

MAR 10 2023

SENATE CONCURRENT RESOLUTION

URGING THE UNITED STATES SENATE TO RATIFY THE AGREEMENT UNDER
THE UNITED NATIONS CONVENTION ON THE LAW OF THE SEA ON THE
CONSERVATION AND SUSTAINABLE USE OF MARINE BIOLOGICAL
DIVERSITY OF AREAS BEYOND NATIONAL JURISDICTION, ALSO KNOWN
AS THE HIGH SEAS TREATY.

1 WHEREAS, over millennia, Native Hawaiians have developed a
2 unique and sacred relationship with the ocean and its coral
3 reefs and diverse marine species; and
4

5 WHEREAS, the health of the ocean is closely intertwined
6 with and essential to the health of the islands and people of
7 Hawaii, and is of critical importance to the State's economy,
8 environment, and culture; and
9

10 WHEREAS, the health and function of Hawaii's waters are
11 threatened by global stressors related to climate change, which
12 is often beyond the control of the State alone; and
13

14 WHEREAS, more than sixty percent of ocean surface areas are
15 beyond the jurisdiction of any nation and the ocean areas
16 outside the two-hundred-nautical-mile limits of nations are
17 referred to as the "high seas"; and
18

19 WHEREAS, Hawaii is located in the middle of the Pacific
20 Ocean and thus very connected to the high seas; and
21

22 WHEREAS, marine resources have little to no legal
23 protections in vast areas of the high seas and the exploitation
24 of resources therein can cause irreversible harm to ocean bio-
25 diversity and marine ecosystems; and
26

27 WHEREAS, eighty percent of the carbon stored in the ocean
28 is contained in the deep ocean below one thousand meters, making
29 the protection of deep-sea ecosystems essential to mitigating

1 the impacts of climate change and preventing further increases
2 to atmospheric carbon dioxide; and

3
4 WHEREAS, on March 4, 2023, representatives of over one
5 hundred ninety nations, including the United States, reached a
6 deal on a historic United Nations treaty to protect the living
7 resources and abundant bio-diversity in the high seas, known as
8 the High Seas Treaty; and

9
10 WHEREAS, subsequent to the formal approval of the
11 negotiated agreement by the United Nations, the United States
12 and other nations of the world will have the opportunity to
13 ratify, or otherwise approve, the High Seas Treaty; and

14
15 WHEREAS, ratification of the High Seas Treaty by the United
16 States would give the federal government a seat at the table
17 when future international decisions are made on issues relating
18 to high seas fishing, deep-sea mining, and ocean protection; and

19
20 WHEREAS, the High Seas Treaty would support Hawaii's
21 interests in protecting the health of the ocean and thereby the
22 preservation of the State's invaluable coral reefs and marine
23 bio-diversity; now, therefore,

24
25 BE IT RESOLVED by the Senate of the Thirty-second
26 Legislature of the State of Hawaii, Regular Session of 2023, the
27 House of Representatives concurring, that the United States
28 Senate is urged to ratify the agreement under the United Nations
29 Convention on the Law of the Sea on the Conservation and
30 Sustainable Use of Marine Biological Diversity of Areas Beyond
31 National Jurisdiction, also known as the High Seas Treaty; and

32
33 BE IT FURTHER RESOLVED that certified copies of this
34 Concurrent Resolution be transmitted to Hawaii's congressional
35 delegation, the Governor, Chairperson of the Board of Land and
36 Natural Resources, and mayor of each county.
