

RYAN PRICE

**HSE Supervisor**

*I began my HSE career as a field engineer intern before signing on as a full time HSE coordinator. My performance ensures that all Nordic PCL safety protocols are implemented and that safety standards are met by both our internal staff as well as subcontractors.*

**4 YEARS OF HSE EXPERIENCE:**      **Actively performing all the duties of a HSE Supervisor as defined in the PCL company job description.**

**EDUCATIONAL BACKGROUND:**      Occupational Health and Safety degree awarded January 2023 from Columbia Southern University

**EMPLOYMENT HISTORY:**              HSE Supervisor, Nordic PCL Construction, 2020– present  
Field Engineer, Nordic PCL Construction, Inc. 2019-2020

**CERTIFICATIONS:**                      OSHA 30-Hour  
GSP, CHST, STSC - Board Certified Safety Professionals (BCSP)  
MEWP and Forklift Certified Trainer  
Scaffold Competent Person Training  
CPR/AED/FA

**Present HSE Responsibilities and Duties**

- Monitor and assist with implementation of project HSE and regulatory requirements.
- Identify, evaluate, develop, and deliver project specific HSE training.
- Responsible for recognizing, evaluating, and advising on hazard identification on project sites (currently Kihei High School build).
- Solely responsible for leading and conducting HSE inspections on Kihei High School project (March 2020-present).
- Verify effectiveness of corrective actions implemented on project site.
- Identify any specialized Personal Protective Equipment (PPE) requirements and coordinate and provide all required training.
- Develop and continually evaluate an effective project emergency response plan
- Assist project team in developing and implementing site-specific safety, security, and environment plans.
- Participate in onsite investigation processes and review incident investigation reports for accuracy and completeness.
- Responsible for monitoring own work force and trade contractor safety performance.

**FIELD ENGINEER INTERN**

- Conducted safety audits and quality audits
- Responsible for reading and understanding drawings and specifications and assisted with project documentation requirements
- Logged submittals and processed RFI's
- Assisted with surveying and project layout
- Maintained and updated field drawings, field equipment and records
- Assisted with coordinating subcontractors, vendors, and field staff
- Prepared memos, letters, meeting minutes, contracts, and completed required forms and documents
- Assisted with estimating and soliciting subcontractors and/or suppliers for information and pricing

## RELEVANT PROJECT EXPERIENCE

### Kihei High School, New School - Phase 2

*Kihei, Hawaii – Island of Maui*

**Completion Date:** 03/2022 | **Project Cost:** \$103.06M

HSE Coordinator - Phase 2 of Kihei High School includes construction of five new buildings, extensive site work, new parking lots, two wells and onsite storage tanks, and a new play court. The five buildings include an administration building, cafeteria/library, locker rooms, and two classroom buildings. The total project area develops 7 acres of the school site. Project will meet the "verified" standard for the Hawaii Collaborative for High Performance Schools.

### Andaz Maui at Wailea - Building A

*Wailea, Hawaii, Island of Maui*

**Completion Date:** 03/2021 | **Project Cost:** \$39.43M

HSE Coordinator - The Andaz Maui at Wailea Resort Building "A" will be 4 stories with a total of 19 units. 18 units consist of 2 bedrooms plus a den with 3-1/2 baths totaling approximately 2,000 sf. Ground floor units will include plunge pools. The 4th floor master suite combines two units to create a 4,000-sf luxury suite with its own cantilevered swimming pool. There will be three elevators spread throughout the building. This building will also be LEED Certified.

### Renovations at The Shops at Wailea

*Wailea, Hawaii – Island of Maui*

**Completion Date:** 12/2020 | **Project Cost:** \$8.99M

HSE Coordinator - The project consists of removing existing concrete and replacing with concrete pavers. In addition, there will be electrical and plumbing fixture updates along with the removal of archways to update the entire exterior of the existing shopping mall. The shopping mall is in Wailea, Maui which is a high-end area that has additional restriction on construction.

### The Modern Honolulu

*Honolulu, Hawaii – Island of Oahu*

**Completion Date:** 04/2020 | **Project Cost:** \$8.27M

HSE Coordinator - Renovation of the public and sales area of a hotel in Waikiki. Scope of work included demolition, HAZMAT removal, MEP, drywall, carpentry, millwork, painting, wallcovering, glazing, flooring, tile, stone, finish hardware, doors and frames, waterproofing, firestopping and appliances.

### The Modern Honolulu LUXE Model Room Renovation

*Honolulu, Hawaii – Island of Oahu*

**Completion Date:** 03/2020 | **Project Cost:** \$697K

HSE Coordinator - Conversion of 3 existing studio units into a new LUXE unit and corridor renovation on the 16th floor of the Modern Honolulu located in Waikiki.

### Lilia Waikiki

*Honolulu, Hawaii – Island of Oahu*

**Est. Completion Date:** 11/17/2021 | **Project Cost:** \$185M

Field Engineer Intern - Construction of a mixed-use tower consisting of approximately 40,000 SF of ground and second floor retail, 8-story podium, 9th floor amenity level with pool, overall, 28-story apartment building consisting of +/- 402 rental units.

## SENIOR SERVICE WRITER

### Montgomery Powersports

*Honolulu, Hawaii – Island of Oahu*

[montgomery-powersports](http://montgomery-powersports)

6/2018 – 8/2019

While attending University of Hawaii

As a service writer, I provided a connection between the customer and the business. I was the first point of contact in the service/repair center who was highly skilled and responsible for taking the customer's needs into consideration to facilitate the transaction between the customer and the shop. This role required excellent communication skills and knowledge of record keeping.
