
HOUSE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF EDUCATION TO CONTRACT WITH A
QUALIFIED NONPROFIT ORGANIZATION TO ESTABLISH AQUATIC
SAFETY EDUCATION PROGRAMS IN CERTAIN DEPARTMENT OF
EDUCATION SCHOOLS.

1 WHEREAS, drowning is a tragic but preventable cause of
2 injury and death in the State, especially among children; and

3
4 WHEREAS, according to the Department of Health, drowning
5 was the leading cause of injury-related mortality for Hawaii's
6 children between 2014 and 2018; and

7
8 WHEREAS, more children died by drowning than in motor
9 vehicle and pedestrian accidents combined, and an alarmingly
10 large proportion of those child drownings were among resident
11 children; and

12
13 WHEREAS, during the same period, there were an annual
14 average of seventy non-fatal child drowning incidents attended
15 by emergency medical services; and

16
17 WHEREAS, although individuals who experience non-fatal
18 drowning incidents escape with their lives, some are left with
19 severe brain damage and may face long-term disabilities such as
20 memory problems, learning disabilities, or permanent losses of
21 basic functions, a disorder often referred to as a persistent
22 vegetative state; and

23
24 WHEREAS, many drowning deaths could be prevented through
25 aquatic safety education programs; and

26
27 WHEREAS, the International Life Saving Federation's
28 Position Statement for Swimming and Safety Education recommends

1 that everyone have access to training in water safety, personal
2 survival, and water rescue; and

3

4 WHEREAS, the International Life Saving Federation
5 recommends that this training be available to everyone
6 regardless of ability and background and should commence at the
7 earliest possible age; and

8

9 WHEREAS, despite these recommendations, many of Hawaii's
10 youth do not have the opportunity to receive aquatic safety
11 instruction; and

12

13 WHEREAS, less than ten percent of public and public charter
14 elementary schools integrate aquatic safety education into their
15 physical education curricula; and

16

17 WHEREAS, outside of schools, municipal aquatic safety
18 programs lack the resources to meet public demand, and the cost
19 of obtaining private lessons is often cost-prohibitive for many
20 local families; and

21

22 WHEREAS, as a result, many children are inadequately
23 prepared for water-related emergencies; and

24

25 WHEREAS, an assessment of Hawaii students conducted by the
26 Hawaii Aquatics Academy during the 2018-2019 school year found
27 that only thirty-one percent of participating students could
28 swim for twenty-five yards, only twelve percent could float for
29 thirty seconds, and only thirteen percent could tread water for
30 sixty seconds; and

31

32 WHEREAS, all children should be provided equal access to
33 standards-based aquatic safety education programs; and

34

35 WHEREAS, to achieve this, aquatic safety education should
36 be integrated into the health and physical education curricula
37 of public schools; and

38

39 WHEREAS, providing proper training in water safety,
40 personal survival, and water rescue will help to ensure that the
41 State's youth, especially those from low- and moderate-income

1 communities, know how to avoid and recover from hazardous
2 aquatic situations; now, therefore,

3
4 BE IT RESOLVED by the House of Representatives of the
5 Thirty-second Legislature of the State of Hawaii, Regular
6 Session of 2023, the Senate concurring, that the Department of
7 Education is requested to contract with a qualified nonprofit
8 organization to establish aquatic safety education programs in
9 schools that wish to participate and for which funding is
10 available; and

11
12 BE IT FURTHER RESOLVED that this aquatic safety education
13 program be offered to elementary school students during regular
14 school hours; and

15
16 BE IT FURTHER RESOLVED that the Department of Education is
17 requested to conduct a statewide needs assessment in preparation
18 for establishing an aquatic safety education program in all
19 Department of Education elementary schools to be contracted with
20 one or more qualified nonprofit organizations during regular
21 school hours; and

22
23 BE IT FURTHER RESOLVED that certified copies of this
24 Concurrent Resolution be transmitted to the Governor,
25 Chairperson of the Board of Education, and Superintendent of
26 Education.
