Moneys collected by the Department from the sale or disposition of goods and services produced in accordance with Section 354D-10, HRS.

**Current Program Activities/Allowable Expenses:**

The Correctional Industries Revolving Fund is used for the purchase or lease of capital resources, salaries of staff and inmates in the operation of correctional industries programs in accordance with Section 354D-10, HRS.

**Variances:**

For FY20 / FY21 - In FY20 HCI restructured and closed the Print Shop, KCF Furniture Shop and Special Projects due to them being unproductive and draining our resources. HCI is has expanded its labor-based contract with the DOT Highways Division. We had also added Maui DOT in FY20 but due to COVID-19 pandemic we had to shut it down. Even with the shutdown of these shops we were still able to increase revenue due to additional work from DOT and increase sales in our commissary. Also, a special project of making face masks by inmates during the shutdown of the state help generate some revenue. In FY21 we are adding Fogging and Modular Furniture to help us increase our revenue for the year. With the elimination of shops in FY20 expenditures were reduced, but in FY21, we do expect it to again increase in relationship to the new business that we are bringing in.

 Appropriation Account Number: S-323-V1

**Intended Purpose:**

Act 206, SLH 1998 established this account and a system of compensation fees to generate revenue to fund the operation of the Crime Victim Compensation Commission (CVCC).

**Source of Revenues:**

Funds received pursuant to Section 354D-12(b)(1), 351-35, 351-62.6, 351-63, 706-605, and 853-1.

**Current Program Activities/Allowable Expenses:**

Moneys received are used for compensation payments, operating expenses, and to fund positions as authorized by the legislature.

**Variances:**

Restitution collection increased due to the Justice Reinvestment (JRI) project and the focus by the Commission's JRI section on restitution collection. The increase also included an increase in compensation fees collected by the Commission's JRI section. The decrease in revenue for FY2018 is related to a significant decrease in compensation fee collections by the Judiciary as well as a decrease in restitution collection. FY2019 revenue collections show an additional decrease in compensation fee collections from the Judiciary which was somewhat offset by an increase in restitution collections. FY2020 revenue collections show a continued decline in compensation fee collections by the Judiciary as well as decreased restitution collections. The Commission's expenditures for victim compensation, operational expenses, and payroll generally track closely to the Commission's revenue. In FY2019, the Commission's increase in expenditures is attributed to an increase in compensation awards from state funds for crime victims, pay increases to staff awarded by the Commissioners, and the payment of administrative fees for two fiscal years were paid during the one fiscal year. In FY2020, the Commission's expenditures for payroll were higher due to the previously awarded pay increases, state funded victim compensation awards and operational expenses did slightly decrease. From FY 2023 onward, 6.0 positions previously funded through this special fund became general funded positions.

 Appropriation Account Number: S-334-V1

Intended Purpose:  
 To fund the Deputy Sheriffs stationed at the Honolulu International Airport.

Source of Revenues:  
 DOT Airport

Current Program Activities/Allowable Expenses:  
 Funds are used to pay for expenses incurred by the Deputy Sheriffs assigned in Airport. 24/7 Personnel operation (salaries/overtime/holiday overtime/other payroll)

Variances:  
 Starting in FY21 there was an increase in the appropriated ceiling by \$1M (ACT 9, SLH 2020). FY18-19 increase for expenditure and revenues is due to increase in fringe benefit rate, collective bargaining, and obtaining more positions at the airport. Sheriff Airport only source of revenues comes from Department of Transportation Airport. Security at the Airport have had multiple unforeseen emergency incidents. Expenditure can vary from year to year, depending on the activities and security requirements at Honolulu International Airport. The reason the expenditures in FY19 are more than the appropriate ceiling was because collective bargaining was allotted in the middle of the year.

Name of Fund: <u>Automated Victim Information &amp; Notification System Special Fund</u>	Fund Type (MOF): <u>B</u>
Legal Authority: <u>HRS §353-136</u>	Appropriation Account Number: <u>S-350-V1</u>

Intended Purpose:  
This fund was established as the Statewide Automated Victim Information & Notification (SAVIN) System Special Fund. (HRS§353-136)

Source of Revenues:  
Per HRS§363.-136, a 4% surcharge is added to any item's price that is purchased by an In-State or Out-of-State inmate from the correctional facility Commissary. The proceeds from the surcharge shall be deposited into the special fund. All proceeds or revenues that are derived from any commission that is realized pursuant to a telephone service agreement executed by the department for the provision of telephone services for inmates shall also be deposited into the special fund.

Current Program Activities/Allowable Expenses:  
Per HRS§353-132, the system shall Statewide, automatically notify a registered victim or concerned member of the community, via the person's choice of telephone, text message, or electronic mail transmission when the chosen offender, who is in the custody of the department, is transferred or assigned to another facility, to the custody of another agency outside the State, or is released on temporary leave or for other reasons, is discharged or has escaped. The system shall also send out notifications if the offender has an upcoming parole hearing or there is a change in the offender's parole status. The System shall also permit a victim or concerned member of the community to receive the most recent status report for the offender by calling the system on a toll-free telephone number, as well as by accessing the system via a public website. The System shall also provide the option to receive live operator assistance with the system on a twenty-four hours per day, three-hundred-sixty-five days per year basis as well as permit a victim or concerned member of the community to register or update the person's registration information for the system by also calling a toll-free telephone number or accessing a public website. Also per HRS§ 353-136, the with SAVIN special fund, all interest and investment earnings credited to the assets of the fund shall become part of the fund and any remaining balance in the fund at the end of any fiscal year shall be carried over to the next fiscal year.  
Monies received pursuant to the above shall be used for the increased development of the program, operating expenses, and salaries, fringe and benefits for additional positions as authorized by legislature.

Variances:  
In FY18, there were no payroll costs attached to the SAVIN budget/expenditure plan because the position was vacant and remaining staff members were having to cover the position in addition to maintaining their own primary job duties. FY19 saw a slight increase in overall expenditures as a result of the SAVIN Coordinator position being filled during the 3rd quarter and covering all travel expenses for the SAVIN Governance Committee. As a result of travel documentation from the membership being received late, the section's reimbursements were also tardy, being delivered towards the end of FY19. FY20 saw an increase in revenues, even during the shutdown of services/visits at correctional facilities as a result of COVID-19 restrictions, due to increased funding received from inmates being allowed extra commissary purchases and telephone calls tax to compensate for the shutdowns caused by the pandemic. The increase in expenditures in FY20 was also due to SAVIN Coordinator position still being filled and the section increasing its marketing campaign by introducing television and radio ads.

**Intended Purpose:**

This trust fund was established for the federal forfeiture proceeds derived directly or indirectly from or realized through unlawful activities. Federal equitable sharing funds were previously held in a single account, T-904. A federal audit found that funds from different sources should be held in their own account. Separate accounts were created in order to comply with the federal audit, and funds were transferred to their respective accounts. See S-22-516-V1, S-22-517-V1, S-22-517-V1, and S-22-519-V1

**Source of Revenues:**

Federal forfeiture proceeds.

**Current Program Activities/Allowable Expenses:**

Federal guidelines mandate that funds be used to supplement and not supplant existing state funding. Funds are used for training, purchase of equipment, and operational supplies that enhance law enforcement operations.

**Variances:**

Yearly revenues are based on federal forfeiture proceeds through unlawful activities. Expenditure for each year is based on law enforcement needs while not supplanting existing state funding. FY 2022 expenditures are the result of moving cash to separate accounts per federal audit (See S-22-516-V1, S-22-517-V1, S-22-518-V1, and S-22-519-V1.)

 Name of Fund: Victim Restitution Trust Fund  
 Legal Authority: Administratively Created

Contact Name: Pamela Ferguson-Brey  
 Phone Number: 587-1143  
 Fund Type (MOF): T  
 Appropriation Account Number T-915-V1

**Intended Purpose:**

This trust fund was established for the Commission to use as a pass through for court-ordered restitution and court fees from inmates and parolees when the Restitution Recovery Project began in 2003. Any funds deposited into this account are paid pursuant to court order to a victim, agency or other entity who suffered financial loss as the result of a crime. Any funds in this account are dedicated and directed for payment to a specified person, entity or agency by the courts. It would violate court orders to transfer these funds to the general fund.

**Source of Revenues:**

Restitution and court fees collected from inmates and parolees pursuant to court orders.

**Current Program Activities/Allowable Expenses:**

Court-ordered restitution and court fees collected from inmates and parolees are disbursed to a crime victim, agency or other entity who suffered financial loss as the result of a crime as directed by the court order.

**Variances:**

The Commission generally has a cash balance on hand because as new cases come in, the Commission has to ensure it has the correct mailing address for the named victim of the court order before distributing any payments. Additionally, the Commission audits all new cases including contacting the Judiciary about potential prior payments, looking into co-defendants who may have made prior payments and ensuring that the correct information is collected for each victim. The Commission annually escheats funds, as required by statute, for victims for whom funds have been collected but the Commission has been unable to locate a current address. It is not unusual for victims to move and not provide the Commission with their new address. The Commission does not control the amount paid by inmates and parolees toward their restitution and/or court fees, and therefore has no control over the amount of revenue collected.

1. Target - Sheriff Division First Responders	This would be approximately 300 Sheriff Deputies as interoperable communications can be leveraged more effectively. Users who do not have this capability diminish the response capability of the rest of the division as a whole. Deputy Sheriffs would also gain from the development of field assets to support response and mitigation responsibilities from critical events.						
2. Beneficiary Groups - Critical Infrastructure	The ability to protect and mitigate issues or concerns for critical infrastructure statewide is affected by our increases in capabilities. The deployment of mobile field operations will allow Sheriff Division first responders additional capabilities to support the recovery and protection capabilities of critical infrastructure. The Sheriff Division is one of the few law enforcement entities which can travel across the state in support of law enforcement activities.						
3. Beneficiary Groups - General Public	The public is served in day to day operations with increased capabilities based on our more effective use of communications equipment. Mobile field operations units would enhance operations during recovery phases of responses to natural disasters. These assets would allow enhanced response support thus serving the public more effectively.
