing remains 4 constrained while demand for housing increases. This lack of 5 supply leads to higher housing prices and rents for households 6 of all income levels, leaving all tenants with less disposable 7 income, increasing the personal stress on buyers and renters, 8 and exacerbating overcrowding and homelessness. Given these 9 consequences, the lack of affordable housing requires the concentrated attention of state government at the highest level. 10

11 The legislature further finds that Singapore faced a 12 housing crisis in the 1940s through 1960s but was subsequently 13 able to provide nearly one million residential units for its 14 citizens. The housing and development board--the government 15 entity responsible for Singapore's rapid increase in housing 16 development -- plans, develops, and constructs the housing units, 17 including commercial, recreational, and social amenities. The 18 result is that units built by the housing and development board 19 house eighty per cent of the resident population and that, 20 overall, ninety per cent of the resident population are owners 21 of their units. Through government loans, subsidies, grants,

2023-1395 SB865 SD1 SMA.docx

and the use of money saved through a government-run mandatory
 savings program, residents are able to purchase residential
 units at an affordable price, including options to upgrade to a
 better living environment in the future.

5 The legislature further finds that with Honolulu's 6 construction of an elevated rail transit system, the State has an opportunity to enhance Oahu's urban environment and increase 7 the quality of life for residents by increasing the affordable 8 9 housing inventory and eliminating the need for personal 10 automobiles, among other public benefits. As the largest 11 landowner of properties along the transit line, with 12 approximately two thousand acres under the jurisdiction of various departments, the State must be proactive in establishing 13 14 a unified vision and approach toward redevelopment of its properties to maximize the benefits of state lands available for 15 16 redevelopment.

17 The purpose of this Act is to:

18 (1) End the housing shortage in Hawaii;

19 (2) Establish the ALOHA homes program to facilitate the20 creation of low-cost leasehold homes for sale to
