August 15, 2023

The Honorable Ronald D. Kouchi President of the Senate and Members of the Senate Thirty-Second State Legislature State Capitol, Room 409 Honolulu, Hawaii 96813 The Honorable Scott K. Saiki Speaker and Members of the House of Representatives Thirty-Second State Legislature State Capitol, Room 431 Honolulu, Hawai'i 96813

Aloha Senate President Kouchi, Speaker Saiki, and Members of the Legislature:

Pursuant to HRS section 27-43.6, which requires the Chief Information Officer to submit applicable independent verification and validation (IV&V) reports to the Legislature within ten days of receiving the report, please find attached the report the Office of Enterprise Technology Services received for the State of Hawai'i, Department of Transportation, Highways Division, Financial Management System Project.

In accordance with HRS section 93-16, this report may be viewed electronically at <a href="http://ets.hawaii.gov">http://ets.hawaii.gov</a> (see "Reports").

Sincerely,

Douglas Murdock (Aug 15, 2023 16:32 HST)

Douglas Murdock Chief Information Officer State of Hawai'i

## I. Introduction and Summary

#### A. Introduction

Department of Transportation Highways (DOTH) manages the planning, construction, and maintenance of the State of Hawaii's approximate 2,675 lane miles of highway on Oahu, Kauai, Maui, Lanai, Molokai, and Hawaii. DOTH's mission is to provide a safe, efficient, and accessible highway system through the utilization of available resources in the maintenance, enhancement, and support of land transportation facilities. DOTH's primary function is to plan, design, and supervise the construction and maintenance of the State's highway system.

DOTH commissioned an ERP System Integrator (hereinafter referred to as "SI"), in March 2021 to provide an accounting system solution that would modernize certain State of Hawaii, Department of Transportation, Highways Division (DOTH) IT systems, associated systems, and business processes, including fully replacing DOTH's legacy Highways Financial Accounting System (HWYAC) and certain software components of DOTH Districts' AS400 systems.

The new DOTH Financial Management System (H4) will utilize SAP S/4HANA Cloud ERP and will cover DOTH Business Processes of Budget, General Ledger, Accounts Payable, Accounts Receivable, Lease Management, Fixed Assets, Procurement, Project & Grant, Federal Billing, Human Resources, Time and Labor, Payroll, Inventory Management, Plant Maintenance, Reporting, and Analytics.

DOTH also acquired a contract with IT Management Consulting Firm, Ohanasoft (hereinafter referred to as "IV&V"), to provide information technology independent verification and validation consulting services for the implementation of the DOTH Highways Financial Management System. The IV&V contractor's role is to provide an objective, neutral, third-party view of the implementation of the Highways Financial Management System with the intent of protecting the State's interests for success of the project. Throughout the system implementation, the IV&V team will perform ongoing project IV&V activities and will identify issues/deficiencies/risks with the System implementation project, provide feedback and recommendations for mitigation and improvement, and provide on-going reporting on project activities.

The observation, feedback, and recommendations provided by IV&V are IV&V's own opinions, and IV&V is not a decision-maker of any activities in the H4 project implementation. IV&V makes no assurance, guarantee, or other promises as to the success of H4 project and is not responsible and not liable for the outcome of the H4 Project.

## B. Summary

Throughout the month of June 2023, the focused activities continued to be Functional Specification Documents (FSDs). The total number of FSD submissions increased by nine; however, many meetings took place to make progress on reviewing and validating the submitted FSDs. The target Go-Live date of August 1st, 2023, still remains the same, which is more than 12 months later than the original Go-Live target date; however, this date is not achievable at all. Although completing the Project Plan is the top priority for the H4 project, there are still differences in expectations for the plan between DOTH and SI, and they have not yet come to an agreement.

Ever since the start of the H4 project, the absence of an agreed-upon and authorized Project Plan has been a significant risk and obstacle that still remains unresolved. H4 Project without a plan has limited visibility when it comes to project resources and timelines. There are a significant remaining number of tasks and incomplete deliverables, and with the current pace of the project progression, it is IV&V's opinion that establishing earlier than July 1st, 2024, as a Go-Live date will be a challenge. When the project plan reflecting the current status is solidified, and a firm Go-Live date is set, a written change order is suggested to document a revised project plan, schedule, requirements, scope, training, and any contractual consequences. FSDs are continuing to be reviewed and updated for all WRICEF items. 118 FSDs were submitted for review, and DOTH conditionally approved 84 FSDs as of the end of June. Functional FSDs rely heavily on prior deliverables such as Process Design Document (PDD), Data Conversion, Requirement Traceability Matrix (RTM), and Fit/Gap. It is continuously observed that some FSDs require additional time and discussions due to insufficient details or missing information from the previous dependent work products mentioned above.

The Configuration Design Document (CDD) walkthrough review is scheduled to take place after most of the FSDs are completed. This agreement was made because SI and DOTH determined that FSDs should be given priority over CDDs. However, it is recommended that CDDs be reviewed and validated along with FSDs by DOTH because the CDDs cover the configuration of standard functions that will provide system baseline and solutions for over 480 requirements in Wave I.

The H4 project is now moving toward the actual setup and development of the system. Therefore, it is recommended to include all discussed details and document them according to the Deliverable Expectation Documents (DED) and to refrain from granting conditional approval for any outstanding deliverables.

During the month of June 2023, most of the Knowledge Transfer sessions are used for reviewing and discussing FSDs. A review of deliverables still appears to be challenging due to the lack of SAP knowledge, terms, and processes. Despite DOTH's previous request regarding training, project team training materials have yet to be provided. Therefore, for DOTH personnel to recreate the scenarios, they must rely on their recollection and notes or thoroughly review the video recordings of the session.

SI and DOTH continue to have a discussion about their testing methodologies and assigned tasks to each other. However, as mentioned in the previous report, they still have some disagreements to resolve. DOTH's position is that DOTH participating in Unit Testing is crucial and this involves using test cases and scripts that are structured and mapped to requirements, while SI's position is that SI completes the testing and presenting the results to DOTH.

As noted in the previous report, the H4 project is currently experiencing understaffing issues in comparison to the initial resource plan. The turnover of resources has resulted in a loss of institutional knowledge and disrupted team dynamics and cohesion in the H4 project. This has led to various concerns including the need to prioritize system integration across modules, redesign solutions, rediscover requirements, and redo deliverables to meet the requirements.

## B. Observation, Risk, Issues, Subject Category

C. Total Budget vs. Inception to Date Expenditure, Project Timeline

# Number of Observation, Risk, and Issues by Status

- Original Go-Live date: 7/1/2022
- New Go-Live date: 8/1/2023
- Remaining Months (including post-Go-Live support): 4
- Completed Months: 26
- Percentage of Completed Months vs. Total Months: 86.67%
- Percentage of ITD Expenditure vs. Total Budget: 29.24%
- Remaining Budget Balance: \$7,751,544

## **Project Timeline**

H4 is in the Explore Phase. The Explore Phase has been extended and the current target date is "asap". New Go-Live date is August 1, 2023. A few Realize Phase activities are in progress. Wave 2 (SBP) activities are on hold until the Wave 1 Project Plan is completed.

- Prepare Phase: Define Strategy, Project Initiation, Project Standards, Technical Requirements.
- Explore Phase: Business Workshops and Requirements, Fit-Gap Analysis, Technical Solution Design, Testing Strategy, Training Strategy
- Realize Phase: Functional Specification, Organization Alignment, Knowledge Transfer, Build, Development, Unit Test, Integration Test
- Deploy Phase: Support Plan, Training Delivery, Cutover Plan, User Acceptance, Simulations, Go/No-Go Decision
- Production: Cutover, Go-Live, Hypercare Support, Transition to Operations, Project Closeout

## III. IV&V Findings – Observations, Risk, Issue and Feedback/Mitigation

A. Subject Category: Schedule Management

## Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

#### ORI ID: I-210531-02

Issue

The final Project Plan/Implementation Schedule has not been approved by DOTH and the deliverable is not completed. This is a foundational document for a project management and scheduling, and it is one of the most critical deliverables. Delay in the Project Plan and Implementation Schedule pose decreased confidence in being able to manage project resources efficiently and meet the final Go-Live date. Also, without the Project Plan and the Implementation Schedule DOTH has limited project visibility and it will impact schedule and resource management. It is currently unknown, at a detail level, if the number of resources are adequate to complete the project on schedule. Earlier versions of the Project Plan were not accepted partly because of oversubscribed resources and incorrect dates (i.e., one consultant or DOTH team member working more than 40 hours in a week, etc.)

## Feedback/Mitigation/Updates

It is recommended that SI complete Project Plan/Implementation Schedule as soon as possible.

Project Plan/Implementation Schedule Submission History:

11/16/2020, 12/21/2020, 4/26/2021: The initial project plan was submitted and returned back to SI after DOTH review due to incompleteness.

6/3/2021: The New Target Date for Project Plan/Implementation Schedule is set to 6/11/21 by SI.

6/14/2021: Updated project plan was submitted by SI but returned back to SI due to incompleteness.

7/1/2021: It is currently unknown, at a detail level, if the number of resources are adequate to complete the project on schedule. Earlier versions of the Project Plan were not accepted partly because of oversubscribed resources and incorrect dates (i.e. one consultant or DOTH team member working more than 40 hours in a week, etc.). Updated project plan was submitted by SI but returned back to SI after DOTH review due to incompleteness. Revised Acceptance Date: 8/31/2021

9/02/2021: No updates have been submitted to DOTH.

9/16/2021: DOTH interviewed an assistant project manager candidate on 9/7/2021.

9/30/2021: No updates have been submitted to DOTH.

10/5/2021: SI Assistant Project Manager submitted the revised project plan. DOTH has a meeting with the SI Assistant Project Manager and requested a revision due to the project plan being incomplete.

10/13/2021: SI Assistant Project Manager submitted the revised project plan and DOTH will hold a review meeting on 10/22/2021.

10/25/2021: DOTH had a meeting with the SI Assistant Project Manager to review Project Plan/Implementation Schedule. Progress has been made, however some data such as the dates and % completion need to be corrected.

11/10/2021: SI Assistant Project Manager submitted the revised project plan and DOTH will hold a review meeting on 11/24/2021.

11/24/2021: SI Assistant Project Manager and DOTH Project Manager worked together via Teams and updated and fixed the Project Plan. There will be a follow up meeting.

12/31/2021: SI Assistant Project Manager and DOTH Project Manager worked together via Teams and updated and fixed the Project Plan. It is still not complete.

1/31/2022: No new major update. The document is making incremental progress, however it is not completed yet.

2/28/2022: No new major update. It is still incomplete.

#### Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

3/31/2022: The Assistant Project Manager left H4 implementation project. The Project Manager will continue to work on Project Plan/Implementation Schedule.

4/29/2022: No major updates. A new Go-Live date will be set after PDDs are approved by DOTH.

5/31/2022, 6/30/2022, 7/31/2022: No major updates.

8/31/2022: The new assistant project manager will be revising Project Plan/Implementation Schedule with updated Go-Live Date of 7/1/2023. 9/30/2022: No major updates. 10/31/2022: It is recommended that SI complete the Project Plan/Implementation Schedule as soon as possible since the absence of the Project Plan/Implementation Schedule prevents from proper resource planning, meeting schedules, and integrated solution development and this causes issues and inefficiency. The project meetings are not being held cohesively and the project focus is scattered.

11/30/2022: It was expected that after the new Go-Live date was set a revised Project Plan/Implementation Schedule would be prepared, however there is no update to the Project Plan. It is recommended that SI complete the Project Plan/Implementation Schedule as soon as possible. 12/31/2022: Project Plan/Implementation Schedule still has not been submitted to DOTH.

1/31/2023: A high-level project plan was presented during the PMO on 1/26/2023 but the detailed Project Plan/Implementation Schedule has not been submitted to DOTH.

2/28/2023: The Project Plan/Implementation Schedule was submitted to DOTH for review and approval. DOTH reviewed it internally and scheduled a meeting for further review and discussion with SI on 3/1/2023.

3/31/2023: SI submitted the Project Plan/Implementation Schedule for discussion on 3/1/2023 and it was observed that task durations and dates need to be completed based on the current availability of resources and time constraints. DOTH and SI disagree with approaches regarding the resource loading to the Project Plan. They are in the process of working through the details and finalizing the Project Plan/Implementation Schedule.

4/30/2023: There are still disagreements between DOTH and SI regarding the resource plan, task duration and deliverables due dates, as well as the Go-Live date.

5/31/2023: DOTH and SI have been working together to agree on the Project Plan/Implementation Schedule, but an agreement has not been reached. This is an important deliverable that requires both parties' attention and it should be completed as soon as possible.

6/30/2023: DOTH and SI planned to meet to work on the Project Plan/Implementation Schedule and it should be completed asap.

## Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

Issue

ORI ID: I-220331-02

The Go-Live date of Wave 2 for Budget and Planning (SBP) has not been set yet.

# H

**Impact** 

## Feedback/Mitigation/Updates

The Go-Live of Wave 2 for Budget and Planning (SBP) needs to be set as soon as possible because it impacts the project plan, resource scheduling, and project management. It is recommended to weigh the pros and cons of merging Wave 1 and Wave 2 given that there is significant delay in the project progress. 4/29/2022: No major updates. In accordance with meetings and discussions, it should be carefully considered that SBP goes live with other modules at once because it will eliminate any additional reconciliation process and streamline the whole end-to-end budget procedures if SBP goes live at the same time as FM.

#### Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

5/31/2022: The issue of not discovering SBP functions and incorporating them into the current solution design was discussed again during the Project System

PDD review. It is recommended that SBP functions and features need to be reviewed and considered when developing solution designs for Fund

Management, Project System, FHWA requirements.

6/30/2022: No major updates.

7/31/2022: No major updates.

8/31/2022: No major updates.

9/30/2022: SI will provide additional information for SBP or its replacement application, because SBP is planned to be unsupported in the near future.

10/14/2022: SI stated that Wave 2 would start in November 2022. However, the Go-Live date of Wave 2 has yet to be determined.

11/15/2022: SI is working with DOTH resources and preparing for a Kickoff meeting.

12/21/2022: Wave 2 SPB Budgeting Kick-off meeting was held.

1/31/2023: SI is working on the Prepare Phase deliverables and preparing project team member training, however the Project Plan for Wave 2 has not been submitted yet and Go-Live date still has not been determined.

2/28/2023: SI provided training on 2/23/2023. No SBP project plan has been submitted to DOTH.

3/31/2023: SI submitted the Project Plan/Implementation Schedule for the Wave 2 Budget and Planning (SBP). It is being reviewed and updated.

4/30/2023: Project Plan/Implementation Schedule for Wave 2 is still being reviewed and updated.

5/31/2023: The Go-Live date of Wave 2 for Budget and Planning (SBP) will not be set until the Project Plan/Implementation Schedule for Wave 1 is completed.

6/30/2023: The Project Plan/Implementation Schedule for Wave 1 has not been completed. Therefore, the Go-Live date of Wave 2 for Budget and Planning (SBP) is not set.

#### Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

#### ORI ID: R-221031-01

Risk

OKI ID: K-221031-01

New Go-Live date is set to 7/1/2023 but it is at high risk due to many deliverables remaining and delay in implementation.

# H

**Impact** 

## Feedback/Mitigation/Updates

11/30/2022: New Go-Live date of 7/1/2023 appears to be at risk; DOTH and SI should discuss feasibility of the Go-Live date.

12/31/2022: It is recommended to discuss the Go-Live date of 7/1/2023 as it is an improbable target date to achieve.

1/31/2023: It is recommended for DOTH and SI to review the feasibility of 7/1/2023 Go-Live date and the Project Plan to be submitted as soon as possible.

2/28/2023: The Project Plan/Implementation Schedule was submitted to DOTH for review and approval. DOTH reviewed it internally and scheduled a meeting for further review and discussion with SI on 3/1/2023.

3/31/2023: SI and DOTH are reviewing and trying to reach an agreement on the Project Plan/Implementation Schedule with a new Go-Live date.

4/30/2023: SI and DOTH are currently in the process of reviewing and working out a new Project Plan/Implementation Schedule in order to establish a revised Go-Live date.

5/31/2023: No significant progress has been made for the new Project Plan/Implementation Schedule.

6/30/2023: No major updates.

## B. Subject Category: Resource Management

#### Resource Management: Observation, Risk, Issue and Feedback/Mitigation

#### Observation

#### ORI ID: O-230309-01

It is observed that three SI rolled-off consultants without replacement are impacting the project deliverables and this leads to ongoing rediscovery sessions and changes in solution design and processes.

#### Feedback/Mitigation/Updates

4/30/2023: It is continuously observed that deliverables are being re-worked due to the resource change. This could potentially raise the level of risk for the project.

5/31/2023: The impact of consultants' previous leaving is continuously observed.

6/30/2023: Solution integration appears to require more resources and needs more attention because H4 requires a clearer and more concrete comprehensive system architecture; it should outline how different components will interact and integrate to create the desired solution compared to what is currently presented.

### C. Subject Category: Quality Management

#### Quality Management: Observation, Risk, Issue and Feedback/Mitigation

# Issue

#### ORI ID: I-221025-01

SI deliverables have tended to contain errors and misinformation such as incorrect project name, other client's system architecture, missing/incomplete contents, etc. DOTH recently received a DED from SI, but it turned out that the DED was for another client. These errors and missing information are causing delays in the deliverable review and approval process.

**Impact** 

## Feedback/Mitigation/Updates

It is recommended that deliverables are more carefully prepared, reviewed and proofread by SI document quality team before submitting to DOTH for review. 12/31/2022: Formatting and content issues that could be easily prevented (e.g., big gaps in the document without good reasons, improper bullet pointing, inconsistency between sections, and incorrect/incomplete information thus impacting legibility and accuracy) are continuously observed.

1/31/2023: No major updates.

2/28/2023: Some minor errors are still observed: missing sections, outdated/incorrect information, etc.

3/31/2023: No major updates.

4/30/2023: It has been observed that a few errors, such as duplicate information, incomplete sections, and missing information discovered during the FSD sessions and CDD review, need to be addressed and corrected.

5/31/2023: Some deliverables still contain grammar, formatting, and spelling issues; this leads to needing additional help to understand and follow the contents.

6/30/2023: Some deliverables such as CDDs do not meet the requirements defined in the DED and they are incomplete or missing information.

## D. Subject Category: Risk/Issue Management

#### Risk/Issue Management: Observation, Risk, Issue and Feedback/Mitigation

#### Issue

#### Impact

#### ORI ID: I-221130-02

Some items from Issue/Risk Log are being discussed without detailed resolution or follow-up.

## Feedback/Mitigation/Updates

The risks and issues of the H4 Project need to be more proactively managed and respective SMEs should be more engaged regarding the details to ensure the success of the project.

12/31/2022: No major updates.

1/31/2023: It is recommended that all outstanding issues and risks be discussed during the PMO meeting, not just new items.

2/28/2023: No major updates.

3/15/2023: There are 13 unresolved outstanding issues and one new issue found.

4/30/2023: Progress has been made, however there are items that are aging and a quicker follow up and resolution to those issues will help with the project timeline.

5/31/2023: There are 37 items that need to be reviewed - 15 resolved and 22 in progress. There are still old items that need follow up.

6/30/2023: There are 38 items that need to be reviewed - 15 resolved and 23 in progress. There are still old items that need follow up.

### E. Subject Category: Communication Management

## Communication Management: Observation, Risk, Issue and Feedback/Mitigation

#### Issue

#### **Impact**

#### ORI ID: I-220131-08

There are some requirements and processes that impact multiple modules, including waterfall funding, FHWA, etc. However, information often are siloed and it seems to be not communicated to the other consultants frequently. This results in multiple consultants asking for the information on a same topic each time at different meetings. This item also impacts the subject category of Solution Design and Configuration.

### Feedback/Mitigation/Updates

It is recommended: More coordination and collaboration is needed to design and develop an integrated solution. Proactively communicate with other consultants on topics that may be relevant for another consultant. Meeting recordings should be utilized to understand the relevant topic for the related process in another module. All key project team members to attend the meetings related to critical core requirements such as waterfall funding. Analyze each meeting's agenda to see if there are other consultants that should attend for related information.

2/28/2022: There is another consultant who is leaving the project and a replacement consultant has not participated in a meeting, and these turnovers are adding difficulty to the current communication issue.

#### Communication Management: Observation, Risk, Issue and Feedback/Mitigation

3/31/2022: More collaboration is expected among SI consultants where it requires integrated solutions such as Waterfall Funding, FHWA Billing, Labor, etc. When DOTH staff inquiries about solutions that integrate across two or more functions between H4 modules, DOTH staff should also be provided with the integrated solution answer as opposed to separate or siloed bits of information of each H4 module.

4/29/2022: Efforts were made to improve communication and collaboration. (E.g., Rules of Engagement prepared by SI)

5/31/2022: Collaboration made progress. For example, some requirements that impact multiple areas have been referenced by multiple PDDs of different areas. However, there are still some communication improvements to be made between SI consultants.

6/30/2022: More coordination and collaboration could be made where cross module interaction is needed.

7/31/2022: More coordination and collaboration were present during the PDD reviews.

8/31/2022: Some DOTH requirements that were presented and discussed previously were asked to be revisited again in the meetings.

9/30/2022: Improvements still need to be made in communication and collaboration between SI consultants.

10/31/2022: Communication and collaboration still need to improve between SI consultants, especially with three consultants leaving the project.

11/30/2022: It has been observed that during FSD meetings information is not being shared between modules, including basic information which impacts multiple modules. Since this information is not being shared among team members, DOTH has to re-explain basic information multiple times.

12/31/2022: More communication and collaboration are needed for integrated solution design. There have been siloed activities and approaches observed.

1/31/2023: Designing an integrated solution for FHWA and other modules will require additional collaboration effort, teamwork, and cooperation. The issues of siloed information and ununified solution design are still observed between models and cross-business areas where tight integration is needed.

2/28/2023: It is observed that more communication and collaboration are still needed for an integrated solution design. DOTH is still not clear on the end-toend FHWA System solution.

3/31/2023: The issue regarding an integrated solution design was brought up in a PMO meeting. It was decided that there will be an integration checklist developed to keep track of issues and action items coming out of meetings that impact integration of modules.

4/30/2023: It is observed that additional communication, collaboration, and comprehensive solution architecture are necessary to achieve a fully integrated solution design as there are information gaps between the modules where the transactions impact each other.

5/31/2023: The lack of an integrated and comprehensive solution design still remains a concern. It is recommended that SI and DOTH work together to resolve this ongoing issue.

6/30/2023: There is an ongoing concern regarding the absence of an integrated and comprehensive solution design. When a meeting is held, it is recommended that all responsible parties join the meeting for best facilitation.

## F. Subject Category: Contract Management

### Contract Management: Observation, Risk, Issue and Feedback/Mitigation

#### Issue

ORI ID: I-230309-03

SI stated that the unit testing will be conducted by SI consultants only and there will be no participation from DOTH. SI will provide reports showing test results with screenshots instead of unit testing scripts.

#### Contract Management: Observation, Risk, Issue and Feedback/Mitigation

## Feedback/Mitigation/Updates

It is recommended for SI and DOTH come to an agreement on how the unit testing will be conducted. It may be beneficial for DOTH to be involved in unit testing to ensure requirements are implemented as expected.

3/9/2023: SI stated according to its methodology: 1. unit testing will be conducted based on T-Codes in Business Process Master List (BPML), not by each requirement of DOTH with test scripts and 2. DOTH will participate in the unit testing for WRICEF, but not for standard functionalities. DOTH disagrees and believes that DOTH should participate in all testing regardless of standard function or WRICEF, as defined in the project documents.

4/30/2023: DOTH and SI are in a discussion and working towards finding a mutual agreement.

5/31/2023: Additional discussions are taking place for unit testing DED, however full agreement has not been reached yet.

6/30/2023: DOTH and SI are holding meetings and collaborating towards reaching a mutual agreement.

## Contract Management: Observation, Risk, Issue and Feedback/Mitigation

ORI ID: R-230309-01

Risk

Impact

There are various deliverables that are conditionally approved due to missing or incomplete requirements analysis or process discovery and the project team has to engage in rediscover of information for the Project.

## Feedback/Mitigation/Updates

It is recommended that DOTH avoid conditional approval on any remaining deliverables because many deliverables are interdependent, and some of them are built upon the previous ones. These conditionally approved deliverables could require rework and fixing when errors and omissions are found later, and it could further complicate the project deliverable management and updates.

4/30/2023: No major deliverables this month were impacted by this issue. However, there are few individual FSDs that are conditionally approved and this may increase project risk.

5/31/2023: No major updates.

6/30/2023: No major updates.

## Contract Management: Observation, Risk, Issue and Feedback/Mitigation

ORI ID: R-230525-01

Risk

Impact

Some deliverables were started being worked on, submitted, and invoiced before DED was approved.

#### Contract Management: Observation, Risk, Issue and Feedback/Mitigation

#### Feedback/Mitigation/Updates

It is recommended that SI starts working on deliverables after approval of DED per Contract, "Attachment S8; A Deliverable Expectation Document that describes Acceptance Criteria for each Deliverable and Service subject to Acceptance Tests. Each DED is a Deliverable that must receive Acceptance prior to beginning work on the Deliverable to which it applies"

6/30/2023: DED is being prepared for Project Team Training.

### G. Subject Category: Requirement Management (Processes, Requirements and Fit/Gap)

### Requirement Management: Observation, Risk, Issue and Feedback/Mitigation

Issue

**Impact** 

ORI ID: I-211028-02

The Requirements Traceability Matrix was delayed and has not been completed.

### Feedback/Mitigation/Updates

It is recommended that SI complete the deliverable as soon as possible.

11/18/2021: No major updates. 12/2/2021: No major updates.

12/31/2021: No major updates.

1/31/2022: No major updates. Not going through the full DOTH requirements and not completing RTM before PDDs are completed is causing some requirements to be missed and it is causing multiple issues. 2/28/2022: No major updates. 3/31/2022: No major updates.

4/29/2022: SI is targeting RTM to be completed by 5/31/2022.

5/31/2022: The first RTM review was held on 5/25/2022 and topics covered were HR, Payroll, and Time Sheets.

6/30/2022: No major updates. 7/31/2022: The AR RTM was reviewed.

8/2/2022: The Purchasing RTM was reviewed. 9/16/2022: Feedback was provided for multiple-modules RTM. The PO RTM was reviewed.

10/31/2022: FHWA RTM was reviewed.

11/30/2022: FHWA RTM is being reviewed and updated. It is noticed that RTM is still being updated by SI. Therefore, it is recommended that SI finalize RTM first and submit it officially for DOTH's review.

12/31/2022: The RTM review for Federal Billing and Projects and Grants were conducted and DOTH is waiting for the updates.

1/31/2023: The RTM review was held for FHWA and Project System. It is being reviewed and updated.

2/28/2023: The RTM was conditionally approved on 2/2/2023. However, FA, HR, FHWA are being reviewed and updated. It is recommended that RTM be fully completed prior to Fit/Gap.

3/31/2023: The RTM review was held for FA on 3/22/2023 and it is being updated.

4/30/2023: There are still some unresolved RTM items that need to be reviewed and clarified. It is recommended that DOTH and SI agree on the resolution of these remaining RTM items.

5/31/2023: The RTM has not been discussed this month and the issues remain unresolved.

#### Requirement Management: Observation, Risk, Issue and Feedback/Mitigation

6/30/2023: The FA RTM was discussed on 6/16/2023 and SI provided answers and explanations. It is recommended that SI update the conditionally approved RTM and ensure accuracy and completeness as defined in the DED. It is observed that requirements in RTM are still revisited and discussed during the FSD sessions.

## Requirement Management: Observation, Risk, Issue and Feedback/Mitigation

Risk

#### **Impact**

#### ORI ID: R-230228-01

FSDs are prepared without in-depth discussion during the RTM and Fit/GAP. An FSD is a final document before the System configuration, therefore it should be as complete as possible. However, there are a lot of discoveries still being made during the FSD sessions.

#### Feedback/Mitigation/Updates

It is recommended that the H4 Project Team work on detailed and complete discovery of DOTH requirements without postponing any elements to development and testing. All the details should be discovered by the completion of FSDs.

4/30/2023: There were some meetings where detailed information for configuration or reports was suggested to be discovered during the testing phase. It is recommended that all granular details be discovered and documented with the FSDs now rather than postponing until the integration testing. Developers need clear guidance on creating reports and customizing applications, which is why it's crucial for FSDs to be comprehensive and detailed.

5/31/2023: It is recommended that all detailed functional specifications be discussed, reviewed, agreed upon, and documented entirely before moving to the next task, such as Conference Room Pilot.

6/30/2023: Progress is being made on all modules. However, there are some FSDs that need to provide more details and more requirements; processes discussion is needed.

### H. Subject Category: Solution Design and Configuration

#### Solution Design and Configuration: Observation, Risk, Issue and Feedback/Mitigation

#### Observation

ORI ID: O-230524-01

There was a disagreement on the level of detail and how to review and confirm the Configuration Design Document (CDD). DOTH had questions on the CDDs, however not all modules contained detailed enough answers for DOTH to understand them.

## Feedback/Mitigation/Updates

SI will do a walkthrough of the Configuration Design Document with DOTH in the upcoming meetings. It is recommended that SI provide enough details in CDDs and in responses to the questions for DOTH to be able to understand the concept of the design and to be able to do maintenance in the future. 6/30/2023: CDD review meetings have not been scheduled or held yet.

### I. Subject Category: Reports and Analytics

### Reports and Analytics: Observation, Risk, Issue and Feedback/Mitigation

**Impact** 

## ORI ID: R-221130-03

Risk

RTM and FSD are being prepared without in-depth reports discussion and Analysis of Reporting Requirements (ARR) does not provide sufficient information to cover all the details of the reports. Reports are often the final desired outcome of an activity and detail discovery is essential.

### Feedback/Mitigation/Updates

It is recommended that SI conduct detailed discovery of DOTH reports to ensure all the necessary information for input and output are covered.

12/31/2022: During the FSD discussions, additional details that need to be on the reports have been discovered.

1/31/2023: H4 project team is having deep-dive discussions on WRICEF's requirements, processes, and functional specifications.

2/28/2023: Reports WRICEF FSDs are being reviewed and new discoveries are being made. FSDs are being updated based on discussions.

3/31/2023: New discoveries on reports requirements continue to be found.

4/30/2023: Reports are constantly undergoing new discoveries.

5/31/2023: Further details about the reports have been uncovered and discussed.

6/30/2023: WRICEF Reports are being discussed during the FSD sessions but other standard reports in H4 also need to be reviewed.

#### J. Subject Category: Data Conversion

### Data Conversion: Observation, Risk, Issue and Feedback/Mitigation

**Impact** 

#### ORI ID: R-221130-04

Risk

Data Conversion strategy and plan documents have not covered the details such as source/target, cleansing, dependencies, and validations. These activities have been deferred to the Realize Phase from the Explore Phase causing delays, rework, or additional work later. WRICEF and detailed data conversion work deferred from the Explore Phase are discussed and performed during FSD sessions.

## Feedback/Mitigation/Updates

It is recommended to catch up on work deferred from the Explore Phase and to explore Data Conversion materials in detail to finalize the Data Conversion WRICEF in FSD.

12/31/2022: Data conversion discussions are making progress. However, familiarity of H4 terminologies, functions, and processes by DOTH will be needed to adequately review and complete data conversion FSDs.

1/31/2023: FSD meetings are continuously being held to review data conversion specifications, especially to identify source of data that needs to be extract from.

2/28/2023: Data conversion discussions have been held and are making progress.

#### Data Conversion: Observation, Risk, Issue and Feedback/Mitigation

3/31/2023: It is observed that more explanation and data conversion details, such as sequences and impacts of data conversion upload from various modules, need to be provided by SI for DOTH's better understanding and preparation.

4/30/2023: As FSDs and data conversion are being reviewed, new information about data conversion is constantly being discovered and revealed. However, it is important to note that certain details should have been discussed and clarified during the Explore Phase.

5/31/2023: More details and information regarding Data conversion have been found and discussed.

6/30/2023: AR Customer and GL data conversion FSD were discussed, reviewed, and submitted for questions and comments. Data conversion needs to be performed in an integrated manner and it is recommended that various modules engage in integration discussion for a successful data conversion.

### K. Subject Category: Documentation

#### Documentation: Observation, Risk, Issue and Feedback/Mitigation

# Issue

#### ORI ID: I-221130-03

It is observed that meeting minutes or action items from the project discussions are not always provided. To-Do lists and summaries of the meetings may have been gathered on individual levels, but this makes it difficult to track the progress as a project team and also challenging to collaborate between project team members.

**Impact** 

#### Feedback/Mitigation/Updates

It is recommended to prepare meeting summaries and/or to-do lists from the meetings to efficiently prepare, plan, and navigate the follow up activities and hold efficient meetings.

12/31/2022: No major updates.

1/31/2023: PMO meeting minutes and agenda for weekly standing meetings have been provided. It will help to have meeting minutes for other Realize Phase meetings as well.

2/28/2023: Meeting minutes are required to track action items and to-do tasks. For example, PO match options, H4 values for FAMIS project/Ph/Act fields, Workflow routings, source/object codes, fixed asset funds, payroll accounting entries, etc. Currently, it is difficult to track who needs to perform what task by when without meeting minutes.

3/31/2023: A document such as meeting minutes or an action items list should be compiled after each meeting--as opposed to each individual tracking their own tasks--to share with DOTH and have a cohesive follow up for the various meetings that are taking place.

4/30/2023: No major updates. It is recommended that DOTH and SI develop a standardized procedure for meeting minutes or task lists to track action items effectively.

5/31/2023: Some progress has been made, but it is recommended that meeting minutes and action items be shared on a centralized platform like Teams and ensure they are monitored and followed up.

6/30/2023: No major updates.

### L. Subject Category: Training and Knowledge Transfer

### Training and Knowledge Transfer: Observation, Risk, Issue and Feedback/Mitigation

#### Risk

#### **Impact**

#### ORI ID: R-221031-01

DOTH project team members have not been sufficiently provided instruction and training to actively access H4 and familiarize themselves with H4 functions and processes.

#### Feedback/Mitigation/Updates

It is recommended that SI provide training and instruction on how to navigate and process basic transactions so that the project team members can be more experienced with H4 and get ready for the System testing, verification, and validation.

11/15/2022: No major updates. It is recommended that DOTH test availability of Dev environment from on and off DOTH network.

12/21/2022: Orientation meeting for Subject Matter Leader Knowledge Transfer was held. No dates for the trainings have been set yet.

1/31/2023: Weekly standing meetings have been started to provide project team member trainings.

2/28/2023: Knowledge Transfer sessions are taking place and training is being provided. However, it is observed that there is a lack of instruction (training material) for the training sessions.

3/31/2023: DOTH requested many times for documented training material to be provided for Knowledge Transfer sessions and SI is working on it.

4/30/2023: There have been additional discussions during PMO meetings for project team member training materials and SI will follow up on it.

5/31/2023: No major updates.

6/30/2023: No major updates.

### M. Subject Category: Production Migration

## Production Migration: Observation, Risk, Issue and Feedback/Mitigation

# Issue

#### Impact

#### ORI ID: I-211028-07

The Initial Deployment Plan was delayed and has not been completed.

### Feedback/Mitigation/Updates

It is recommended that SI complete the deliverable as soon as possible.

11/18/2021: No major updates. 12/2/2021: No major updates.

12/31/2021: No major updates.

1/31/2022: No major updates.

2/28/2022: No major updates.

3/31/2022: No major updates.

4/29/2022: No major updates.

## Production Migration: Observation, Risk, Issue and Feedback/Mitigation

5/31/2022: No major updates.

6/30/2022: No major updates.

7/31/2022: No major updates.

8/31/2022: No major updates.

9/30/2022: No major updates.

10/31/2022: SI stated that they will follow up and get back to DOTH with updates.

11/30/2022: No major updates.

12/31/2022: The Initial Deployment Plan still has not been submitted to DOTH.

1/31/2023: No major updates.

2/28/2023: No major updates.

3/31/2023: No major updates.

4/30/2023: No major updates.

5/31/2023: : No major updates.

6/30/2023:: No major updates.

# IV. Meetings and Discussions Participated for the Month of June 2023

Meetings an	d Discussions	5	
Meeting ID	Meeting Date	Meeting Title	Meeting Description
M230601-1	6/1/2023	HCM Overview	A meeting was held to review maintaining HR master data.
M230601-2	6/1/2023	DOT-HWY financial project on-boarding	An internal DOTH meeting was held to discuss the status of the H4 project.
M230601-3	6/1/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to discuss waterfall funding for the emergency project.
M230602-1	6/2/2023	Logistics Weekly Connect	A meeting was held to discuss the following: Radio buttons for Exempt and Sole Source, Search help implementation in progress, PO Data Conversion, and EGS FSD prep work.
M230602-2	6/2/2023	Weekly AR Discussion	A meeting was held to discuss TDR Pros and Cons.
M230601-3	6/2/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M230605-1	6/5/2023	Onsite - Weekly FM Budgeting Discussion	A meeting was held to discuss Blanket Encumbrance.
M230605-2	6/5/2023	Onsite - Weekly Fixed Asset discussion	A meeting was held to review Disposal Application and Certificate of Disposal.
M230606-1	6/6/2023	Discuss Federal-Aid Project Expenditures and Claims Report - Grants	A meeting was held to discuss federal aid project expenditures and claims report.
M230606-2	6/6/2023	Teams - Weekly Fixed Asset discussion	A meeting was held to review the Excess State Property report.
M230606-3	6/6/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss the integration design of invoice matching to POs and Contracts.
M230606-4	6/6/2023	HCM Overview	A meeting was held to review maintaining HR master data.
M230607-1	6/7/2023	Onsite - Weekly MVSO GM Discussion - MVSO Aiea & Teams	A meeting was held to discuss federal aid project expenditures and claims report.
M230607-2	6/7/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to discuss waterfall funding for the emergency project and the waterfall funding split table.
M230607-3	6/7/2023	Prep for LSI Deliverables call	An internal meeting was held to discuss deliverables: Configuration of all Software and Equipment, Final Software Unit Testing, Project Team Training.
M230608-1	6/8/2023	Internal PMO	An internal DOTH meeting was held to discuss the current issues of the project.
M230608-2	6/8/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M230608-3	6/8/2023	Discussion on pending deliverables/DEDs	A meeting was held to discuss the pending deliverables and DEDs.
M230608-4	6/8/2023	Internal de-brief	An internal DOTH meeting was held to discuss issues and concerns with the project.

	d Discussions		
Meeting ID	Meeting Date	Meeting Title	Meeting Description
M230608-5	6/8/2023	Weekly AR Discussion	A meeting was held to discuss TDR Pros and Cons and customer data conversion with work orders.
M230608-6	6/8/2023	Onsite - Weekly Fixed Asset discussion	A meeting was held to review 17A FSD.
M230609-1	6/9/2023	Logistics Weekly Connect	A meeting was held to discuss equipment, gas/oil, and store FSD.
M230609-2	6/9/2023	Discuss Change Order for Testing	A meeting was held to discuss the change order for Unit Testing.
M230613-1	6/13/2023	HCM Overview	A meeting was held to review Info Types and Functional Area.
M230613-2	6/13/2023	Internal PMO prep - CDD	An internal DOTH meeting was held to discuss the CDD issues.
M230613-3	6/13/2023	Weekly Fixed Asset discussion	A meeting was held to review RTM and Asset Creation and Capitalization FSD.
M230613-4	6/13/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss JV printing and integration design of invoice matching to POs and Contracts.
M230614-1	6/14/2023	Weekly FM Budgeting Discussion	A meeting was held to discuss Blanket Encumbrance: automatic vs. manual reduction of Blanket Encumbrance.
M230614-2	6/14/2023	Weekly MVSO GM Discussion	A meeting was held to discuss the federal aid project expenditures and claims report.
M230614-3	6/14/2023	Review PCard FSD updates	A meeting was held to discuss PCard Reconciliation.
M230614-4	6/14/2023	Updated Language	A meeting was held to discuss the CDD deliverable provisions for "Path Forward."
M230614-5	6/14/2023	H4 Waterfall Splitting Table	An internal DOTH meeting was held to discuss the Waterfall Funding Splitting Table.
M230615-1	6/15/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M230615-2	6/15/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to discuss waterfall funding for the emergency project and the waterfall funding split table.
M230615-3	6/15/2023	Weekly AR Discussion	A meeting was held to discuss TDR and customer data conversion with work orders.
M230615-4	6/15/2023	HCM Overview	A meeting was held to review Info Types and validation regarding leave data entry.
M230616-1	6/16/2023	Logistics Weekly Connect	A meeting was held to review EGS FSDs.
M230616-2	6/16/2023	Continued - Weekly Fixed Asset discussion	A meeting was held to review RTM and Asset Creation and Capitalization FSD.
M230616-3	6/16/2023	Continued - Discuss Change Order for Testing	A meeting was held to discuss change order for testing.
M230619-1	6/19/2023	Discuss tracking of LSI Deliverables	An internal DOTH meeting was held to discuss the H4 deliverables.
M230619-2	6/19/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss the FAMIS Payment Inbound/Outbound Interface and invoice matching to POs and Contracts.

Section: Meetings and Discussions Participated for the Month of June 2023

Meetings an	d Discussions		
Meeting ID	Meeting Date	Meeting Title	Meeting Description
M230620-1	6/20/2023	Weekly Fixed Asset discussion	A meeting was held to review Asset Creation and Capitalization FSD and demonstrate Asset Creation, receipts, and invoice data entry in H4.
M230621-1	6/21/2023	Weekly FM Budgeting Discussion	A meeting was held to discuss Budget Control System (BCS): Control Address, Budget Address, and Posting Address.
M230621-2	6/21/2023	Weekly MVSO GM Discussion	A meeting was held to discuss the naming convention for the Control number, Grant Master Data, and federal aid project expenditures and claims report.
M230621-3	6/21/2023	HCM Overview	A meeting was held to review time sheet validations: H4 vs. Import though Crosswalk from AS400.
M230621-4	6/21/2023	Discuss Options for Invoice Matching / Waterfall	An internal DOTH meeting was held to discuss invoice matching options.
M230621-5	6/21/2023	Internal PMO	An internal DOTH meeting was held to discuss the current issues of the project.
M230622-1	6/22/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M230622-2	6/22/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to discuss the AP invoice matching options.
M230622-3	6/22/2023	Discuss Fixed Asset Quarterly FAIS updates with DLIR	A meeting with DLIR was held to discuss FAIS interface.
M230622-4	6/22/2023	Weekly AR Discussion	A meeting was held to discuss how to merge duplicate customer information.
M230623-1	6/23/2023	Logistics Weekly Connect	A meeting was held to review EGS-I003 Storeroom Expense Interface.
M230623-2	6/23/2023	Continued - Weekly FM Budgeting Discussion	A meeting was held to discuss Funds Reservation Document Numbers ranges and reduction in Blanket Encumbrances.
M230623-3	6/23/2023	Discuss TC 411, 473 and 474	A meeting was held to discuss TC 411, 473, and 474.
M230626-1	6/26/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss the FSDs: Non PO-Based AP Invoice Workflow and PO Based AP Invoice Workflow.
M230627-1	6/27/2023	Weekly Fixed Asset discussion	A meeting was held to discuss DECAL Numbers in 17A.
M230628-1	6/28/2023	Weekly FM Budgeting Discussion	A meeting was held to discuss and review federal budget entries with H4 demo.
M230628-2	6/28/2023	Weekly MVSO GM Discussion	A meeting was held to discuss federal aid project expenditures and claims reports.
M230629-1	6/29/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M230629-2	6/29/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to discuss the waterfall funding table and performance of period (POP).
M230629-3	6/29/2023	Weekly AR Discussion	A meeting was held to discuss how to merge duplicate customer information.
M230630-1	6/30/2023	Logistics Weekly Connect	A meeting was held to review EGS Equipment Usage FSD.

Section: Meetings and Discussions Participated for the Month of June 2023

Meetings and	d Discussions		
Meeting ID	Meeting Date	Meeting Title	Meeting Description
M230630-2	6/30/2023	Continued - Review GL/AP FSDs	A meeting was held to discuss FSDs: E006_Custom Program to Generate JEs to Reverse and AP-R002_FAMIS Interface Batches Report.

# VII. Appendix

# A. Impact Definition

Value	Legend	Description
N/A	N/A	Not Applicable
No Impact	<b>✓</b>	No Impact
Low	L	A priority of <b>Low</b> is assigned if there is a possibility of low impact to product quality, scope, cost, and/or schedule. Minimal disruption is possible and some monitoring is likely needed to ensure priority does not increase.
Medium	M	A priority of <b>Medium</b> is assigned if there is a possibility of moderate impact to product quality, scope, cost, and/or schedule. Some disruption is likely and a different approach may be required. Mitigation strategies should be implemented as soon as feasible.
High	H	A priority of <b>High</b> is assigned if there is a possibility of substantial impact to product quality, scope, cost, and/or schedule. A major disruption is likely and the consequences would be unacceptable. A different approach is required. Mitigation strategies should be evaluated and acted upon immediately.

## B. Status Definition

Status	Description	
Open	Observation, risk, or issue is created.	
In Progress	Observation, risk, or issue is addressed and is being worked on by the implementation team.	
In Dispute Observation, risk, or issue is not acknowledged or accepted by the implementation team.		
Risk Accepted Observation, risk, or issue is acknowledged or accepted by implementation team but is not being worked on now.		
Closed	Observation, risk, or issue is closed.	

# C. Subject Category Definition

Subject	Subject Category	Description		
Project Management	Schedule Management	Identify and assess risks and issues that may impact the project completion schedule. This may include analysis of the scale and complexity required, work breakdown and assignments, and assessment of proper planning regarding scope, budget, resources, etc.		
	Resource Management	Identify and assess risks and issues associated with allocating proper resources (e.g. time and expertise) necessary to complete the project.		
	Quality Management	Identify and assess risks and issues to quality, specifically software, functionality, testin documents, etc. via implementation of internal and external measures and processes established to regulate quality level as needed.		
	Risk/Issue Management	Identify and assess risks and issues to software and deliverables. This may include considering and/or implementing processes to identify, monitor, communicate regarding, and mitigate potential items that could negatively impact the project.		
	Organization Change Management	Identify and assess risks and issues involved in implementing changes necessary to optimize benefits of the new system. This may include end-user education of updated procedures, roles, responsibilities, technology, communication, etc.		
	Communication Management	Identify and assess risks and issues that prevent stakeholders from communicating effectively by assessing their key objectives, developing, and implementing procedures to communicate purposes clearly, and analyzing methods to obtain feedback.		
	Contract Management	Identify and assess risks and issues that could impact the project team's ability to deliver on its contractual commitments such as cost, scope, size, etc.		
	External Impact Management	Identify and assess risks and issues external to DOTH, IV&V, and SI that could impact the following: subcontractors, regulatory, market, customer, weather, etc.		
Implementation	Requirement Management (Processes, Requirements and Fit/Gap)	Identify and assess risks and issues to business process, system software requirements, and fit/gap of process and available functionalities of the software.		
	Solution Design and Configuration	Identify and assess risks and issues to solution design and configuration of the software implementation of the system.		
	Interface and Integration	Identify and assess risks and issues that relate to functionalities that interact with outside system or software.		
	Reports and Analytics	Identify and assess risks and issues to reporting and analytics functionality of the system.		
	Security	Identify and assess risks and issues to security of the system such as authentication, user access control, encryption, or any other items that relate to keeping the information secure.		
	Data Conversion	Identify and assess risks and issues to data conversion process or resulting data when moving data from the old system to the new system.		

Subject	Subject Category	Description	
	Documentation	Identify and assess risks and issues in documentation deliverables.	
	System Testing	Identify and assess risks and issues related to testing the functionalities of the system for the requirements.	
	Training and Knowledge Transfer	Identify and assess risks and issues with training and knowledge transfer of the new system and its use for DOTH business.	
	Production Migration	Identify and assess risks and issues to the system migrating from test environment to production environment.	

									Observ	ation, F	lisk ar	nd Issues (ORI) 6/30/2023					
ORI ID	Туре	SI Deliverable / ORI Source	Creation Date	Subject Area	Modules	Summary	Description	Responsible Party	Status	Impact		Feedback / Mitigation	Updates	Review / Target Date	Close Date	Reference ID/Doc	Comments
O-210330-01	Observation	M210330-1	3/30/2021	Schedule Management	N/A	Aggressive Project Plan and Go Live Date	The Prese Phase was dathed in March 2021. The major includes in the Preser Phase and the Project Clarifer, the Project Rain, the Communication Flan, the Project Clean Training Plan, the Project Team Training, the CAD Design Workshop, the Organization Change Management Plan, and the EDV Preparation, After completion of the Prepare Phase, starting the Epsione phase in June Beaves only 13 months to Go-live and this can be an aggressive project plan.	DOTH/SI	Closed	N/A	N/A	PAO and USEs should dreed and monitor project statu- and activities to ensure the project is on schedule, June to the businest month for DOTH preparing for Fiscal Year end and SI should be cognizant of it when scheduling the Explore Phase tasks.		6/30/2021	6/30/2021		
O-210407-01	Observation	Email-Ron- 210407	4/7/2021	Resource Management	N/A	Replacement of SI Project Manager	The project manager, Matthew was replaced by John on 4/7/2021. Matthew was involved in contract scope of work, project plan and discussions with DOTH until he left SI.	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor if there's a smooth transition in roles and responsibility of SI PM.		5/31/2021	5/31/2021		
O-210429-01	Observation	M210429-1	4/29/2021	Resource Management	N/A	In progress of identifying SI Organization Change Management Lead	SI is currently trying to secure an Organization Change Management Lead personnel.	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor to ensure SI brings the Organization Change Management Lead into the project as soon as possible according to the staffing plan (June).	7/1/7021: Organization Change Management Lead will join the implementation team on 7/6/2021.	6/30/2021	6/30/2021		
O-210429-02	Observation	M210429-1	4/29/2021	Schedule Management	N/A	Updating SI project plan	SI is currently updating project plan with correct date and resource assignment. "Updated Project Plan and implementation Schedule" was returned to SI for more completed document with updates to dates and resource assignment, etc.	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor SI project plan updates.	\$144/2021 V&V Mid Month Meeting, V&V and DOTH agreed that the project plan should be delivered as soon apossible for project management and schedule. Per meeting, expected updated Project Plan delivery date is \$721/2021. \$728/2021: This observation became an issue.	5/31/2021	5/31/2021	I-210531-02	
O-210505-01	Observation	M210504-1	5/5/2021	Contract Management	N/A	FMS Kick Off Meeting	Kick Off meeting was held on 5/5/2021 and the presentation was well organized and delivered nicely.	SI	Closed	N/A	N/A	N/A		5/31/2021	5/31/2021		
O-210505-02	Observation	M210504-2	5/5/2021	Training and Knowledge Transfer	GL	SAP S/4 ERP Essential Concepts for the DOTH FMS	Overall training went well, however there were some people who couldn't log in and were not able to follow the training and that was not addressed during the training. There also were some minor technical difficulty with switching screen (or may have been switching between presentation decks).	DOTH/SI	Closed	N/A	N/A	There needs to be a process in place where participants are monitored for questions or issues during training. There may need some general training for MS teams presentation (including meeting settings setup, monitoring participants, sharing screen, muting/unmuting participants) usage.		5/31/2021	5/31/2021		
O-210505-03	Observation	M210505-1	5/5/2021	Resource Management	PG	Retirement of HYWAC Resource in Dec 2021	A key DOTH personnel, Chuck for HYWAC will retire in Dec 2021.	DOTH	Closed	N/A	N/A	DOTH should ensure to have a proper knowledge transfer and transition to his successor. DOTH already hired another employee and she's getting trained and prepared to be responsible for HYWAC maintenance and support.		5/31/2021	5/31/2021		
O-210512-01	Observation	M210512-2	5/12/2021	Training and Knowledge Transfer	N/A	Generic Training without focus of DOTH requirements	Project Team Training were conducted by \$1 based on general functionalities of \$87. However, \$15 sproposis stated "Functional project team training will take place as a Explore activity, and will be delivered by \$1 functional consultants. This is a differentiator, because the training is not centered on a generic system with a universe of capabilities, but will be focused on DOTH's system functionality as delivered"	SI	Closed	N/A	N/A	S project manager stated that there would be more Discovery Workshop that will review and discuss DOTH's specific requirements and learn how SAP's functionalities will meet DOTH's requirements. In needs to be confirmed in which deliverable that these workshop will be performed in the plan.		5/31/2021	5/31/2021		
0-210513-01	Observation	M210513-1	5/13/2021	Resource Management	N/A	In progress of identifying SI Payroll/HR/Time & Attendance Lead	SI is currently trying to secure a SI Payroll/HR/Time & Attendance Lead.	SI	Closed	N/A	N/A	The Payroll/HR/Time & Labor Leads are currently not identified and PMO and IV&V should check and monitor to ensure SI brings resources into the project by July according to the staffing plan.		7/31/2021	7/31/2021		
0-210513-02	Observation	Email-Ron- 20210513	5/13/2021	Schedule Management	N/A	Project Team Training Plan document hasn't submitted by SL	Project Team Training (SI Wave1/Seq Id: 9) was started without Project Team Training Plan Document submitted to DOTH (SI Wave1/Seq ID: 10).	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor to ensure SI delivers Team Training Plan Document (SI Wave1/Seq ID: 10).	DOTH and SI agreed to skip the training plan since SI conducted the Project Team Training already.	5/31/2021	5/31/2021	0-210617-01	
0-210514-01	Observation	M210514-2	5/14/2021	Training and Knowledge Transfer	N/A	SAP Terminology	ODTH oppect team members stated that during the SAP originet team training infortuduction 6.54M, DOTH project team members had difficulty understanding SAP's terminology and relating SAP's terminology and standard functions to DOTH's requirements. The introduction to SAP stanling was mostly centred around SAP standard functionality and did not strongly correlate to DOTH's requirements.	DOTH/SI	Closed	N/A	N/A	Sconsidents need to learn and be more familiar with DOHYs business requirements along with DOHYs terminology and processes is listed in RPP and SY proposal. Also DOHY project team members should learn and be more familiar with SAP terminologies as well. SI should start to due into DOHYs requirements and conduct the training with DOHYs specific requirements, not only generic SAP standard functions. Cross reference of terminology (SAP & DOHY terminology glossary) would help DOHY project team members to understand how SAP functionality will work for DOTH's requirements.		5/31/2021	5/31/2021		
O-210514-02	Observation	M210520-1	5/14/2021	Resource Management	N/A	DOTH Project Team Availability	DOTH project team members stated that June through September are the busiest months of the year and expressed concerns on project participation. Fiscal (HINY-5) is the busiest in June and July, Budger (HINY-5) is the busiest in September and Collect, and Project/Cirish (HINY-5) is the busiest in August and September. Each department of DOTH has particularly bury times in a year, but not all at the same time.	DOTH/SI	Closed	N/A	N/A	SI and DOTH should determine the busy season of the year and the availabilities of SMEs to schedule the meetings around those availabilities of SMEs for efficient and effective use of meeting time without impacting DOTH's regular business survivy. DOTH is waiting for the Project Plan so that DOTH can schedule their time accordingly.		6/30/2021	6/30/2021		
O-210527-01	Observation	Email-Ron- 210527	5/27/2021	Quality Management	N/A	SAP Support Website	DOTH purchased SAP software license. As of 5/26, there is no established account and access for SAP support website. NAV brought up that DOTH purchased software licenses and that they should be provided access to the SAP support website that including product information, troubleshooting and direct SAP support.	Si	Closed	N/A	N/A	It is recommended that SI support and follow up with SAP for DOTH to gain access to the SAP support website.	9/7/7021. As of 9/7/7021, there is no established account and access for SAP support website. SI stated that it will be available after Development environment is installed. 9/8/7021. SI provided DOTH with access to SAP support website.	9/16/2021	9/16/2021	O-210923-01	
1-210531-01	Issue	M210527-1	5/31/2021	Schedule Management	N/A	Delay in Deliverables	As of 5/31/2021, the deliverables of the Communication Plan, the Chart of Accounts Design, the Business Process Organizational Change Management (COM) Plan, the Project Management Plan (PMP) and the Project Team Training have not been submitted to OOTH or completed yet. They were due on or prior to 5/31/2021, which was the end of the Prepare Phase.	SI	Closed	Low	N/A	SI should complete the Communication Plan, the Chart of Accounts Design, the Business Process Organizational Change Management (COM) Plan, and the Project Management Plan and submit to DOTH for review as soon as possible.	6/3/2021: The New Target Dates for the following deliverables are set to by St. Communication Plant: 6/1/2021 Chart of Accounts Designs: 7/2/2021 Business: Process Organizational Change Management (OCM) Plant: 6/11/2021 Project Hanagement Plan (PMP): 6/18/2021 Project Team Training: 6/18/2021	6/30/2021	6/30/2021	O-210615-01	Closed and recreated as I-210615-01

0-211115-01	Observation	M211115-1	11/15/2021	Requirement Management (Processes, Requirements and Fit/Gap)	PG	Waterfall Funding Solution	A back-end split waterfall funding solution for FHWA billing is generally more common in the Department of Transportation Highways. However, the Department of Transportation Highways in Havein unan a fanter end split waterfall funding with many funding Japopraidons. During the procurement process of a new DOTH Financial Management System. SI proposed and confirmed that a fortier end plit waterfall funding would fill DOTH's requirements the best. When H4 project started, the financial lead tool tabeshay and discussed a broad overwise of how the future front-end split waterfall funding could work in SPA's Dona site, the financial lead tell H4 project and SI confirmed again that a front-end split waterfall funding could work in SPA's Dona site, the financial lead left H4 project and SI confirmed again that a front-end split waterfall funding is still the best solution for DOTH.	SI	Closed	N/A	N/A	N/A	12/2/2021: No major updates. 12/31/2021: No major updates. 1/14/2022: This item is triagged to issue: F220114-01 with the current status and update.	1/31/2022	1/31/2022	F220114-01	
I-211115-01	Issue	M211115-1	11/15/2021	Resource Management	FB	Consultants for FHWA	Waterfall funding/Spilt is a core critical requirement for H4, however Waterfall funding/Spilt was not discussed as much as it should be throughout the Explore Phase. It only started to be discussed recently as an integrated solution during FHWA Billing session.	SI	Closed	Medium	N/A	It is recommended that waterfall funding/Split solution be designed by SI as soon as possible.	13/7/2021. A whiteboard session is scheduled on 12/R/2021. DOTH held a workshop and presented again how DOTH processes. Wherefull funding/Spit. 1/31/2022. This item stems from Requirements not being discussed and that will be tracked with 1-211028-02. Waterfall funding solution is being discussed is tracked with 1-20114-01.	1/31/2022	1/31/2022	I-211028-02, I- 220114-01.	
I-211115-02	Issue	M211115-1	11/15/2021	Resource Management	В	Consultants for FHWA	Workshops related to Spit/Waterfall funding require all consultants to participate because this requirement impacts the various DOTN requirements, including procurement, invoice, psyroll, timesheet, project, etc. However, some consultants did not attend the Spit/Waterfall-related workshops.	SI	Closed	Medium	N/A	FHWA Billing Process starts from cost collection where participation costs are incurred. It involves Fund Management, Requisitions, Purchase Orders, Accounts Payables, and General Ledger. Therefore, respective consultants should attend FHWA related meetings to collaborate and to develop an integrated solution for waterfall funding and FHWA billing.	12/2/2021: No major updates. 12/8/2021: Most consultants attended the 12/8 Spilt/Waterfall whiteboard meeting. Because this topic is a critical topic, continuous participation in the meetings related to this topic is a must. 13/12/022: No major updates. 2/88/2022: Some progress has been made. However, continuous participation is needed to keep making progress. 3/31/2022: Continuous participation is needed to keep making progress.	4/29/2022	4/29/2022		This issue is closed because progress has been made. However, H4 Project Team will keep monitoring.
R-211118-01	Risk	M211118-1	11/18/2021	Solution Design and Configuration	FB .	Waterfall Funding Solution	The consultants do not seem to have experience of FHVA with many apporphisms and with front end split. These are unique requirements that thraval DOTH have that adds to the difficulty of the project for the consultants to understand the process and design the solution. Some consultants have very termined reperience in those fields and it amplifies the difficulty. Some explore sessions showed that there are still areas that require better understanding of the processes.	SI	Closed	Medium	Mediu m	There may need to be more sessions for a better and fall understanding of the FHVA Billing front end split, waterfall funding, many-to-many relationship with appropriations and projects, along with any other module or area that need more information for PDD. The HAP Project Trans should ensure the implementation consultants meet the qualifications discussed in the RPP.	13/1/2021: No major updates. 1/31/2022: No major updates. 1/31/2022: No major updates. 1/31/2022: No major updates. Lack of experience with some consultants is becoming more apparent as the deliverables are submitted. This item is being triaged to issue: i-220131-02	1/31/2022	1/31/2022	I-220131-02	
F-211202-01	Issue	M211202-1	12/2/2021	Quality Management	GENERAL	Errors, Omission, inaccuracy in Deliverables	Some SI Deliverables contained errors and misinformation such as incorrect project name, other district system architecture, missing/incomplete contents, etc. E.g., Technical Infrastructure Plan/Delgar, Project Standard Strategy, Scope Management Strategy, etc.	ZI	Closed	High	N/A	It is recommended that deliverables are more carefully prepared, reviewed and proofsed by 3 focument quality team before submitting to DOTH for review.	1/11/2022: January has been mainly focused on PDD documents, however the documents were not well standardee. In addition, other documents showing unterlay information and documents with noticeably templated information not specified for DDTI are frequently present. 2/14/2022: Technical Infrastructure Plan/Design document was submitted with very generic information and it also included another client's implementation information. All the concernation and its borriched and resubmitted. 3/13/2022: Continuous monitoring is needed to improve quality of deliverable documents. 4/29/2022: Only PDDs and MDDs have been submitted and there has been some progress ands, but other outstanding documents have not made progress. 5/13/2022: PDD and Technical Infrastructure Plan/Design were submitted and progress was made, but other outstanding documents have not made progress.	6/30/2022	6/30/2022		These issues have not been observed in recent deliverables.
I-211202-02	Issue	M211202-1	12/2/2021	Quality Management	N/A	Process Flow Formatting	Consultants worked on PDDs based on their responsible business areas. However, Process Flows Diagrams are not standardized in PDDs	SI	Closed	Low	N/A	N/A	1/31/2022: This item will closed and be tracked together with I-211021-08.	1/31/2022	1/31/2022	I-211021-03	
I-211216-01	Issue	M211216-1	12/16/2021	Requirement Management (Processes, Requirements and Fit/Gap)	N/A	Level of Detail/Accuracy on PDD	SI and DOTH had different views on what information and level of details PID should include. Si is looking at PID from a higher level/summany perspective compared to DOTH and DOTH is requesting PID to be more detailed in order to understand the document and the To-Be processes fully.	DOTH/SI	Closed	Medium	N/A	PDD should be developed and compiled based on the Deliverable Expectation Document and \$1 and DOTH should come to an agreement on where the discrepancies are with the expectations for the documents.	1/27/2022: The level of details and contents supposed to be included in POD were discussed and the decision was made to follow the guidelines and instructions defined in POD DED.	1/31/2022	1/31/2022		
+220114-01	Issue Issue	M220139-1  M220127-2	1/19/2022	Solution Design and Configuration	GENERAL	Waterfall Funding Solution	O presented the Waterfall Funding solution with three politons: Front-life Apil, Rack-fie Sgli, and Aphylad. These options were already presented and discussed during the procurement process and, currently, nine-months into the project there is still no solid resolution or decision regarding the Waterfall Funding requirement.	SI DOTH/SI	Closed	High	N/A N/A	Waterfall funding is a Critical Core Requirement and design solution should be completed as soon as possible, especially since it impacts multiple areas of the System, and it may also impact the schedule.  RTM needs to be completed as soon as possible to	2/10/2022. A Waterfall Funding meeting was held and the 148 Project Team discussed three options, improvement types, and programs codes. Review and updates are in progress. 3/31/2022: No major updates. S and DOTH need to Collaborate to decide on the solution design. 4/12/2022: S presented a Waterfall Funding solution overview and DOTH is waiting for FHWA documentation. 4/12/2022: More Waterfall Funding and Billing meetings were held. DOTH is waiting for FHWA ACA/2022: PMAN and Waterfall Funding PDD meetings was held and the PDD is being reviewed. 4/12/2022: PMAN ADD to being reviewed and updated. 7/12/2022: PMAN ADD to being reviewed and updated. 7/12/2022: PMAN ADD meeting was held and the PDD is being updated. 7/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 9/12/2022: PMAN ADD meeting was held and the PDD is being updated. 11/12/12/2022: There were a few Key Design Document (KDD) is being updated.	1/31/2023	1/31/2023		Major design (Front Front Waterfall Funding) has been selected and progress id being made.
0-220114-01	Observation	M220127-1	1/14/2022	Management (Processes, Requirements and Fit/Gap)	N/A	PDD Authority to	detail on 1/11/2022 for the first time. This is a result of not going over DOTH requirements first in the beginning of the project. This issue has been raised multiple times but was not resolved. Currently PDD is being developed before RTM is completed.  The clauses under "Authority to Modify" section in PDD	q	Closed	N/A	N/A	eliminate any requirements that may need more discovery and to confirm that all the requirements went through a proper explore process.	1/31/2022: SI will use DOTH proposed clause in the PDD documents.	1/31/2022	1/31/2022		and discussion session took place. PDD review by DOTH is in progress.

However, there we currently no Wave 2 activities that IMBV team is aware of, including the Wave 2 Kick-off meeting.	S	Closed	High	N/A	At the current rate of progress, a Go-Live date of July 131, 2022 will be extremely difficult to meet. The project schedule is planned will be revisited in mid-Ferburary for possible updates in the schedule. Wave 2 is planned after the completion of the Wave I Epipore phase. The Wave 2 schedule should be revisited at the same time as the Wave I schedule update.	2/28/20/22: The new Go-live date was tentalively glamed to be updated in mid-february, however it was not announced by 3 and it will be discussed her PSDs are complete. Wwo 2 is also postponed, however the new time frame has not been proposed yet. Currently, there are no Go-live date of Wave 2 timeline. 3/13/2022: Si needs to set a new Wave 1 Go-live date and Wave 2 timeline. 4/29/2022: No major updates. The project may need a change order to accommodate the current status of the project. 6/39/2022: Si mentioned that Wave 2 will start in July, 2022. 7/31/2022: No major updates. 8/31/2022: Si mentioned that Wave 2 will start in July, 2022. 7/31/2022: No major updates. 8/31/2022: Si mentioned that Wave 2 will start in July, 2022. 7/31/2022: No major updates. 8/31/2022: Si mentioned that Wave 2 will start in July, 2022. 7/31/2022: No major updates. 8/31/2022: Si mentioned that wave 2 will start in July, 2022. 7/31/2022: No major updates. 8/31/2022: Si mentioned that wave 2 will start in July, 2022. 7/31/2022: No major updates. 9/31/2022: Si mentioned that wave 2 will start in 3/31/2022. 10/31/2022: Director that additional information about 58P or its possible replacement application will be provided soon for DOTH review. 10/31/2022: DIV decided to continue with the original scope of implementing S8P in Wave 2 10/31/2022: Directory 58P meeting was conducted with a Q&A session. 11/31/2022. 2011/31/31/2022. 2011/31/2022. 2011/31/2022. 2011/31/2022. 2011/31/2022. 2011/31/2022. 2011/31/2022. 2011/31/2022. 2011/31/2022. 2011/31/31/2022. 2011/31/2022. 2011/31/2022. 2011/31/2022. 2011/31/2022. 2011/31/31/2022. 2011/31/31/2022. 2011/31/31/2022. 2011/31/31/31/31/31/31/31/31/31/31/31/31/3	12/31/2022	12/31/2022		Wave 2 SAB Budgeting Kick-off meeting was held.
R-220131-01	Risk	M220119-1		Solution Design and Configuration	PG	Internal Order for Function Codes	Sinitially proposed internal Order (IO) to cupture infrastructure: Psy information for Firth Ability in September, 2021. However, Si recently revised the solution, a few months after their initial proposal, because Si discovered that ID cannot be a cost collector when Work Firekdown Structure (WISI) is used (IO and WISI can not be used as a cost collector simultaneously).	ä	Closed	High	High	This change in the FRVMA billing solution design impacts multiple areas and a late change in design may consequently cause delays to the project schedule. The solution design should be finalized as soon as possible to minimize further impact.	2/28/2022: The Watefall Funding solution is being developed. Currently, three high-level options have been presented, however more detailed discussion is needed.  3/31/2022: SI proposed that Function Codes will be recorded in Functional Area.	3/31/2022	3/31/2022		
R-220131-02	Risk	M220119-1	1/31/2022	Solution Design and Configuration	N/A	Program Codes	SI initially proposed Program Codes to be included in the Fund and it was rejected by DOTH because it will add unnecessary details and complexity to manage Appropriation codes and their balances. Program Codes are not tracked in GL financial reports nor in FAMIS.	SI	Closed	High	High	SI and DOTH need to explore possible options and weigh in pros and cons of each option as soon as possible to come up with a design resolution.	2,78,7022: A few internal DOTH meetings were held to discuss these options and more detailed discussion is needed.	2/28/2022	2/28/2022		This is consolidated with I-220114-01.
I-220131-01	Issue	M220128-1	1/31/2022	Risk/Issue Management	GENERAL	Open Items	Action items in "Open Items Tracker atta" and "Issue Log" are not followed-up on or not reaching detailed resolution.	DOTH/SI	Closed	High	N/A	Open items Tracker and Issue Log need to be consistently monitored and resolution needs to be sought after in order to minimize project issues and reduce project risks.	2/28/2022: No major updates.  3/13/2022: On 3/2022 PMO meeting, the previous Project Manager did not remember the "Open Items Tracker alsa" document and mentioned it is not being used or tracked, issue Log still needs to be constantly reviewed, nontrierd and followed up.  4/28/2022: Sproposed to hold a meeting soon to review "issue Log" list.  5/31/2022: Durigh Per PMO sessions, it was mentioned that HP opics team will review and update with the current status and will follow up in the upcoming meetings.  6/30/2022: DOTH and SI reviewed and cleaned up base Log. There are 2 open issues.	6/30/2022	6/30/2022		
1-220131-02	Bosse	M211028-1	1/31/2022	Resource Management	GENERAL	Resource Qualification	A few St consultants are missing some DOTH requirements and PD0 documents are not covering all the DOTH processes and requirements. Certain information is incorrect in the PDDs and it is unswelber St consultants have a full understanding of DOTH processes and requirements. Some consultants seemed to have limited experience with DOTH and FHWA and need more time to understand information related to DOTH and FHWA processes.	DOTH/SI	Closed	Medium	N/A	S and DOTH should confirm that the consultants meet the qualifications as stated in the RFP equivalent work experience.	2/38/2012. A high turnover on top of the lemind OTC reportence of the consultant has been an issue than what the project ince challenging to be implemented. Another consultant (FIVAL Billing (IVAL BILLING PROPERTY) is a second of the project. If found a replacement consultant, but the has not come to DOTH on site yet.  3/31/2012. An event Walling consultant, but the has not come to DOTH on site yet.  3/31/2012 has provided by the site of the project of	4/80/2023	4/30/2023		It is merged with O- 20009-01
I-220131-03	Issue	M220131-1	1/31/2022	Requirement Management (Processes, Requirements and Fit/Gap)	PG	RTM	Utility Agreement requirement was discussed in detail on 1/31/2022 for the first time. This is a result of not going over DOTH requirements first at the beginning of the project. This issue has been raised multiple times but was not resolved. Currently PDD is being developed before RTM is completed.	SI	Closed	High	N/A	RTM needs to be completed as soon as possible to eliminate any requirements that may need more discovery and to confirm that all the requirements went through a proper explore process.	1/31/2022: There was an Utility Agreement meeting and DOTH explained the Utility Agreement requirements and processes.	2/28/2022	2/28/2022		Project team needs to ensure that all the requirements have been covered.
1-220114-04	Issue	M220127-1	1/14/2022	Requirement Management (Processes, Requirements and Fit/Gap)	N/A	PDD/RTM	There are more than 40 PDOs by processes and each module has multiple PDOs in order to understand processes of one module, multiple PDOs should be reviewed and wildsteed, which makes it difficult to get a full picture of each module and end-to-end possess integration. PDO floused on processes and DDIT requirements were not necessarily referenced by PDO documents. With multiple PDO documents covering each module, it is very difficult to know which requirements are covered by a PDD document and it makes it easy to miss a requirement.	DOTH/SI	Closed	High	N/A	It is suggested that Requirements are fully reviewed and RTM be completed first, or at least parallel to PDD. There are multiple requirements that were missed and had to have late explore sessions because the requirements were not reviewed in full and RTM was not completed.	1/31/2022: There are additional requirements still being discovered as addressed in I-220131- 03, I-220131-04. Full review of requirements along with RTM should be treated as a high priority.	2/28/2022	2/28/2022		RTM is in progress and will be reviewed to ensure that all the requirements have been covered.

I-220224-01	Issue	M220224-1	2/24/2022	Requirement Management (Processes, Requirements and Fit/Gap)	PO	Accounting Assignments	The project team discovered that expenditures cannot be draged to both Cost Center and Project at the same time. The current system allows to shage both Cost Center and Project simultaneously and tracks expenditures by Appropriation, Cost Center, Object Codes, and Charge Codes.	SI	Closed	High	N/A	Further discussions are recommended to ensure the expenditures are charged correctly according to DOTH's requirements.	3/31/2022: 3I stated that Sub Division and Projects are recorded in Fund Center and WBSE respectively.	3/31/2022	3/31/2022		
O-220224-01	Observation	M220224-1	2/24/2022	Resource Management	GENERAL	Vacation Notice	Vacation notice should be provided at least two weeks in advance, if possible, to the related team members for meetings and resources planning purposes.	DOTH/SI	Closed	N/A	N/A	N/A	3/31/2022: No major updates.	3/31/2022	3/31/2022		
I-220301-01	Issue	M220301-1	3/1/2022	Requirement Management (Processes, Requirements and Fit/Gap)	AP	AP Invoice Matching	According to 3/1/2022 AP meeting, the current H4 does not have a functionality of matching invoices to a specific PO/Contract Stiffs line(s) based on the user's need. Si proposed that DOTH creates PO/Contract line with only one suffix line.	SI	Closed	High	N/A	A single suffix line approach does not appear to be a feasible workeround for ODTH business process. An enhancement is needed if a standard functionality cannot meet invoice matching requirement.	3/31/2022: A solution is still being developed by 9. 4/26/2022: Two options for AP limitice matching were presented by 9. The pros and cons were discussed and the proficion 1 seems prefered be but customization is required to put data entry validation and to make data entry more user friendly. 5/31/2022: The issue was addressed as an open item in the POD.	6/17/2022	6/17/2022		The PDDs open items will be reviewed during the realize phase.
I-220301-02	Issue	M220303-1	3/1/2022	Contract Management	GENERAL	New Go-Live Date	Original Go-Live date was no longer feasible and a new date was supposed to be set in mid-February. However, no revision has been done for the Go-Live date and currently there is no target date for Go-Live.	SI	Closed	Medium	N/A	A Go-Live date should be set to track progress and to allocate resource accordingly.		3/31/2022	3/31/2022		Consolidated with R- 211028-01
1-220303-01	Issue	M220303-1	3/3/2022	Training and Knowledge Transfer	GENERAL	Training	OOTh requested weekly SAP training from SL, but SI stated that it is difficult due to resource constraints. SI suggested to bring up questions as needed to each respective consultant.	SI	Closed	High	N/A	One of the issues is the lack of SAP understanding that DOTH members have, and this makes it challenging to review PDDs and to make progress with the project. It is recommended that SI and DOTH both proactively work on bridging the two-widedge ago for 4H by SI offering additional training sessions and DOTH requesting additional training sessions and DOTH requesting ober not have to be a formal structured class voom session, but it could be an informal standing session once a week to keep DOTH uses more familiar with H4 functionalities and features and to maintain the implementation momentum throughout the H4 project.	3/31/2022: 3 started to have a standing meeting every week for discussion and Q&A on Fund Management module. For non-FM related questions and discussion, FM consultant will bring respective module consultant so meeted and provide aniwes or resolutions. The first FM Q&A ression took place on 3/28/2022.  4/19/2022 Weekly Q&A sessions have been held to discuss open items, questions, and issues. 4/19/2022 Weekly Q&A sessions have been continuing.  5/31/2022 There were Q&A sessions have been continuing.  6/31/2022 Weekly Q&A sessions have been held to discuss open items, questions, and issues. 4/19/2022 Weekly Q&A sessions have been continuing.  6/31/2022 Weekly Q&A sessions have not place to the first three weeks of June.  7/15/2022 Q&A sessions have not been held during the first three weeks of June.  7/15/2022 Q&A sessions have not been held since the middle of June.  7/15/2022 Q&A sessions have not been held since the middle of June.  7/15/2022 Q&A sessions have not been held since the middle of June.	8/31/2022	8/31/2022		SI stated Q&A will resume during the Realize phase because PDDs and RTM need more attention and they need to be prioritized over other deliverables.
O-220310-01	Observation	M220310-2	3/10/2022	Requirement Management (Processes, Requirements and Fit/Gap)	AP	AP Invoice Payment	According to 3/10/2022 AP meeting, H4 does not have a standard functionality of selecting invoices to be paid based on a branch or a district.	SI	Closed	N/A	N/A	An enhancement is needed if a standard functionality cannot meet invoice selection requirement.	3/30/2022: S consultant demonstrated how invoices can be selected for payment based on Business Area or user specific invoice selection criteria.	3/31/2022	3/31/2022		
O-220314-01	Observation	M220314-1	3/14/2022	Requirement Management (Processes, Requirements and Fit/Gap)	PM	Journals	DOTH currently first expenses out inventories and equipment purchases, and then the equipment is restalled to fixed assets at the fiscal year-end. Inventories are not reflected on the Balance Sheet. SI proposed that purchases of inventories and equipment are charged to Asset account in F1 and charged to Expense account in F1A for the budgetary control purpose.	DOTH/SI	Closed	N/A	N/A	This proposed solution needs to be reviewed and validated by DOTH.	13/13/2022: No major rupdites. 4/13/2022: No major rupdites. 5/13/2022: 148 Project Team needs to review journal entries and come to an agreement. 6/30/2022: Journal Entries were included in PDOs as a question or comment. They are being reviewed and discussed in PDO. 7/31/2022: PDOs are being reviewed by DOTH. 8/37/2022: PMODs are conditionally approved, which includes inventory and equipment journal entries.	8/15/2022	8/15/2022		Conditionally approved by DOTH
O-220316-01	Observation	M220316-2	3/16/2022	Requirement Management (Processes, Requirements and Fit/Gap)	IVT	Material Group	SI and DOTH need to work together to design UNSPSC values and level of detail as Material Group for both inventory and non-inventory items including goods and services in H4.	DOTH/SI	Closed	N/A	N/A	NA	3/31/2022: No major updates. 4/29/2022: No major updates. 5/31/2022: No major updates.	6/30/2022	6/30/2022		UNSPSC will be implemented during the Realize Phase.
O-220328-01	Observation	M220328-2	3/28/2022	Requirement Management (Processes, Requirements and Fit/(Gap)	GL.	Journals	Surruis Entries (II) that He generates in the various business reases, such as procurement, pupelly, exceptible, billing, find siste, payroll, etc., had not been reviewed. DOTH recently asked journal entry upeacitions by submitting pursual entry forms with DOTH business scenarios "Procure to Tised Assets," and 3.1 filled out the forms and did a presentation on 3/28/2022.	DOTH/SI	Closed	N/A	N/A	N/A	J/38/2022-25 and DOTH reviewed journal entries for procure to fixed soat cycle. Appropriations and Cox Centers Fixed Aces are charged to draining exquisition need to be discussed in more detail because they may be reclassified to General Fixed Assets Account Group.  4/39/2022-DOTH needs to follow up on a few outstanding items. (E.g., Fixed Asset Appropriations, Sub-Dividions, etc.)  5/31/2022-148 Project Team needs to discuss and resolve any issues or concerns regarding journal entries.  6/30/2022-150 units firties are being reviewed and verified.  7/18/2022-DOTH submitted questions and comments regarding Procure to Fixed Assets journal entries.  8/31/2022-150 major updates.  9/31/2022-DOTH received responses to the questions DOTH submitted regarding Fixed Asset journal entries.  9/31/2022-DOTH received responses to the questions DOTH submitted regarding Fixed Asset journal entries.  9/31/2022-DOTH received responses to the questions and provided comments.  9/31/2022-DOTH submitted additional questions and provided comments.	10/31/2022	10/31/2022		
O-220331-01	Observation	M220331-1	3/31/2022	Resource Management	GENERAL	Resource Turnover	The project manager and assistant project manager left the H4 implementation project. The Engagement Manager will assume the project manager position and started working on the project. There is no replacement assistant project manager identified at this point.	SI	Closed	N/A	N/A	Continuous staff turnover is a concern for this project.	4/15/2022: PMO meetings have been held with the new project manager.	4/29/2022	4/29/2022		The new project manager has been fully engaged and made a transition.
+220331-01	Issue	M220331-1	3/31/2022	Schedule Management	GENERAL	Go-Live Date	S stated during the PAHO meeting in February 2022 that a Go- live date of Plant Maintenance will be reassessed and proposed with consideration of a phase approach (giping live without PAH) instead of the Big Bang approach.	SI	Closed	High	N/A	SI needs to propose if Plant Maintenance module will be included in the Wave I Go-1 be given the project is delayed and Plant Maintenance could take away the needed resources to be able to focus and complete Wave I implementation which will replace HWYAC.	4,725/2022 DOTH started to collect and compile Plan Maintenance, inventory, and other A5400 requirements per Six request. 5,727/2022 DOTH presented A5400 requirements and is working on the finalization of the RTM recluding DMR, threatony, Compilants, Litigation, Meals, Overtime Requests, Gis & Oil, Motor Compilants, Litigation, Meals, Overtime Requests, Gis & Oil, Motor DOTH, Compilants, Litigation, Meals, Overtime Requirements, Gis & Oil, Motor DOTH, Compilants, Litigation, Meals, Overtime Requirements and Personal Plant Six Compilants (Part Maintenance Requirements analysis will be presented after PM POIS are approved. 5,137/2022, Mealsy Part Maintenance meetings were held and MA Project Trans reviewed PM requirements. The H4 Project Trans started to review the requirements marked Wave III and cost of there were changed to Wave by reassessing the requirements or by identifying worksround solutions. 9,39/2022-5 showtimed two change orders with two different time lines and two different scopes for ODTH to evaluate.	10/14/2022	10/14/2022

O-221206-01	Observation	M221206-1	12/6/2022	Solution Design and Configuration	GENERAL	FSD Review	There was a meeting to discuss how to improve FSD process, because there are more than 200 documents that need discussion and approval. The proposed method is to group similar topic FSDs in a batch to discuss in a same meeting.	DOTH/SI	Closed	N/A	N/A	R is recommended to create a plan with FSD groups in advance for efficient and prioritized reviews and meetings.	\$1/\$2/2023: No major updates. \$1/\$2/2023: To Compare updates. \$1/\$2/2023: To Compare updates. \$1/\$2/2023: To Compare updates. \$1/\$2/2023: To Compare update updates. \$1/\$2/2023: To Compare updates. \$1/\$2/2023: To Compare updates. \$1/\$2/2023: To Compare updates. \$1/\$2/2023: To Compare updates. \$1/\$2/2023: Meetings are not being grouped into similar topic \$500.	3/31/2023	3/31/2023		It was closed because almost half of the FSDs were already discussed and grouping FSDs by process flow may not be necessary at this point.
R-230228-01	Risk	M230223-1	2/28/2023	Requirement Management (Processes, Requirements and Fit/Gap)	GENERAL	FSD	SDDs are prepared without in depth discussion during the STM and FRGGA in ARTS in a final document before the System configuration, therefore it should be as complete as possible. However, there are a lot of discoveries still being made during the FSD sessions.	SI SI	Open	High	High	as recommended that the 14 Forject Team work on detailed and complete discovery of DDT requirements without postporing any elements to development and testing. All the details should be discovered by the completion of FSDs.	AJ30/2022: There were some neetings where detailed information for configuration or reports as suggested to the discovered during the testing phase. It is excommended that all granular details is discovered and documented with the FSIs now rather than postponing until the integration testing. Developers need desay glidance on creating reports and outsomining agalications, which is why it's rucial for FSIs to be comprehensive and detailed. SJ1/2023: it seroommended that all desaided functional specifications be discussed, reviewed, agreed upon, and documented entirely before moving to the next task, such as Conference Bonn Pilot. 6/30/2023: Progress is being made on all modules. However, there are some FSDs that need to provide more details and more requirements; processed discussion is needed.	6/30/2023			
O-230228-01	Observation	M230223-1	2/28/2023	Contract Management	GENERAL	Fit/Gap	SI submitted a change order for Fit/Gap based on all requirements. DOTH and SI are reviewing and making adjustments to come to an agreement. It is observed that the credit (hours) provided to DOTH for the various requirements appear to be underestimated.	DOTH/SI	Closed	N/A	N/A	It is recommended for SI and DOTH to review Fit/Gap together and come to an agreement.		3/31/2023	3/31/2023		The Fit/Gap deliverable was conditionally approved with a change order.
0-230302-01	Observation	M230302-1	3/2/2023	Solution Design and Configuration	GL	Design of Fund Account Assignment	DOTH requested changes in the number of characters in Fund account assignment based on the FM Budgeting Knowledge Transfer meeting took place on 2/28/2023.	DOTH/SI	Closed	N/A	N/A	DOTH requested changes in the number of characters in Fund account assignment based on the FM Budgeting Knowledge Transfer meeting took place on 2/28/2023.	1/30/2023 DOTH made a decision with ten-digit flund assignment based on the discussion and analysis with S during the Weekly FM Budgeting Discussion & Knowledge Transfer meeting on 1/30/2023. A change order is being prepared by SI. 5/31/2023: No major updates.	6/30/2023	6/30/2023		6/8/2023: SI stated that the change order would be withdrawn.
O-230307-01	Observation	M230307-4	3/7/2023	Training and Knowledge Transfer	GENERAL	KT Sessions	There was an issue of who could participate in KT sessions. SI and DOTH decided that key project team members could attend KT sessions even though they are registered in the KT roster.	DOTH/SI	Closed	N/A	N/A	N/A		3/31/2023	3/31/2023		
i-230309-03	Issue	M230309-2	3/9/2023	Contract Management	GENERAL	Unit Testing	Stated that the unit testing will be conducted by SI consultants on other will be no participation from DOTH. SI will provide reports showing test results with screenshots instead of unit testing scripts.	ротн/ѕі	In Progress	High	N/A	It is recommended for SI and DOTH come to an agreement on how bur it testing will be conducted. It may be beneficial for DOTH to be involved in unit testing to ensure requirements are implemented as expected.	3/9/2023: Si stated according to its methodology: I unit testing will be conducted based on T. Codes in Business Process Master Litt (PMI), not by each requirement of DDTI with test scripts and Z. DDTI will participate in the unit testing for WRICEF, but not for standard functionalistics. DDTI disagrees and believes that DDTI should participate in all testing regardless of standard function or WRICEF, as defined in the project documents. 4/3/20/2023: DDTI and 31 are in a discussion and working towards finding a mutual agreement. 5/31/2023. Additional discussions are taking place for unit testing DDD, however full agreement. 6/30/2023. DDTI and SI are holding meetings and collaborating towards reaching a mutual agreement.	6/30/2023			

									Observ	ation, I	Risk a	nd Issues (ORI) 6/30/2023					
ORI ID	Type	SI Deliverable / ORI Source	Creation Date	Subject Area	Modules	Summary	Description	Responsible Party	Status	Impact	Probal	Feedback / Mitigation	Updates	Review / Target Date	Close Date	Reference ID/Doc	Comments
R-230309-01	Risk	M230302-1	3/9/2023	Contract Management	GENERAL	Conditional Approval	There are various differenties that are conditionally approved due to mixing or incomplete requirements analysis or process discovery and the project stam has to engage in rediscover of information for the Project.	DOTH/SI	In Progress	High	High	It is recommended that DOTA avoid conditional approval on any remaining deliverable because many obliverables are interdependent, and some of them are built upon the previous ones. These conditionally approved deliverables could require rework and fixing when errors and mossisons are found later, and it could further complicate the project deliverable management and updates.	4/30/2023: No major deliverables this month were impacted by this issue. However, there are few individual Tokh that are conditionally approved and this may increase project risk. 5/31/2023: No major updates. 6/30/2023: No major updates.	6/30/2023			
O-230309-01	Observation	M230309-2	3/9/2023	Resource Management	GENERAL	Resource Planning	It is observed that three SI rolled off consultants without replacement are impacting the project deliverables and this leads to ongoing rediscovery sessions and changes in solution design and processes.	DOTH/SI	In Progress	N/A	N/A	N/A	4/30/2023: It is continuously observed that deliverables are being re-worked due to the resource change. This could potentially size the level of risk of the project. 5/31/2023: The impact of consultants' previous leaving is continuously observed. 6/30/2023: Solition integration appears to require more recovers and needs more attention because H4 requires a clearer and more concrete comprehensive system architecture; it should outline how different components will interact and integrate to create the desired solution compared to what is currently presented.	6/30/2023			
0-230331-01	Observation	M230331-5	3/31/2023	Solution Design and Configuration	GENERAL	Project Activities	The main project activities with DOTH were Functional Specification Document (FSD). As of 3/31/2023, out of 211 FSDs total, 3f submitted 96 FSDs, and DOTH approved 79 FSDs. More meeting sessions, such as for Security and Definition/Roles and Responsibilities, and Knowledge Transfer took place simultaneously.	DOTH/SI	Closed	N/A	N/A	It is recommended that Project Plan and implementation Schedule be completed as soon as possible for the visibility of the timeline, Go-Live date, task dependencies, and resource plan.	4/28/2023: Out of 211 FSOs total, SI submitted 101 FSOs, and DOTH approved 79 FSOs.	5/31/2023	5/31/2023		It is merged with I- 210531-02.
R-230525-01	Risk	M230525-2	5/25/2023	Contract Management	GENERAL	Deliverables	Some deliverables were started being worked on, submitted, and invoiced before DED was approved.	SI	Open	Medium	Mediu	It is recommended that if starts working on deliverables differ approval of DED per Contract, "Attachment SS; A Deliverable Expectation Document that describes Acceptance Criteria for each Deliverable and Service subject to Acceptance Tests. Each DB is a Deliverable that must receive Acceptance prior to beginning work on the Deliverable to which it applies"	6/30/2023: DED is being prepared for Project Team Training.	6/30/2023			
O-230524-01	Observation	M230524-3	5/24/2023	Solution Design and Configuration	GENERAL	Deliverables	There was a disagreement on the level of detail and how to review and confirm the Configuration Design Document (CDD). DOTH had questions on the CDDs, however not all modules contained detailed enough answers for DOTH to understand them.	DOTH/SI	In Progress	N/A	N/A	SI will do a walkthrough of the Configuration Design Document with DOTIn the upcoming meetings. It is recommended that SI provide enough details in CDDs and in responses to the questions for DOTI to be able to understand the concept of the design and to be able to do maintenance in the future.	6/30/2023: CDO review meetings have not been scheduled or held yet.	6/30/2023
