
A BILL FOR AN ACT

RELATING TO THE REPEAL OF SECTION 328-106, HAWAII REVISED
STATUTES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the department of
2 health has historically regulated the safety and integrity of
3 food, drugs, and cosmetics to protect the health of Hawaii's
4 residents and visitors pursuant to the authority provided in
5 chapter 328, Hawaii Revised Statutes. The department's
6 regulatory purview with respect to pharmaceuticals under chapter
7 328, Hawaii Revised Statutes, is analogous to that of the
8 federal Food and Drug Administration under the Federal Food,
9 Drug, and Cosmetic Act. The federal Food and Drug
10 Administration exercises its regulatory authority to ensure the
11 efficacy and overall safety of prescription drugs, but not to
12 control their cost or the business practices of the insurance
13 companies and independent pharmacies that supply them.

14 Section 328-106, Hawaii Revised Statutes, requires the
15 department of health to police the insurance industry, a task
16 for which it is not well-suited. Section 328-106, Hawaii

1 Revised Statutes, requires pharmacy benefit managers to maintain
2 certain information related to the cost of prescription drugs
3 and provide a process for a contracting pharmacy to appeal the
4 maximum allowable cost for reimbursement. Regulatory oversight
5 of what was intended as a price control function, however, is
6 not within the department of health's area of expertise.
7 Additionally, section 328-106, Hawaii Revised Statutes, does not
8 provide an adequate remedy for violations; rather, it prescribes
9 certain aspects of an appeal process to be utilized by the
10 pharmacy benefit managers who nonetheless retain exclusive
11 control over both the administration of the appeal process
12 itself and of any decision ultimately rendered.

13 Therefore, the legislature finds that section 328-106,
14 Hawaii Revised Statutes, is inconsistent with the purpose of
15 chapter 328 generally and does not achieve a meaningful balance
16 in the contractual relationship between pharmacy benefit
17 managers and pharmacies. The regulatory burden this section
18 places on the department of health is outside the scope of the
19 department of health's mission to protect public health.
20 Regulation of the insurance industry's process for reimbursement
21 to pharmacies of prescription drug costs, and of the contractual

1 relationship between them, is likely more effectively achieved
2 by other means. As a result, the legislature finds that
3 repealing section 328-106, Hawaii Revised Statutes, is
4 appropriate.

5 Accordingly, the purpose of this Act is to repeal section
6 328-106, Hawaii Revised Statutes, which requires the department
7 of health to regulate business practices between private
8 entities engaged in the selling, billing, and reimbursement of
9 pharmaceuticals.

10 SECTION 2. Section 328-106, Hawaii Revised Statutes, is
11 repealed.
