S.B. NO. ⁹⁰⁰ 5.D. 2 H.D. 2

C.D. 1

A BILL FOR AN ACT

RELATING TO THE HAWAII STATE HEALTH INSURANCE ASSISTANCE PROGRAM.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 In accordance with section 9 of article VII of SECTION 1. 2 the Hawaii State Constitution and sections 37 91 and 37 93, 3. Hawaii Revised Statutes, the legislature has determined that the appropriations contained in H.B. No. 300, H.D. 1, S.D. 1, C.D. 4 5 1, and this Act will cause the state general fund expenditure 6 ceiling for fiscal year 2023 2024 to be exceeded by 7 \$1,063,953,655 or 11.0 per cent. This current declaration takes 8 into account general fund appropriations authorized for fiscal 9 year 2023 2024 in H.B. No. 300, H.D. 1, S.D. 1, C.D. 1, and this 10 Act only. The reasons for exceeding the general fund 11 expenditure ceiling are that: The appropriation made in this Act is necessary to 12 (1)13 serve the public interest; and 14 (2) The appropriation made in this Act meets the needs 15 addressed by this Act. 16 SECTION 2. The legislature finds that medicare is 17 essential to providing health care coverage for older adults and

2023-2964 SB900 CD1 SMA-1.docx

Page 2

persons with disabilities in the State. However, the rules and procedures for medicare eligibility and enrollment are complex and difficult to navigate, especially for kupuna. The legislature further finds that Hawaii's medicare population has increased one hundred twenty per cent over the span of thirty years, from 133,439 persons in 1992 to 295,405 persons in 2022.

7 According to World Population Review, an independent organization without political affiliations, Hawaii ranks first 8 9 in the nation in terms of longevity, with residents living 81.3 10 years on average, and the cost of living in Hawaii is almost 11 double that of the national average, at 193.3 per cent. In 12 2022, total medical and prescription drug spending rose to 13 \$157,480,248. According to a Financial Health Network and 14 Hawaii Community Foundation report, seventy-three per cent of 15 medicare beneficiaries report dipping into savings and fortyseven per cent report relying on family and friends for 16 17 financial support. Approximately four per cent of the State is uninsured, and about eleven per cent live in poverty. Without 18 19 insurance, unexpected medical costs or a catastrophic illness 20 could result in the loss of one's home and assets. A lack of 21 health care coverage lowers health outcomes and increases health

1	care costs	, poverty rates, and the number of individuals who
2	qualify fo	r the already overburdened medicaid program.
3	The l	egislature further finds that the Hawaii state health
4	insurance	assistance program was established within the
5	executive	office on aging in 1992 with two temporary staff
6	members.	The program's purpose is to assist and educate
7	medicare b	eneficiaries to:
8	(1)	Make informed health insurance choices based on the
9	:	beneficiary's needs and budget;
10	(2)	Enroll in medicare as soon as first eligible to avoid
11		lifetime late enrollment penalties;
12	(3)	Access wellness and preventive services to improve
13	:	health outcomes, lower health care costs, and promote
14		aging in place; and
15	(4)	Enroll in low-income subsidy programs, including
16	1	medicaid, to reduce out-of-pocket costs.
17	The H	awaii state health insurance assistance program
18	collaborat	es with county agencies on aging to conduct statewide
19	outreach a	t health fairs, enrollment events, senior centers, and
20	community	organizations and through presentations to employers
21	to promote	the program's free, local, unbiased, and confidential

1 services. Hawaii's state health insurance assistance program 2 currently serves over eight thousand eight hundred individuals, 3 approximately three per cent of Hawaii's medicare population. 4 The Administration for Community Living, a division of the 5 federal Department of Health and Human Services, considers eight 6 per cent of the medicare population, or 23,191 individuals, as 7 acceptable performance and justification for continued funding. 8 Additional staffing resources are needed to meet this annual 9 goal by fiscal year 2025.

10 The purpose of this Act is to:

11 (1) Require the executive office on aging to submit annual 12 progress reports to the legislature on the Hawaii 13 state health insurance assistance program; and 14 (2) Appropriate funds for the Hawaii state health 15 insurance assistance program to establish program 16 specialist positions within the executive office on 17 aging to meet the growing aging population's 18 increasing demand for accurate, timely, and reliable 19 services.
